Junior College to Become Part Of Louisiana State University

Agreement Reached by Which L. S. U. Will Operate Institution

EFFECTIVE THIS FALL

Brown Regards Plan as Great Aid in Meeting Local Problem

When Ouachita parish junior college re-opens next month for its third year, it will be a part of the Louisiana State university. Its two-year course will correspond with the first two years of the curriculum of the state educational institution, and it will be operated entirely by the university, except that the physical plant will be maintained by Ouachita parish school board.

An agreement to this effect was signed at Baton Rouge Saturday by Gov. O. K. Allen, ex-officio president of the board of supervisors of Louisiana State university, and Dr. J. M. Smith, university president. The agreement had previously been signed by Joe Renwick, president, and the members of the Ouachita parish school board.

Under the terms of the agreement, as announced Saturday night by Prof. T. O. Brown, parish superintendent of schools, the plant and equipment of the junior college will be loaned to the state university for its use as a part of the university system in providing general education for the first two college years. The college will henceforth be known as the "Northeast Center of Louisiana State University."

The university will provide the faculty and meet all expenses, except those of upkeep and repairs to the buildings. Virtually the same faculty which has served the junior college will continue at the new university center, it was stated last night by President C. C. Colvert.

The arrangement by which the junior college becomes a part of the state university was hailed last night by Prof. Brown as a satisfactory solution of the problem of maintaining the college as an essential factor in the educational system of this section of the state. Establishment of the college was achieved after devoted efforts by Prof. Brown and civic leaders of the parish who saw through this means an extension of educational opportunities to the graduates of parish and city high schools which would be of incalculable advantage to young people planning a college course. The college was opened two years ago and has had a remarkable success. In its first year the enrollment was 416 students. Last year, there were 553 students enrolled.

Under the arrangement with L. S. U. students from Ouachita parish will pay a tuition fee of $15 each semester, $30 for the entire term, which will be

2 BANK TELLERS ARRESTED HERE

L. R. McDoniel and Fred Majors Freed Under Bond Yesterday

Two tellers of the Ouachita National bank—L. R. McDoniel, charged with making false entries on a ledger sheet, and Fred Majors, accused of embezzlement—were at liberty under bond Saturday following their arrest here late Friday by federal authorities.

Arrested by Federal Probation Officer J. Noble White Friday afternoon, the two men were brought before United States Commissioner Allen B. Guthrie Friday night. McDoniel's preliminary hearing was held and his bond fixed at $1,500. A preliminary hearing for Majors will be held this week. He was allowed temporary bond of $2,500.

McDoniel was charged with making false entries to the extent of $3,195. Majors was accused of embezzling $1,085. The charges were made by the United States bureau of investigation following an audit of the bank's books by federal bank examiners.

Officials of the bank said the institution had been reimbursed for the losses by the insurance company that bonded the two men.

Barn Hit by Lightning Is Destroyed by Fire

Fire caused by the striking of a bolt of lightning during a rain and electrical storm in this vicinity early Saturday morning destroyed a barn on the farm of Bob Benson, one and a half miles south of Monroe.

Several wagons in the building, as well as the barn, were consumed by the blaze. Company No. 1 of the Monroe fire department responded to the alarm, but the flames were too far advanced for the firemen to save the building or its contents.

The damage was not estimated.

LINDBERGHS MOVE ON

COPENHAGEN, Aug. 12.—(AP)—Reports reaching here tonight said Colonel and Mrs. Charles A. Lindbergh reached Angmagsalik, Greenland, this evening after a flight from Juliannehaab, Greenland.

TODAY

Mellon's Millions.
Two Portraits.
Easy to Get, Hard to Keep.
"Tears of St. Lawrence."

BY ARTHUR BRISBANE
(Copyright, 1933, King Features Synd.)

THE BOOK, "Mellon's Millions," is published, and Andrew W. Mellon, recently United States secretary of the treasury, should be grateful to the author and publisher for making him the hero of a fairy story, that makes "Jack and The Beanstalk" or "Goldielocks" and the bears seem prosaic. The book showers millions and billions on the Mellon family, with amazing generosity.

A little Mellon bank in Pittsburgh lending out money earns a BILLION DOLLARS before you can turn around, an oil venture brings in $743,000,000, and aluminum means more hundreds of millions.

The wonder is that Andrew, and the other Mellons, sons and nephews continue working so hard if they really have two thousand million dollars, in spite of the depression?

THE FAIRY GODMOTHER in "Mellon's Millions" gives the Mellon family not only billions in cash, but con-

SPECIAL SESSION SOUGHT BY SOLON

Hoffpauir to Urge Allen to Call Meeting to Help Schools

BATON ROUGE, La., Aug. 12.—(AP)—Representative N. S. Hoffpauir of Acadia, said tonight he would urge Governor Oscar K. Allen to call a legislative session before October to provide financial relief for the state's schools through enactment of an in lieu sales tax and constitutional amendments.

The Acadia representative, who has supported Governor Allen's administration and has been consistently active in promoting state school legislation, said he would take his proposal to the governor "and lay it in his lap" together with the endorsement of many school leaders and citizens in general.

Hoffpauir said his program called for adoption of constitutional amendments necessary to place the schools on a firm financial foundation and to restore to school boards the money spent on education in their respective parishes during the year of 1930-31, which he described as an average year.

The constitutional amendments proposed include measures to abolish all special school taxes; to obligate the state definitely to pay to the schools from any sources the legislature may choose the difference between the yield of the three-mill parish-wide constitutional maintenance tax and the amount spent for school support by the school boards in 1930-31; to provide for distribution of state school funds monthly instead of quarterly; to make state funds for educational and eleemosynary institutions first obligations; to require school boards to levy special taxes each year to liquidate debt resulting from decline

4 Gangsters Indicted In Hamm Kidnap Case

ST. PAUL, Minn., Aug. 12.—(AP)—The United States government invaded gangland today with indictments under the so-called Lindberg kidnap law against four members of the Touhy mob of Chicago.

Roger Touhy and three of his henchmen, held in Milwaukee, were formally charged with abducting William Hamm, Jr., millionaire St. Paul brewer.

Two indictments were voted by a special grand jury convened solely to consider evidence in the $100,000 kidnaping of the Theodore Hamm Brewing company president last June 15.

They named besides Roger Touhy, alias Robert Morgan and Harry Cobb; Eddie "Father" McFadden, alias Charles J. McFadden, Edward Burns, Charles Farland; Willie Sharkey, alias William O'Boyle, and William Boyle, and Gustave Schachel, alias Gus Schafer, Peter Stevens, Gus J. Schaefer.

Aimee Leaves on Tour Of Churches in West

LOS ANGELES, Aug. 12. — (AP) — Aimee Semple McPherson-Hutton left by train tonight on a month's tour of her four square gospel churches in the middle west.

She talked by telephone before she left with David L. Hutton, her vaudeville baritone husband, who now is appearing in San Francisco, but had no comment to make on his divorce suit.

The evangelist said she would hold two major meetings, one in Cedar Rapids, Ia., and the other in Minneapolis.

FIVE MORE BIG GROUPS PLACED UNDER NRA FOLD

Problem of Fastening Codes on Major Industries Is Unsolved

WASHINGTON, Aug. 12.—(AP)—A multitude of additional workers were swept today within the embrace of the NRA's blue eagle, but the problem of fastening codes of fair competition upon the nation's major industries still hung perplexingly over the national recovery program.

For five important industries Hugh S. Johnson, the administrator, signed into effectiveness a modified presidential re-employment agreement fixing wages and hours which employers may adopt to obtain the blue eagle pending completion of permanent codes.

These were designed to increase the nation's purchasing power by millions of dollars and put thousands of workers back on jobs through their provisions for maximum hour regulation and minimum wages.

They affected the electric light and power, gas utility—including natural and manufactured gas — telephone, canning and construction industries.

In addition temporary wage and hour agreements were promulgated for employers in the paper and pulp, fruit and flavoring syrups, garter, suspender and belt, and marking device industries.

In all, more than 2,000,000 workers were affected, NRA estimated.

Carrying above the three score and ten mark the number of industries for which temporary wage and hour provisions have been provided—in addition to the six permanent codes—the campaign still left untouched the steel, oil, lumber, automobile, coal and other basic industries, employing millions of men, except for temporary wage and hour provisions in effect for petroleum.

ITALIAN ARMADA RETURNS HOME

Mussolini Is on Hand to Welcome Airmen After Flight to U. S.

ROME, Aug. 12.—(AP)—The greatest mass oceanic flight in the history of aviation ended tonight with the return of Air Minister Italo Balbo's trans-Atlantic seaplane squadron.

Just six weeks after starting their long aerial cruise to the Chicago World's fair, the big winged fleet completed the last leg of its homeward journey in a 1,300-mile flight from Lisbon, Portugal.

Premier Mussolini was on hand to start off the long round of celebrations, kissing both cheeks of each officer, beginning with the young bearded leader, General Balbo.

A series of noisy welcoming festivities began as the squadron alighted at Fiumicino airport near Ostia, the capital's seaport. Tired after 11 hours of flying, the airmen went directly to the airport, cancelling a proposed flight over Rome which was to have preceded the landing.

With the crusier Diaz firing booming salutes, General Balbo alighted in the first plane at 6:32 p. m. (12:32 p. m., E. S. T.). This was just 11 hours, 2 minutes after Balbo had

Roosevelt Returns to White House Yesterday

WASHINGTON, Aug. 12.—(AP)—Covered with the dust of 200 miles of automobile travel, President Roosevelt returned to the White House late today for a week of intensive personal applications to the national recovery campaign and affairs of state.

He motored to the capital from Harrisonburg, Va., visiting on the way five of the civilian conservation corps camps. All won his approval after the inspection.

The president kept a close touch on the Cuban crisis throughout his day on the road through a secretary, Marvin H. McIntyre, who communicated with the state department.

Sitting at a mess table in Camp Fechner at Big Meadows, Va., at noon, Mr. Roosevelt told newspapermen the state department had informed him that President Machado had tendered his resignation. Complete satisfaction with this was indicated by the president.

Improvement Shown in Littlepage's Condition

Considerable improvement was reported late Saturday in the condition of J. S. Littlepage, 27, living at Riverton, who was critically injured Thursday when a derrick scaffold on which he was working at Riverton collapsed and he fell 37 feet to the ground.

The most serious injury received by Littlepage was a fracture of the skull and possible laceration of the brain. Both legs also were fractured.

POLITICAL FIGHT WILL BE STAGED AGAIN THIS WEEK

Next Battle Between Long and Foes to Be Waged on Tuesday

VOTE COUNT SLATED

Publisher and Former Juror Will Answer Charges Thursday

NEW ORLEANS, Aug. 12.—(AP)—Renewal of open warfare between the Huey Long and anti-Long political forces over last November's election will be started next week in New Orleans courts.

Since the exciting maneuvers of last week, when troops were called out and martial law declared by the Long forces, each side has rested on its arms but in nowise under a flag of truce.

Under the surface, ferment has raged but next week the battles will be fought in the open with law books as weapons instead of bayonets and guns.

The issue has been drawn down to criminal action against election commissioners by the political camp opposed to Long's politics and to contempt proceedings against a New Orleans publisher and a grand juror brought by the Long faction.

Counting of ballots on the consti-

FOREST WORKER HURT BY TRAIN

Youth From Camp Near Bastrop Goes to Sleep on Railroad Track

Struck at 1:10 o'clock Saturday morning by an Illinois Central train, after he had gone to sleep on the tracks at the Oak street crossing, Bracton Sizemore, 19, of Hodge, was in a critical condition at St. Francis sanitarium Saturday night. Amputation of his left hand at the wrist and of his right foot was necessary.

For some time after the youth reached the sanitarium his physician feared he would succumb during the day from shock. Later his condition seemed to have improved somewhat, but was still considered grave.

According to L. V. Tarver, superintendent of police, Sizemore told officers that he had been drinking during the day and that he was not fully aware of what he was doing when he lay down on the railroad. He said he waked up to find the train running over him. His hand and foot were not severed, but were badly crushed.

With the youth at the time he was injured were Thomas Davidson of Ruston, Frank Woods of Sidney and Med Elkins of Shangaloo. All of the young men were engaged in government reforestation work at the camp near Bastrop and were en route from their homes back to the camp when the accident occurred.

Officers were of the opinion that all of the young men had gone to sleep. The three others said they had lifted Sizemore off the track once and did not know he had gone back on it. None of them saw the train strike him, they said.

HOME LOAN GROUP IN MONROE NAMED

List Includes R. M. Breard, E. B. Harrell and S. L. Digby

NEW ORLEANS, Aug. 12.—(AP)—Formal announcement that Fred Zengel, Jr., had been recommended for appointment as general counsel in Louisiana for the Home Owners' Loan corporation was made today by Paul B. Habans, Louisiana manager. Zengel is a well known homestead attorney of New Orleans.

Although formal lists are still incomplete, it was understood the following recommendations would be made for the Shreveport and Monroe branches:

Monroe—Robert M. Breard, district manager; E. B. Harrell, appraiser; S. L. Digby, attorney; Mrs. Gertrude Slay, stenographer.

Shreveport—Ben F. Roberts, district manager; A. M. Leary, appraiser; Frank J. Looney, attorney; Herman C. Stauss, application man; R. J. Brock, secretary-stenographer; Miss Isabella Peyton, stenographer.

Machado Flees Into Exile; Secret Police Are Slain As Crowd Ransacks Palace

Manuel De Cespedes Succeeds to Presidency as Deposed Executive Hurries to Nassau in Airplane; Five Members of Hated Police and at Least 16 Others Are Slain; More Than Two Hundred Are Wounded.

WILD SCENES STAGED IN HAVANA STREETS AS CUBANS CELEBRATE

Secretary of State Ferrara Escapes to Miami in Airship

MIAMI, Fla., Aug. 12.—(AP)—Orestes Ferrara, secretary of state of the fallen Machado government, flew here late today from Havana. He was fired upon when he left his native capital and booed when he arrived here.

He will leave tonight for New York.

The former secretary said Machado had not been deserted by the Cuban army, but that officers, learning he would resign, took matters into their own hands.

"I leave criticism of Welles' policy to history," Ferrara said.

The Cuban and his wife escaped Cuba in a shower of bullets. Their plane was hit several times. A mob seized their baggage as they prepared to leave. Their pilot—an American—shoved the couple into the ship and took off "like a shot."

When they arrived here, a crowd of Cubans hissed Ferrara. One man challenged him to a duel. The Cuban stepped forward quickly to answer the insult but police interfered. Ferrara has fought 11 duels.

The former secretary told a story

TEXAS PLANTERS MOVE TO OBTAIN CODE FOR COTTON

Plan Would Fix Minimum Price of Sixteen Cents Per Pound

AUSTIN, Texas, Aug. 12.—(AP)—Formation of a permanent organization aimed at promulgation of a federal code to fix a minimum price of 16 cents per pound for cotton was perfected here today at a meeting of Texas cotton farmers.

J. E. McDonald, Texas commissioner of agriculture, was instructed by the organization to go to Washington immediately to confer with federal officials on provisions of the proposed code.

He also was requested to invite agricultural commissioners and leading cotton farmers of the south to join him in pressing for immediate stabilization of the cotton market through governmental action.

McDonald probably will leave early next week for Washington.

A resolution stating that the declining cotton market would prove disastrous to the south unless checked, was adopted. It suggested 16 cents a pound as a price at which farmers could pay their obligations and provide for their families on the rising commodity market.

It was the sense of the organization that any plan, however radical, be employed to stem the declining market and advance it to an adequate price level.

"I have plowed up 50 per cent of my cotton and if necessary I will plow up all the rest of it," McDonald said, his assertion meeting with

ENTRANTS NAMED IN TRIP CONTEST

Workers for Visit to World's Fair Concentrate on Getting Votes

Names of those who have entered as contestants in the contest sponsored by The News-Star—World, in which six free trips will be awarded to A Century of Progress exposition in Chicago, were announced Saturday by the campaign manager. There are a large number of entrants from both district No. 1, composed of Monroe, West Monroe and vicinity, and district No. 2, composed of Bastrop and vicinity.

Those taking part in the campaign will turn in their votes on Tuesdays and Fridays of each week.

According to the campaign manager, the contestants did a good job in obtaining customers' pledges. From now on they will concentrate on getting votes. One vote will be given for each cent spent or paid on account with merchants cooperating in the campaign.

Merchants are urged to save votes for contestants who obtained customers' pledges and the people are urged to call for the votes.

Contestants who have entered in district No. 1 are as follows:

Jerry Adams, 4501 South Grand; Myra Batten, 2807 Gordon; Miss Bill Brennon, 603 Stubbs, Mildred Buttita, 618 North Fifth; J. D. DeBlieux, Winnsboro road; Veronica Forti, 409 North Fourth, West Monroe; Mrs. E. S. Hilburn, 417 Pine.; Mary Helen Hilburn, 417 Pine; Annie Frances Martin, 504 South First street; Garland Stephen, 406 Breard; Sybil Thompson, 300 McKinley; Hazel King, 700 Clayton,

Ship Reported Grounded In Fog East of Quebec

QUEBEC, Aug. 12.—(AP)—The steamer North Shore, with Monsignor Andre Cassulo, papal delegate, and other Catholic officials aboard, was reported to have struck a reef tonight and grounded in the fog 235 miles east of Quebec on the north shore of Gaspe peninsula.

The report said all passengers and members of the crew were safe, and that aid was being rushed to the ship. Further details were lacking.

ROGERS HAS HIS SAY

BEVERLY HILLS, Cal., Aug. 12. —All I know is just what I read in the papers. I see where U. S. Congressman Hamilton Fish (who made a mighty fine record with the Rough Riders in Cuba) has offered our president the support of the entire Republican party in case of invasion of Cuba. That's great. Hamilton Fish is a mighty fine patriotic citizen, but I would sure hate to go into Cuba (or even the littlest country on earth) with nothing behind me but the Republican party. Suppose they shot 'em both, where would you be?

Yours,

Will Rogers

W. C. FEAZEL ASKS NRA COOPERATION

Local Board Member Is Gratified at Response to President's Plan

W. C. Feazel, appointed recently by President Roosevelt as a member of the board of nine in Louisiana named to administer the national recovery act in this state, Saturday issued the following statement in connection with his work:

"Since receiving my appointment as a member of the state recovery board, to assist in the administration of the national recovery act, I have attempted to secure all of the information possible with reference to my duties. Not having received any specific instructions with reference to the matter, I went to New Orleans this week and conferred with other members of the state board. I found that they, too, were without any information other than that carried by the press.

"I feel very much gratified over the interest and attitude displayed by the business and industrial interests of Monroe and West Monroe. Much credit is due to the local chamber of commerce in taking the lead in this important undertaking.

"In order to comply with the spirit of the act, several separate and distinct steps are necessary. The salient steps, as I understand the matter, on the part of the employer are as follows:

"First. Reduction of working hours to comply with the terms of the NRA.

"Second. Increase in salaries to at least the minimum provided in the blanket code.

"Third. Providing additional employment for those heretofore unemployed.

"Fourth. Fair competition in business.

"The purpose of these steps which I have just outlined is to put unemployed people back to work at a

Three Night Club Men Slain at Kansas City

KANSAS CITY, Aug. 12.—(AP)—Three night club operators were slain in a midtown apartment district here today. Two fell under the gunfire of Sheriff Thomas B. Bash, who happened along as they were putting the third man "on the spot."

Ferris J. Anthon, operator of an Armour boulevard cafe, was the victim of the gang killers. Police identified the men slain by the sheriff as Sam Scola and Gus Fasone, alias Sam Sine.

Another man, Gus Gargotta, was taken into custody. Still another escaped. Sheriff Bash said Gargotta rushed at him from the killers' car with his revolver blazing, then dropped his gun, empty, and surrendered. Gargotta denied he was in the gang's car.

With the sheriff were his wife, 14-year-old Melva Taylor and Deputy Lawrence Hodges. They were returning from a garden party.

SEES BRIDE SLAIN

LOS ANGELES, Aug. 12.—(AP)—While her husband looked on, 25-year-old Harriett Allen, a bride of eight days, was shot and killed today. Police identified the slayer as Bruce Moore, 25, her former sweetheart, who shot and fatally wounded himself.

New Chief Executive Takes Over Office and Makes Statement

HAVANA, Aug. 12.—(AP)—Carlos Manuel de Cespedes, 62-year-old former secretary of state, diplomat of many posts and choice of all Cuba's political factions for the post of provisional president, tonight officially took over that office.

A statement issued by the new president read:

"To the people: I have assumed the supreme office of the nation by the will of all those who desire justice, peace and good will for Cuba. I take over this office because it is my duty to lend my most effective aid in these difficult moments to the work of saving the country which is endangered."

(Copyright, 1933, by The Associated Press)

HAVANA, Aug. 12.—(AP)—Gerardo Machado, abdicating today as president of Cuba, fled for his life in an airplane to Nassau in the Bahamas while angry mobs dealt death and destruction to his adherents and their property.

At least 21 persons were slain and more than 200 injured. More bodies may have been left on sidestreets, forgotten. A violent electric storm this evening only temporarily halted the activities of the demonstrators.

Manuel de Cespedes, former ambassador to the United States was chosen by all political groups for provisional president. But congress, which was to take action on this matter and Machado's request for a leave of absence, could not muster a quorum and did not meet. Too many Machado supporters were in hiding.

Secretary of State Orestes Ferrara, who ordinarily would have succeeded to the presidency, fled himself to Miami, Fla.

Mobs running wild through the streets sought out Machado supporters and shot them down. They ransacked the presidential palace and destroyed newspaper offices and homes of Machado's prominent backers.

Five of the secret political police, that dreaded branch of service which had been a mainstay of the Machado regime, were killed by the crowds.

The embattled Machado, finally defeated when his compact, well-disciplined little army rebelled against him en masse, gave up the fight at 10 o'clock this morning and sent to congress a request for leave of absence.

Thus the main feature of the mediation plan sponsored by United States Ambassador Sumner Welles upon the authority of President Roosevelt and approved by government and opposition political groups in the island republic—retirement of President Machado—was accomplished.

Machado accepted the resignations of all members of his cabinet except Secretary of War Alberto Herrera, who as the only remaining member of the government was expected to appoint Senor Cespedes secretary of state and then quit his own office. Cespedes would then legally become president of the republic.

In fact, Senor Cespedes, former minister to Washington and holder of other important diplomatic posts, became head of the state at once and began to construct his cabinet from members of all political factions, with a view to establishing a strong and stable government.

Scenes of wildest disorder, eclipsing even those staged when Cuba gained its independence in 1901, were witnessed in the streets of Havana today as a frenzied populace celebrated the overthrow of the government which has reigned since 1925.

The army leaders who yesterday seized the harbor fortresses and

(Continued on Eighth Page)

New Orleans Charity Hospital Is Expensive

Huge Payroll Features Heavy Cost of Operating Institution

This is the forty-first of a series of articles on assessments, taxation and the costs of government in Louisiana. The author, from long experience in public affairs, is thoroughly familiar with the subject and his purpose is to tell in simple language that all may understand how the state and its agencies handle the huge volume of funds derived from a greater variety of taxes, licenses, etc., than any other state has.

The cost of operating the New Orleans Charity hospital for the quarter ending June 30, last, was $33,942.02 more than the total amount of its receipts. It expended $294,064.11; it received $260,122.09. While confirmation is lacking, the institution is reported to be desperately in need of funds. It is said to have been forced to default on some of its salary obligations. Those who are reported to be suffering from this situation are waiting for better times. They have not been offered scrip or certificates of indebtedness.

To determine whether or not the New Orleans hospital has been harmfully politicalized under the Long-Allen administration it is necessary to divest oneself of every vestige of prejudice or bias. Judged solely upon the facts as they are presented by the written record, the institution would appear to be conducted upon a pattern of administration interest first, and after a model of scientific development second.

This is something altogether new in the conduct of the hospital. The word politics was never dreamed of in connection with the Charity hospital until Huey P. Long became governor. Drs. Miles, Batchelor, Blum,

(Continued on Sixth Page)

Hospital Facts Which The Record Discloses

Superintendent's annual pay:
As head of hospital $10,000.00
As head of medical unit 2,100.00
..Total $12,100.00

Persons on payroll 3,095
Cost per quarter $165,738.99

Hospital expenses for the quarter ending July 1, 1933, exceeded by $33,942.04 the revenues for the same period.

During that period, the salary of Dr. Arthur Vidrine, superintendent, was raised from $9,500 to $10,000 per year.

Dr. W. A. Ellender, brother of Speaker of the House A. J. Ellender, of Terrebonne, appears on the officers' payroll as assistant house surgeon at $100 per month.
Dr. Willard Ellender appears on the monthly payroll as assistant house surgeon at $200 per month.

Dr. Felix Blanche appears on both the officers' and monthly payrolls as assistant house surgeon at $150 per month each.

Social service work at the hospital cost the taxpayers $901.58 per month, or $10,854.96 per year.

Receipts for the past quarter included $238,999.99 from the state and $358.33 from the city of New Orleans.

The hospital was not permitted to draw $231,333.35 of its state appropriation of $1,096,000 for the fiscal year 1932-33.

Jobs at the Charity hospital are under direct political control.

POLITICAL FIGHT WILL BE STAGED AGAIN THIS WEEK

(Continued From First Page)

tutional amendments will be continued in open court next Tuesday by a citizens' committee and plans will be made for the prosecution of election commissioners charged with making false election returns.

But regardless of the outcome of either the ballot count or the commissioners' prosecution, spokesmen for each side agree that the results of the November election will not be changed. The election has been certified, the time limit for protest has expired and in some cases bonds have been issued and sold.

"The action is for prosecution of fraud and the purification of the polls and the election results will not be affected," said a leader of the anti-Long camp.

Fifteen amendments were adopted in the election, three of them being for the issuance of bonds. One of them authorized the city of Shreveport to refund into bonds an operating deficit or floating indebtedness of $950,000. John McW. Ford, finance commissioner of Shreveport, said $882,000 of the authorized $950,000 was sold to a Shreveport bank early this year.

Another amendment authorized the issuance of $5,000,000 of bonds to pay debts contracted by the state board of liquidation and the Louisiana State university. The full issue was sold to banks in the state, mostly banks of New Orleans. Of the total issue, approximately $800,000 went to the state university with the balance used to pay debts for which banks had advanced funds to the state board of liquidation for what the board said were "emergency expenditures," which anti-Long leaders denied.

The third bond authorization was for an issue of $750,000 for the city of New Orleans to acquire the ferry systems in the Mississippi river within the city. This issue has not been made, and A. Miles Pratt, commissioner of finance of New Orleans, said there were no plans for issuing the bonds and they may never be sold. He said the plan for the city to take over the ferries had cooled off.

Bond experts have told state officials that regardless of protests and the count of ballots the bond issues were legal and could not be affected.

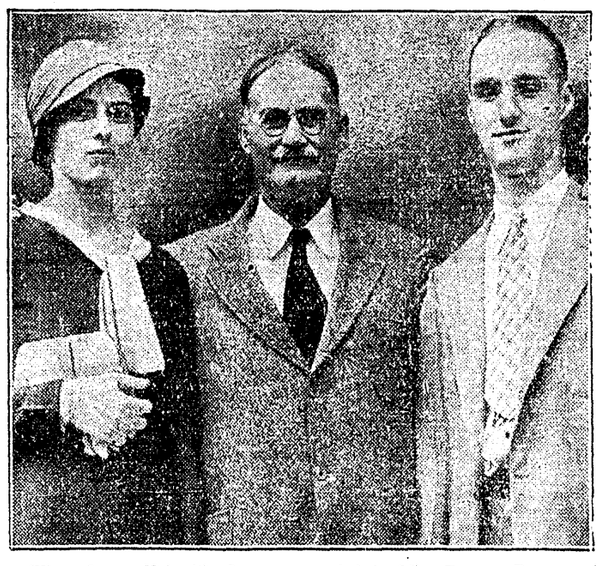
The first attack of the Long group in the renewal of hostilities will be efforts to have Leonard K. Nicholson, president of the New Orleans Times-Picayune Publishing company, and James M. Colomb, a member of the last grand jury, convicted of contempt of court for publishing a statement by Mr. Colomb exposing operations of the grand jury, which he charged sought to return a "no true bill" in the election fraud charges without investigating the contents of the contested boxes.

His charge started the general inquiry which resulted in the Long faction calling out troops, declaring martial law and having troops guard the grand jury. Their attack collapsed when the grand jury was discharged by a criminal court judge and the ballots were ordered counted by another criminal court judge.

The last thrust of the Long group was made against the publisher and the grand juror on the grounds that grand jury proceedings were secret under the law. Mr. Nicholson and Mr. Colomb have been ordered to appear in court on Thursday for a hearing on the charges.

The New Orleans States and the New Orleans Item also printed the Colomb statement but these publishers were not cited to the court.

DR. NAISMITH'S SON IS MARRIED



When James Naismith, Jr., was married to Miss Frances Pomeroy in Lawrence, Kas., the officiating pastor was his father, Dr. James Naismith (center), who devised the game of basketball. The elder Naismith, shown with the bridal couple, is an ordained minister as well as professor of physical education at the University of Kansas. (Associated Press Photo).

ITALIAN ARMADA RETURNS HOME

(Continued From First Page)

started the take-offs in Lisbon. At 6:47 all the planes had taken their places at the airport.

There were many affectionate scenes as the fliers hastened to embrace their wives, sweethearts and children at the airport. Huge throngs blackened both sides of the Tiber. Hundreds of troops and a huge force of police, with reinforcements from Milan, were present to direct the crowds.

Mussolini and Balbo entered an automobile together and led the procession of fliers into Rome for their triumphal ride under the 1,600-year-old arch of Emperor Constantine, near the ancient Coliseum. All along the 15-mile route from Ostia, the automobile cortege received the applause of thousands of persons grouped at intervals.

Showers of flowers were thrown from beflagged balconies and rooftops. The crowds broke into fascist songs between periods of thunderous applause.

ACRE INSPECTION DELAYED BY RAIN

About Half of Committeemen Have Finished Work in Ouachita

Due to the fact that rain fell throughout most of Saturday, the task of inspecting cotton acreage plowed up by farmers of Ouachita parish was retarded practically a full day, E. R. Strahan, agricultural agent, said. Despite the rain a few measurements were made.

About half of the committeemen have finished inspections, but in some of the more thickly populated communities, it will require three more days to complete the work. On the portion of the acreage on which inspections have been completed, certificates of compliance are being sent to Washington as rapidly as possible.

Braving a steady downpour of rain, Ray Rhymes, substituting for Harrison Rhymes, measured and approved 135 acres on the farm of Mrs. Frank Stubbs, about four hours being required for the work. Robert Cann, manager of the farm, had already measured the land and when the inspection had been completed it was found he had plowed up 325 square yards more than was required.

Making one of the best records for measuring a large acreage in a short time, S. M. Rutledge, with competent help, measured 100 acres on the farm of Mrs. Anna S. Sandel in two hours and 28 minutes. R. H. Percy, farm manager, had previously measured the land and it was found he had plowed up approximately an acre more than the contract required.

DR. DEAN WON'T TALK ABOUT CASE

Alleged Slayer of Doctor Gives Interview to Newspapermen

GREENWOOD, Miss., Aug. 12.—(AP)—Dr. Sarah Ruth Dean, charged with murder in connection with the alleged poison death of Dr. John Preston Kennedy, her former clinical associate, granted her first interview to newspapermen today—but didn't say anything about the case.

The interview was arranged by her attorney, A. F. Gardner, upon the condition that no questions be asked concerning the murder charge.

She greeted reporters with a smile as she was brought from her cell, and chatted amiably. She laughed frequently as she exchanged quick repartee with her questioners.

She said she had studied at the University of Mississippi and the University of Virginia and had also done specialist work in Denver and Philadelphia hospitals. She refused to name these hospitals.

"I do not know, but it might embarrass them," she said.

Dr. Dean said she returned here to practice in 1928.

"I left here for about a year, coming back six months ago," she said.

She said her jail cell had been almost insufferably hot, but that an electric fan had been brought from her home yesterday.

"How are you spending your time there?" she was asked.

"Mostly in bed," she replied. "I have been feeling badly ever since I have been there. I have been sick. I have been feeling so badly since that time that it did not matter how the time was spent."

Dr. Kennedy died last Sunday in a Jackson hospital after allegedly making a death-bed statement accusing the woman doctor of giving him poison in a whiskey highball.

FERRARA FLEES TO MIAMI, FLA.

(Continued From First Page)

of riot and danger which he encountered in obtaining and delivering the papers making the change of government in Cuba today.

"This morning I visited the palace," said Ferrara, "arranging the necessary papers for the change of government. I noticed that a state of intense fear gripped the employes and servants.

"When the news became known that the president had abdicated, the servants quit their work and ran madly about the palace, smashing furniture and other movable goods.

"I was talking with an undersecretary in the entrance of a hallway. A servant opened a front door. Immediately there were shots from the streets, a bullet striking the servant in the chest and killing him."

Other bullets hit around Ferrara and the undersecretary but neither was harmed.

From the palace Ferrara said he drove through the streets, taking the papers to Ambassador Welles. The latter at that time offered Ferrara a refuge in the United States, he said, as did the Spanish ambassador in Spain, and representatives of other countries.

Ferrara then went to the house of a friend for luncheon.

"About 2 p. m.," he said, "it was getting hot. Mobs were howling in the streets outside.

Realizing that the mob spirit would increase and determined to show no fear, Ferrara said he and his wife drove in an open car along the main streets of Havana to the Pan-American airport.

As they drove along, some persons bowed, others booed and shouted threats.

While Ferrara and his wife were examining their baggage alongside the plane, a mob ran up shouting and cursing. Members of the mob seized the baggage, ripped it open, tore up clothing and scattered the contents.

A machine gun opened fire, bullets went overhead, some striking the wings of the plane.

Les Terletsky, Pan-American pilot, shoved Ferrara and his wife into the plane and took off. Ferrara credited Terletsky with saving their lives.

Merchant Elected Mayor; Unable to Collect Bill

COMPTON, Cal., Aug. 12.—(AP)—Clifton S. Smith has learned there are certain disadvantages in holding down the job as mayor. During the earthquake emergency in March, Smith supplied merchandise valued at $17 to workers. Like other business men of Compton he presented his claim to the city.

Before it was approved Smith was elected mayor. Now he finds he cannot do business with the city as a city official and will be unable to collect the $17.

OUT AND IN

Because he was thrown out of the ring by a wrestler after he and the promoters had "carefully outlined and planned the entire match," Frank Thomason, above, Muskogee, Okla., wrestling referee, has haled Sam Avery and Gene Ellis, the promoters, into court in a suit for $10,400. Thomason suffered a broken leg in the fall out of the ring, and says that he lost a steady job because of the accident.

Butcher Bird In Arkansas Kills Meat Then Cures It

ARKADELPHIA, Ark., Aug. 12.—(AP)—A bird that kills and cures its meat before eating it is found in Clark county, Arkansas, and is called the "butcher" bird.

The butcher's habit is to kill lizards and other small reptiles and grasshoppers, impaling the meat on barbed wire fences or thorns for "curing." When the meat is dried, he eats it.

The term "French leave" originated from the French custom of withdrawing from crowded assemblies without taking leave of the host and hostess.

An Enterprising Young Merchant--

NEWSPAPERS are an important factor in the progress of the world, supplying all of the news from at home and abroad to every interested person at a negligible cost. The service which they render has come to be taken more or less for granted, but there is one factor that is deserving of your attention and consideration.

The carrier boy who delivers your newspaper daily, regardless of weather or other interfering forces, is the principal link between the publisher and the reader. It is through his enterprise and industry that you are able to enjoy the convenient service that characterizes newspaper delivery.

This young man in most cases is not a newspaper employee. He is an independent young merchant, buying and paying for his papers by the week and selling them on a weekly credit basis to his customers. His profits for the service that he renders are small, yet many of these boys, by thrifty management, are paying their way through school with their earnings and at the same time putting something away for the future.

Encourage your carrier boy in the thrifty habit which he is forming by paying him regularly for the service that he is rendering you.

CHEVROLET leads the field by the widest margin in its history

CHEVROLET, AMERICA'S NUMBER 1 CAR—47.99%* of all low-priced cars sold

NUMBER 2 CAR—26.74%*

NUMBER 3 CAR—19.21%*

ALL OTHERS 6.06%*

*Based on the latest retail registration figures from R. L. Polk & Company (all states for five full months). Since January first Chevrolet has sold in excess of 370,000 passenger cars and trucks.

People have come to expect Chevrolet to lead the world in automobile sales. But this year Chevrolet has done even more than that. According to the latest available figures, Chevrolet alone has sold almost as many cars this year as all the rest of the low-price field combined!

When a car looms above its field like that, there can't be any argument about it. *It must be an all-round better buy.* And that's exactly what Chevrolet offers you. *Fisher bodies,* with the new ventilation system and the strongest and quietest body construction of the day—solid steel over a sturdy hardwood frame.* *A valve-in-head six engine,* unapproached for economy . . . Cushion-Balanced to blot out vibration . . . full of snap and vigor—altogether the most efficient engine in the low-price field.

Then there's Syncro-Mesh with Silent Second, the Starterator, Simplified Free Wheeling, the Octane Selector, long, parallel-mounted springs—more advancements than we have space to describe. And Chevrolet prices are as low as $445. Don't guess—buy from the leader. Get a car that has been proved sound and dependable by more owners than any other automobile you can buy.

TEXAS FARMERS URGE MORE CUTS

Growers Ask Wallace to Allow Additional Slashes in Acreage

NACOGDOCHES, Tex., Aug. 12.—(AP)—Three hundred farmers of this section, gathered here in mass meeting, today adopted resolutions urging a further reduction in the 1933 cotton acreage.

The resolutions petitioned Secretary Henry A. Wallace to allow "additional cotton acreage to the amount of five million acres to be offered for destruction" and urged that mass meetings be held throughout the south to promote the movement.

The plan would have for its purpose to bring about an increase in the price of cotton "such that the purchasing power of the southern farms will be sufficient for the success of the president's NRA program."

The meeting was the second this week, the first having been held Thursday, after which Hubert Harrison, manager of the east Texas Chamber of Commerce, telegraphed Secretary Wallace, and others, asking that permission be given the farmers to offer an additional five million acres of cotton for destruction.

Today's resolutions read:

"Whereas, it appears that the additional destruction of four or five million acres or two million more bales is necessary to raise the price of cotton such that the purchasing power of the southern farms will be sufficient for the success of the president's NRA program.

"Therefore, be it resolved, that the three hundred farmers assembled at Nacogdoches, Tex., Aug. 12, 1933, petition Secretary Henry A. Wallace to allow additional cotton acreage to the amount of five million acres to be offered for destruction.

"Be it further resolved, that we urge similar mass meetings to be held immediately throughout the south and that the farmers of the cotton belt cooperate in urging Secretary Wallace to grant this additional offering of cotton acreage."

RUSTON, Aug. 12.—(Special)—Taking note of the fall in cotton prices since the government's August report, Lincoln parish farmers in mass meeting here Saturday, wired Commissioner of Agriculture McDonald of Texas that they are ready to destroy even 50 per cent of the cotton now standing in the fields, provided the secretary of agriculture will pay the same price per acre and give the same optional contract as that governing the acreage destroyed under the first contract.

The telegram follows:

"J. E. McDonald,
"Commissioner, Agriculture,
"Austin, Texas.

"Lincoln parish farmers in mass meeting here today, unanimously endorsed your proposal to plow up an additional 10 per cent of the cotton now in the field. We are ready to accept same terms for the additional acreage we are to receive for the amount covered by pending contracts."

City Briefs

W. C. Faulk, 1010 North Second street, underwent an operation for appendicitis at St. Francis sanitarium Saturday afternoon.

W. C. Edwards, member of the Louisiana house of representatives from West Carroll parish, spent Friday in Monroe. He reported that crops are in good condition in the vicinity of Oak Grove and Kilbourne and stated that residents of his parish are strongly backing the NRA movement.

Harry Jacobs, chief engineer with the state board of engineers of New Orleans, was in Monroe Saturday on a tour of levee construction work.

Paul Barron, Baton Rouge attorney and a former member of the state legislature from Iberville parish, spent Saturday in Monroe.

Mr. and Mrs. C. O. Welch and Osmer Welch of Mangham were visitors in Monroe Saturday.

Horace Mangham, publisher of the Richland Beacon-News in Rayville and secretary of the Tensas basin levee board, was in Monroe Saturday.

Robert Hall of Winnfield, formerly employed by the state supervisor of public accounts in the capacity of inspector to enforce collection of carbon black and severance taxes, was in Monroe Friday on business.

J. H. Hart of Delhi, employed by the Tensas basin levee board, visited Monroe and Ouachita parish Saturday in carrying on his duties as levee inspector.

J. R. Adams of Lake Providence, assistant state engineer, was in Monroe Saturday.

Paul Perritt of Shreveport, former manager of the Monroe branch of the department of conservation, but for several years engaged in oil and gas operations in north Louisiana, was a visitor in Monroe Friday.

Robert M. Breard has returned from an enjoyable trip to the Century of Progress exposition in Chicago.

J. M. Hatch, prominent Richland parish planter, was a Monroe visitor Friday.

E. Jack Selig of E. Jack Selig, Inc., and Herbert Fink of Fink the Tailor, will leave today for Chicago to attend a meeting of the National Association of Clothiers and Furnishers. They plan to visit A Century of Progress exposition while in Chicago.

Arthur David Herring, who is taking a pre-law course at Louisiana State University, is visiting his parents, Mr. and Mrs. E. J. Herring, 206 Crosley street, West Monroe. He expects to spend about a month here before returning to Baton Rouge to resume his studies.

2 Automobiles Stolen In Monroe Yesterday

Thefts of two automobiles were reported to police headquarters Saturday night.

B. J. Stearn, 711 DeSiard street, reported his 1931 model Chevrolet coach was stolen from that address after being parked there at 3 p.m. It was said to bear license No. 238-307 and to be blue in color.

Alex P. Ryan, living on route one out of Rayville, reported his 1928 model Buick was stolen after being parked on Harrison street at 5 p.m. He described the car as being cream-colored and was unable to give the license number.

Monroe's Busiest Department Store

Fall's Fashion Message . . .

combines the glamour of the gay 90's with present day thrift

Curves ahead! is the first sign we see on the road to fashion smartness . . . who caused it? An American girl . . . Mae West by name . . . late of the burlesque . . . now of the Movies. Her picture, "She Done Him Wrong," took Paris by storm . . . Paris coutouriers were seen time after time in the theater where it was being shown. Then the fashion minds of the world flew off at a tangent . . . they forgot comfort, convenience, and the sleek sophistication of the modern woman . . . three distinct types of silhouette appeared on the fashion horizon . . . the Mermaid . . . the T-square and the Tubular. Where does the thrift come? We tell you of that in the following paragraphs of this advertisement, a story of savings just as thrilling as these new styles.

It's thrifty as well as smart to buy your new Fall . . .

COAT NOW

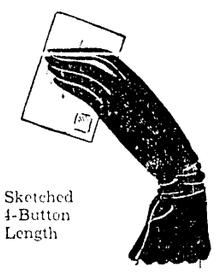
$49.50 $59.50 $69.50

For the past three years The Palace has shown new Fall coats in August as have other stores . . . but we have NOT urged you to buy, promising you a substantial savings. We did not see any reason why these same coats could not be duplicated later in the season. This year, conditions are different and we urge you to BUY NOW and promise you great savings. We bought these new Fall coats early. We could not duplicate them now to sell anywhere near the present price. Prices WILL continue to advance and later in the Fall you will pay much more for the same quality.

Fine quality woolens . . . beautifully tailored and lavishly furred interpret the three new silhouettes mentioned above. The T-square silhouette features elaborate shoulders that fall pencil-straight with just a hint of the fitted waist line. The Tubular silhouette shows broad shoulder and sleeve interest with a flare at the hem which balances the soft shoulder fullness. The Mermaid silhouette also has the broad shoulder interest with a fitted waist line and a decided flare at the hem. Brown is a leading color and many shades are shown. Black will follow a close second while elaborate furs will both match and contrast. —SECOND FLOOR

Gloves of fine kid are plain or trimmed

$3.48 -- $3.98



Sketched 4-Button Length

Several lengths are shown for Fall's gloves including the 4, 6 and 8-button lengths. The plain pull-on style or the slightly flared cuffs trimmed with contrasting stitching of insets. The plain for tailored costumes, and the trimmed for dressy ensemble, is correct.—STREET FLOOR

Bags are distinctive in design and leather

$1.95 -- $2.95

Flat tailored types, tailored pouches, soft gathered pouches and narrow oblong shapes lead in bag fashions. Calf, suede, grained seals and suede and calf combinations are the prominent leathers with black and brown the leading colors. Fittings are elaborate both inside and out.

—STREET FLOOR

Hosiery shades blend beautifully in the mode

$1 $1.35

Kayser sponsors three new shades that blend beautifully with the new brown shades and with black . . . in charming, sheer, clear chiffons such as only Kayser can make.

CORDOBA is a new brown to be worn with the lighter brown ensembles and medium brown footwear.

MALAGA is a rich deep brown for the dark shades of brown to be worn with dark brown shoes.

ALHAMBRA is a brown with a gray accent and is worn with both black and navy to advantage.

—STREET FLOOR

Soft woolens fashion the smartest

Fall Dresses

$10

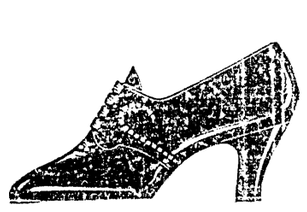
Soft woolens, whose surface interest includes ribbed, mossy and dull types with satin or crepe for trimming, interpret the new mode in many charming and diversified ways. The T-square is the basic construction with the shoulders very broad and the skirts quite straight.

Others adopt the mermaid flare at the hemline. Necklines are high. Sleeves show upper-arm fullness with a tight wrist and lower arm. Skirt lengths are from 10 to 11 inches from the floor for general daytime wear. The one-piece dress is prominent while the jacket dress continues to enjoy its well deserved popularity.

—SECOND FLOOR

Shoes show two colors but many new leathers

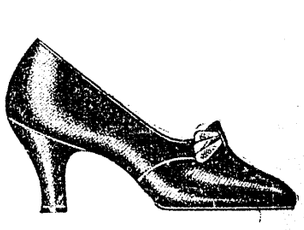
With but two colors, fashion interests herself in leather surfaces in shoes and many new leathers as well as new lizard and the ever popular suede bring many usual fashion effects to Fall footwear.



Sketched Above: Brown suede oxford with Manrucis calf trimming on both toe and heel. Note the high Cuban heel as designed by I. MILLER. $10.50

Sketched Above: This all-over brown Calcutta lizard, shown in a 4-eyelet tie features a high Cuban heel which combines smartness and comfort. $8.50

Sketched Above: This black suede 4-eyelet tie with a junior Spanish heel by I. MILLER will add richness to black or navy blue ensembles. $10.50



Sketched Above: I. MILLER also sponsors this black mat kid Colonial pump for dress wear with a junior Spanish heel for black or navy ensembles. $10.50

Making Life Worth Living

"Love thy neighbor as thyself" is a divine command that is the very root and substance of human progress and happiness. Love is the most beautiful quality in the world. Its antithesis is hate, the element that is destructive and disintegrating in all of its aspects.

If you want to make yourself thoroughly uncomfortable permit yourself to dislike somebody. And if you want to become utterly miserable allow yourself to hate somebody.

Perhaps you reply, "You are telling me? But how can I help disliking or hating people?"

There is a system for doing that kind of thing. In fact, there are two systems.

Here is the first one, advocated by an elemental sort of school of thought. It is crude—barbaric—destructive. The idea is, when you become incensed at somebody, get the inflammation out of your system, by venting your spleen on some inanimate object. You select a stout club, go into the woods in some secluded spot where nobody can see or hear you and consequently cause you to be placed under observation as to your sanity. You pick out a likely looking tree and name it Billie Bluenozzle (or whatever may be the name of your bete noir), and start to work on it vigorously with your club.

Every time you bounce your club off the tree you shout or snarl, "Take that, Billie Bluenozzle, durn ye!" You can vary the epithets according to the character of your moral training and the extent of your vocabulary. By the time you have worked yourself into a state of collapse belaboring this personification of Billie Bluenozzle you will have, or should have, got out of your system all the venom that you had secreted for Billie's special benefit.

But the system is, as we have said, crude, barbaric, destructive. It is as curative and wholesome as taking a drink of bootleg corn liquor for mental depression—it may afford temporary relief, but in the long run doesn't mean anything good in the development of character or in the practice of sound thinking.

But there is another system that is far better and is to be highly commended. It works this way: First of all, you must never admit even to yourself that you hate anybody or even dislike anybody. Perhaps you think that thing cannot be done, but it can. If you say often enough, conscientiously and convincingly, "There is nobody in this world I hate or even dislike," you will get to believe it; eventually you will be that way. There is a psychology that rules in such matters which has proven to be an exact science.

Second: Whenever a person arouses your ire pull yourself together and think him over. Don't ponder all the mean things he has done or might do, or the mean traits of character he may have, but think of the good in him. Say to yourself, "Well, I didn't like that thing he did, but he has his good points." Then make a mental list of those good points. You will be surprised to find how many there are, and what a good fellow your enemy really is. After you get through with that stock-taking you will be able to say, "Some things I don't like about him, and some things I do." There you have made a good start. You are ready then to say, "If he wouldn't do so and so and such and such he would be all right." Pursue that line of thought a little and you will come to the place where you can aver, "Probably he does not realize just what he is doing, or the seriousness of it" (which likely enough is true), and that brings you easily to this assertion, "He is all right at heart" (which likewise is also probably true).

After you have persistently pursued this practice for a sufficient length of time you will develop the faculty and the habit of separating the man from his deeds—the person from his performances. You will learn to see every human being as likeable if not loveable—as needing more pity than censure, as being exactly what you are, a poor mortal struggling toward immortality. There is nothing that will so thoroughly snarl up and gum up your works as hatred or dislike of a fellow creature.

And there is nothing that will make your life purr along like a well-oiled, well-balanced motor hitting on all twelve, as a sympathetic understanding of your fellow men; that is a habit which everyone should cultivate if for no other reason than a simple selfish matter of self-protection.

After a brief trial, the Brazilian government has suspended regulations providing for a mixture of alcohol and gasoline for automobile fuel.

It's no wonder gangsters are depraved, when you observe the kind of public officials they must do business with.

More Truth Than Poetry

By JAMES A. MONTAGUE

THE NEW FARMING

Time was I yearned for an abode
Beside a winding rustic road
Where I might learn
My bread to earn
By simple, toilful labors.
I hoped that I in time might find
Serene and placid peace of mind,
And spend my days
In rustic ways
With pleasant rural neighbors.

But lately it has come to pass
That husbandmen must peddle gas,
And leave the soil
To pump up oil
For motor lubrication.
He has to run a sandwich stand
And keep ice cream and pie on hand
And furnish maps
For city chaps
Who crave for information.

The farmer's life is no more spent
In healthful work and calm content.
The plough, gone bust,
Is red with rust,
The scythe is dull and jagged.
He has no time to mow the oats
Or minister to hungry shoats,
Day after day
He pines away;
His duties run him ragged.

TOO LATE

A new king has been born in France just at a time when unemployment for kings is so prevalent.

NOW THEY'VE WON

Isn't it about time that the Japs were asking for reinstatement as a member of the League of Nations?

YOU NEVER CAN TELL

When Primo Carnera was born his mother probably hoped that sometime she'd win a handsome baby contest with him.

America Unites Under NRA

By BRUCE CATTON

The encouraging thing about the program now being attempted by the national recovery administration is not so much that it is helping to beat the depression as that it is providing a rallying point for the emotional forces of the American people.

It is sometimes said that our country has grown too big—that its population is so large and its distances so vast that its people find it almost impossible to unite in one common cause.

At times, perhaps, this is quite true. What arouses the Pacific coast often leaves the middle west cold; what stirs the middle west is apt to be of small interest along the Atlantic. We are a people of diverse interests and, occasionally of divided loyalties.

* * *

But here is something that is taking hold everywhere. The blue eagle looks out from store and office windows along thousands upon thousands of miles of highways. Everywhere it stands for a mass awakening, a common cause which is appealing to Americans of every section and every class.

It is, in fact, a unifying force of a kind that we have not known since the war; and in its ultimate effects it may be a much more profound thing than any emotion the war brought us.

For the unification of 1917 was a cruel thing, in spots, and it was followed by disillusion. We felt ourselves lifted up, but in the let-down that followed we could not help seeing that there had been something just a little spurious about it all. Our ideals got lost sight of too rapidly. We had been brought together, but no one had applied cement to make our new union stick.

* * *

What we are getting now is something different. We are getting, at last, a new vision of what a united America could mean; a new realization of the mountains that might be moved if the American people as a whole could recover the faith that is their heritage.

We are engaged in an attempt to recover that faith, in a fight to gain a unity of purpose and outlook that will make up for the spiritual deadness of the post-war years.

It is a dozing giant, this great American people. The signs today indicate that it is about to awaken. When it does there is nothing that will not be possible for it to accomplish.

Barbs

Upon reading the statement of Elyria, O., bank tellers that 75 per cent of women depositors carry their money in their stockings, one naturally reaches a conclusion. The conclusion is that Elyria bank tellers should pay more attention to banking.

I am a man of peace.—Mahatma Gandhi.

How About Everything

By E. W. HOWE

Several years ago I had occasion to put a new roof on a house, and was talked into buying one of the best of the patent shingles now being offered by enterprising agents as better than old-fashioned pine. I have had constant trouble with the roof ever since. The man who sold me the patent roofing, after trying several times to make it satisfactory, finally admitted the best roofing material for the ordinary cottage is the old-fashioned pine shingle of first grade . . . Any new idea is a risk until it has been practically tried out at least a hundred years. I will remember that this summer when tearing off the patent roof, to replace it with old-fashioned pine . . . Thus I learn; thus everyone learns.

In a certain town there is a man everybody says is crazy. Lately he wrote a letter for the Public Mind column of the local paper, and the editor printed it exactly as written, as a "joke" . . . The man can't spell, but expresses more clear common sense about public affairs than I have known a citizen to write in years. He opposes the present mania for inflation; for government help for everybody; says the only remedy is economy, industry, better behavior, and less politics, and agrees with Europeans generally that Americans seem determined to commit suicide . . . A man knowing that much isn't crazy.

Millions still refuse to admit (or do not know, although the evidence has been before their eyes for a dozen years) the significant fact that Fascism has been a great success in Italy; that Mussolini, the dictator who organized Fascism and has ruled it ever since, is one of the greatest statesmen of all time . . . If you class Italian Fascism with Russian bolshevism, as most people do, you are making a serious blunder. The bolshevist revolt in Russia ruined Russia; the Fascist revolt in Italy saved Italy.

During the depression it seems to me I am able to note that blackmailing suits are largely increasing in number . . . And I wonder that courts permit seven-tenths of them to be filed and tried, and thus add to public expense and injustice . . . Another thing Americans must recognize before they can become reasonably clean—as clean as the people of other civilized nations—is that blackmail has become a recognized American profession, and wins more than half the time.

Reckless spending got us into the present fix, and every one of us is howling we can never be happy again until we somehow devise methods whereby reckless spending will no longer result in panics.

I have good children, but never claim credit for bringing them up well; they saved themselves.

The more young men act like cautious old men, the better they will get along.

Recently while walking on the streets an old lady timidly approached me, and asked if I could spare her a dime. I looked at her in astonishment, as she was decently though modestly dressed. If I know anything about her sex, she was a gentle and good woman; so I gave her much more than a dime. Then she began to cry and sob, and I hurried on, or I would have cried myself . . . In such help as I am able to give the worthy poor I prefer to exercise my own judgment. Last year there was so much unusual excuse for such action that I gave more than usual to charity, all worthily bestowed, and a hundred per cent efficient. I hope the good Lord gave me credit, if members of soliciting committees did not.

The farmers of Iowa lately hauled a judge off the bench at the end of a rope. In one of the accounts of the affair I have seen appears the picture of a farmer who lives on five thousand acres, and in a house of 18 rooms. He confesses he got into difficulty from buying additional land at absurdly high prices, in the hope of making money. So his trouble is plunging, as is the trouble with the speculators on Wall Street and elsewhere. And even now, although a farmer, he does not seem to be as bad off as some others; I have not seen a fatter, better looking farmer in years.

I have also frequently noted the man who is always telling what he says to his wife, something after this fashion: "Sweetheart, don't you think a little vacation would do you good? You are not looking any too well this spring, darling, and I am worrying about you," etc. . . . I rarely like such a husband.

Americans not educated themselves have a tremendous notion of the benefits to be derived from a classical education. I met a farmer recently who had lost his farm because of sending three sons to college. This father believed that a classical education would specially arm and equip his children for their battle with life, but he told me that, after graduation, his sons returned home, and he could not see they had been benefited. Employers even had a prejudice against them, and many ignorant foreigners were being given employment when his sons could not get it.

I know a woman I highly respect because she has managed her husband, children, grandchildren and herself specially well. I heard her say lately that she had sent her girls to the best private schools in the east, and that they protested, because these private schools were not as comfortable and luxurious as the free public schools they had attended at home . . . Remember, I am quoting a wife and mother, and a good one; this is not the comment of a low, vicious man.

EXPLANATION OF YESTERDAY'S CARTOON

A MIRACULOUS RECOVERY—Fred Kreiger of Gruver, Tex., who 30 years ago lost the sight of his right eye by a flying stick of wood, now recovered it in exactly the same manner. On New Year's day, 1932, Kreiger was building a fire while on an outing near his home when a piece of kindling wood he was breaking flew up and hit the same eye. He immediately recognized light, and sight has been improving steadily.

Lights of New York

By Paul Harrison

NEW YORK.—Central park is a good place to drive through casually, or stroll of an evening, or attend an outdoor concert. On the whole, it's a transient crowd that finds brief pleasure there, but there are a few isolated spots for more determined play by the same people, year after year. There is, for instance, the Union Croquet club, which is soon to celebrate its fiftieth anniversary.

It is down at the south end of the sheep meadow, on the west side of the park, and some of the members are there from morning until dusk practically every day of the year. Wintertimes, they usually move over a little to an earthen baseball diamond and shovel off the snow When it rains they merely hoist umbrellas and go ahead with their games. Such hardihood, they say, does a lot to controvert the idea that croquet players are doddering old fogies.

A lot of the members are, in truth, elderly and retired from business. Mr. James T. Gregg, the president, is one of these; but no one could call him doddering after seeing him swat an opponents' ball out of bounds. Many of the members are, for some reason, physicians and clergymen. There are 35 men and 6 women. The last of the charter members died only a few years ago. He was John H. Welch, who took up the game in 1884 when his doctor told him he had only a few months to live. But croquet the said kept him alive for nearly half a century.

The women hold their own with male competition, especially a Mr Kraigsman, who started playing from a wheeled chair several years ago and now walks around as well as anybody. She doesn't think, though, that she would be any match for Neysa McMein or Kathleen Norris, who are possibly the best women croquet players in the United States . . . The Union club's best players are men—Walter McCabe, a retired business man; Gleb Derujinsky, the sculptor; and Lars Gardell, a retired sea captain.

* * *

Bowling on the Green

Then there's the New York Law Bowling club, which traces its lineage back to New York's earliest days, and has been at the other end of the Central park sheep meadow for many years. There are some 50 members of this organization too, and they comprise about the same type of men except that most of them are Scotch and that they bitterly resent the suggestion that bowling on the green is an ancient Dutch pastime.

They have a fenced green, with special permit from the city, and they bowl there four days a week. In some cases memberships have passed to the second and third generations, and five or six old codgers now sit around at some of the matches to watch their sons and grandsons uphold the family honor.

* * *

Sailing Yacht Models

You wouldn't think that Conservatory lake, a shallow, two-acre pool in Central park, would have much attraction for a lot of he-men. But there are 60 of them who sail model boats there, and as many again who are on the waiting list for storage space in the little boathouse nearby.

No ordinary toys are these, but six and seven-foot scale models of some of the most famous yachts and schooners and sloops in the world. The little sisters of Weetamoe and Enterprise are there, and couldn't be bought for a thousand dollars. Others are built on designs original with their makers and the latter are mostly fine crafts men—jewelers, mechanics, cabinet makers and such—who have made model sailing their hobby. Sometimes they take their boats to races in other cities, and even to England, when the annual meet gets as much attention as the Cowes regatta.

Conservatory lake has helped turn out some famous yachtsmen. Frederick H. Prince, Gerald Lambert and Harold S. Vanderbilt used to sail boats there when they were kids. And Nat Herreshoff, probably the most able of present-day yacht designers, still comes around occasionally to pick up new ideas.

SAIL PLANE RECORD SET

DUISBURG, Germany.—(AP)—Hans Burzlauer set a new sail plane record when he flew 76.6 kilometers with a passenger from this city to Eindhoven. The previous record for a flight with passenger, held by Guenther Groenhoff, was 33 kilometers. Burzlauer was towed to 1,500 meters height by an airplane and later was able to mount to 3,200 meters.

Spain has 50,000 gypsies within her boundaries.

DUCHESNE GIVEN 12-MONTH TERM

Negro Pleads Guilty to Attempted Murder by Poisoning

After entering a plea of guilty to a charge of assault with intent to murder in district court Saturday, Rufus Duchesne was sentenced to serve 12 months on the parish roads. The case grew out of an attack on Jesse Oliver, who was severely injured when slugged on the head.

Archie Hill, negro, pleaded guilty to a charge of attempted murder by poisoning and was sentenced to serve a term of 13 1-3 to 20 years in the state penitentiary. L. A. Shackelford was given 30 days for carrying a concealed weapon and Richard Moore, negro, was given 60 days for larceny of a suit of clothes and a pair of shoes. Sentences were imposed by Judge David I. Garrett.

The case against Hill was pointed to as one of exceptionally "quick justice," as the offense of which the negro was accused occurred Thursday night and he was arrested Friday morning. Hill admitted he gave strychnine to Curtis Tucker, negro, in hamburgers and then attempted to club him to death with a boat paddle and throw him into the river near Bosco.

Tucker said he had known Hill only about a month and that the latter had become angry over a bill he claimed Tucker owed him. While they were together Thursday night, Hill bought two hamburgers and gave them to Tucker, the latter said. After he had eaten part of one of the hamburgers, Tucker noticed it was extremely bitter and threw it away, he told Sheriff Milton Coverdale. Shortly afterward he became extremely sick. He was then persuaded by Hill to start across the river in a boat, Hill telling him they would go to his brother-in-law's house and spend the night.

It was while on the boat trip that the attack with the paddle occurred. Tucker, who was larger than his adversary, succeeded in subduing him sufficiently to compel him to return to the bank.

Members of the sheriff's department conducted an investigation which established the fact that Hill had purchased strychnine and hamburgers.

DEALING OUT THE BLUE EAGLES IN CHICAGO

As each mail brought in more signers to the national recovery act, workers in the federal building in Chicago were kept busy sending NRA banners to firms complying with provisions of the recovery administration. (Associated Press Photo).

GREAT METEOR SHOWER FALLS

Perseids Brighten Skies; Astronomers Photograph Fire Balls

MOUNT WILSON OBSERVATORY, Cal., Aug. 12.—(AP)—One of the greatest showers of meteors in modern times fell into the earth's atmosphere last night and early today to brighten the skies and record itself on sensitive photographic plates of astronomers stationed on Southern California mountains.

J. Wesley Simpson of the American Meteor society, here from Illinois to watch the spectacle, said he and his assistants had counted 1,100 fire balls, some of them as bright as the planet Jupiter and one, the trail of which glowed for 15 seconds, brighter than Venus.

"Of course," he commented, "some of our counts were necessary duplications but J. Fletcher Hickerson on Mt. La Crescenta has not reported his count yet, and it is safe to say that our figures will be increased at least 500 or 600 by his observations."

The third station recording the count by eye and camera was at Barley Flats in charge of J. Arthur Pedersen.

The meteors, known as the Perseids, which put on an annual show, fell at the rate of 120 an hour from 2 to 3 a. m., said Simpson. In one 15-minute period 32 were counted.

Three stations were utilized to create a "simultaneous photographic height." This permitted calculations as to the night of the balls when they were first seen, their height when they burned out, their course and other data in spite of the curvature of the earth's surface.

M'CLARY EXPLAINS NRA PROVISIONS

Chamber of Commerce Secretary Tells How to Get Blue Eagle

Responding to numerous requests from employers of Monroe and West Monroe for information on exactly what are the requirements for obtaining the Blue Eagle, symbolic of compliance with the national recovery act, S. H. McClary, secretary of the Chamber of Commerce, has issued a statement, prepared from information received from the recovery administrator, on this question. The statement is as follows:

"To all employers who are not working under codes approved by the president and who ask: 'How do I obtain the Blue Eagle?' the answer is, there are three methods which may be pursued.

"The first is, sign the president's re-employment agreement as is, without change or modification. Mail it to the district office of the department of commerce. Put its provisions into operation. Sign the certificate of compliance. Hand it to your local postmaster, who will post your name on the honor roll and hand you the Blue Eagle.

"The second is, if your line of business has submitted a code and the NRA has temporarily approved hours and wages to be in effect until the code itself is approved by the president, do this:

"Sign the president's re-employment agreement. Mail it to the district office of the department of commerce. Comply with its provisions as far as possible. Now, if a specific code has been submitted by your industry and its wage and hour provisions accepted by the NRA deputy administrator, sign the certificate of compliance with this endorsement: 'To the extent of NRA consent as announced, we have complied with the president's agreement by complying with the substituted provisions of the code submitted for the (blank) trade or industry.' Hand this to your postmaster, who will post your name on the honor roll and hand you the NRA Blue Eagle.

"If neither plan one nor two applies and you feel you have to file a petition for relief, do this:

"Sign the president's re-employment agreement and mail it to the district office of the department of commerce. If you find you cannot comply with most of its provisions, then prepare a petition to the NRA asking for a stay or postponement of those provisions which would produce an 'unavoidable hardship.' Submit this petition to the trade association of your industry, or, if none, to your local Chamber of Commerce, or such other organization as can properly vouch for the facts. If officially accepted by one of the above, add the following to the face of your certificate: 'Except for those interim provisions regarding wages and hours which have been approved by the (blank) association or organization.'

"Then the postmaster will authorize you to use the Blue Eagle. This last procedure may take some time and is, of course, subject to reversal when your petition is reviewed by the NRA."

BICYCLE IS FOUND

A bicycle stolen Thursday night from Bill Orchard, living on DeSiard road, was recovered Saturday, according to a report at police headquarters. The wheel was said to have been stolen from in front of the Home grocery on Washington street and to have been recovered at 704 Washington street.

FOR Cuts MOROLINE WHITE PETROLEUM JELLY LARGE JARS 5c AND 10c

The naval orange industry of California developed from two small trees planted in 1873 at Riverside, by Mrs. Eliza Tibbers; she secured buds from trees in Washington, D. C., that had been brought in from Brazil.

Lake Providence

Mrs. Ernest Bell and daughter, Anne, of Pine Bluff, Ark., were guests in the home of Mrs. J. C. Gross last week-end.

Miss Marie Louise Gross is welcomed home after a delightful vacation of six weeks spent in St. Louis, Chicago and Pine Bluff. Miss Gross visited the world's fair and also attended the national convention of the Delta Zeta sorority held in Chicago.

Charles Surles, son of Mr. and Mrs. Clurin Surles, had the misfortune of falling off his horse and being dragged for a short distance which caused his back and chest to be skinned badly and one of his legs to be broken.

Mrs. A. R. McCantaz and two children, Barbara Jane and Dan, have returned to their home in Weslaco, Texas, after a delightful visit of four weeks with her mother, Mrs. S. R. Wall.

Miss Ottilie Wall has returned from New Orleans, where she has been for the past two months attending summer school at Tulane and visiting relatives.

Harry Blunt, Jr., has returned after a pleasant visit of a week with his grandparents, Mr. and Mrs. Hooter of Oak Grove.

The Methodist Missionary society held its regular business meeting Monday afternoon. The subject for discussion was "The Status of Women in the Church."

Rev. and Mrs. H. B. Hines, Mrs. J. P. Davis, and Mrs. Bonner were delegates to the missionary zone meeting in Rayville last week.

The Carroll Woman's club had their "open meeting" Thursday night at the lovely plantation home of Mrs. J. G. Wyly. On this night the members were privileged to invite their husbands and friends, and bring their lunch for a box supper.

A very delightful feature of the evening was the rendition of several dance selections by Theo, Frances and Sarah Chase Clark, attractive young daughters of Mr. and Mrs. Clark. A vocal solo was rendered by Mr. Keith and several musical selections by Miss Agnes Hamley, who also furnished the music for a lovely old fashioned square dance at the close of the evening. All enjoyed the meeting very much and expressed their anticipation of another "evening of fun" next summer on "open meeting night."

Mrs. C. M. Bass was among the hostesses of the week entertaining very charmingly for bridge at her lovely plantation home. Mrs. J. L. Johnson won first prize, Mrs. A. G. Frost won second and Mrs. C. B. Mitchell cut consolation. Those enjoying Mrs. Bass' hospitality were: Mesdames Roy Abernathy, Gertrude De Wesse, A. G. Frost, Leon Harbin, J. L. Johnson, C. B. Mitchell, J. C. Surles and C. E. Newman.

Mrs. J. N. Hill, Jr., entertained in the afternoon Thursday of last week at a very delightful children's party, complimentary to her little daughter, Betty, who was six years old. She had as her guests an interesting gathering of the young set.

Insurance Firm Files Incorporation Papers

Articles of incorporation for the Southern Industrial Life Insurance Company of West Monroe, Inc., were filed Saturday in the office of the clerk of court.

It was stated that the purpose of the concern is to carry on an insurance business of the industrial life variety on which collections are made at least once a month. Policies will not exceed $500 for each life nor $20 a week for sickness or accident.

Capital stock was placed at $10,000 divided into 1,000 shares valued at $10 each.

Sam H. Humphries was shown as president; E. O. Smith, vice-president, and Mrs. F. C. McConnell, secretary-treasurer. Other directors in addition to these are: Dr. E. Powell and H. D. Montgomery.

Shares of stock were subscribed by 16 persons. Mr. Humphries subscribed 819 shares, Mr. Smith 140 shares, Mrs. McConnell, Dr. Powell and Mr. Montgomery 10 shares each, while one share each was taken by the following persons: W. S. Heard, C. B. Lewis, W. C. Fisher, H. A. McDonald, Leon L. Wood, R. D. Sisson, E. D. Cason, T. C. Drew, J. L. Warren, J. N. Knowles and C. C. Bell

Ford Motor Company
Dearborn, Mich.

The reasons are worth knowing

Henry Ford
Dearborn, Mich.

Last week we told you how the 8-cylinder motor made its entry into the low-price field.

But an "8" is not the whole story. There are two varieties of the "8".

We have chosen the V-8 --a motor with two banks of cylinders set at an angle opposite each other, instead of all eight cylinders in a line. There are good reasons for this.

When we take 8 cylinders and set them four on a side, the length of the motor is reduced about half; it becomes a sturdy and compact power plant. The V-8 motor is 4 cylinders long; if the cylinders were set in line the motor would be 8 cylinders long. This would sacrifice compactness.

One simple advantage of the V-type is that it gives more room in the body of your car. In the medium-size car that is built for economical operation this is important. And it accounts for the generous interior body room of the new Ford V-8.

Another advantage concerns the motor itself. The V-8 type of motor, with its two short banks of cylinders, cuts in half the distance which the gas mixture must travel to the end cylinders. This gives a more uniform distribution to each cylinder and makes a smoother running motor. Also, two water pumps and two streams of water cool the cylinders instead of one stream. This means more uniform cooling.

Other points of advantage I reserve for another letter. To mention one:— When we seemed to be slow in introducing the new Ford V-8 the delay was caused by our doing a very important thing in the interest of strength, long service and efficiency.

We were perfecting the V-8 cylinder block as a one-piece casting.

As a result our cylinder block is not made of two or three castings bolted together. It is one compact whole, which permanently keeps the operating parts in perfect alignment. We cannot expect the general reader to appreciate the difficulties we had to overcome before this could be done. But if you ever have a chance to see our cylinder block casting before it goes into an engine, you will marvel that it could be done at all.

We are the only manufacturers now doing it this more expensive way.

Our new car is making its way so rapidly, on its own merits, that it is worth knowing some of the reasons for its success.

Henry Ford

FEDERAL LIQUOR TO BE INCREASED

Seven Million Gallons of Medicinal Whisky to Be Made

WASHINGTON, Aug. 12.—(AP)—Seven million gallons of medicinal liquor may be made in the United States next year—exactly three and one-half times the amount permitted in 1933.

This increase was authorized today by the bureau of internal revenue with the explanation that it was required because of heavier consumption since congress relaxed the laws governing liquor prescriptions.

It was said unoficially that the total would have to be raised still more if the eighteenth amendment should be repealed, or if the demand for prescriptions should increase further.

Since 1929, 2,000,000 gallons have been authorized annually.

The present supply of medicinal liquor was estimated by the bureau at approximately 11,000,000 gallons of aged stock.

Custodians of the government's stock of whisky have forecast a shortage in the event prohibition repeal should be voted at an early date.

Of the 11,000,000 gallons now stored in government warehouses not more than 4,500,000 gallons could be used next year if it were aged for the required four years.

After that, 1,000,000 gallons a year will become marketable until a new supply has aged sufficiently.

In informed circles it was said prospects were small for supplying any sizeable demand for properly aged whisky for two years or longer except through importation of foreign liquors. It was added the duty on them might result in high prices.

Thus far, 21 states have voted for repeal of the eighteenth amendment and, on present indications, 18 more will record their decision before the year end. Affirmative action by 36 is necessary to bring repeal.

The next state to vote will be Missouri a week from today, followed by Texas on August 26.

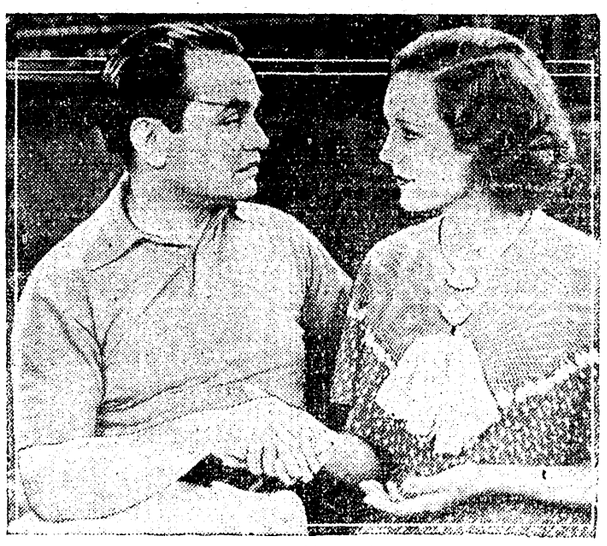
HOTEL 15 o'CLOCK

HIS FIRST LESSON IN LOVE



Mary Astor shows Edward G. Robinson the proper way to propose to Helen Vinson, a third member of the triangle in "The Little Giant," the First National hit at the Capitol Sunday and Monday. The film offers Robinson in the comedy role of a hard-boiled beer baron who tries to crash into society. How he does, with the aid of a vanload of Chicago's toughest, makes for one of the most amusing comedies of the season.

TODAY'S AMUSEMENTS

AT THE PARAMOUNT.—Whenever Helen Hayes hears herself referred to as the "screen's greatest actress," she shudders. Acting ability, she says, is not sufficient to hold a star on the screen. Personality is more important to the camera, she believes.

"I feel myself lacking in some important essential when I hear so many flattering things said about my ability as an actress." Miss Hayes declares. "It is as though Helen Hayes were only an actress, not a person."

Personality is photographed on the screen, Miss Hayes says. Without it, acting ability is useless.

"There are any number of splendid actors in pictures who always may be relied upon for fine performances. But they are never starred or featured. They never get anywhere. As the exhibitors say: 'They don't draw a dime into the box office.' Yet they are often better actors than the stars they support. Their trouble is in personality. It just doesn't photograph."

Film stars, Miss Hayes observes, are really themselves on the screen, as far as personality goes, if not character.

"You know that Bob Montgomery off the screen is the same flip young person of his film roles," she adds. "The same goes for Clark Gable. You are sure to find him off the screen exactly as he is on, as far as personality is concerned. It is the personal magnetism that makes them attractive to begin with, that has most to do with making them stars, coupled with acting ability, of course."

Screen personality, Miss Hayes states, is not an accidental quality. It comes of intelligence, poise and adaptability to roles.

"The actor on the stage needs personality, too. But it is not photographed and projected five times almost into the collective face of the audience. He might hide a poor personality in a bright role. But on the screen he would be lost. He has to have the personal magnetism a camera can capture."

Miss Hayes is co-starring with Montgomery in "Another Language," which is now playing at the Paramount theater as a new Metro-Goldwyn-Mayer feature.

AT THE CAPITOL.—When an underworld big shot decides to turn gentleman, give up rum-running for tea dances, exchange his machine guns for books on philosophy and expensive etchings, trade in his liquor trucks for polo ponies; when he begins to talk with a broad A, lapsing into a bit of French now and then—when, in short, he makes up his mind to "muscle in" on society and be a millionaire among the millionaires, the result is likely to be hilariously funny.

It would be funny, even in real life. But when the gangster turns out to be Edward G. Robinson, as he does in his latest First National picture, "The Little Giant," which appears at the Capitol theater Sunday and Monday, you can settle back in your seat to follow his adventures with the prospect of an amusing hour ahead.

"The Little Giant," may be regarded as prophetic picture of what those bootlegger leaders who have survived the bullets of gangland, and who may have held on to their ill-gotten wealth, may do now that real beer has become legal in the United States.

The picture is not a gangster story in the ordinary sense of the word. Far from being the deadly menace of society, Robinson plays the sucker to a family of alleged society folks to such a marked degree, that "The Little Giant" may well be called Robinson's first comedy. Advance reports from Hollywood refer to the picture as being "Novel, as lively as a bunch of exploding firecrackers, full of laughs and as comedy entertainment of the most pleasing type, with cleverly constructed drama."

After proving a boob in the hands of these society gyp artists, Robinson is taken for his bank roll. How he reacts after he discovers he has been trimmed, forms the basis for some of the most hilarious sequences ever shown on the screen.

Mary Astor as Robinson's leading woman in "The Little Giant," brings once more her individual beauty and charms.

Russell Hopton, well-known for his vivid characterizations on the stage and the screen, will be seen as Robinson's right-hand man. Helen Vinson, Donald Dillaway, Kenneth Thomsen, Berton Churchill and a large cast of supporting players work together to make "The Little Giant" one of the most unusual comedies of the season.

Dinner to Be Spread At Revival Meeting

In connection with the revival meeting being conducted at the church at Spencer, across the river from Sterlington, by Rev. E. A. Bateman, evangelist, dinner will be spread at the grounds today, Rev. G. E. Goodman, pastor, said. A large crowd is expected for the meeting.

The evangelist's sermon subject for tonight will be, "Which Way America?" He spoke Saturday on "The Sign of the Beast," or "Is the NRA the Sign of the Beast?"

Located in a grove of pine trees, the church is said to be a pleasant place to spend the day. It is on a gravel highway and the grounds are electrically lighted.

HOSPITAL, HEAVY DRAIN ON STATE

(Continued from First Page)

Danna, Leake and other entries in a long line of hospital house surgeons had no political support, either during their terms of office, or afterwards. Until Dr. Arthur Vidrine was placed in charge of the institution by Governor Long, political considerations did not control hospital appointments. Now, they appear to control them exclusively.

There were 3,095 persons on the payrolls of the Charity hospital on July 1. Of these 64 were internes, 50 were on the officers' checks roll, 36 were on the weekly payroll and 2,945 on the monthly payroll. The total salaries paid for the quarter ending June 30 were $165,738.99, or about $55,000 per month, or $660,000 per year. The hospital's entire state appropriation for 1932-33 was $1,096,000.

Salary classifications for the quarter were:

Monthly payrolls	$130,898.07
Weekly payrolls	8,453.95
Officers checks	24,749.45
Insurance cert. (internes)	1,637.52
Total	$165,738.99

An examination of the hospital payrolls on file in Baton Rouge suggests two facts: first, Dr. Arthur Vidrine, with whom Governor Long replaced House Surgeon Leake shortly after the Winnfield statesman's induction into office, is essentially a family man. Second, he has an overwhelming predilection for men and women of the creole race. That is to say, the doctor takes care of his own. There is no reason, of course, why the good people of southwest Louisiana should not get their share of hospital patronage while it is being dished around. But the preponderant number of French names on the hospital payrolls, most of them in name groups, must be regarded as having political significance.

Here are two of the official groups:

Dr. Arthur Vidrine, superintendent, $833.33 per month; Helen Vidrine, stenographer, $142 per month; Mae Vidrine, night maid, $50 per month.

Dr. W. A. Ellender, assistant house surgeon, $190 per month; Dr. Willard Ellender, assistant house surgeon, $200 per month; Wilmer Ellender, graduate nurse, $100 per month; Lucille Ellender, student nurse, $15 per month.

On the monthly payroll are to be found the following names:

Blanchard, 4, Adrea, Elmore, Lillian and Medric.

Boudreaux, 9, Benny, Claiborne, Eva, Magdalen, Margaret, Marie, Philo, Thomas and Wallace.

Bourgeois, 5, Charles, Eula, Viner, Willie, Jr., and Willie, Sr.

Boydell, 3, Evangeline, Mrs. Sallie and Thelma.

Burges, 4, Alice, Eloise, George and Sarah.

Carmouche, 3, Joseph, P. J., and Rodney.

Charrier, 7, Mrs. Willie, Destor, E., Ella, Emery, H., J. B. and Verner.

Comeaux, 4, Ernest, Estelle, Honory and L.

Deshotel, 4, Albert, Carl, Charles and Newman.

Ducote, 3, Edna, Mathilda and Robert.

Brown, 5, Alma, Charlotte, Elizabeth, George and Lucy.

Carter, 4, Mrs. A. J., Corinne, Lucille and Rita.

Dufresne, 3, Elta, John and Wilma.

Falcone, 3, Josephine, Lucille and Virginia.

Fernandez, 3, Juanita, Julie and Leona.

Gaudet, 3, Eunice, Hazel and I.

Gebs, 3, Gertrude, Lillian and Mildred.

Green, 4, Nancy, Paul, Philip and Ross.

Gremillion, 3, Lucille, Marie and Vivian.

Guidry, 5, Denaize, Hazel, J. M., Louise and Miss Guidry.

Guillory, 3, Alfred, Eddie and J. B.

Guillot, 4, Clebert, Helena, I and Ella.

Hebert, 3, Katherine, Louise and Oscar.

Hotard, 4, Annette, Thomas, Ethel and Melvina.

Lafleur, 3, Clifford, Lena and Louise.

Lanry, 8, Algee, Elphage, Elvira, Eugene, Jeanne, Nella, O. and Robert.

LeBlanc, 10, Mrs. Adams, Agnes, Anita, Eve, L., Marie, Mathilda, May, R., and Trez.

Ledet, 3, Corinne, Lorette and T.

Morris, 4, Bertha, Emanuel, Ella and George.

Prejean, 4, George, Julia, Mary and Marie.

Scott, 4, E., John, Josephine and Nancy.

Theriot, 3, Dr., Gilbert and Una.

Thibodeaux, 9, Anita, Charles, E., Irene, Jules, Lucille, Mary, Roy and Sue.

These are by no means the only name groups on the payrolls of the New Orleans Charity hospital. There are many others. The grouping of the names is a peculiar and significant fact not encountered in the records of any other state department or institution, including the highway commission. While it is impossible to tell from an examination of the hospital salary lists who is related to who and how, it is believed that a large number of families are being taken care of by the hospital management.

Dr. Arthur Vidrine is probably the highest paid official in Louisiana. According to the record he outranks in this regard even James Monroe Smith, president of the Louisiana State university, whose yearly stipend, recently increased, is $12,000 per year.

Up to a few months ago Dr. Vidrine was paid as chief administrator of the charity hospital $791.67 per month, or $9,500 per year. Recently his salary in that capacity was raised to $833.33 per month, or $10,000 per year. On the payroll of the medical center he is listed as drawing $200 per month, which gives him $12,400 per year and a $400 advantage over President Smith.

Dr. W. A. Ellender is a brother of Speaker of the House A. J. Ellender, of Terrebonne. He appears on the officers checks roll as assistant house surgeon at $190 per month. The name of Dr. Willard Ellender is found on the monthly payroll as assistant house surgeon at $269 per month. Dr. Felix Blanche appears on both payrolls at $150 per month each. He, also, is an assistant house surgeon. His total salary is $300 per month. The combined salaries of Dr. W. A. Ellender and Dr. Willard Ellender are $390 per month. Dr. J. D. Bradley, senior house physician, draws but $141.66 monthly.

Judged by what it cost, social service at the New Orleans Charity hospital is a very vital factor. Here are monthly salaries paid to some of the social service workers: Beatrice Hodge, director, $316.66; Lydia Finley, $290; Mary Blanche Moss, $197.92; Catherine Purcell, $190.

A complete list of the officers' checks payroll follows, the salaries given being in every case monthly compensation:

Dr. Richard Ashman	$208.33
Dorothy Banister	125.00
Roger A. Blanchard	150.00
Dr. F. T. Bodreau	50.00
Dr. J. D. Bradley	141.66
Dr. Edna Brown	250.00
E. Cassanova	150.00
Eugene Cazenave	300.00
Dr. John Connell	200.00
Dr. A. L. Vulpepper	75.00
Dr. Rigney D'Aunoy	300.00
Dr. A. J. Devlin	125.00
Dr. W. A. Ellender	190.00
Dr. Florence Evans	125.00
Dr. George Fastine	287.50
Dr. Archine Fine	150.00
Lydia Finley	200.00
Fernand Foret	118.76
L. L. Foret	137.76
Dr. Amadee Granger	300.00
Dr. Richard Greenblatt	75.00
Beatrice Hodge	316.66
Dr. J. K. Bowles	25.00
Dr. Edgar Hill	116.66
Dr. Gayle T. Johnson	25.00
Albert Lauve	175.00
Fred W. Matthews	316.64
Ester McIlwee	75.00
Dr. J. W. Miles	50.00
Mary Blanche Moss	197.92
Dr. Walter Moss	300.00
Dr. W. D. Norman	50.00
Dr. Farrar G. Patton	150.00
Dr. Felix Blanche	150.00
J. V. Ponder	275.00
Catherine Purcell	190.00
Andrew Ramelli	185.00
Una Robertson	85.00
Eva Robichaux	85.00
Mae Roneau	85.00
Dr. J. T. Sheppard	50.00
Dr. F. C. Shute	150.00
Wm. A. Stumpf	150.00
Dr. J. R. Theriot	50.00
Dr. H. A. Thomas	150.00
Dr. C. Tripoli	50.00
Dr. Arthur Vidrine	833.33
H. Weithman	200.00
Dr. Roy Wright	400.00
Miriam Young	125.00

In the matter of making original appointments at the New Orleans Charity hospital, as well as in filling vacancies, the ipse dixit of Senator Huey P. Long is alone conclusive. He is known to have directly placed appointees in the hospital, making places for them when there were none. And all selections must bear the stamp of his approval. It is quite probable, of course, that he approved a number of the selections of Dr Vidrine. But no man or woman can serve at the Charity hospital, in any capacity, without his final authority.

Governor after governor went his destined way at Baton Rouge without harboring even a thought of directing the activities of the Charity hospital, or interfering with the organization personnel. The governor is ex-officio chairman of the hospital board and attendance upon the meetings of that body was the extent of active executive connection with the institution until Governor Long was sworn in. Now, the hospital force is an integral part of the state machine. If it doesn't realize that fact, it will when occasion demands it.

Yet, notwithstanding his political use of the hospital, (which included extensive use of hospital facilities by administration leaders and their political friends), Senator Long has not always been kind to the New Orleans institution. It was one of the state agencies which suffered from the partial withholding of appropriations during the past fiscal year. The legislature gave the hospital $1,036,000 for the year's operations, but Senator Long permitted Governor Allen to allow it to draw only $964,666.65 during that period. This little shortage of $231,333.35 would have put the hospital on Easy street, and it would have been able to meet its expenses and have something left over for a rainy day. But, since it is quite clear that if the full appropriation had been paid the state house boys would have suffered proportionately, it could not be done.

The medical center established in New Orleans because Tulane refused to confer an honorary degree on Governor Huey P. Long, or at least was definitely cold on the subject, is part of both the state university and the Charity hospital. It is indirectly under the supervision and administration of President James Monroe Smith, and at the same time Mr. Smith reported to the legislature that "the Charity hospital and the Louisiana State university school of medicine combining a portion of their facilities, make up what is known as the "Louisiana State University Medical Center."

The medical unit has the highest per capita cost of any state department, institution or utility and returns less to the state. While the claim has been insistently made that there is no tuition fee at the medical center and the students there get their professional training absolutely for nothing, President Smith registers in the state university budget an item of $9,650 obtained from tuition fees at the medical school in 1932.

HELD IN MISSISSIPPI DEATH

Dr. Sarah Ruth Dean, (right), was held in connection with the death of Dr. John Preston Kennedy (left), 40-year-old surgeon of Greenwood, Miss., who allegedly was poisoned. (Associated Press, Photo).

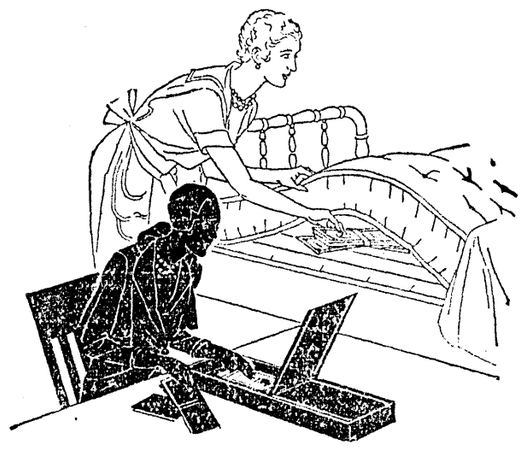
When the skin is moist, the resistance to electricity is greatly decreased and serious shock may result from relatively low voltage.

Shoe Repairers Agree On Recovery Act P

Monroe and West Monroe shoe pairers have agreed to support P dent Roosevelt's national reco act and all rules and regulations be observed, Nicholas Bruno, cl man of the group, said Saturday. the same time he stated the shoe pairers had practically all agreed u a schedule of prices.

An organization has been perfe and will be known as the Twin Shoe rebuilders. Mr. Bruno has l named as chairman and correspon secretary, and J. U. Liner of Monroe has been named as assis

In regard to prices, it was st that there would be no change present. The shoe men took the sition that they would rather until people have felt the ben of the recovery program before vancing prices



Hidden Doesn't Mean "SAFE"

Valuables, important papers or securities that are stuck away under mattresses or hidden away in dresser drawers, trunks or out-of-the-way places might not be found so easily, but they are in danger—possible theft and the lurking hazard of fire. They should have the sure protection of a Safety Deposit box in our vault. You will find the price most reasonable.

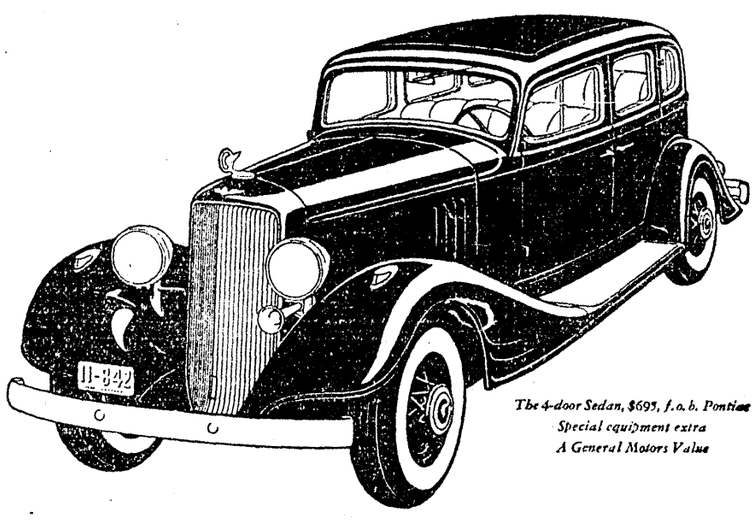
Pontiac .. THE WORLD'S LARGEST BUILDER of STRAIGHT EIGHTS



The 4-door Sedan, $693, f. o. b. Pontiac
Special equipment extra
A General Motors Value

Here's why America is buying them!

Men and women are buying more Pontiacs than any other car in Pontiac's price range! Why? Because they have found that this *big, modern Straight Eight* excels on all counts . . . as you will find when you see and drive it.

You get power in a Pontiac—*more power than you'll find in any other automobile at or near its price*—delivered far more smoothly by Pontiac's 77-horsepower Straight Eight engine.

You get more *speed*, too—78 actual miles per hour. Your Pontiac *holds the road* better—*rides more comfortably*—because it's a *big* car, with 115-inch wheelbase and well-distributed weight (3265 pounds, curb weight, for the 4-door Sedan). And it's the only car in its price range with the Fisher Ventilation System—greatest comfort factor since the development of the closed body.

There just isn't anything to compare with Pontiac at its price. In Fisher Body beauty—in comfort—in Straight Eight performance. That's why America is buying Pontiacs. That's why you'll prefer Pontiac, too.

W. C. FEAZEL ASKS NRA COOPERATION

(Continued From First Page)

living wage, the present goal being the placing of five million people at work by Labor day.

"Simply reducing operating hours without employing the other steps enumerated above cannot possibly be expected to accomplish the desired result. This alone would put no one who is now unemployed to work and would seriously retard business progress. It might be possible to comply with the letter of General Johnson's order by reducing hours of operation, but certainly this would not be a compliance with the spirit of the movement. It is to be hoped that places of business and industrial plants will operate on at least a normal weekly basis. We cannot expect to succeed in our recovery efforts by curtailing our hours of operation. Everyone knows that shorter working hours and higher pay mean the increase of overhead expenses unless the hours of operation are reduced and the public will be willing to absorb in the way of advance in prices a substantial part of the additional operating costs. However, the employer is expected to bear part of this additional cost himself; otherwise, he would be making no sacrifice in the interest of national recovery. Patriotic effort is only required where there is a personal sacrifice to be made and I take it that the signing of the blanket agreement and the displaying of the NRA emblem is an expression on the part of business to make a patriotic sacrifice in the interests of public welfare.

"The employes of the community also have a very important and patriotic duty to perform in order to make the NRA a complete success. They should cooperate in every way possible and show their appreciation by supporting the firms and industries which comply with the spirit of the NRA.

"The government in the administration of the act will expect fair competition in business. Firms in similar lines of business should cooperate with each other in the matter of hours of operation, increases in overhead expenses, and other matters relative to a fair return on the business being conducted. I suggest that each firm make a sincere effort to comply with the spirit of the movement without waiting to see what its neighbor is going to do, and with as little criticism as possible. If you comply with the spirit of the movement and your neighbor fails in his duty, public sentiment will soon sufficiently punish the slacker, as well as reward the deserving.

"In the absence of more specific information, I am going to ask all business, as well as labor, to make every sacrifice necessary in order to comply with the spirit of the NRA. If we would all do this without waiting to see how little is necessary for us to do in order to comply with the letter of the code, our community will soon be a happier and more prosperous one and we shall have the satisfaction of having willingly done our part to eliminate unemployment and restore national prosperity.

"The NRA emblem is a badge of loyalty and its meaning will not be permitted to be cheapened by its use by those evading the spirit of the act. Anyone who is unwilling to make the sacrifice necessary to comply with the spirit of the act should voluntarily remove the emblem from their places of business."

WASHINGTON, Aug. 12.—(AP)—Approval by President Roosevelt of a long list of state engineers tonight placed the public works administration in a position to deal immediately with applications for funds for non-federal projects in all parts of the country.

But few vacancies remained in the emergency organization set up to spend $3,300,000,000 on federal and non-federal public works projects, although a few engineers and other officials were yet to be appointed.

The engineers will assist state public works advisory boards in passing on applications for funds before the pleas for money are sent to Washington for consideration by the special public works board headed by Secretary Ickes of the interior.

The appointments of the state engineers included: Kansas—Robert J. Paulette, Salina; Texas—Robert A. Thompson, Dallas; Alabama—Armous C. Polk, Birmingham; Arkansas—(appointment to be announced later; Louisiana—Orloff Henry, New Orleans; Mississippi—(appointment to be announced later); Tennessee—Colonel Harry S. Berry, Nashville.

The Reliance Industrial Insurance Company, Inc., among first, providing burial benefits to legally qualify under new ruling of State Insurance Department. Following text of letter to prospective purchaser of policy recites benefits of policy and legal status of company.

"As you are interested in the purchase of a burial benefit and accidental death or disability policy from the Reliance Industrial Life Insurance Company, and have called upon us for advice as to the merits and safety of such policy, we wish to advise as follows:

The policy presents one of the fairest contracts of insurance of this kind which has come to our attention, and should constitute a sound investment. It takes care of life's deepest bereavement by providing immediately a comforting funeral for any of your loved ones.

You are given all the protection under one of these policies that the law can afford. This company, with its main office at Baton Rouge, Louisiana, and branches all over the state, was one of the first to qualify under existing laws and has been since its organization legally formed and authorized by the State Insurance Department to sell this policy. Every policy holder or creditor of the Reliance Industrial Insurance Company our investigation discloses, is guaranteed the benefits of his contract by an ample deposit of securities made by this company with the State Treasurer, and the company's business is under state regulations.

We have made our investigation of this company extremely thorough, for the reason that a few weeks ago some persons residing at Winnsboro, Louisiana, who were interested in a company promising burial benefits, became alarmed at the large number of policies being sold by The Reliance Industrial Life Insurance Company in that vicinity, and being unable to compete with this policy, which we recommend to you, had an agent of this company and the president maliciously arrested. This company issuing burial contracts at Winnsboro has no deposit with the Treasurer of the State to guarantee its contract.

This firm at the present time, has under consideration the filing of a civil action for damages, because of the libelous and slanderous statements made against this company, its president and agent.

MACHADO FLEES AS CUBANS RIOT

(Continued From First Page)

other points of advantage without firing a shot, approved the choice of Senor Cespedes as the new president and gave permission for General Herrera to remain as secretary of war until the scheduled legal succession to the high office could be completed.

All political factions joined the military chiefs in approving Cespedes for president.

The situation in the interior of the country remained obscure, as communications from the capital had been cut off.

When Colonel Antonio Jiminez, chief of the secret police, wounded one of the demonstrators, a group of soldiers shot Jiminez to death and cheering men kicked the body and trampled it.

A throng of several hundred rejoicing persons formed in front of the American embassy, cheering loudly.

The home of Octavio Zubizarreta, secretary of the interior in the overthrown government, was looted and fired by the mob this afternoon, similar treatment was dealt out to the home of Jose Izquierdo, chief of the Havana central district.

Late this afternoon it was known that at least six men had been killed in the street disorders. Of these only Colonel Jiminez, chief of the "Porra," the police strong arm squad, was identified.

More than 200 injured persons, many of them seriously hurt, were treated at hospitals.

The resignation of Machado and his cabinet members was to be considered by the congress late today, but the session was delayed on the request of certain members, as a quorum appeared to be lacking. Some congressmen, long Machado's supporters, were kept at home from fear of the mob.

Under one interpretation of the constitution, Machado continued nominally to be present until congress acted.

Under another interpretation, and this one gained force through the precedent set in 1906 when the Tomas Estrada Palma government resigned, Machado's leave of absence was regarded as automatically in effect as soon as he signed the request.

Under the plan worked out during desperate conferences that lasted all night, Herrera will nominally succeed Machado, as the only remaining member of the cabinet. Immediately, however, Herrera will name Senor Cespedes, secretary of state, and resign in his favor. The veteran diplomat would then legally become president and Herrera would take the post of secretary of war at the new president's request.

For a while during the night and this morning it looked as though the army, which struck quickly and quietly to end Machado's reign in order to forestall the threat of American intervention, might follow up its coup and force the naming of one of its own leaders as active president.

Many leaders of the insurgent movement, among them Col. Julio Sanguily, strongly favored Colonel Horacio Ferrer, retired chief of the army medical department, for provisional president. The ABC secret society, the nationalists, the mediation committee and other important political groups also favored Colonel Ferrer.

Ferrer, however, refused the honor, saying he did not want the people to think that the army's movement was designed to place any specific man at the head of the government.

Time after time during the day the menacing cry issued from thousands of throats: "Get Machado! Let's get Machado!"

After the looting of Jose Izquierdo's house, a girl rode wildly through Havana's streets this afternoon standing on the running board of an automobile and screaming hysterically as she extended her feet on which were men's shoes: "Pepito Izquierdo's shoes; Pepito Izquierdo's shoes!"

The furniture, clothing, fixtures and personal effects of both the Izquierdo and the Zubizarreta homes, which were ransacked by the mob, were carried out into the streets and shattered to pieces or distributed. So far as could be learned no member of either family was at home when the looting occurred.

Unconfirmed reports circulated that the homes of many other government adherents also were sacked by the mobs, crazed with their power.

After several hours of uncertainty as to the late president's whereabouts it was learned early this evening that he had left the island at 3:30 p.m., aboard an amphibian plane for Nassau, the Bahamas. He was accompanied by five other men, apparently his bodyguard, but their identity was not immediately disclosed.

Fleeing into exile after having been repudiated by the army and most of the political factions in the state, Machado escaped from the island in his plane which took off from the General Machado airport, about 15 miles from the capital, while the excited populace of Havana was indulging in violent celebration of his going.

Where the ex-president's family were tonight remained a matter of mystery.

The detailed story of what happened last night after the army turned against Machado came to light today.

Having seized the fortresses and other strategic positions, leaders of the insurrection called Secretary of War Herrera to the general staff's headquarters and informed him that the army believed that the president was bringing on American intervention by refusing Ambassador Welles' proposal to quit the high office.

The leaders gave the executive 48 hours to get out.

When General Herrera at first refused to bear this message to the palace, he was imprisoned by the officers at the Castillo De La Fuerza. Soon he yielded, however, and was released to take the word to the palace that the artillery in Cabana fortress and the castillo would be trained on the presidential residence shortly unless Machado acceded to the military leaders' demand.

The president, a veteran of Cuba's war for independence, made a dramatic and last desperate play for the army's support when he heard the news which Herrera brought him.

With his still faithful palace guard attending him, armed with machine guns, Machado left the palace and accompanied by Herrera and other political aides raced out to Camp Columbia to face his rebellious army, once his staunchest support.

At Camp Columbia, Colonel Jilio Sanquily, one of the leaders of the movement, told him:

"With all respect, general, you must resign before noon tomorrow."

One after another the chiefs of batallions, the head of the army air corps, the acting chief of the navy and all the other officers whom the president regarded as his enduring friends, faced him and made the same demand.

The president caved in.

"All right, my boys," he said, "I'll resign."

Then he raced back to the palace, to make his preparations for abandoning the office he had held through storm and strain for eight years.

Machado did not actually resign but adopted procedure agreed upon later, presenting a request for a leave of absence.

Under the constitution, Senor Cespedes may now rule indefinitely or until a vice president, provided for in proposed constitutional reforms, is elected six or seven months hence.

Had Machado actually resigned, Cespedes would have had to call general elections within 60 days. It is generally agreed that Cuba is ill-prepared for voting in that length of time.

The mob-like celebrations by the excited populace were halted early this evening by torrential rains with electrical displays which burst upon the city and quickly cleared the streets of demonstrators.

Authorities hoped that the crowds, which had become increasingly unruly as the day's emotional events unrolled, would be quieted by the heavy rainfall.

Before the rain came the mob had sacked also the house of Eugenio Molinet, secretary of agriculture, on Marina avenue, throwing its furniture and other contents out of the windows.

The excited throngs also looted the residence of Jose Genaro Sanchez, commissioner of the central district and one of Havana's most important land-holders, in the Cerro suburb.

Jose Magrina, whom communists and students accused of having killed Julio Antonio Mella, Cuban student radical leader, in Mexico January 10, 1929, was shot down late today by soldiers.

Machado's request for a leave of absence was received in the congress just after 10 o'clock this morning, Senate President Alberto Barreras said, and, under one interpretation of the Cuban constitution, immediately took effect.

Other authorities contended Machado was nominally president until the congress met formally to grant his request.

That was not done, despite the call to special session at noon, because all congress feared the turn the mob's spirit might take, and stayed at home.

It did not greatly matter. Cespedes was practically president, the guns at Cabana and Castillo De La Fuerza fortresses had boomed out the 21-gun presidential salute—and Machado was through.

That was all this city needed to know.

By 10 o'clock thousands paraded the streets, clapping loudly each time an officer or private of the army or navy passed, cheering equally the police force which joined the armed forces' movement this morning, and hilariously happy.

By noon—the deadline set by the military leaders — demonstrators had increased to tens of thousands.

A shot sounded here and there. Reckless, shouting ABC members, students and oppositionists—their enmity to Machado's reign long held in check by an iron hand—roared through the streets in automobiles, firing sometimes into the air.

A mob pressed too closely about Col. Antonio Jimenez, thin, heavy-eye-lidded leader of those men all Cuba knew as the "porra" and hated as the alleged killers of numerous oppositionists, and Jimenez drew his gun. The crowd came nearer and Jimenez fired.

One man slumped, wounded, and Jimenez and a companion took refuge within a drug store. As the increasing mob held him at bay, soldiers came up and Jimenez fired again. A burst of rifle fire made chaos of his refuge and he and his aide fell dead.

MRS. JOHNSON JOINS NRA DRIVE

The latest addition to Recovery Administrator Hugh S. Johnson's staff is his wife, who has accepted a place on the consumers' protective bureau through which complaints will clear. She will serve without pay. She is shown talking to her husband as she began her new duties at the national recovery headquarters in Washington. (Associated Press Photo).

LABOR MEETING HELD

At a meeting held at the parish grammar school Friday night, under the auspices of the American Workers' union, local men of various labor groups voted to support firms displaying the blue eagle, symbolic of conformity with the national recovery act, "after determining that those displaying the symbol are carrying out its principles."

London police get a lot of trouble from careless persons; last year, in Brighton, a London suburb, 2,100 business places were found insecurely closed by policemen on night patrol.

GAS WELL OWNERS AND OPERATORS

PATENT INFORMATION

The Southern States Company, Inc., of Shreveport, Louisiana, is the sole licensed operator of U. S. Patent No. 1,894,912, to H. C. Otis, which reads as follows:

"The method of inserting a string of coupled sections of tubing into a well casing containing fluid under high pressure, consisting in sealing the lower end of the tubing and intermittently forcing the tubing into the casing in short steps by laterally-balanced pressure applied longitudinally of the tubing through positive gripping means applicable to the tubing sections intermediate the ends thereof."

THE WELL OWNER OR OPERATOR who engages an unauthorized person to install syphons under pressure in a manner which infringes the above patent makes that person his agent and becomes liable for all profits and damages realized from such infringement. Immediate suit is unnecessary. Recovery of profits or damages may be obtained at any time within SIX YEARS after infringement. . . . The only safe course is to respect the patent.

L. S. U. TAKES OVER OUACHITA COLLEGE

(Continued from First Page)

half the tuition fee charged to students from parishes other than Ouachita. Last year students outside the parish paid a tuition fee of $55 for the term.

The agreement signed yesterday at Baton Rouge is for a term of seven years, but may be terminated by either the university or the parish school board at any time for non-compliance with its terms.

"Except by such an arrangement as this," said Prof. Brown, "it would not have been possible for us to continue the junior college, except by asking for an additional tax, which the school board felt would be wholly inadvisable under present conditions. The only other alternative would have been a high tuition fee, which would have defeated the purposes of the college as a means to give an adequate education to every child in the parish."

The present one-mill junior college tax, which goes to retire the building bonds and for maintenance and repair of the physical plant, will continue, as provided under the law for that purpose.

Prof. Brown and President Colvert each issued statements last night, expressing their views on the new plan which makes the college a part of the state university system. Prof. Brown said:

"The junior college has been a phenominal success. No one can dispute that such a school has filled a long felt need in this community. The enrollment of 416 the first year and 553 the second proves conclusively that the school was a necessity. Of the 553 students last year, 493 either lived in Ouachita parish or moved here to attend school at the junior college. A large number of these young people would have been idle, but for the opportunity this institution afforded.

"Under parish management outside attendance was not encouraged as the school was primarily for Ouachita parish pupils, but by an agreement effected with the Louisiana State university to establish a Northeast Center of Louisiana State university and Agricultural and Mechanical college at Monroe, the scope of the junior college will be greatly enlarged and it will serve a bigger purpose.

"To bring the Louisiana State university to our very doors and give to our children the opportunity that can be only offered by a big university is a metamorphosis of our junior college that exceeds any dream ever held for it. By establishing a center in Monroe, the university is enlarging its opportunities to serve and at the same time not departing from principles that are economically and educationally sound."

President Colvert's statement follows:

"One of the greatest steps forward educationally in the state of Louisiana as well as in the nation is the establishment of the Northeast Center of the Louisiana State university at Monroe. All those who have had anything to do with its establishment should feel honored to have had a part in it. The entire citizenship of Ouachita parish and Monroe through the Ouachita parish school board has placed at the disposal of the Louisiana State university the entire facilities of the junior college.

"This arrangement places the first two years of the university at the very doorsteps of the young men and women of northeast Louisiana. All of northeast Louisiana appreciates this forward looking step of the Louisiana State university and its able president, Dr. James M. Smith. The very fact that the Ouachita junior college had in its first year 416 students and in its second year, which ended in June, 533 students has proved that giving higher education in Monroe is a state probem rather than a local one. Governor Allen is to be highly commended in giving to the youth of northeast Louisiana this splendid opportunity.

"Other states are trying to place their junior colleges under the control of their state universities because it is educationally sound and makes for greater economy and educational efficiency.

"The new catalog of this new institution will be mailed to educators and students of northeast Louisiana very shortly."

SPECIAL SESSION SOUGHT BY SOLON

(Continued From First Page)

in assessments and other depression conditions.

Affirming that none of his proposed amendments can be ratified by the electorate before November, 1934, Hoffpauir said emergency relief for the 1933-34 school session should be provided by special session enactment of a three per cent sales tax which he asserted would be a fair, in lieu levy.

He said the schools would require "about $4,000,000 new money" this coming session to provide nine months terms, and that the tax he proposed would provide that amount.

Hoffpauir's recommendations are similar in many details to the plans proposed some time ago by the Louisiana tax reform commission for revision of school finances.

The representative said he "did think the other plan would ever placed in effect."

News-Star--World Want Ads

The Negro's Cotton

Like Huey Long's chewing tobacco, is subject to a rise, provided Huey does not succeed in putting over the sales tax. Highways have been nothing more or less than presents from off of Huey's Christmas Tree, and cost the people of Louisiana absolutely nothing.

Huey's after dark and before daylight newspaper speaks of snakes, turkey buzzards, and the materials they make soap out of, and says nothing about the Blue Eagle whose wings denote humanity and patriotism. Huey having just returned from Washington, should let us sit on his knee and tell us all about the East; all about the rackets and when Al Capone is expected to be released from the penitentiary, or why is it that the Morgan Banking Lead Pipe Cinch is on the outside looking in, and Al is on the inside looking out, both being equally guilty as to short changing the government out of income taxes. Why does not Huey tell us all these things that happen back up East, since the Louisiana citizens well know that "pot likker" is not over abundant we still have the pot but what's in it, Louisiana scrip and unpaid bonds, I imagine.

Will Rogers says all he knows is what he reads in the papers. The New York World, I imagine, which I read the News-Star. Only so far as I have been able to comprehend, all the commodities of life seem to be like the negro's cotton, subject to a rise.

More especially building material and yet there is very few buildings plans in the architect's office. I haven't heard of any five-story factories or chemical plants going to be built right away in Monroe. Residence building is on the blink too, plenty of empty houses in our town, which like other towns is not so hot in the building industry, and I have been wondering whether the law of supply and demand or even the law of gravitation, specifying what ever goes up must come down, spells anything; yes, the negro's cotton is subject to a rise, but it might take a relapse.

There never was a better chance in the history of Louisiana for Huey Long to show his stuff and show us out of the woods, and beat Moses' time. The only reason I did not volunteer into the World war was because I was too young and Huey Long was a Notary Public. Blue Blood must be preserved in order to deliver us out of the wilderness and stuff the ballot box.

As I see it from a building trade point of view, Ouachita Parish and the surrounding country are not so strong on manufacturing, building. Prosperity seems to hinge on the negro's cotton being subject to a rise, and King Cotton might stump his toe and fall.

In Character

You know the story of the seedy individual who ambled aimlessly about an exclusive shop until the exasperated floor walker exclaimed, "Well, my man, you've been here a long while now. It's time you bought something or went out. What are you going to do about it?"

"I'm going to get another floor manager," retorted the seedy one grimly. "I own this business."

Unfortunate for the floor manager—but wasn't the owner at fault, too? If he represented a thriving enterprise shouldn't he have presented an appearance more in harmony?

Printers see many incongruities like that. Prosperous firms having customers with whom they never come in contact, customers who must judge these firms solely by their stationery—and what opinions they must form!

There is never much difference between the price of good printing and bad. Why not have it good?

SOCIETY

EVE BRADFORD
EDITOR

In the Pictures

Mrs. Alfred Ducournau (center) a lovely bride of the past week. Mrs. Ducournau was, before her marriage, Miss Emelyn Cason, beautiful daughter of Mr. and Mrs. E. D. Cason of West Monroe.

Mrs. Dora Anish (left) and Mrs. Sam Kaplan (right) who recently returned from Chicago, where they attended the biennial convention of the National Federation of Business and Professional Women's clubs.

Interesting Sketch of Chopin's Life Given by Student at Music Club

The following interesting sketch of Chopin's life was presented at a recent meeting of the Monroe Music Study club by Hermione Driskell. Hermoine is a fifth grade student in the Georgia Tucker school and is a third year music pupil.

"It is flatly contradicted by family letters and Roman Catholic Parish register as to his exact birth. But is supposedly to be February twenty-second eighteen hundred and nine, or March second. He was born on the estate of Count Scarbek, some thirty or forty miles south of Warsaw, Poland. His father, Nicholas Chopin, was French, born at Nancy in Lorraine, and came to Warsaw, there to become one of the most upright and accomplished professors in the academy. His mother was Polish. The child showed his aptitude for music very early and was allowed to share the lessons given his sister by Albert Zwyny, an excellent music master in Warsaw. His boyhood passed happily. He absorbed all the instruction available. At nineteen he went to Berlin, where he appeared several times making a great impression by the poetic beauty of his playing.

From his twentieth to his twenty-third year he spent in travel, visiting Vienna, Prague, Dresden, Breslau, Warsaw and other cities. Everywhere charming his hearers by his playing and also his composing. He reached Paris, in eoighteen hundred and thirty-one on his way to England. But the attractions of Paris, however, and its musical life were stronger than any inclination to go further, so he made Paris his headquarters the rest of his life. It was about this time his compositions were first being published and his fame was further assisted by a review written of one of his compositions by Schuman who was said to have discovered Chopin.

For six years he spent a retired life in Paris, composing and playing at concerts. But he seemed to shrink from playing in public. He told Listz that the public's breath stiffled him, and took a few pupils, using Bach's work more than any other for his pupils, as well as for his own concert preparation.

Chopin has left us mazurkas, waltzes, nocturnes, preludes sonnets and polonaises, operas, etudes and sixty-eight operas in all. After his day, as we know, piano technic advanced upon a path which carried it toward a more orchestral style. But although new and splendid possibilities has thus been placed within reach of modern pianists, they are only to be attained by the sacrifice of some earlier inherent qualities of the instruments. Chopin's perfect taste assured him that piano was as a matter of fact more effective when it was content to be a piano and did not try to imitate an orchestra.

Chopin died at the early age of thirty-nine in Paris. The generation that knew Chopin had passed away. But his music even without the charm of his personal fascination, is more widely appreciated than ever before.

Miss Alma Robinson of Bastrop, Miss Mabel Sharp Davenport of Mer Rouge and Miss Louise Gray are planning to leave Saturday, August nineteenth, for Chicago, where they will enjoy the Century of Progress exposition.

DEAR BETTY:

You can't imagine how nice it is to be back in Monroe pinch hitting for Eve again. Of course nobody can quite take Eve's place—she has such a happy way of saying nice things about people.

It's good to be back in Monroe again and to see the old familiar faces—Leila King bustling about with her real estate problems—Ruth Newhall looking after Snip's welfare (Snip, by the way, is Ruth's blooded fox terrier. She claims he can spell).—Mr. Brinsmade trying to keep away from the newspaper office during his vacation—Miss Julia full of plans about the playground situation (she'll probably choke me when she sees her name in print).

Betty, after being over in east Texas where most of the conversation is confined to oil talk, it is hard for me to write about anything without exaggerating. That's what environment will do for you. My first experience hearing oil people talk, left me with an inferiority complex.

Some of them talked in terms of millions as casually as we would talk in terms of hundreds. After I had absorbed some of the local color, I too began talking in big numbers. To really understand this kind of talk, all you have to do is to strike off three ciphers from the number that has been mentioned, and then let your judgment be your guide.

You hear lots of talk about oil men over there but you don't hear anything about the oil women—which I call a rank discrimination. For there really are oil ladies in east Texas. One interesting looking oil lady wears a beret pulled rakishly down over her bobbed gray hair. With her mannish blouse and skirt built for service, she is a familiar figure at any important oil gathering, as she puffs nonchalantly on her cigarette.

Another interesting oil lady who puts over astounding deals is one of those comfortable looking homebodies that our fathers love to tell us about and advise us to follow in their footsteps. But appearances are sometimes deceiving. I'll say they are. The way she can juggle oil maps and discuss proration is nobody's business.

Then there is the fresh looking young thing with the baby stare and the most beautiful coat of tan you ever saw. She fairly radiates simplicity. But don't let that fool you. She's not so simple. She is about the keenest oil lady you ever saw. They say her bank account is simply staggering.

Betty, I could ramble on like this forever and forever but space is limited and I don't want to become tiresome. So au revoir.

—GWENDOLYN.

Mrs. D. R. Williams and daughter, Yvonne, of Winnsboro, who formerly resided in this city, are the interesting guests of Mrs. R. L. Grayson.

Mrs. Kelly Much Feted Guest of Mrs. Tidwell During Past Two Weeks

A number of delightful affairs have been given during the past week for Mrs. A. E. Kelly who has been the charming guest of Mrs. George Tidwell for the past two weeks.

Prominent among these enjoyable hospitalities was the beautifully arranged luncheon given by Miss Elizabeth Cosper in the private dining room of the Frances hotel Friday. The linen covered table was centered with a huge bowl of roses and exquisite corsages of rose buds were placed at each plate. Enjoying this lovely affair were Miss Judy Thornton, Miss Happy Tidwell, Miss Frances Stroud, Miss Sara Beth Farmer, Miss Doris Beaman, Mrs. A. E. Kelly and Mrs. George Lee Tidwell.

Miss Judy Thornton was a charming hostess yesterday morning when she complimented Mrs. Kelly with a farewell bridge affair. Mrs. Kelly was the recipient of a number of beautiful gifts presented by the guests on this occasion and Mrs. Fletcher Ashcraft received a handkerchief for high score.

At the conclusion of the bridge, individual bricks of ice cream topped with cupids moulded in pink ice and iced cakes were served to the following guests:

Mrs. A. E. Kelly, Miss Blanch Deas, Miss Virginia Calvert, Miss Elizabeth Cosper, Miss Doris Beaman, Miss Vicki Steele, Miss Joy Steele, Miss Frances Stroud, Mrs. Fletcher Ashcraft, Mrs. Floyd Martin, Mrs. Jack Parker, Mrs. John Yarbrough, Mrs. Jim Steele, Jr., Mrs. Charles Garretson and Mrs. George Tidwell.

Marriage of Interest to Friends Here

Dr. and Mrs. F. B. Hibbs announce the marriage of their daughter Ruth Elizabeth to Dr. C. J. Stringer on Friday, July 21, 1933 at Sioux City, Iowa.

Mrs. Stringer is a graduate of the Iowa State college and was president of her sorority for two years.

Dr. Stringer is a graduate of the Ouachita Parish High school 1924 class completed his course in medicene at the Iowa State college 1931. Since that time he has been assistant superintendent of the state hospital at Cherokee, Iowa. He is the son of Mr. and Mrs. E. M. Stringer, 309 Pershing place in this city.

Dr. and Mrs. Stringer will reside in Cherokee, Iowa.

Mrs. John P. Noel and little son, John P. Jr., left Wednesday for Russellville, Kentucky, to be guests in Mr. Noel's home for the remainder of the summer.

Miss Graves Gives Bridge For Guests

Miss Dorothy Graves was a lovely young hostess Friday afternoon when she entertained with bridge, complimenting her two charming guests, Miss Joan Kathen and Miss Evelyn Jones of Tallulah.

Guests enjoying the delightful informality of this affair were Miss Doris Reid, Miss Marjorie Farmer, Miss Jane Terzia, Miss Ruth Ray, Miss Eleanor Colbert and Miss Virginia Faulk.

Among the members of the Business and Professional Women who attended the business meeting Tuesday evening were: Louella Work, Winnie Hackworth, Stella Roberson, Dora Anish, Alice Baur, Myrtle Doughtie, Mary Baily, Laura Slator, Mae McIntosh, Gertrude Slay, May Johnson, Nora Downs, Lillian Jackson, Jennie Thornton, Mildred Richeson, May Read and guest, Evelyn Cole.

Delta Kappa Pi Members Enjoy Affair

Members of the Delta Kappa Pi sorority enjoyed an all night party Friday night at the home of Miss Nibby McKenzie. A midnight feast was an enjoyable feature of this happy occasion and early Saturday morning the young guests enjoyed a dip in the pool followed by breakfast out of doors.

Members and their guests were: Jane Burgess, Laura Grace Kendall, Beverly Stucky, Martha Olive Myatt, Polly Nenny, Nibby McKenzie, Neva Worthington, Libby Haynes, Roberta Neel, Marjorie Chambers, Doris Reid, Willine Boxley, Mary Elizabeth Smith, Margaret Mulhearn, Ellen Hale, Thyra Holt, Elaine Rester, Screven Williamson, Virginia Buckner, Johnnie Myers, Peggy Bubb, Jane Terzia, Eleanor Colbert, Stella May, Evelyn Rhodes, Neva Worthington, Dot Williamson, Alice Boyd Thompson, Virginia Husted, Betty Riley, Jane McKenzie, Mary Helen Hilburn, Norma Lee Scoggins, Mary Minta Moore of Winnsboro, Bernice Worthington and Barbara McKenzie, mascot.

Bible Class Meets With Mrs. Grant

Mrs. Fred Grant was a charming hostess Thursday when she entertained the members of the Emma D. Catlett class on the shady lawn of her home on Filhoil avenue in West Monroe.

During the afternoon an election of officers was held and Miss Alice Henry was elected teacher, Mrs. Barr Corry, president; Mrs. D. C. Harper, vice president, Mrs. R. D. Henry, secretary; Mrs. Scott Spencer, treasurer; Mrs. Fred Grant, reporter, and Mrs. H. D. Catlett, devotional leader.

After the business session a social hour was enjoyed and ice cream and cake were served to the following members: Mrs. Lolly, Mrs. Catlett, Mrs. McCurry, Mrs. Harper, Mrs. Corry, Mrs. T. L. Hood, Jr., Mrs. Register, Mrs. R. B. Henry, Mrs. Grant, Mrs. Spencer, Mrs. Bandy and Mrs. J. B. Russell.

An enjoyable affair was given the past week when Vance Overton entertained a few of his friends with a dancing party at his home in this city.

During the evening appetizing sandwiches and root beer were served to the following guests:

Nolan Reid, H. J. Hundley, Dizzy Wainwright, Lou Griffin, Keith Cobb, Forrest Jarvis, Louis Tombs, Arthur Grant, Curlie McKissick, Shorty Steele, Roy Dorman, Lila Grace Webb, Annie Lent, Nannie Mae Pilgreen, Gladys McClain, Doris Brown, Mary Virginia Lee, Annie Mae Davitt, Skeets Crye, Irwin Kilpatrick, Charles Boyd, Edwin Waine, Evelyn Boyd and Buddy Butler.

Miss Gladys McClain was the hostess last night at a dancing party entertaining this group of interesting young people.

The annual summer dance of the Phi Kappa fraternity will be held Monday night at the Riverside Country club. Miss Lillie Thompson will be the attractive sponsor on this occasion. No formal invitations will be sent out and friends are invited through this medium.

Mr. and Mrs. H. M. James and little daughter Jacqueline left today for Chicago for a ten day vacation enjoying the Exposition in that city. Little Jocelyn James will be the guest of Mrs. E. S. Hilburn at the Mother Goose Nursery, during the absence of her parents.

Mrs. Dora Anish Brings Back Interesting Report From Chicago Conventic

The following interesting report of the national convention of the Business and Professional Women's club was made by Mrs. Dora Anish Tuesday evening when the regular meeting of the club was held at the club house on Jackson street.

"We arrived at Chicago on Saturday evening July 8 and went immediately to the Stevens hotel, convention headquarters where we registered. Our arrival on Saturday was fortunate for with the coming of throngs on Sunday morning many stood in line for hours; some fainted from fatigue.

On Sunday at twelve, registration for the convention was opened. Thinking we would be first in line we hurriedly arrived before 1 p. m. only to find we had to take our places in line behind hundreds of already waiting delegates.

The registration committee was very strict in regard to credentials and many were refused admittance to the convention. Our credentials were in perfect order and gave us no trouble. Over 5,000 members were registered. On Sunday night, the Illinois Business and Professional women entertained the whole delegation with a buffet supper at the Palmer House.

On Monday, July 10, our state luncheon was held at the Harvey House in a private dining room. Eight Louisiana women were present. The hostess of the Palmer House felt the strong ties of state love as she is a Louisiana woman and has been a member of the New Orleans club. From two to four o'clock I attended a round table office management, whose chairman was none other than our own state president Jessie Norton of Shreveport.

On Tuesday July 11, 7:45 a. m. a parliamentary law class was held led by Mrs. Ben Lowenstein of Cincinnati, Ohio, at 8 a. m. I attended the occupational breakfast; motion picture positions and was delighted to find my seat next to the famous Miss Pauline Frederick, speaker of the meeting. She autographed the menu card at my place. She spoke of the various positions offered by the motion picture industry other than stardom.

On Wednesday at 12 o'clock I went to the public relations luncheon. I was seated at the table with the president of the Chicago B. and P. W. club, Mrs. Walter S. Hart. She wrote on my place card a greeting to you Monroe members which I have brought to you. Over 35,000 delegates attended this meeting with Judge Allen woman member of the highest federal court in the United States held the crowd spellbound for nearly an hour. He subject was "Training for Leadership Through Public Relations."

At 9 p. m. we enjoyed a moonlight trip by boat on Lake Michigan. The marvelous lighting of the Century of Progress exhibit was most be ful and the boat turned at inte so the delegates could all enjoy display.

The first business meeting of convention was held on Thur morning. The delegates were se as at a Democratic convention. state had its designated place its name above it. Every state in union was represented as wel Alaska and Hawaii. Louisiana ha delegates and four alternates. B Rouge 3, New Orleans 2, Rusto Monroe 3, Shreveport 5.

An outstanding lecture was tha Dr. Arthur E. Bestor, president Chautauqua institute.

The International luncheon ho ing foreign visitors was held in Stevens hotel dining room bui great was the crowd that the C Ball room had to be pressed service for the speaking. Wo from Germany, Austria, France, It Japan, Roumania and England tended. The Roumanian delegate a royal princess and a most cha ing woman. Mrs. Rankin, W ming's woman congressman was speaker.

Five thousand delegates atten the banquet held in the Gold room and Miss Jane Addams of H House and co-winner with Dr. Ni olas Murray Butler of the 1931 No peace award spoke in "Train Through International Relatio Here also spoke Mrs. Lena Made Phillips, president of the Inter tional Federation of Business Professional Women.

The following officers were elec to serve during the next year: tional president, Mrs. Geline Donald Bowman, first vice-preside Miss Charl Williams, second vi president; Miss Florence Moss, th vice-president; Judge F. Allen, cording secretary; Miss Earl White, corresponding secretary, M Schuler; treasurer, Mrs. E. W mick.

I am proud that I am one of 60,000 women who are members the Business and Professional Wo en's club and the years following will remember this national conve tion as one of the outstanding eve of my life.

Mrs. W. J. Roland and daugh Miss Mary Roland are the charmi guests of Mrs. Roland's niece, M C. L. Thompson. Miss Roland w first place in the state of Arkans in 1932 in the voice contest whi was conducted in that state. H friends will be privileged to he her this morning at the First Bapt church and his evening at the Fi Methodist church.

Mrs. W. F. Grafton and little daug ter, Martha, and Mrs. Fred Naff a son, Bobbie Joe, have returned fro Hot Springs where they have be spending the past five weeks.

Page-Gulley Wedding Is Solemnized Yesterday at The Grace Church Chapel

Coming as a surprise to their many friends in this city is the announcement of the marriage of Miss Virginia Lee Gulley, lovely daughter of Mr. and Mrs. C. H. Gulley of Ouachita City, and Douglas H. Page, son of Mr. and Mrs. U. J. Page, 301 Arkansas avenue, yesterday afternoon at two o'clock.

Only the members of the immediate families were present during the ceremony, which was solemnized at the Grace church chapel, Reverend E. H. Howard officiating. The bride was lovely in a stunning white ensemble with harmonizing accessories. Immediately after the ceremony Mr. and Mrs. Page left for the coast, where they will spend their honeymoon. The bride's traveling suit was a becoming fall model of brown.

Mrs. Page is a graduate of the city school and has been connected with the firm of McHenry, Montgomery, Lamkin and Lamkin for the past year.

Mr. Page is also a graduate of the city school and is connected with the Central Savings bank. Upon their return Mr. and Mrs. Page will be at home to their friends at the home of the groom's parents on Arkansas avenue.

Much Interest Manifested In the Engagement of Miss Jessie Richardson

An announcement of affectionate interest to their many friends in this city is made by Mr. and Mrs. A. P. Richardson of the engagement and approaching marriage of their daughter Jessie Louise Richardson to Reverend L. G. Mosely of Fort Worth, Texas, September 5 at 9 a. m. at the First Baptist church of this city.

A number of delightful affairs are being planned for Miss Richardson who is exceedingly popular in Monroe and who has been quite active in the work of the Baptist Young People.

On Friday evening of this week a shower will be given Miss Richardson at eight o'clock in the Sunday school rooms of the First Baptist church. Hostesses on this occasion will be Mrs. C. C. Carroll, Mrs. C. H. Gibson, Mrs. A. O. Davis, Mrs. Walter Rhodes, Mrs L. A. Stulce, Mrs. D. P. Gerald and Mrs. Forest Seaman.

Business and Professional Women Guests of Senator James A. Noe on Noe's Ark

Outstanding among the lovely affairs given for Miss Lucille May Grace and Miss Jessie Norton during their brief visit in Monroe was the delightful boat ride given by Senator James A. Noe on Noe's Ark, Thursday evening complimentary to members of the Business and Professional Women. After a delightful cruise up the river during which dancing and music were enjoyed by the guests, an appetizing supper was served. Enjoying the hospitality of this happy affair were Mr. and Mrs. Fred C. Dent (Miss Lucille May Grace), M and Mrs. Carl Campbell, Mr. and Mr R. N. Slator, Mr. and Mrs. J. Doughtie, Mr. and Mrs. Harry Baily Mr. and Mrs. W. D. Walmsley, Mr Jessie Norton, Miss Dorothy Schult Bernice Nicholls, Llewella Hays, Ma McIntosh, Marie Frazier, Alma Ter ry, Nell Grigsby, Myrtle Porter, Mil dred Richeson, Mae Johnson, Lo Ella Work, Georgia Cottingham, Ma Read, Margaret Allbritton, Lilli Arant, Dora Anish, Alice Baur, Ef fie Allen, Gertrude Slay, Bernic Wright, Hazel Wakefield, Flora Cry Mabel Gates and Lola Lanius.

SOCIETY

Puppet Shows Being Planned By Children

Did you ever go to a Punch and Judy show when you were a child and watch the antics of the pugilistic Punch and his wife Judy with unconcealed glee?

If you remember, the grand climax came when Punch carried Judy off the stage in a state of more or less dilapidation.

Children attending the playgrounds this summer are going to have an even bigger thrill when they present their puppet shows which they are now planning. The plots are based on those glorious old tales of the three little pigs, the Prince and seven dwarfs, and Jack and the bean stalk, not to mention a dozen other favorites. Added to that is the fun they are having of designing and making their own puppets. The puppets this year are being fashioned out of a composition of pulverised asbestos and glue which will be more permanent than the puppets they have hitherto made from soap.

Each child has the responsibility of dressing his own puppets and many and clever are the little Red Riding Hoods, the Cinderellas and the little black Sambos that have been created by their nimble fingers. Little Black Sambo by the way has become quite a personage on the playground. Fashioned with a tiger head, Sambo wears an orange costume with startling black stripes and cuts quite a prominent figure among the other puppets. Each child is writing his own story and will manipulate his own puppet. All children desiring to take part in the puppet show are invited to join the groups that meet on the playgrounds every day.

Lovers of flowers will be interested in seeing the Coral plant growing in the west side of the yard of Mrs. Briscoe Trousdale's yard, 307 Park avenue. The coral plant is an exceedingly rare and beautiful plant and is the only one of its kind in Monroe. Mrs. Trousdale acquired this unusual plant from Mrs. Caraway of Mangham during the recent flower exchange of the Garden club.

Mrs. A. E. Kelly and Miss Ernestine Kelly left by car yesterday for Wallace, Ala., after a delightful visit in this city.

Miss Louise Graves and Miss Sue Graves have returned from a delightful trip to Chicago, where they attended the fair.

Society Calendar

Sunday

Services at Highland Park Loop road. All interested are invited to attend. Charles Freeman will be the speaker of the evening. 7:30 p. m.

Monday

Meeting of Dixie chapter No. 179 O. E. S., Masonic Temple. 7:30 p. m.

Presbyterian auxiliary program meeting. Mrs. D. M. Moore will lead the meeting assisted by circle one. Circle two will be hostess. 3:30 p. m.

Thompson Wood Lee auxiliary will sponsor a benefit dance at the Booster's hall. 9 p. m.

"Dulcy" to Be Presented on Twenty-Ninth

All Little Theater members are looking forward with keenest anticipation to the production of "Dulcy" which will be presented Tuesday evening August 29th at the Ouachita junior college.

Miss Lallage Feazel who has been appointed manager of the production is admirably fitted for this chairmanship. Miss Feazel completed her studies in expression in King Smith Studio, Washington, and recently gave a recital in which she presented "Saint Joan." Mrs. Alexander, director, reports that members of the cast are making splendid progress in their rehearsals.

Miss Joan Kathen and Miss Evelyn Jones of Tallulah are the lovely young guests of Miss Dorothy Graves this week.

Mrs. Hattie Littlepage arrived yesterday to be with her son, J. S. Littlepage, who was critically injured Friday.

An inspiring meeting of the Baptist Brotherhood was held Friday evening at the First Baptist church. A most interesting lecture on the Bible was given by Mr. E. H. Meile and several beautiful selections were presented by the male quartette of the Southern Seminary institute.

Mr. and Mrs. Henry Littlepage are now delightfully located in an apartment at 622 Rochelle avenue.

Police Jury Committee Meets at Baton Rouge

BATON ROUGE, La., Aug. 12.—(AP)—The executive committee of the Louisiana Police Jury association in a meeting here today approved the employment of a representative to protect and promote the association's interests at legislative sessions, and approved a revised schedule of financial contributions by police juries to the association's support.

Resolutions were adopted providing for the employment of the legislative representative by January 1, and setting up a sliding scale of contributions designed to equalize the association's financial burden among the police juries of the parishes and yield the association a total of $3,000 a year.

Last year's financial schedule called for total contribution of $3,200 by flat contribution of $50 by each parish. The new program provides for contributions by each parishes ranging from a minimum of $25 to a maximum of $300.

John M. Breard of Monroe, association president, presided.

LIMITS PLANE LIFE

NEW YORK.—(AP)—A decree by the Italian ministry of aeronautics condemns all commercial and public airplanes of non-metallic construction after 1,500 hours in the air. Planes of metal construction will be condemned after 3,500 hours. Airplane engines are to be doomed after 2,000 hours.

During the World war, Capt. Rene-Paul Fonck of the French army brought down 75 planes, which is claimed to be the record.

Evening Clothes for Late Summer Wear Marked by Slim Lines and Rich Colors

Evening clothes for wear in late August and September generally are designed along slender lines, with a variety of colors used, either in the gowns themselves or in the trimming, which sometimes is of crinkled elastic ribbon. Black, too, is popular, many Parisian designers showing frocks in black velvet, satin or crepe. Three of the evening creations designed for those who set the fashion pace are illustrated here. Above, Jeanne Aubert, French actress, wears a fragile, airy frock of black tulle. Worth designed it with a flounced shoulder line and full skirt. The girdle is caught with a golden clasp. Left, Schiaparelli accents the waistline and high decollete of this Nile green silk canvas model with elastic ribbon of a deeper green. The same ribbon trims the suede gloves of a still darker tone. (Both models copyright Paris.) Right, heavy white satin makes this evening wrap trimmed with red fox. It is worn with a black satin gown having a short train. Mainbocher designed it.

CHAPTER XIII

Charles said "Hot!" and smiled. He wore no hat and the pallor of his skin was a thing Monnie noted subconsciously. Unlike Dan, who wore his sunburn with a swagger, Eustace never tanned but bore always, in spite of hatless horseback riding and mornings at golf, a kind of tropic indolence which suited him well. He wore, just now, the most elegant of careless white flannels and a blue coat.

"You look awfully cool," he said to the girl sitting on the low step, in the shadow of the honeysuckle vine.

Monnie scarcely stirred. She felt the smile with which she answered him to be a prodigious effort. There seemed to be no life in her at all these days. Tonight after a cold supper and after a shower she had slipped into one of her oldest party frocks—a blue lace of two seasons ago, unsuitable she felt for anything but the warmest night in Belvedere. She had not expected visitors but here, on her very doorstep, was the most elegant young man in town! She said with an effort, "Thanks. I don't feel at all cool."

She glanced up at him in the half dark, one flushed cheek resting on a slim, long-fingered hand, her breath coming and going quickly beneath the folds of soft lace. The bodice was cut rather low and the creamy skin of her neck and bosom glimmered above it. Her eyes, shadowed with weariness and heat, looked big and dark under their fringe of heavy lashes.

She asked him to sit down. He made a gesture toward the car in the shadows outside the gate and said slowly, "I'd thought perhaps you'd come for a drive—out where it's cool."

"Mother and Mark have gone to a strawberry festival," Monnie said with apparent irrelevance. "And Kay—Kay's over at 'Rissy's. I wonder if I ought—"

"We'll be back in an hour," Charles said. "Why not?"

She debated this. She had refused to go to the festival. She had said she was too tired but the real reason was her desire to avoid people. Prying people who would ask questions. About Dan. About everything.

With this man it was different. She could be easy with him. He was—well, a friend! She felt that. Splendid in his way, of course, but not, Monnie thought, the type to stir her pulses.

* * *

As he held out his hand to assist her, she gave him her own. A child's clasp, Charles Eustace felt, half piqued and half amused.

"Believe I will," Monnie murmured softly. "If you'll excuse this—this ridiculous costume."

He gave her a mocking bow, practiced eyes taking in every detail of her appearance. The lace had been adroitly cut to show every exquisite line of the girl's figure.

"It's a lovely dress," he told her. Monnie widened her eyes at his tone. There was something not quite cordial about it. Did he thing she was fishing for compliments?

She reddened to the roots of her hair and in that instant Charles Eustace regretted his discourtesy. Used as he was to the finished wiles of more sophisticated women, he had carelessly bulked this young girl with the crowd.

"I'm sorry," he said awkwardly. "I really mean it. It is a lovely dress—"

"Of course, it is old," Monnie faltered, hurt by she knew not what. "It's a party dress, too, and unsuitable—but I was so hot—I had nothing else so cool—I didn't expect anyone—"

She hated herself for it, but suddenly she was in tears.

"Do forgive me. I'm an idiot—but I seem to be all tired out and we were so busy today at the store—"

A big clean handkerchief was pressed into her hands. She straightened herself, mopping at the persistent tears, trying to smile again. But it had not been just that. Both she and the man knew that his tone was the lash which had cut her deeply. Charles Eustace said, slowly, "Monica, you do know I'm your friend, don't you?"

She stared at him. "I hope so. Of course!"

He flicked at the bushes beside him with a willow switch he had picked up.

"It's only—only that I get into one of my bad moods now and again and says things I don't mean. I did mean your frock was lovely. But some devil of sarcasm put that edge on my voice. I don't know why. Or yes, I do. I'm used to the sort of woman who invites comment on her attire. I thought for an instant, that was what you were doing. I ask your pardon—"

"But even if I had," Monnie began, puzzled, "it's no crime, surely, to want compliments?"

He laughed on an uncomfortable note.

"Of course not. Monica, you don't know anything about me. I've got a wretched temper. I've been through some bad times. Some day perhaps I'll bore you by telling you about them."

"It wouldn't bore me in the least," the girl told him demurely. Her tears had dried now. The little flare up had only served to heighten her color.

"Wait just a minute. I'll get a scarf for my hair," she said, going back into the darkened house. She paused to scribble a line for her mother and in that instant the telephone rang stridently. Her instant thought, as always, waking and sleeping, was "Dan!" She put one hand to her breast with an unconsciously dramatic gesture and called out to the man in the shadows, "I'll answer that. Hope you don't mind waiting."

* * *

Lifting the receiver, she was conscious of an almost unbearable feeling of tension. But it was not Dan's deep voice that came to her over the wire.

"Oh, Miss Anstice. Yes. How are you?"

She put cordiality into her tone. Miss Anstice was an old family friend.

Charles Eustace, lounging against the pillar outside, heard a note of alarm in the quick, terse words that followed.

"What? Yes—yes. Please tell me. Outside Miller's garage just five minutes ago? There must be some mistake. She's at Rissy's! Thank you. I know you won't. Yes, I'll do something about it—at once—good-by—"

All the color now drained from her cheeks, she returned to Charles Eustace.

"Something terrible—I don't know what to do!"

He put out a brown, lean hand, touching hers. "Tell me. I'll help you."

Eyes big and dark and unseeing, she stared at him.

"It's Kay. She's gone—with some man. Miss Anstice happened to see them. They had bags, she said. The man was asking the best way to Waynesboro."

"Good Lord!" Charles said. "Jump in. I know that road well. We can catch up with them."

Binding the scarf she had picked up from the hall table about her head with stumbling fingers, Monnie obeyed. The scents and sound of a June night received them, as the motor purred and the powerful little car plunged down Denny street. Everywhere—everywhere were little groups on porch and lawn. Lights in little houses. Laughter. The music of a radio. Monnie thought, blindly, "Little Kay. Little Kay. I've got to save her."

"Miss Anstice didn't happen to mention what sort of car it was, did she?" inquired Charles, expertly swerving to avoid a boy on a bicycle.

"No, she—she—" Monnie's teeth were chattering now, as if with cold. "I'm so f-frightened," she interpolated. "What if we don't catch up with them? I never can face mother!"

The calm voice of the man in the driver's seat came to her. "We'll find her," he said. "Don't you worry!"

* * *

Ahead, miles ahead, on the country road, Bigelow grinned down at the girl beside him.

"Cooler now, baby? That sure is a hot burg you live in."

Kay said, "Yes, lots cooler." She cast an apprehensive glance back over her shoulder. "Sure nobody saw me when you stopped for gas?"

He had a big, booming laugh—empty, meaningless. He employed it now.

"Baby, don't think about that old burg any more. You've shaken the dust from your shoes. You're slated for big times."

He slipped an arm around her shoulders. Kay shrank from it.

"Hadn't you better watch the road?"

The laugh boomed again. "Don't like one-armed drivers, do you, baby?"

Kay grimaced to herself in the darkness. She'd been a fool to come, she told herself, but she was no quitter. She'd have to keep on going.

(To Be Continued)

News-Star--World Pattern

1519 1533

PATTERNS 1519 AND 1533

The fall fashion-lights as Paris and New York have planned them are revealed for both smart sets in the frocks sketched today. Cotton prints continue ace-high in the kiddie mode . . . they make such darling little frocks. A chic yoke, with skirt seaming in harmony, perky puffed sleeves and gay binding make this one captivating. Mother could not do better than to select black satin for her first fall frock . . . it leads for all occasions. There's grace, slimness and distinction in this model, achieved by the smart bodice seaming, youthful neckline and gracefully puffed sleeves. Equally chic, too, with the upper bodice and sleeves of contrast.

Pattern 1519 is available in sizes 4, 6, 8, 10 and 12. Size 8 takes 1 7-8 yards 36 inch fabric and 3 3-8 yards binding.

Pattern 1533 is available in sizes 14, 16, 18, 20, 32, 34, 36, 38, 40 and 42. Size 16 takes 3 7-8 yards 39 inch fabric. Illustrated step-by-step sewing instructions included with each pattern.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred), for each Anne Adams pattern. Write plainly your name, address and style number. BE SURE TO STATE SIZE WANTED.

THE ANNE ADAMS PATTERN BOOK features a charming collection of afternoon, sports, golf, tennis dresses, jumpers, house frocks, special beginners' patterns, styles for juniors, and lovely clothes for youngsters, and instructions for making a chic sweater. SEND FOR YOUR COPY. PRICE OF CATALOG FIFTEEN CENTS. CATALOG AND PATTERN TOGETHER TWENTY-FIVE CENTS.

Address orders to Monroe Morning World Pattern Department, 243 West 17th street, New York City.

Recreation News Column

All the boys and girls are getting their handicraft articles ready for the exhibit, which will be the 17th, 18th, 19th, 20th of August. Watch the downtown windows for this because it will be really good, and we sure have had a good time making these things. Our handicraft leader is great, she can make all kinds of things. We love for her to come to our playground, and we are going to have a lot of pretty things on exhibit. I believe our playground will win in the handicraft display.

Everybody is invited to come out and help us make the puppets—mothers and older sisters can come too. We are going to have a contest and people can come to see us put on our shows, it will cost ten cents for children and fifteen cents for grown-ups. This show will be on Friday morning, August 25 at 9:30. This show will equal the Munro Marionettes, so don't miss it. The winner of the contest will be the champion puppeteer, and who knows, we may take our show to a real theater.

Friday night is the time for the big baseball games. The Hornets and Redcaps will play for the midget champion team and the Kiwanis Jrs. will play for the junior champion team and the Pirates and Panthers will play for the senior champion team.

Boys did you know that we have a speaker on our playground? Edward Fleming spoke before the Rotary club—he asked the Rotary members to come out to our game Friday night. Someone said some of the Kiwanis Juniors were going to make a talk to the Kiwanis club in West Monroe because they have their name. We have two teams from West Monroe playing in the finals, and four teams from Monroe.

We are going to make our puppet theaters next week. We thank Mr. Burgess from Slagle-Johnson for the pieces of beaver board, and we hope Ann will come to the Barkdull Faulk playground and help us make the puppets because Mr. Burgess is her daddy.

The winners from all the playgrounds in the story-telling contest went to the recreation office for a final contest Wednesday and the judges sure had a hard time judging the best because they were all so good. But they finally got through and this is how it came out: Mary Sue Luckett won first place, Nell McCormick won second place. In the second group Dick Eason and Katherine Carson tied for first place. These winners will broadcast their stories over KMLB next Friday morning at 11 o'clock—so everybody tune to hear these story winners.

I like to come to the playground to play dodge ball and baseball. The books are very nice to read, the "Boys Life," especially. I come to the playground every day.

GEORGE VAUGHAN ATKINSON.

Last Friday we sold coca-cola at the game and made enough money to buy us a baseball, it sure was a good ball. We want to work again and make some money to buy us a bat.

ANTHONY CORBERO,
Barkdull Faulk Playground.

We have a baseball team with noth ing but Italian boys. We are th "Bulldogs" and we are playing har so we can win and play in the nex night game they play at the park a night. I am the pitcher.

JOE SAVANA,
Barkdull Faulk Playground.

BARKDULL FAULK SCHOOL
By Dick Eason

We always like our play leader,
There is none sweeter.
She couldn't be neater.

Her name is Mrs. White,
She is always quite right
Always ends the fight.

She is very sweet,
Couldn't be beat.

About three weeks ago every play ground sent up a gas balloon. Th play leader tied a little card with th name of the playground and the stree We left a few blanks for them to fi in and send back to us with the name and address. It was found b Mr. Avant in the Forest dairy.

DOROTHY LONG,
Age 11 years, Georgia Tucker.

Wednesday morning everybody o the Georgia Tucker playground mad puppets for the puppet show we ar planning to give soon. This year th puppets were not made of soap but c asbestos and powdered glue. They ar all very good.

EVELYN BAUR.

Of all the playgrounds in Monro the Georgia Tucker is by far the mo educational and interesting. Eac Monday Miss Granberry entertains u with her wonderful talks of butterflie and moths. She has taught us t make butterfly nets and even no some enthusiastic speciman hunte are scouring the town for the unfo tunate butterflys. Most of the girl time is taken with rug making, sewin and the like. But nevertheless we a find time for an active game of dodg ball which is a general favorite. I am sure the playground and its ac tivities are enjoyed by all.

ELEANOR TURNER,
Age 13 years.

We are having a puppet show the Georgia Tucker. We have alread made them and we are going to dres them and write the story.

LOUIS G. WEIL,
Age 11 years.

YANKS AND A'S DIVIDE, SENATORS BEAT RED SOX

FOXX HITS TWO HOMERS TO WIN OPENER FOR A'S

Yankees Rally to Take Nightcap; Scores 11 to 9 and 8 to 6

PHILADELPHIA, Aug. 12.—(AP)—The Athletics and the New York Yankees battered each other all around Shibe park in both games of a doubleheader today, winding up an even break which left the second place Yanks 4 1-2 games behind the Washington Senators, who won one game. The A's won the opener 11 to 9 when Jimmie Foxx clouted his second homer of the game and his 34th of the season in the tenth inning. The Yanks came back to take the nightcap 8 to 6.

Foxx

The opener was a home run battle all the way. Frank Crosetti of the Yanks also clouted a pair and Bob Johnson and Sam Byrd hit one apiece. Tony Lazzeri cracked the only circuit blow of the second game to give the Yanks an early lead, which they promptly "blew."

SENATORS WIN DUEL

BOSTON, Aug. 12.—(AP)—The powerful slugging of Ossie Bluege and "Buddy" Myer today enabled the league-leading Washington Senators to make a clean sweep of their three-game series with the Boston Red Sox, by a 2-1 margin, and gave Earl "Lefty" Whitehill his fifteenth victory in 21 starts.

Bluege's homer over the left field

Riverside - Municipal Golf Match Is Postponed Again

The third and deciding match between golfers of the Riverside and Municipal clubs, scheduled to be played today, has been postponed until next Sunday, it was announced yesterday. It was feared that yesterday's rain would prevent play today.

The winner of the third match will be engaged in the Brown Paper Mill

Monroe Legion Juniors Play Sterlington Team

The Monroe American Legion Juniors will meet Sterlington in a game here Tuesday afternoon and negotiations are under way for an engagement with the strong New Orleans Papooses to be played here later, according to an announcement made last night.

Monroe has experienced a successful season in winning five out of six games. The locals trounced the North Louisiana champion Ruston nine in two engagements and won two out of three conflicts with the West Monroe Legion juniors. Monroe's other victory was over the Pirates, champions of the Recreational league.

A new addition to the local team will be Julius Haddad on first base, according to the report last night.

A practice session will be held tomorrow afternoon in preparation for the Sterlington affair.

PIRATES WIN TWO TILTS WITH CUBS

Double Victory Sends Pittsburgh Back Into Second Place

PITTSBURGH, Aug. 12. — (AP) — Sharpshooting Pittsburgh batting behind impregnable pitching today gave the Pirates a double conquest of the Chicago Cubs, 5 to 2, and 3 to 2, and boosted them back into second place in the National league.

In terminating the Bruins' short-lived tenancy of the second rung, the Bucs had the benefit of top-notch twirling by Hal Smith in the first fray and Heinie Meine in the nightcap, although Meine got off to a staggering start.

Meine

GIANTS BLANK PHILS

NEW YORK, Aug. 12.—(AP)—Big Fred Fitzsimmons broke his losing streak that had lasted since July 1 today by whitewashing the Phillies with five hits to give the Giants a 2 to 0 victory. It was the 19th shutout

(Continued on Thirteenth Page)

Mike Bouza Leads Dixie Loop Hitters With .432

DALLAS, Texas, Aug. 12.—(AP)—Bouza of El Dorado with a husky .432 average, and Brown of Longview with .363, were the leading Dixie league hitters through games of Wednesday, August 9. Larkin of Shreveport was the league's leading pitcher in games won with 19.

Other leading Dixie league hitters follow:

Bilgere of Henderson, .359; Cashion of Tyler, .358; Ferrell of Jackson, .357; Orr of Pine Bluff, .356; Gilbert of Baton Rouge, .347; Quellich of Henderson, .346; Dalrymple of Henderson, .346; Nicholson of Baton Rouge, .343.

Other Dixie league leaders:

Runs—Gilbert of Baton Rouge, 106.
Hits—Dalrymple of Henderson, 153.
Doubles—Jones of Jackson, 37.
Triples—Mazzera of Baton Rouge, 16.
Home runs—Davis of Longview, 16.
Runs batted in—Bates of Shreveport, 93.
Stolen bases—Gilbert of Baton Rouge, .43.
Leading pitcher—Larkin of Shreveport, won 19, lost 5.
Innings pitched—Larkin of Shreveport, 232.
Strikeouts—Biggs of El Dorado, 129.

DEMPSEY AT DALLAS

EL PASO, Texas., Aug. 12.—(U.P.)—Jack Dempsey, former world heavyweight boxing champion, will leave here tomorrow for Dallas where he will referee a boxing and wrestling card Monday night. He refereed matches here last night. Traveling with him is Mrs. Dempsey, the former Hannah Williams of the stage.

War or No War, Those Fans Want the Scores

HAVANA, Aug. 12.—(AP)—When the Associated Press news wire to Havana, in the frenzy of a revolutionary celebration, opened this afternoon the first message was a request from the newspaper El Mundo for "all the baseball scores of the past week."

Havana newspapers had been closed as a result of the political disturbances, since last Saturday.

LOCAL A. C. TEAM BOXES RAYVILLE

First Card in Several Weeks Booked at Stadium Tuesday Night

Boxers of the Monroe Athletic club swing into action again Tuesday for the first time in several weeks when they meet the Rayville A. C. team at Roosevelt stadium at 8:30 o'clock, Manager V. C. Bruscato announced last night.

Sam Jones, Monroe's star lightweight, and Hebert "Wild Boy" Sorey, Rayville puncher, will appear in the main event of the program. Sorey is in his best form, according to reports, and the North Louisiana lightweight champ will have a real battle on his hands.

Other fights include: Monroe McNaughton, 120, Rayville, vs. Bill Whittington, 119, Monroe; Frank Cain, 127, Rayville vs. Mason McEnery 127, Monroe; Ray Rainer, 130, Rayville, vs. Mina Feazel, 130, Monroe.

LeRoy Latham, 130 pound newcomer to the Monroe area, will meet a 132-pounder from the reforestation camp. The name of the woodsman was not learned. Latham has been fighting in Fort Benning, Ga., at an army camp for the past six months and is in excellent condition for the fight.

Lucille Robinson Beats Miss Van Wie for Title

CHICAGO, Aug. 12.—(AP)—Lucille Robinson, a comely youngster from Des Moines, Ia., dealt the national champion, Virginia Van Wie of Chicago, a 6 to 5 lacing today to win the women's western open golf title, a prize that has eluded the Chicago star for nine years.

Miss Robinson had played fine golf throughout the tournament, but was accorded no more than an outside chance of defeating Miss Van Wie, who until today played at the top of her game. Today, however, the champion went about her work with surprising indifference and was on top only until the eleventh hole of the morning round. The young Iowan, erratic and brilliant by turns, was one down at the morning turn, but steadied and defeated her famous opponent with amazing ease.

The new champion was runnerup to Mrs. Opal S. Hill of Kansas City for the 1932 title, and played brilliant golf throughout the tournament this year. In her second round match she played out bye holes for a 77, to equal Miss Van Wie's course record.

WILD RED BERRY TO MEET ROLAND

Kansan Returns Against Arizona Cowboy Next Thursday Night

Wild Red Berry, who is now winding up a two weeks' tour of his native Kansas, will return here next Thursday night to meet Cowboy Roland, the Phoenix speed artist, in the main event of the weekly wrestling card at Roosevelt stadium.

The match should be one of the best staged here since the game was revived several months ago. Roland is a local favorite and has demonstrated that he is well able to take care of himself against any opponent. He is a powerful matman, adept at breaking holds, and sets a fast pace. He returned here last Thursday night holding the veteran Orville Cox to a draw in the one-hour semi-final of the Kopecky-Ligosky card.

Berry challenged the winner of the main event last week, but neither Kopecky or Ligosky showed much, so Promoter Guy Owen decided to match Berry with Roland.

"Kopecky beat Ligosky but I didn't think he deserved the main event with Berry," Owen said yesterday. "The match was disappointing. Berry is a good drawing card wherever he goes and he always gives the fans a run for their money. That's the kind of wrestler I am trying to bring here and I don't think either Ligosky or Kopecky, judging from their work last Thursday, deserve a crack at Berry."

Berry, of course, is a roughhouse artist, pure and simple. In his recent match with Cox he started off by wrestling according to Hoyle, because he thought the fans here preferred that. However, he couldn't help slipping back into his old role and before the first fall was over, he was the same old Wild Red.

Undoubtedly Berry will continue his rough tactics against Roland. The Cowboy has never been particularly rough in his bouts here but he seems to be the type that can rise to almost any occasion. He is powerful enough to handle Berry and it will be interesting to see his reaction to Red's style of wrestling. The fans undoubtedly will be pulling for Roland to maul Mr. Berry all over the ring.

Owen said last night that he had not signed his semi-final but that two good boys would be brought here for the opener.

Donald Budge Beats Mako For Junior Tennis Crown

CULVER, Ind., Aug. 12.—(AP)—Donald Budge, red-headed youngster from Oakland, Calif., is the new junior national tennis champion. He won the title here today by defeating Gene Mako, Los Angeles, the heavy favorite, in a hard-fought five-set match. The scores were 6-4, 6-2, 1-6, 0-6, 8-6.

Another Oklahoma lad, Robert Harmon, won the boys' championship of the United States on an adjoining court by defeating Robert Riggs of Los Angeles, 4-6, 6-0, 6-2.

Mako got a bit of revenge later when, teamed with Ben Dey, also of Los Angeles, he won the junior doubles championship by defeating Budge and William Seward, Beverly Hills, Calif., 6-1, 6-2, 6-0.

Golf Gossip from the LOCKERROOMS

SOME HOT GOLF was played on the Muny course this week. Lund Harper, Muny professional, equalled the course record for nine holes which was established by himself three years ago, by shooting a 32 Wednesday afternoon while playing in a foursome with Jim Harper, Dr. R. T. Harberson and C. V. McGimsey. Harper's card, four under par was:

Par .....4 3 4 4 5 4 4 3 5—36
Harper .....4 2 4 4 4 3 4 3 4—32

F. E. Maxwell scored an ace on the short number two hole and followed it up with a birdie three on the next hole. This all happened in a match between Maxwell and Dr. R. T. Harberson in the city championship tournament. In spite of Maxwell's fine play on these holes, Doc was able to nose him out and win the match one up.

INVITATIONS were put in the mail this week for the second annual Riverside Country club tournament to be held over the Labor day week-end, September 2, 3 and 4. This year's tournament will catch the Riverside course in the best condition in its history. Summer rules are being played on the fairways and the greens are getting better every day as a result of the greens committee's special effort to have them in perfect shape for the tournament.

Some of the positive entrants from out of town at this writing are: Fred Odom, New Orleans, defending champion; Leonard Vann, New Orleans; Edwin McClure, Bill Hicks and Dick Richards, from Shreveport. Ray Bradford, runnerup last year, and Fred Corley, from Alexandria; Fred Haas, Jr. and Arthur Ross, Bastrop. These fine players together with our local sharpshooters, many of whom are good enough to win, should assure the tournament committee of a fast field in the championship flight. The other four flights of sixteen each should also produce a good brand of golf. This event was a grand success last year and should be a repeater.

AT THE ROTARY luncheon the other day, Leo Keenan approached Dr. J. B. Vaughan for some advice as to the best way to keep mosquitoes from bothering him on the golf course. The doctor displayed a cigar he was smoking and suggested that he smoke one like it while playing. Leo came back with this: "Doc I'm sure that would keep the mosquitoes away, but who could I get to play with me."

A FRIENDLY match was played over the Municipal course during the week between Lund Harper and Shep Girault and Fred Haas and Fred Haas, Jr., who came down from Bastrop for the game. The local team won the match, 4 and 3. Harper turned in the best round of the foursome with a fine 36-34—70.

BURIED with Junnesuke Ineuye, assassinated Japanese statesman, were his favorite golf clubs. Placing of most cherished objects in the coffin is a Jap custom.

SPEAKING of golf clubs, Harry Cooper, big time professional, who has won many important tournaments, carries 21 irons and five wood clubs in his bag as regular playing equipment and uses most all of them during the play in a tournament.

EIGHT-INCH CUPS are becoming very popular at golf clubs all over the country, since the return of beer.

INTEREST in woman's golf in Monroe is showing a decided pickup. This week saw the return of quite a few of fair golfers to the fairway after a long absence.

SPORTS GLATTER

By George V. Lofton

THAT PUTTING

Your average golf fan, watching Joe Kirkwood wave his magic clubs and produce almost unbelievable results, has often wondered why the renowned trick shot artist doesn't win more major tournament victories.

Kirkwood

We have watched Kirkwood go through his routine many times and the thought always occurs: "Why doesn't that fellow walk away with all the prizes in sight?"

Now we know. It's the same old bugaboo, putting. Joe confesses all in the current issue of Golfing. Here's the lowdown, in Kirkwood's own words:

"Others can say anything they want in trying to explain why I don't win more championships, but I know that it is because of the difficulty I have in getting set on my putting. In exhibition golf I have to play on fast greens, slow greens, bent stolon greens, seeded greens, bermuda greens, sand greens, cotton-seed greens, smooth greens, rough greens and every other kind of a green you can imagine, in the course of a year.

"This has more of an effect on my game than anything else, although the constant grind of playing exhibition dates certainly doesn't help my championship game any. I think a lot of our pro champions ruin their chances of repeating by going on long exhibition tours with their titles There's where Bob Jones was smart. He eased up and pointed himself for championships and took no chance of going stale. Early this season I laid off exhibition golf for three months. The results showed when I won the north and south open at Pinehurst from a star field, and when I tied for seventh position in the national open at North Shore. I've not been worse than seventh in any of the tournaments I've played in the United States this year.

"But even with my moaning about my troubles with putting, I still think this golf game's mechanics are overemphasized. It's the human element that counts. There may be decided differences in form but if the form is steady and if a fellow isn't burned out by the time he reaches the championship he can go places. Say what you will, it's not the noticeable differences in the methods or the fighting, "killer" temperament that wins tournaments; it's nerve control. I've seen fellows with all the "stomach" in the world—men that didn't have the slightest wee bit of fear in desperate danger—rattle their hands like crapshooters when they have had crucial putts to make. I don't. This routine of trick-shot making has developed my nerve control so a championship is just another round of golf. But that putting . . . oh, woe is me!

* * *

THOSE SENATORS

While it's a little too early to climb out on a limb and nominate the Washington Senators as champions of the American league, Mister Cronin's lads seem to have what it takes.

Last month when the Senators slipped badly, it looked like curtains for their pennant aspirations but not so now. The Washington club has demonstrated that it can take it on the chin and then come back to recover lost ground.

The Senators rallied nobly after their near-disastrous slump of a month or so ago. Then last Monday the Nats dropped into New York for a four-game series and promptly dropped a double header to those Yanks. That was enough to take the starch out of any team but not Washington. They took two straight and evened the count. Friday the Senators scored six runs in the ninth inning to trim the troublesome Red Sox and yesterday they won again by coming from behind.

Of course, a four and a half game lead over the slugging Yankees in August doesn't mean a pennant by any means, but after having demonstrated so effectively their recuperative powers, the Senators are looking better all the time.

PAPOOSES BEAT RUSTON 15 TO 3

Walks and Errors Give New Orleans Juniors First Victory

NEW ORLEANS, Aug. 12.—(AP)—The New Orleans Zatarain Papooses today turned nine hits into 15 runs to defeat the Ruston team 15 to 3 in the first of a three-game series for the state American Legion junior baseball championship.

Wildness of Pitcher Terry of Ruston and six errors by the visitors contributed to the Papoose victory. Hinton and Riser, who followed Terry on the mound, fared little better. Carroll Daigle for New Orleans let Ruston down with six scattered hits.

Ruston scored in the third when Terry walked, went to second on a passed ball, and came home on Riser's double. They bunched hits in the seventh to put over two more.

The winner of the series will represent Louisiana in the regional series to be held in Ada, Okla., on August 17 and 18.

A double header is scheduled for tomorrow afternoon.

Red Caps, Kiwanis and Pirate Teams Winners

In three baseball games staged by the recreation department at Forsythe park Friday night, the Midget league Red Caps defeated the West Monroe Hornets 7 to 5; the Junior league Kiwanis team trimmed the Buffaloes 11 to 6, and the Senior league Pirates defeated the Panthers 8 to 5.

The Midget leaguers played three innings, the Juniors five and the Seniors seven. The program was a benefit affair and attracted a large crowd.

SARAZEN MEETS WILLIE GOGGIN FOR P. G. A. TITLE

FARRELL, HINES ARE DEFEATED IN SEMI-FINAL PLAY

Former Champion Meets San Francisco "Unknown" for Crown

By Paul Mickelson
(Associated Press Sports Writer)

BLUE MOUND CLUB, MILWAUKEE, Wis., Aug. 12.—(AP)—Gene Sarazen rode into the finals of the national professional golf championship with Willie Goggin, an unknown to golf renown, from a San Francisco municipal golf course, today.

Poles apart as fame goes in golf, they will meet for the prized title dropped by Olin Dutra, of Los Angeles, in a 36-hole final over the short Blue Mound course tomorrow.

Sarazen, open champion of the United States and Great Britain last year, sailed into the finals on the tide of an easy 5 and 4 triumph over another promnient star, Johnny Farrell, of New York. Goggin, on leave of absence as golf professional at a municipal course 10 miles from the Golden Gate to compete in his first important golf championship, survived after a great duel in which he turned back another unknown of the ranks, Jimmy Hines, of the Timber Point club, New York, one up. He sailed away his victory with a birdie on the 35th green.

Never before did the semi-finals of a national championship produce a stronger contrast in golf. Sarazen, who was teased to forget his squabbles with the Professional Golfers Association of America and compete for the title he has twice held and once missed in the finals, was an easy master as he routed the man who won fame back in 1928 by beating Bobby Jones in the play-off for the national open title.

He led four up after the front nine of the morning, saw his lead dwindle to only one hole on the backward stretch and then went out and won almost as he pleased with perfect golf in the afternoon.

Johnny, outclassed, made a valiant stand, but Sarazen ended the duel by matching his birdie four on the 32nd green. Sarazen had only two birdies all day, but got both when he needed them.

Gene, out to recoup his championship losses, blanked Farrell on the first nine holes with even par, hitting tremendously long wood shots but missing five separate chances for birdies. It was on the back nine that Farrell off most of the day with his approach shots, made his greatest stand. As they passed the 12th hole, Johnny stood four down but found the range and finished with a medal of 3%, two under par, to pick up three holes and go to lunch only one down. He had four birdies on the back stretch. He was able to win but three holes in the afternoon as Gene romped along confidently.

Sarazen won five of the front nine in the afternoon to Johnny's one to run away to a five up lead and divided the final four coming home. Farrell, who was five over par on the out nine, was forced to shoot birdies to win his final two holes.

Goggin, a 200-pounder who thrilled the large gallery with spectacular recovery shots, was tied five times with Hines before he broke the deadlock finally on the 400-yard 35th. The hole was a heart-breaker for Hines, who first gained attention of the galleryites Tuesday by tying Mortie Dutra of Detroit for the medal with 138 shots. Goggin arched a pretty shot in five feet from the pin on the deciding green and Hines, his rival's superior with every shot except recoveries and putts, stuck one up on nine feet away. His putt rimmed the cup and jumped out an inch away. Goggin then stepped up and dropped his for a birdie 3 to go ahead. The final green sang a sad swan song for the husky 27-year-old dark horse from New York. They were even with long, straight drives and pitched beautifully on the green, but Hines' ball refused to take the back spin and rolled 30 feet past the cup, leaving him a near dead stymie from 15 feet because of the undulating nature of his putting line. He putted as close as possible to "Walloping Willie's" ball, but the stymie ended it.

The ball stopped a bare foot wide of the pin.

Sam Byrd Nears Course Record at Philly Links

PHILADELPHIA, Aug. 12.—(AP)—Then George Herman Ruth gets tired occasionally out in the narrow reaches of the Yankees right field, they call in a young, round-faced fellow named Sammy Byrd, from Alabama. It might not be a bad idea for George Herman, who fancies himself considerably as a golfer, to do the same thing any time he happens to weary himself on the links.

For young Byrd, taking advantage of a day so bad the Yanks and the Athletics couldn't even play baseball, went out to the Llanerch links here yesterday and shot himself a magnificent 38-31—69, just one stroke above the record for the course held by Denny Shute, new British open champion, and the course professional.

As much as it hurt, Ben Chapman and Russell Van Atta, team mates, attested to the fact that despite the rain and fairways so heavy there was scarcely any roll, Byrd came in with five birdies and four pars for the 31 that broke the record for the home nine.

Byrd is so used to the role of a substitute that it felt perfectly normal to turn the trick with borrowed clubs. He had never before played the course.

The American Automobile association reports that about 250,000 automobiles were stolen during 1932, and that about 90 per cent of these were recovered.

PLAYS SARAZEN

Willie Goggin, brawny shotmaker from Salada Beach, Cal., will meet Gene Sarazen today for the P. G. A. title. Goggin has been the sensation of the tourney at Milwaukee. He first defeated Leo Diegel, two times P. G. A. champion, and added Paul Runyan and Jimmy Hines to his list of victims in later matches.

SUTTER DEFEATS GREGORY MANGIN

New Orleans Star Meets Wood Today for Eastern Net Title

RYE, N. Y., Aug. 12.—(AP)—Clearing the courts for the grand finale tomorrow when Clifford Sutter, of New Orleans, and Sidney B. Wood of New York, will meet in the finals of the men's singles, three titles were decided today in the eastern grass courts tennis championships at the Westchester Country club.

The invading English team figured in two of the titles as Dorothy Round, Britain's foremost player, defeated her fellow-countrywoman, Mary Heeley, in the third straight all-English final of the women's singles and Young Freda James paired with the veteran Elizabeth Ryan, who recently returned from England, to capture the women's doubles. The other championship went to the national men's doubles title holders, Ellsworth Vines and Keith Gledhill.

As expected, Miss Round, who won a set from Mrs. Helen Wills Moody in the Wimbledon, easily disposed of Miss Heeley in straight sets, 6-2, 6-4. Later the two, paired as a team, could do little against Miss James and Miss Ryan, however, as the Anglo-American combination romped to a 6-4, 6-1 victory.

Vines and Gledhill, tuning their strokes for the national championships later in the month, took the measure of George Lott and Gregory Mangin in straight sets, 6-2, 6-2, 6-4.

Sutter, the defending titleholder, and seeking a third leg on the trophy, and Wood entered the men's singles finals with decisions over Mangin and Lester Stoefen, the lanky Californian, respectively. The New Orleans player, former intercollegiate champion, won in straight sets, 6-3, 6-4, but Wood was forced to go three sets before he disposed of Stoefen 6-4, 3-6, 6-3.

SOUTHERN LEAGUE

CHICKS, CRACKERS SPLIT

ATLANTA, Aug. 12.—(AP)—The Memphis Chicks and the Atlanta Crackers split a double header here today, the Chicks taking the opener 8 to 5 and the Crackers the nightcap 4 to 1. Harry Kelly took the mound for the Chicks in both games, giving the Crackers but 9 hits in each game while the Chicks hit Butcher and Moore for 11 hits in the first and John Aube for two in the nightcap.

Scores by innings:

FIRST GAME

Memphis	300	000	014—8 11 0
Atlanta	202	000	010—5 9 2

Kelly and Berger; Butcher, C. Moore and Neisler.

SECOND GAME

Memphis	000	001	0—1 2 0
Atlanta	100	021	x—4 9 0

Kelly and Berger; Aube and Neisler.

BARONS DOWN VOLS

NASHVILLE, Tenn., Aug. 12.—(AP)—Two home runs in the ninth inning gave the Birmingham Barons a 2 to 1 victory over the Nashville Vols in a pitchers' duel here today. Weis and Braly hit the homers. Brillheart gave the Barons 10 hits but kept them scattered.

Score by innings:

Birmingham	000	000	002—2 10 0
Nashville	000	010	000—1 7 1

White and Berres, Atwood; Brillheart and Baker.

ROCKS ROUT SMOKIES

KNOXVILLE, Tenn., Aug. 12.—(AP)—Little Rock hammered Bill Rabb hard in the early innings today to gain a 9 to 6 victory that dropped Knoxville from the lead. Ab Wright, the Southern league's leading hitter led the attack with a double and two singles. Bill Akers hit a home run in the third with one aboard.

Little Rock	042	021	000—9 10 0
Knoxville	001	005	000—6 11 3

Sharp and Wise; Rabb, Green and Head.

PELICANS TAKE LEAD

CHATTANOOGA, Tenn., Aug. 12.—(AP)—New Orleans Pelicans climbed into first place today by pasting the Lookouts twice, 9 to 8 and 5 to 1. Berger, E. Moore, Morgan, Autry and Ward of the Pels hit for the circuit. Waddey of Chattanooga hit in his eighteenth consecutive game.

FIRST GAME

New Orleans	103	202	100—9 12 1
Chattanooga	014	111	000—8 12 3

J. Moore, Perrin and Autry; Dudley, Barfoot and Maple, Klumpp.

SECOND GAME

New Orleans	110	111	0—5 11 0
Chattanooga	100	000	0—1 4 3

Galehouse and George; Foreman and Maple.

FOXX, SIMMONS IN BATTING WAR

Former Teammates Pace American League; Klein Still Leads

NEW YORK, Aug. 12.—(AP)—Those old Philadelphia Athletics roommates, Jimmy Foxx and Al Simmons, are at it again, and things look natural and normal among the hitters of the American league to everyone except possibly Connie Mack.

While Chuck Klein continues to make a runaway race of the chase for the National league batting title, Foxx and Simmons are locked again in one of their old fashioned hitting duels. Jimmy, just about all the sluggers Connie has left since he sold Simmons, Jimmy Dykes and Mule Haas to the White Sox, dropped two points to .356 in his hitting during the past week but still managed to depose his old roomie as the American league leader.

Simmons' batting fell off five points to .354 during the week, leaving him just two notches behind Foxx. Al has 20 more hits than Foxx with a total of 157, but Jimmy has scored 19 more runs with 89. Both are well out of the reach of Heinie Manush and Joe Cronin, the Senators' ace clouters, who are tied for third with .338 each, a loss for both over the previous week.

This fellow they're beginning to call the new George Stallings of the National league, Bill Terry, manager of the astounding Giants, has taken up the apparently fruitless task of trying to catch Klein in the national league. Chuck dropped six points to a lusty .380 during the week while Terry, whose piloting of the Giants brings back memories of Stallings' conquest with the Boston Braves in 1914, picked up ten points through the week and moved into second place with .353.

The first seven places in the National league standings are still cluttered up with Phillies. Virgil Davis is third with .346, Wes Schulmerich and Pittsburgh's Tony Piet tied for fourth with .333 and Chick Fullis seventh with .332.

DIXIE LEAGUE

SPORTS WIN PAIR

SHREVEPORT, La., Aug. 12.—(AP)—Shreveport swept both ends of a Dixie league double header today from El Dorado, taking the first 7-2 and the nightcap 8-3.

First Baseman Coppock's big stick was one of the decisive factors in the double victory. He got two two-base hits in the first game and homered in the second.

Scores:

FIRST GAME

El Dorado	000	002	000—2 4 0
Shreveport	050	011	00x—7 13 2

Edwards and Krole; Passeau and Lorbeer.

SECOND GAME

El Dorado	000	001	2—3 12 2
Shreveport	000	053	x—8 9 1

Isbell and Krole; Hare and Lorbeer.

LONGVIEW TRIMS JUDGES

LONGVIEW, Texas, Aug. 12.—(AP)—Behind the four-hit pitching of Pate, recruit from Hope, Ark., the Longview Cannibals defeated the Pine Bluff Judges 8 to 3 here today. Stover and McKeller hit homers. The same clubs play here tomorrow afternoon.

Score by innings:

Pine Bluff	021	000	000—3 4 1
Longview	010	031	03x—8 13 1

Devaney and Styles; Pate and Branch.

OILERS, SOLONS DIVIDE

HENDERSON, Texas, Aug. 12.—(AP)—The Henderson Oilers and the Baton Rouge Little Steers split a doubleheader here today, the Little Steers taking the opener 5 to 2 and the Oilers coming back to take the nightcap 5 to 4. In the first game, Cox allowed the Oilers only 4 hits, while his mates got to Perez for 13, one a homer by Grant. In the nightcap, Henderson got 9 hits off Hubble, converting five of them into runs, while Flanagan held the Little Steers to 8 hits and 4 runs.

Scores:

FIRST GAME

Baton Rouge	100	012	100— 5 13 0
Henderson	000	010	010— 2 4 1

Cox and Billings; Perez and Turk.

SECOND GAME

Baton Rouge	100	300	0— 4 8 0
Henderson	022	100	x— 5 9 1

Hubble and Billings; Flanagan and Turk.

JACKSON BEATS TYLER

Tyler, Tex., Aug. 12.—(AP)—In a slow and ragged game, the Jackson Senators nosed out Tyler 9 to 8 tonight. Taking advantage of the wildness of Tinsley, starting Tyler hurler, the Jackson club took a three-run lead in the second, added two tallies in the fourth and shoved over four runs as a result of three hits and two errors in the fifth. Both teams used three pitchers.

Score by innings:

Jackson	030	240	000—9 6 2
Tyler	001	004	030—8 11 4

Taylor, Boward, Sweeney and McDaniels; Tinsley, Galeria, Dobbs and Powell.

TODAY'S SPORT PARADE

Business and Industrial Review of the Twin Cities

ANOTHER ADVANCE IN TIRES LOOMS

Public Is Urged to Take Advantage of Sparco's Low Prices

Another advance in tire prices is expected throughout the industry and automobile owners are urged to take advantage of the opportunity to purchase tires at the present low prices, according to Clyde Hatten, manager of the Sparco Service station at Fourth and Stubbs.

The Sparco station carries a full line of Mohawk tires. The Mohawk is a standard brand of tire and carries the standard warranty. The line is complete, ranging from the low priced competitive tire to the best tire manufactured. Prices on the complete line are extremely reasonable now but tire prices are certain to advance in the near future. Of course, Sparco services Mohawk tires.

Besides that fine new Sparco gasoline, the station carries Pennzoil and Quaker State pure Pennsylvania oils.

Located at that popular north side shopping center, Fourth and Stubbs, the Sparco Service station offers unexcelled service for the motorists of the city.

Residents of the north side particularly will find the Sparco station convenient. Gasoline, oil, tires and other automobile necessities are available and of course, Sparco offers as complete free service as is obtainable downtown. Mr. Hatten and his assistants will check your tires for proper air pressure, fill your radiator with water, keep your battery at the proper level with distilled water and render other service that is always obtainable at a good filling station. A service car is maintained at the Sparco station and a telephone call to 4646 will bring an attendant immediately.

Mr. Hatten and the Sparco station are cooperating with other progressive merchants to popularize Fourth and Stubbs as the logical shopping center for residents of the north side. There is plenty of parking space at Fourth and Stubbs, the merchants there are reliable and offer high class merchandise and the location is particularly convenient for north side residents.

Other concerns participating in the campaign are the North Side pharmacy, Mitchell Denoux, manager; Sur-Wa store No. 5, Buddy Burford, manager; Weil Cleaners, D. B. Weil, owner, and the North Side Barber shop, owned by J. B. Glass.

Another article concerning a Fourth and Stubbs merchant will appear on this page next Sunday.

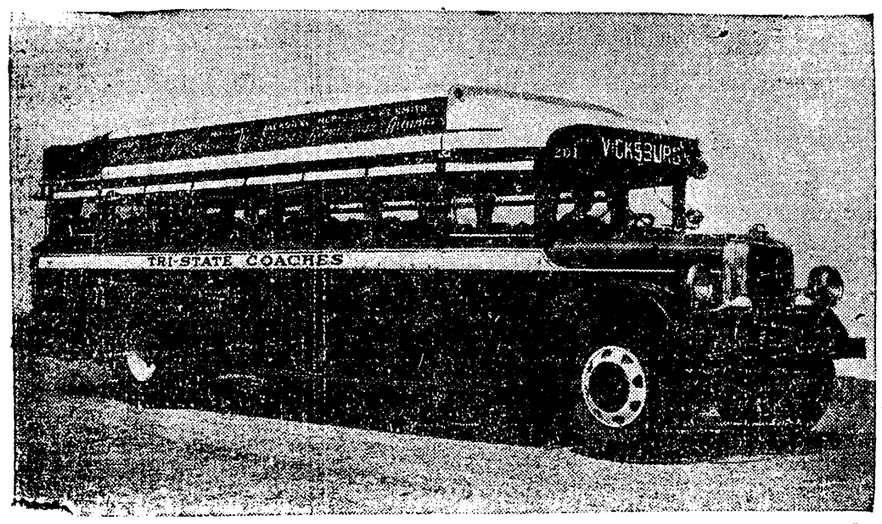
Accidents In Factories Hurt Index Finger Most

COLUMBUS, O., Aug. 12.—(AP)—The thumb may be sadly over-worked in times of unemployment and hitchhiking, but it is the index finger that has the worst of it when industry speeds up.

Analysis of 131,519 injuries and occupational diseases claims by the Ohio industrial commission in 1932 showed 33,676 of the claims arose from injury to fingers, and that the index finger figured in accidents more than any other—9,515 times. The thumb suffered less from accidents than any of the digits.

Alexander Bain, English physicist, made the initial step in the transmission of pictures by electricity in 1842.

LOW FARES OFFERED BY TRI-STATE BUSES



The Tri-State Transit company, operators of luxurious motor coaches, one of which is shown above, are offering unusually low fares to travelers throughout this section. Summer vacation fares of two cents per mile between points on the Tri-State lines have been announced by W. H. Johnson, president. In addition to these special low fares, special one-way and round-trip fares to all vacation points in America also are in effect, Mr. Johnson said. The Tri-State coaches operate extensively in Louisiana, Mississippi, Arkansas and Texas. The local station is located at 200 South Grand street.

QUALITY STRESSED BY WESTINGHOUSE

Best of Materials Used in Construction of Refrigerators

The Westinghouse people, in building the Westinghouse dual-automatic refrigerator, did not lessen the quality of their product in order to meet a price. Only the best materials go into a Westinghouse. To pay more for an electric refrigerator is extravagance, to pay less is a gamble.

Westinghouse, which is distributed by the Monroe Hardware company, makes only one quality refrigerator, the best that can be built. Homeowners save more with a Westinghouse and it serves longer because it is more efficient and is designed to run for many years without appreciable wear. The mechanism is hermetically sealed against rust, dirt and moisture; it is dual-automatic, with the extra precaution of the built-in watchman.

Efficient, lifetime quality refrigeration is most economical in the long run. Westinghouse dependability and protection are combined with convenience features every woman will appreciate. It will prove economical to buy now while Westinghouse prices are the lowest in history.

The day Westinghouse is installed it begins to pay for itself. Refrigeration costs shrink, food spoilage ends and foods are purchased in large quantities. In fact, surprisingly short time is necessary for these savings to completely return the investment. It is wise judgement and thrifty management to own a Westinghouse.

There are models for every purse and purpose, a cabinet for the most modest as well as the most elaborate home. Just a small sum down places any Westinghouse in your home and the balance is arranged to suit the purchaser's convenience.

There are many remarkable new improvements offered in the Westinghouse dual-automatic refrigerator. There are all-steel cabinet, electric-lighted interiors, easy rolling food shelves, built-in crisping pans and other advantages. The unit is hermetically sealed and forced draft cooled, and is located at the top of the refrigerator completely concealed. The Westinghouse has a buffet top and broom-high legs. Both the interior and froster are all-procelain. There is plenty of space for food storage and flat-ribbon shelves.

There are many models of Westinghouse refrigerators, from the super size deluxe to the single door, standard size box. The prices are extremely reasonable now, considering that Westinghouse builds the best.

The Monroe Hardware company will be pleased to show you the advantages and economics of owning a Westinghouse refrigerator. The new improved models may be inspected at their showrooms.

Road of Rock Salt, Clay Given Test In Michigan

CHARLOTTE, Mich., Aug. 12.—(AP)—A section of gravel road near here has been surfaced with a mixture of rock salt and clay as a test for this new material as a binder and dust layer. It is believed to be the first such section laid in the United States.

After the gravel road had been scarified a layer of clay was applied and mixed with the gravel. The salt then was placed on top, sprinkled and packed.

Similar mixtures have been tested in Nova Scotia.

Bibliomancy is the term used to designate the practice some people have when puzzled of opening the Bible at random, reading a verse, and allowing it to determine the person's course of action.

BETTER SERVICE AT LUTHER-REED

Local Garage Maintains Modern Equipment and Trained Staff

While the many auto owners patronizing the Luther and Reed garage find the rates for all services very attractive and enjoy excellent service attention, they have found other features about this service garage which attract them.

The matter of convenience of location, for instance, has a great appeal. The Luther and Reed garage is located at 300 South Grand street, out of the downtown congestion, yet near enough to DeSiard street to be most convenient.

Another attraction at this place is that any kind of auto service or repairs may be had by the car owner. There are various departments for each distinct service, so that only experienced mechanics or workmen do the job in their respective departments. The Luther and Reed garage is truly a "one-stop" garage, the owner not finding it necessary to take his car from one place to another to have the work done.

Patrons of the Luther and Reed garage have found that the proprietors and their assistants are keyed up to render satisfactory service to their customers. They all try to go a bit further to please their patrons, realizing how important this is in the success of the Luther and Reed garage.

If you have never tried the Luther and Reed garage, it is suggested that you drive in there the next time you need auto service or repairs.

BRICK BEST FOR FIRE PREVENTION

Exhaustive Tests Prove Value in Building, Says Frizzell

There is no greater waste in America today than the needless daily loss by fire. The figures are staggering. For a number of years now, the average annual loss by fire in the United States has been over $250,000,000. Roughly, that represents an annual tax of $2.50 for every man, woman and child in the United States. And it falls on everyone, not merely the unfortunate ones whose property is destroyed. To quote from the report of the Committee on Fire Prevention of the Boston Chamber of Commerce:

"This loss falls upon every member of the community in the form of increased taxes, increased insurance rates, increased cost of building materials, increased rent, and, sooner or later, may fall upon anyone in the more obvious form of direct personal loss due to a fire in his own home or place of business.

In 1908, the United States Geological Survey made an exhaustive study of fire losses in the United States as compared with European countries. The report following their investigations gives the most authoritative statistics available on the subject. They found that in 1907 the total loss by fire for the United States amounted to $215,084,709, or $2.51 per capita, while in six European countries the loss per capita was 32 cents, or slightly over one-eighth the loss in the United States. For the same period it cost us seven and one-half times as much as Europe—$2.53 per capita—to maintain our fire departments.

"It is reasonable to assume," says the Survey report, "that where building construction in the United States shall have reached a condition similar to that in Europe our annual cost on this item alone (the cost of maintaining fire departments) may be reduced from more than $25,000,000 to $3,000,000, or less than one-seventh the present cost."

In this connection, bear in mind, please, that brick is the prevailing building material in Europe. Against the fire losses of America versus Europe, place these figures: America uses annually five hundred feet of lumber per capita, Europe sixty feet. Truly, the use of brick is in its infancy here in America.

If any further evidence be required to convince you that brick is the best fire-resistive material, here it is: W. D. Matthews, chief surveyor of the Chicago Board of Underwriters, in his "Manual of Inspection" for 1908, says:

"Ordinary well-burned brick of good quality is the most satisfactory fire-resistive material now used in building construction."

And this from a recent report of the American Institute of Archtects:

"After exhaustive research and thorough investigation, including the severest fire and water tests that could be applied in building construction, we do not hesitate to say that brickwork far surpasses any other form of construction work known to science."

Just one more exhibit, and by far the most interesting to you, for it shows the result of a United States government test of brick.

This test was one of a series conducted under the direction of Mr. Richard B. Humphreys of the United States Geological Survey in Chicago in 1907. The bricks for this test were not selected. They were taken from a pile of brick delivered for use on a new building without the knowledge that any tests were to be made.

Here in brief is what the government experts did to the brick. First the panel of brick was frozen. Then it was put into a furnace and heated for two hours to a heat of 1580 degrees Fahrenheit, and finally it was cooled and the heat resistance tested by the experts. The durability easily convinces prospective builders that brick is the only economical material for building.

The Frizzell Brick company, 20th and Grammont, will be glad to explain further the advantages of brick.

Chevrolet Leads Field By Its Largest Margin

Great Record Made; Local Distributor Fully Behind NRA

Lee-Rogers Chevrolet company has signed the NRA code and five new employes have been added to the company's personnel, Jack Rogers announced yesterday.

In fact, the entire Chevrolet organization is behind President Roosevelt's plan for national industrial recovery. Thousands of employes have been added to the forces which daily are building, selling and servicing Chevrolet automobiles.

Chevrolet is leading the automobile field in volume of sales by the widest margin in its history. Chevrolet sold almost fifty per cent of all low-priced cars sold in the United States during the first five months of the year, according to the latest registration figures from R. L. Polk and Company. Since January first Chevrolet has sold in excess of 370,000 passenger cars and trucks.

To be exact, Chevrolet has sold 47.99 per cent of all low-priced cars sold. Registrations of number 2 car were 26.74 per cent and of number 3, 19.21 per cent.

True enough, it isn't news any more to say that Chevrolet leads the world in automobile sales. People have come to take that for granted. But this year there is an important difference. In the face of the keenest "show-me" market the industry has ever known, Chevrolet has increased its margin of leadership. In fact, Chevrolet alone has sold as many cars this year as all the rest of the low-price field combined.

When a car looms above the field like that, there can't be any argument about it. It must be an all-round better buy. And that's exactly what Chevrolet offers.

The bodies are Fisher bodies, and that's the most famous name in its field. Famous for styling and luxury. Famous for pioneering such revolutionary advancements as the new ventilation system that lets you make your own weather. Famous for using the strongest and quietest body construction of the day—solid steel over sturdy hardwood frame. The engine is a valve-in-head six, and that's the basic design that has been breaking economy and dependability records for year after year. It's cushioned-balanced to blot out vibration. It's full of snap and vigor. In fact, it has been called the most efficient engine in the low-price field.

Then there's syncro-mesh with silent second. There's the starterator. There's simplified free wheeling, the octane selector, long, parallel-mounted springs—more advancements than there is space here to describe, but all of proven value. What's more, Chevrolet prices start at $445 and no Chevrolet is listed above $565.

Already this year, hundreds of thousands of owners have put this car through every kind of test, driven it millions of miles, and proved that it is right. No other car in the world bears such a recommendation.

A Lee-Rogers salesman will be pleased to demonstrate the advantages of Chevrolet. No obligation, of course.

Lee-Rogers Chevrolet company also will be pleased to show you their dependable used cars. Every car is in A-1 condition and bears the Chevrolet Red Tag guarantee.

SUMMER FOODS AT HEMP'S CAFETERIA

Delightful summer dishes, including delicious salads with crisp lettuce and other inviting tid-bits, are being featured now by Hemp's Cafeteria, corner Grand and DeSiard streets.

Considering Hemp's reasonable prices, it is much cheaper to eat there than to cook a meal nowadays. Instead of spending hours in a hot kitchen, housewives are finding that it's more economical, to say nothing of comfort, for the whole family to eat at Hemp's.

"How do they do it?"

That's the comment you invariably hear after a patron of Hemp's Cafeteria finishes his or her meal. The unexcelled quality of food at such a low price plus the delicious way in which it is prepared, is almost unbelievable.

The food at Hemp's is of the highest quality obtainable and it is prepared in a spotless kitchen. Home cooking is Hemp's boast and that's exactly what one gets. The portions are generous and the service is faultless.

"The biggest food bargain in Monroe" is what satisfied patrons have termed meals at Hemp's Cafeteria. Quality and quantity, plus the knowledge that one is getting food prepared in a modern, sanitary kitchen, has made Hemp's one of the most popular places to eat in Monroe.

The food is attractively displayed.

PUREST PRODUCTS AT SCHARF DAIR

Grade A Milk Is Available at Sur-Wa Stores Throughout City

Hundreds of gallons of milk are s daily at the Sur-Wa stores and the a good reason. Scharf's milk is s exclusively through these popular f stores throughout Monroe and hou wives know they're getting the pur product available when they b Scharf's milk.

An analysis of milk produced at Scharf dairy, reveals that the bacte count more than qualifies under standards of the United States hea service as Grade A.

"That's the kind of standard insist upon," Mr. Scharf said rece ly, "and we have pledged our b efforts to see that this standard quality is upheld. We see that no ing but the best milk and dairy p ducts leave our dairy and find th way into a Sur-Wa store.

"All the guesswork has been tak out of the milk question by our me ods of production and distributio Mr. Scharf added. "Scharf milk con from the finest dairy cows that regularly inspected. Samples of m are taken at regular intervals fo the Sur-Wa stores and tested. Th tests prove that Scharf's milk is a solutely pure, that it is always fr and that it is above the standard food value and has more than required amount of butterfat."

Those results, he explained, w not the result of accident but f lowed years of careful thought a scientific preparation for the prod tion of milk and dairy supplies.

The Scharf dairy is modern in eve respect. It is located southwest of t city. It is under the constant perso supervision of Mr. Scharf and t sanitary methods employed have w the praise of inspectors who regula visit the plant.

A rapid delivery system assures t freshness of every bottle of Sch milk in every Sur-Wa bottle. T milk is transported directly from t dairy to the stores, where it is put big refrigerators and kept in perf condition until removed by a cust mer.

"Look at the cream line," is a mo of the Scharf dairy. There's mo cream in a bottle of Scharf's milk a that is mute evidence that there is difference between ordinary milk a Scharf's.

In fact, the array of good things so tempting that it is sometimes d ficult to make a selection. Howev it's not an expensive habit to more than you had expected to Hemp's because the price is so re sonable.

Cotton

New Orleans

NEW ORLEANS, Aug. 12.—(AP)—The cotton market was quiet active today and prices after advancing early developed an easier trend, closing moderately lower.

The opening was irregular, October 5 points down and later months one to six points up although Liverpool was lower than due. The market soon rallied, however, due to reported buying by sources usually representing the government and also straddle buying by New York in the southern market. Prices gradually advanced to 9.51 for October and 9.75 for December, or 16 to 17 points above yesterday's close.

Later in the session, the market turned easy on considerable hedge-selling and in sympathy with declines in wheat; October dropping to 9.25 and December to 9.46, or 26 to 27 points down from the earlier highs. The close was at or near the bottom, being called barely steady and showing net losses for the day of 10 to 11 points.

Exports for the day totaled 31,584 bales.

Cotton futures closed barely steady at net declines of 10 to 11 points.

	Open	High	Low	Close
Oct.	9.30	9.51	9.25	9.25-26
Dec.	9.57	9.73	9.46	9.46-49
Jan.	9.70	9.73	9.57	9.53
March	9.82	9.82	9.66	9.66
May	9.99	10.10	9.85	9.85-86
July	10.13	....	....	10.00

ORLEANS SPOT COTTON

NEW ORLEANS, Aug. 12.—(AP)—Spot cotton closed quiet 9 points down. Sales 783; low middling 8.56; middling 9.16; good middling 9.56. Receipts 997; stock 671,986.

New York

NEW YORK, Aug. 12.—(AP)—An early advance in cotton on heavy buying of near months and covering was followed by renewed weakness during today's trading. After the early buying orders had been supplied, the demand was comparatively limited with prices easing off under a renewal of liquidation and scattered selling promoted by the action of the grain market.

Prices for all months made new lows for the movement with December selling off to 9.51 or 29 points from the early high and 10 points net lower. Closing quotations were at the lowest for the day with the tone easy at net declines of 8 to 17 points.

Cotton futures closed easy 8-17 lower.

	Open	High	Low	Close
Oct.	9.50	9.56	9.32	9.32-33
Dec.	9.65	9.80	9.51	9.51-52
Jan.	9.72	9.85	9.56	9.56-58
March	9.83	9.95	9.70	9.70-72
May	10.00	10.13	9.83	9.83-85
July	10.07	10.25	9.98	9.98

Spot quiet; middling 9.20.

Liverpool

LIVERPOOL, Aug. 12.—(AP)—Cotton, 15,000 bales including 7,700 American. Spot in limited demand; prices twenty-five points lower; quotations in pence: American strict good middling 6.40; good middling 6.10; strict middling 5.80; middling 5.65; strict low middling 5.60; low middling 5.30; strict good ordinary 5.10; good ordinary 4.80. Futures closed quiet and steady. Oct. 5 43; Dec. 5.47; Jan. 5.49; March 5.52; May 5.56; July 5.58.

Livestock

CHICAGO, Aug. 12.—(AP)—(U. S. Dept. Agric.)—Hogs 13,000; including 11,000 direct; market around 10 lower than Friday; pigs 3.25 downward; packing sows 3.25-60; medium weight 200-250 lbs. 4.40-50; heavy weight 250-350 lbs. 3.75-4.40; pigs good and choice 100-130 lbs. 2.75-3.75.

Cattle, 800; calves 200; compared with close last week all grades light weight fed steers and light and long yearlings 25 higher; medium weight and weighty steers, after recovering early decline, steady; vealers 50 higher, very scarce; most fed steers 5.50-6.75; extreme top heavy steers 7.40; best long yearling steers 7.25.

Sheep, 5,000; for week ending Friday 43 doubles from feeding stations; 20,300 direct; today's market nominal; compared with close last week, lambs 50-75 higher; extreme top range lambs 8.90; week's bulk carrying wide quality range 7.25-8.50; week's top natives 8.60; ewes 1.50-3.00.

Potatoes

CHICAGO, Aug. 12.—(AP)—(USDA)—Potatoes, 56, on track 114, total U. S. shipments 366; white stock, slightly stronger, Triumphs and Ohio's steady; trading moderate, supplies moderate; Idaho Triumphs, U. S. No. 1, 2.95-3.00; Idaho Russets 3.40; cobblers, Nebraska, combination grade, 2.50-60; New Jersey, 2.75; Long Island 2.90; Missouri combination grade 2.40; Minnesota, Ohio's partly graded, 1.75-2.00; round whites Hollandale section 2.30.

INVESTORS STOP PLAYING WITH FIRE

Trading securities is a wise act in many cases, but has proven quite expensive for too many investors.

You should first know the true position of securities which you now hold—and above all learn all about anything that is being offered you in exchange.

We have the experience and every facility to advise you correctly. Our services are at your command without obligation. Just write us before you trade any of your securities for junk.

PRESIDENT ACTS ON WILSON BILL

In an executive order signed Thursday night by President Roosevelt, in which he placed all government contracts under the national recovery code and made it compulsory upon contractors to buy supplies from firms which fly the blue eagle emblem, an act introduced in the lower house by Congressman Riley J. Wilson of Ruston was cited as authority for part of the order.

The president quoted from section 2, title III of the act approved March 3, 1933, entitled "an act making appropriations for the treasury and post-office departments for the fiscal year ending June 30, 1934, and for other purposes."

This portion of the act provides American-produced commodities may be given preference over other commodities and that contracts for supplies may be awarded for American-produced commodities even though lower bids are made by producers of foreign commodities, provided the bids made by producers of American commodities are not deemed excessive.

Congressman Wilson stated that the Wilson bill for the use of American products was sponsored through the Southern Pine association.

Acting under authority of this measure the government has been able to purchase 1,500,000 pounds of binding twine made from cotton, Congressman Wilson said. Previously twine used by the government had been made from jute purchased from India.

TODAY

By ARTHUR BRISBANE
(Copyright, 1933, King Features Synd.)

(Continued from First Page)

trol of practically all the great corporations in America.

The Mellon family, probably has, like the Rockefellers, Henry Ford and others, several hundred million dollars. You must have that amount to do business in a big way, just as a small garage man or grocer has to have some thousands to meet payrolls and bills.

TWO PORTRAITS in the book every young American should see, the portraits of Andrew W. Mellon's father and mother, Americans of the old school.

You see in the face of Thomas Mellon, founder of the family, who at nine years of age, with ninety-nine cents in his pocket, walked 21 miles to Pittsburgh, determined to do something. You see a character that could not do anything but succeed. He died at the age of 95, with the respect of all that knew him.

Mr. Mellon's mother, wife of Judge Thomas Mellon, who was Sarah Jane Negley, is well described by her husband as "quiet, pleasant and self-possessed," a fine type of the intelligent American woman of the last century. The descendants of this couple were bound to do something.

It is hard to understand why Mr. Mellon should object to a book that makes him presents of millions, why he takes the trouble to say publicly that the book "alleges huge ownership in many corporations with which I have not had, and never have had any connections or interest whatever."

BROOKLYN, N. Y., "a city of churches and homes," is occasionally a city of fights. In one fight Rudolph Nocella, aged 32, lost his left ear. He said a man bit off the ear in a "social club." The worst of it, according to Mr. Nocella, is "a large woman picked up the ear and announced, 'I am going to keep this for luck!'"

For a lady to keep "for luck" a left ear that does not belong to her, seems strange. But millions of people for scores of centuries have made strange collections. Red Indians collected scalps. Head hunters collected and showed with great pride entire heads of enemies, even heads of those that had never harmed them.

And "civilized" gentlemen go to Africa to bring back heads of all sorts of animals, expecting to be applauded.

IF YOU GET MONEY, even a little at a time, and keep it, resisting the temptation to try to get more, a great deal at a time, you may do well.

Pietro A. Ierardi, who stuck to his job, blacked boots, and did nothing but black boots, is dead. A surprised widow finds that he has cash in eleven banks, plus mortgages and real estate worth $150,815.

Almost anybody can make money, few know how to keep it.

LOOKING AT THE Heavens, in a northeastern direction along the Atlantic Friday night, you might have seen, weather being favorable, a shower of brilliant lights called the "tears of Saint Lawrence." These tears, otherwise called the "Perseids" are pieces of stone, visible only when less than one hundred feet above the earth and falling with a speed of many miles per second.

That speed saves the earth from bombardment that would kill many every year. Friction with the atmosphere "burns up" the falling stones, reducing them to harmless dust, before they reach the earth's surface.

Public Forum

(This newspaper publishes all letters addressed to it in the public interest, but requests that they be not more than 300 words in length; shorter ones to be given preference. Letters must be original, free from libel and personal abuse, and the author's name must be known to the Editor, together with city or town and street address. Anonymous communications are thrown away, and no correspondence is entertained with regard to them.)

CHINA AND THE SINGLE TAX

To The Editor:

The editorial quoted below from the Times-Picayune of August 8, 1933, casts into high relief the capabilities of the oldest civilization known to man, the Chinese. This race, whom we have tried to "civilize" along religious and moral lines, according to this editorial, is adopting intoto what is commonly called the "single tax," and known to economists and political scientists as the collection of the economic rent on the land for the maintenance of the state, the nation and the local government. This idea was crystalized fifty odd years ago by Henry George, an American, who is known to his followers as the "Prophet of San Francisco."

In March, 1879, was published "Progress and Poverty," by Henry George. In this book a masterly exposition of the collection by the government of the economic rent of the land is set forth. This book has been translated into more foreign languages than any other book in the world excepting only the Bible and possibly Pilgrim's Progress. It is not strange that a wonderful truth enunciated and advocated by an American in America and so far turned down by western civilization is now being adopted by a race that we call heathen?

THE SINGLE TAX

Following is the editorial from the Times-Picayune:

"There is a farm problem in China, one thousand years old, but only recently has there been a movement for rural reform, akin to our own farm administration complex. What this Chinese matter really is has recently been set forth in good English by Professor W. H. Ma, head of the political science department of the University of Nanking. This economist explains that about 85 per cent of China's huge population consists of farmers and agricultural workers, who constitute the foundation of the Chinese economic organization. A moment's thought should convince one that any dramatic change that will effect China wholesomely as a whole must, of necessity, be based on a participation in the uplift movement by this agrarian majority. And yet for centuries this rural element has been virtually without participation in the government.

"The need to give full recognition to the farming element was voiced by the late Sun Yat-sen in his famous program for national reconstruction that is cherished almost as a constitutional program by the republic. The patriot laid down the principle that the hsien (large rural districts) should be the basis for local government reforms. And in the manifesto later adopted by the first national congress of the Kuomintang, it is declared that 'the hsien, or district, should be the unit of local self-government. That the people of every self-governing hsien should have the rights of electing and of recalling their own officials, as well as the rights of initiative and referendum in making laws.'

"It is further specified that 'land tax, the tax on the increment of land values, the products of public lands, and all profits derived from the forests, rivers and mines should be placed at the disposal of the local governments for developing local enterprises, relieving the poor and the aged, supporting orphans, carrying out famine relief and maintaining public health as well as similar public enterprises.'

"This is a revolutionary program, indeed, from the older method of relying on the mandarins and war lords to exercise those controls and functions at their whim and will.

"However, as to the expenses of the state, each hsien should remit to the national treasury a certain percentage of its income, such percentage to be not less than 10 per cent or more than 50 per cent of its total receipts.

"As a general resume, article 10 of the manifesto announces that 'the organization of rural communities should be improved so as to ameliorate the living conditions of the agricultural population.' With the hsiens making their own laws and having power to enforce them, the prospects for farm life improvement would appear far brighter than ever before in the young republic's history."

GOOD WAGES—Are you seeking a place to learn a trade? Are you anxious to work and earn a good wage? Here is the answer. The old apprenticeship method was discarded years ago. Trade schools now prepare workmen for many lines of industry, saving the entrants years of time to advance in the industrial field which will within a very short period of time be seeking new, young blood for its factories. The printing industry offers splendid opportunities. The outstanding school for this industry is located at Nashville, Tennessee. For full information, terms and catalog, address Director V. C. Garriott, Southern School of Printing, 1514-16 South Street, Nashville, Tenn.

LABOR GROUPS TO MEET THIS WEEK

Plans for Organizing Campaign Made at Session Friday

Plans for an organizing campaign to be conducted in Monroe and West Monroe were announced at a regular meeting of the Monroe Trades and Labor council Friday night at the Woodmen of the World hall.

Among the crafts represented at the session were electrical workers, painters, printers, barbers, machinists, carpenters, sheet metal workers, roofers, motion picture operators and boilermakers.

Cooperation with firms and individuals pledged to the NRA program was decided upon by the council.

A special committee was appointed to determine upon Labor day activities.

Four meetings were scheduled for this week at the Woodmen of the World hall at 8 o'clock each night: Monday, carpenters; Wednesday, electricians; Thursday, painters; Friday, trades and labor council.

Important matters were scheduled for decision at the next council meeting, it was said. Representatives from all crafts were urged to attend.

All motion pictures exhibited in Japan must pass the censorship of the Japanese home office.

First Bale of Cotton Is Ginned in Ouachita

The first bale of cotton to be produced in Ouachita parish this year was ginned Friday at the Standard gin, owned by J. T. Austin. It was grown by Tom Bamburg on H. M. McGuires's ranch No. 2. The cotton is on display at the Ouachita National bank. It weighed 430 pounds.

Mr. Bamburg showed the first cotton bloom in Monroe this year. He also grows corn, peas, cane and all kinds of garden truck.

CONTRACTORS TO MEET TOMORROW

Builders From Eight Local Parishes Will Discuss NRA Code

General contractors from eight parishes in this section of the state will meet here tomorrow night at 7:30 o'clock at the city hall to discuss the NRA code for contractors, it was announced yesterday.

At the meeting the contractors will receive a report on the action taken at a meeting of the Louisiana General Contractors' association at Alexandria recently. K. C. Wilson, chairman of the board of control for the state group, and other prominent contractors will speak at the meeting.

The eight parishes in the district, which is designated as the third zone in the state, are Ouachita, Morehouse, Union, Lincoln, Jackson, Caldwell, Franklin and Richland.

Ancient Jerusalem, Athens and Rome obtained their water supplies from distant places, conveyed through aqueducts.

HIGH MOUNTAIN FOUND BY LINDY

Flier Reports Peak Taller Than Any Known in Greenland

NEW YORK, Aug. 12.—(AP)—The sighting of a mountain higher than any other heretofore known in Greenland and unrecorded on maps has been reported by Col. Charles A. Lindbergh and his wife, who are charting a northern air route to Europe.

Another topographical feature which the Lindberghs reported could not be found on charts was a fjord, or possibly navigable waterway, which they followed inland for more than a hundred miles.

Officials of Pan-American Airways, Inc., who received the reports, said both discoveries may force sharp revision of existing maps of the region.

The mountain, which the report said is higher than either Mount Evans or Mount Forel, both in Greenland, and the fjord were found on the eastern coast of the island. The mountain is west and slightly north of Scoresbey Sun, midway along the coast.

The fjord, located in the Blosserville section between Angmagsalik and Scoresbey Sun, never has been sailed or explored probably because of ice conditions.

Flying from Angmagsalik to Clavering Island, the farthest north the Lindberghs have gone, they spotted the waterway and deviated from their course to follow the fjord to its end.

"Mariners probably avoided investigating it because of ice conditions in the harbor," an official of Pan-American said. "From the air, Col. Lindbergh said it appeared as though the fjord might be navigable." The official said he did not know whether the expedition's ship, the Jelling, would attempt exploration.

MURPHREE FIGHTS SPECIAL SESSION

Mississippi's Lieutenant Governor Objects to Conner's Plan

JACKSON, Miss., Aug. 12.—(AP)—Lieut.-Gov. Dennis Murphree tonight took the lead in an open legislative revolt against Governor Sennett Conner's proposed constitutional convention.

Declaring that he does not "think it advisable to hold a special session for consideration of the program to reorganize state and county departments, Murphree today said he would formally notify the governor of his disapproval of the project.

His statement marks the second break with the chief executive since the administration took office. He vigorously opposed a bill at the last session of the legislature, sponsored by the administration, which would have turned control of the highway department over to a director named by the governor.

"I oppose a constitutional convention for a number of reasons, any one of which to my mind is satisfactory," Murphree said.

"I don't feel it is advisable to have a special session for consideration of the reorganization of state departments. This can be taken care of at the regular session.

"I favor a short special session to pass whatever legislation is necessary to speed up and fit into the national public works program.

"At that special session there should also be passed legislation which will give the people of Mississippi the right to express themselves on the matter of prohibition."

Other legislators, it was learned today, have expressed unqualified opposition to the governor's proposal.

HEY! YOU CAN'T DO THAT!

"You can't swim that way," says State Patrolman Ben Rouch to Jimmy Thatcher and Shirley Eleanor March after discovering the youngsters, towels over arms, preparing for a swim without suits in Puget sound at Seattle, Wash. No nude swimmers on Seattle beaches, says Officer Rouch as he waves an admonishing finger. (Associated Press Photo).

Tattooes Blue Eagle on His Chest to Prove He Belongs

NEW YORK, Aug. 12.—(U.P.)—K. Maramapus, rotund proprietor of the K. Maramapus suit and dress repair shop straightened his shoulders, and with a reverent gesture jerked open his shirt. There tattooed on his chest, was the NRA blue eagle.

"I gotta da blue eag', my fran'," he said. "I gotta da seex men in da shop and I gotta da blue eag'."

The six men continued at their work in the loft shop. The only windows faced on the building next door.

"Da blue eag' on da piec' pape' she no good," Maramapus went on. "Da blue eag' in da window he see only house nex' door. So I gotta da blue eag' here on da chest."

"I gotta da blue eag' on da piec' pape' las' week," he continued, gesticulating. "I put in window. Nobody see. I go tailor shop, get clothes, customers no see. My frans no see. Dey say 'why you no gotta da blue eag'?' I feel much troub'. I t'ink hard.

"Two days off 'I t'ink quick, like dat, tattoo. Good, I t'ink. But den I t'ink, 'No, wait.' So I t'ink hard. Next da I t'ink yes, tattoo. So I go to Professor Al Neville in da Bowery, I getta da blue eag'.

"My chest, she hurt, but I t'ink, very good. I take on one helper. Pretty soon maybe put up everybody's pay. Everywhere da peop' wit' da blue eag' put up a little da pay. Everybody have more money, I get more business. I raise pay a little but maybe business get plenty more, see? I make money.

"Da blue eag' she cost t'ree dollars. But she gotta da crooked beak, see, and da tuffs in da head. Jimmy Siceglione, da' barber, he say da customers no see da blue eag' wit' my shirt on. I tell him: 'When I see ma customers, I do like dis:'"

Whereupon, Maramapus again bared his chest.

DEACONS TO HOLD CHURCH SERVICES

In the absence of Rev. L. T. Hastings, pastor of the First Baptist church, the deacons will have charge of the services this morning, it was announced Saturday. The day has been designated Laymen's Day.

Frank Masling, chairman of the board of deacons, will preside at the services. Others who are scheduled to participate with scripture readings, prayers, or talks are E. H. Murrell, D. P. Gerald, C. C. Colvert, and Sam Newsom.

A special feature of the services will be a vocal solo by Miss Mary Roland, of Pine Bluff, Ark.

Sunday has been set aside as the day for the compeltion the "Buy Brick" campaign which has for its purpose raising of funds to purchase 100,000 common bricks for use in construction of an educational annex to the church, L. A. Stulce, educational director, announced. He said 50,500 bricks were already on the lot where the building is to be erected and that a number of contributions toward the other 45,500 had been received.

Manteris, Turner Vote Against Jail Sermons

Harry Manteris and "Hook" Turner, under sentences of death in Caldwell parish in connection with the attempted robbery of the closed Grayson bank, in which two men were shot, were the only prisoners in the Ouachita parish jail who voted against allowing Rev. George E. Gray, prison evangelist to preach in the jail, the evangelist said Saturday. Owing to the fact that most of the prisoners wanted to hear the minister, Sheriff Milton Coverdale readily consented for him to address the men. Mr. Gray said one of the condemned men later showed interest in the sermons.

On the invitation of Sheriff Coverdale, the evangelist has decided to remain here through today. This will make 15 days he has spent in Monroe, instead of the 10 days originally planned.

Since he has been here the evangelist has placed six new Bibles, 43 gospels of John, four New Testaments and five hymn books in the jail, he said. The books are furnished by the American Bible society.

MUSIC PROGRAM WILL BE GIVEN

A special program of music will be presented at 7:45 o'clock tonight at the First Baptist church by its choir.

The program follows:

Prelude "The Heart of the Hills" ..... Zamecnic
Mrs. Grover C. Cornett

Spirituals—
1—Deep River .....Fisher
2—Go Down Moses .....Burleigh
3—Won't You Set Us Free..Dvorak
The Choir
Offertory—Neapolitan Nights..... Zamecnic
Mrs. Grover C. Cornett
Anthem—"Lift Up Your Heads".... Ashford
Mrs. Gerald and Choir.

Purses, week-end cases, and novelties are made from ostrich hides; the leather thus used is expensive and rare since ostriches are too valuable to kill for their skins.

PATIENT'S THROAT IS CUT BY NURSE

Jealous Woman Wounds Paralyzed and Blind War Veteran

MEMPHIS, Aug. 12.—(U.P.)—His throat slashed with a razor by his nurse who had cared for him 12 years, Don C. Crawford, 44, paralyzed and blind war veteran, fought for his life today.

Mrs. Hulda E. Fielder, the nurse, slashed him in a fit of rage and jealousy. She is being held at the police station without charge pending the outcome of Crawford's condition.

J. W. Crawford, a brother, pulled Mrs. Fielder off Don and battled her for ten minutes.

A strange relationship between Crawford, his nurse, Mrs. Fielder, and a second nurse, Mrs. Cox, who also has nursed the invalid veteran, came to light with the attack.

Jealousy was blamed by police as the motive for the attack on Crawford, who contracted arthritis deformans while in training at Camp Sevier during the war. The disease has left his entire body rigid except for the feeble movement of his lips as he whispers.

When Mrs. Cox came to visit Crawford, Mrs. Fielder rushed at him with a razor.

"I just went mad when Mrs. Cox came," Mrs. Fielder said today as she sat in jail, her nurse's uniform sprinkled with blood. "She had been to see him before and I couldn't stand it. She would go into his room and close the door and stay for a long time. She seemed to have some power over him."

"He meant so much in my life. I have nursed him for the past 12 years. He is just part of me. I love him, not as a sweetheart, but as a son, and I couldn't stand to see Mrs. Cox with him."

Ramsey Funeral to Be In Monroe Tomorrow

The body of D. R. Ramsey, 71, who died Saturday at the home of his daughter, Mrs. T. L. Houston, of Tulsa, Okla., will arrive in Monroe tonight on a Missouri Pacific train and will be taken to the home of his daughter, Mrs. R. R. McCurdy, 1604 Jackson street.

Funeral services will be held at 11 o'clock Monday morning at the home of Mrs. McCurdy, with Rev. Thomas F. Jett, pastor of the First Christian church, officiating. Interment will follow in Riverview cemetery.

Pallbearers will be C. J. Boyett, C. W. Dent, C. E. Miller, T. O. Mills, J. C. McCurdy and Aubrey Hobbs.

Surviving Mr. Ramsey are five children, Mrs. R. R. McCurdy, Monroe; Mrs. T. L. Houston, Tulsa; Mrs. L. C. Radford, Los Angeles; Miss Pearl Ramsey, Monroe, and Don R. Ramsey, Monroe, and four grandchildren. Mr. Ramsey was a member of the Woodmen of the World.

Singing Association Closes Its Convention

MINERAL WELLS, Texas, Aug. 12.—(AP)—The Texas Interstate Sacred Harp Singing association closed its three-day convention here today, after W. T. Coston of Dallas, president, had awarded prizes in individual and class singing contests.

Beckville, Texas, held the record for the largest class, composed of 60 young singers with J. D. Jones, president, and Ed Gentry, instructor and representative. The convention was attended by 50 singers from Alabama, Georgia, Mississippi and Tennessee.

U. S. PRISONER HELD

Ralph Hill, 23, federal prisoner, was placed in the parish jail Saturday to be held for J. Noble White, federal probation officer.

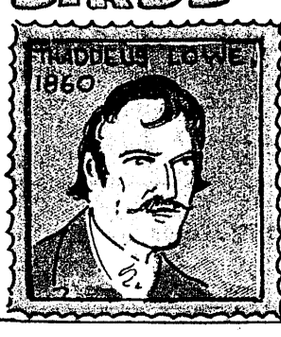
TAILSPIN TOMMY

by HAL FORREST and GLENN CHAFFIN

TOMMY SAVED THE LIFE OF A NATIVE AFRICAN CHIEF BY DIVING FROM THE PLANE INTO A RIVER AND KILLING A CROCODILE THAT WAS ABOUT TO DEVOUR THE BIG BLACK "SHOT." ---- NOW WE FIND TAILSPIN AND SKEETER AS GUESTS OF HONOR IN THE NATIVE VILLAGE.

(Copyright, 1933, by The Bell Syndicate, Inc.)

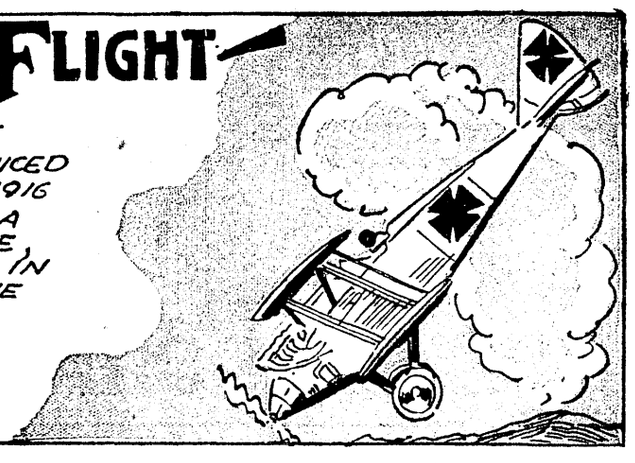
EARLY BIRDS



PROGRESS of FLIGHT

HALBERSTADT SCOUT

THIS ONE SEATER WAS INTRODUCED ON THE WESTERN FRONT IN 1916 BY GERMANY, BUT WAS NOT A SUCCESS AS A COMBAT PLANE, BECAUSE IT WAS TOO BULKY IN ACTION AND HEAVY ON THE CONTROLS. IT WAS FITTED WITH A 220-H.P. ARGUS AND CARRIED A CRUDE MAXIM MACHINE GUN.



UM KETCHUM UMBA GOOKO QUICK SOON YOWSAH!

NO FOOLIN', MISTER CHIEF, TH' LAD'S IN A BAD WAY SURE ENOUGH!

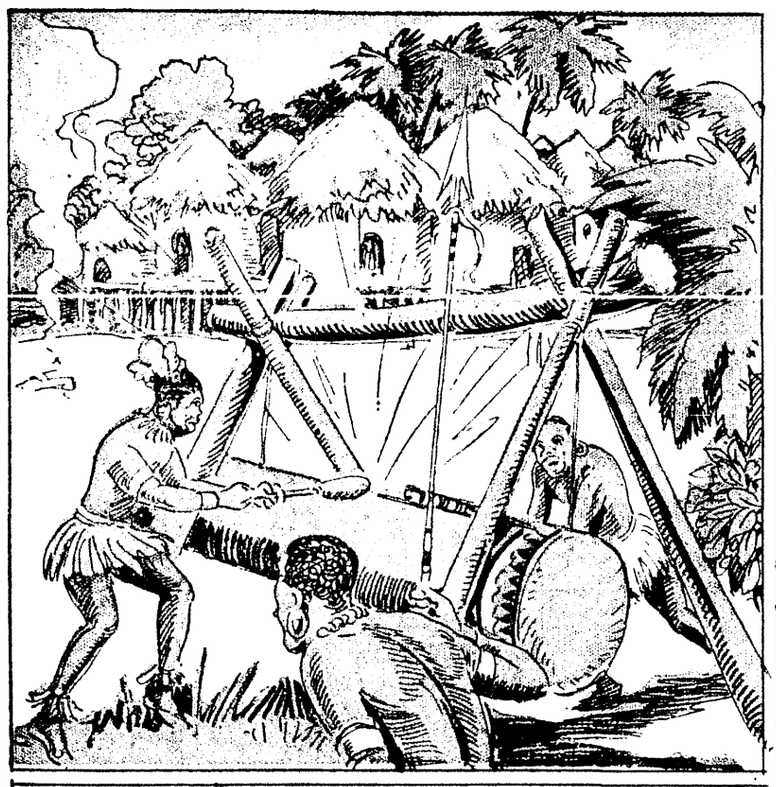
HE MUST HAVE BEEN SHOT BY AN ENEMY TRIBE!

AN' THIS GANG IS GETTIN' READY FOR WAR RIGHT NOW-- HOW ABOUT DRAGGIN' OUT TH' CAMERA AN' TAKIN' SOME NEWSREEL SHOTS OF THIS FUSS?

WE MIGHT GET AWAY WITH IT IF WE HAD AN INTERPRETER TO EXPLAIN OUR ACTION-

NOMO' MORA-TORA-UM-- NOZUH!

--BUT AS THINGS STAND I THINK WE'D BETTER JUST SIT TIGHT FOR A WHILE!



AND NOW WE WITNESS ONE OF THE STRANGEST METHODS OF WAR COMMUNICATION KNOWN TO MAN--THE PRIMITIVE BUT EFFECTIVE TOM-TOM TELEGRAPH--

THE WEIRD RHYTHMICAL BEAT OF THE TOM-TOM CARRIES FOR MILES ALONG THE RIVER TO A NEIGHBORING VILLAGE, WHERE AN ALLIED TRIBE RECEIVES THE MESSAGE AND PREPARES FOR WAR AGAINST A COMMON ENEMY--

THIS IS GONNA BE EMBARRASSIN'--A FELLER'S ALMOST GOT TO FIGHT FOR HIS HOST, AIN'T HE?
WE MAY SOON BE "GUESTS" IN A RIVAL CAMP, SO WE'D BETTER STAY OUT OF THE ROW IF WE CAN-YOU CAN SEE HOW FAST NEWS TRAVELS IN THIS COUNTRY-- LISTEN!

BOY, WHEN THEY DECLARE WAR IN THIS PLACE THEY DON'T WASTE TIME EXCHANGIN' INSULTIN' NOTES-WAR DECLARED! WAR ON! RIGHT NOW!
REGULAR HIT AND RUN AFFAIR-WE'LL HAVE TO FIGHT NOW TO SAVE OUR NECKS!

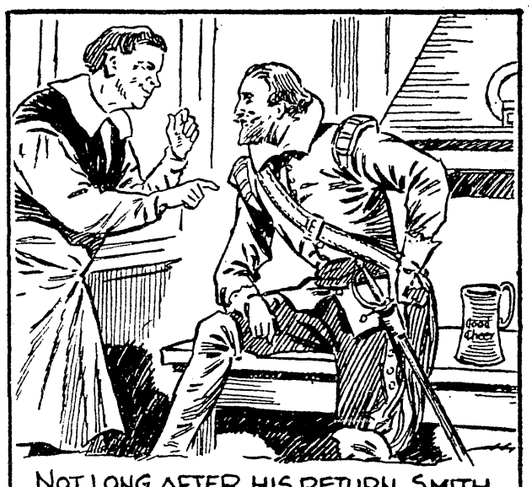
HIGH LIGHTS OF HISTORY -:- Captain John Smith—Part IV -:- By J. CARROLL MANSFIELD

AFTER SLAYING HIS CRUEL MASTER AND ESCAPING FROM SLAVERY, CAPTAIN JOHN SMITH MANAGED TO GET OUT OF TURKEY SAFELY.

THEN HE JOURNEYED ACROSS EUROPE, HAVING SUNDRY ADVENTURES ON THE WAY, AND AT LAST REACHED HIS NATIVE ENGLAND, WHICH HE HAD NOT SEEN FOR MANY A YEAR . . . . . .

SMITH WAS THEN TWENTY-EIGHT. NO ONE WOULD HAVE RECOGNIZED HIM. HE HAD GROWN A FINE, RUSSET BEARD, WITH BRISTLING MUSTACHIOS, AND WAS QUITE A DASHING FIGURE OF A CAVALIER. —



NOT LONG AFTER HIS RETURN, SMITH LEARNED THAT THE LONDON COMPANY WAS SENDING AN EXPEDITION TO PLANT A COLONY IN VIRGINIA. THIS SMACKED OF THE KIND OF ADVENTURE HE LIKED. —

STRAIGHTWAY THE DOUGHTY CAPTAIN VOLUNTEERED TO JOIN THE VENTURE, AND WAS PROMPTLY ACCEPTED. —

ON DECEMBER 20, 1606, THE EXPEDITION LEFT ENGLAND AND SAILED FOR AMERICA BY WAY OF THE CANARY ISLANDS AND THE WEST INDIES. BESIDES THE CREWS OF THE THREE SHIPS, WITH CAPTAIN CHRISTOPHER NEWPORT IN CHIEF COMMAND, THERE WERE 100 COLONISTS (ALL MEN) . . . . . .

THE VIRGINIA COLONY WAS TO BE GOVERNED BY A COUNCIL OF SEVEN. NONE OF THE COLONISTS KNEW WHO THE SEVEN WERE, FOR THEY HAD BEEN CHOSEN SECRETLY BY THE LONDON COMPANY, AND THEIR NAMES PLACED IN A SEALED PACKET, WHICH WAS NOT TO BE OPENED UNTIL THE SHIPS REACHED AMERICA.

THE MOST INFLUENTIAL MAN ABOARD WAS ONE EDWARD WINGFIELD. PROUD OF HIS HIGH BIRTH AND POWERFUL CONNECTIONS, WINGFIELD WAS AMBITIOUS TO CONTROL THE AFFAIRS OF THE NEW COLONY. —

ANGERED BY WINGFIELD'S AIRS, SMITH DECLARED THAT HE HIMSELF WAS AS WELL QUALIFIED TO SERVE ON THE COUNCIL AS ANY MAN. THE HAUGHTY WINGFIELD CONSIDERED SMITH A NOISY, BOASTFUL YOUNG UPSTART. —

BEFORE THE VOYAGE WAS HALF OVER THE SNOBBISH ARISTOCRAT AND THE HOT-HEADED LITTLE CAPTAIN NEARLY CAME TO BLOWS. SMITH VOWED THAT HE WOULD NEVER SUBMIT TO BEING RULED BY WINGFIELD. —

SOME OF THE COLONISTS SIDED WITH SMITH AND PROMISED TO SUPPORT HIM AGAINST WINGFIELD.

©. 1933, J. CARROLL MANSFIELD.

IN RETALIATION WINGFIELD CHARGED SMITH WITH PLOTTING MUTINY, AND GOT HIS RIVAL CLAPPED IN IRONS AND CONFINED IN THE SHIP'S BRIG.

THERE SMITH, BOILING WITH IMPOTENT RAGE, WAS IMPRISONED FOR THE REST OF THE VOYAGE.

SUMMER SPORT TOGS

A Variety of Smart Clothes for the Outdoor Weekend

IS THE BEACH calling to you? Or are you longing for the cool, green country? Do you yearn for hours on end in the bright sunlight of some gay resort?

Wherever you go, you must choose a variety of outdoor clothes with which to meet the demands of every outdoor sport. Particularly attractive this season are the stunning new divided skirts that the outdoor girl finds so comfortable for bicycling or roller skating.

Of course, you'll want two or three tennis dresses in your suitcase. These may be of pique, or linen, or that lovely striped fabric similar to men's shirting.

A sweater and skirt costume will be a comfort to you. There is always an occasional cool day at any resort when a warm costume on the golf course is appreciated. The new twin sweater sets—a slip-on with a matching cardigan as a companion—are grand!

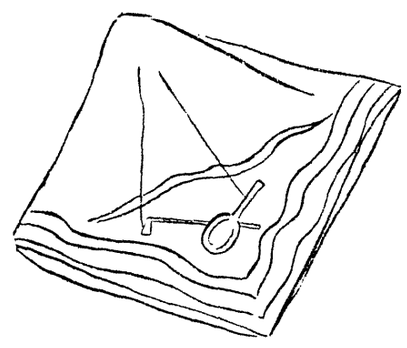
And don't forget your beach costumes—if you're an active swimmer bring along a suitable one-piece jersey suit, or, if you prefer to decorate the beach, there are all sorts of picturesque and colorful suits to choose from.

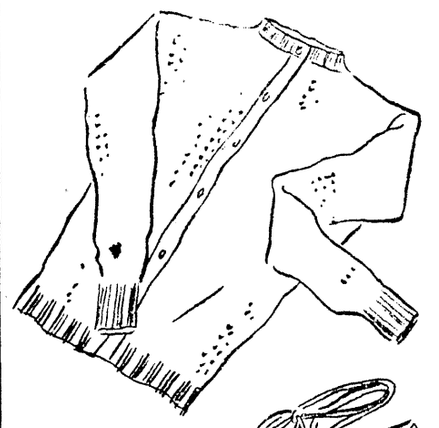
THE DIVIDED SKIRT

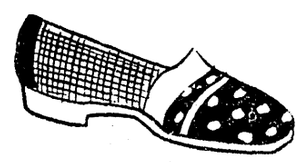
JOY and comfort for the outdoor girl. And the new models are practical without sacrificing femininity or smartness. The skirt above is fashioned of brown flannel and features slit pockets at the hips. It is worn with a mannish shirt of white pique that can be buttoned high at the neck and worn with a tie.

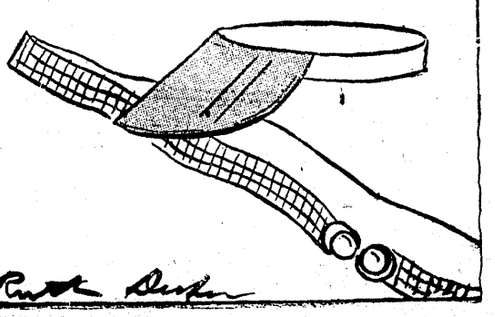
OUTDOOR ACCESSORIES

THE jaunty handkerchief of linen goes gay with a red and blue border and an embroidered motif of racquet and club. A cotton cardigan is a handy thing to have around—this one is in a cool shade of green. Cool and comfy are the rubber-soled tennis ghillies of white linen, while sport klacks in linen reveal a black and white check and dot pattern. If you really want to protect that nose get this practical visor with its extra large shade. The elastic belt has gay, giddy stripes.









SOME NEW IDEAS

THE golf frock sketched above is cut in two pieces, shirtwaist style, and fashioned of linen. The white blouse is tailored and displays a high neck, a deep yoke and two patch pockets. The skirt, striped in blue and white, boasts a wide inverted pleat front and back. Twin sweaters are all the rage. Here, at the left, is a set in bright yellow wool. The under one, a pull-on model, has a high boat neckline, over which is worn the straight-line cardigan. A brown wool skirt, with slashed pockets, completes a sporty outfit. To keep the unruly locks in place, we suggest the cunning white wrap-around turban sketched below. It can be adjusted to suit the wearer's preference.

FOR TENNIS

A CHARMING frock of white crepe attractively trimmed with navy and white dotted foulard. The sailor collar ties to the bodice at each side of the deep square neck, and the narrow, dotted belt has a self-covered buckle. Plenty of freedom in the skirt, of course, and a sun visor made of dotted silk.

Lazy Bones Goes To Work

By Peter B. Kyne

"You can have him for three hundred dollars."
"Sold," said Mr.

"SOME day before I die," Pa Comerford was fond of saying, "I'm going to own a real race-horse."

This hopeful pronouncement usually was delivered after he had come home from a disappointing day at the track and was sitting in the kitchen of their rented furnished apartment or cottage, watching Ma Comerford prepare the evening meal. Ma loathed cooking, and at mealtime could usually be counted upon to be quite as morose as Pa. Always, at his optimistic words, she would look up at Pa and say sourly:

"You'll own a real race-horse when they give them away with half a pound of tea."

One day, following years and years of thwarted ambition to own a real race-horse, Pa one night suddenly changed his ancient plaint. "Ma," he announced, "I'm going to buy a real race-horse."

"Where?" asked Ma.

"I don't know, Ma; but there ought to be one hanging around on some stock-farm—one I can pick up cheap. I'm tired running beetles. The meeting closes tomorrow, and I'm going around among the stock-farms visiting and see what I can pick up."

"I'll go with you," Ma decided. Her life was rather a drab affair, and she welcomed the slightest diversion. . . .

In the course of their pilgrimage in search of a future fortune, Ma and Pa Comerford came presently to the farm of one Colonel Josiah Henley. The worthy Colonel, who had gleaned his title gratuitously in Kentucky by reason of his general affability, particularly to negroes, was a good horseman and had some mares of outstanding quality, animals he had picked up around race-tracks when their legs went bad. He had a theory that only a fool would breed to mares that had never been raced, and hence had no history of speed; but he had been careful to select only two-and three-year-olds that had broken down before being raced too much. Since, over a period of years, his investment in such breeding-stock had not cost him very much, he was deplorably overstocked; also he was perennially in need of funds, and would sell any colt on his farm at a price far less than others would have demanded.

THE advent upon him, therefore, of Pa and Ma Comerford was as welcome to the Colonel as the flowers in May. However, he knew Pa Comerford's financial standing, and at once decided to waste no time exhibiting to the old gypsy the best of his yearlings. He led Pa and Ma out to the field where the colts were standing together in a corner with their heads together.

Ma and Pa moved in among them, inspecting them closely. In the lot was a two-year-old, a big bony chestnut, that caught Pa's eye instantly. Said Pa Comerford:

"What's this colt's breeding?"

The Colonel rattled off the colt's pedigree for five generations, for he had a marvelous memory for such things.

"A grandson of St. Simon on his sire's side, and of Sweep on his dam's side. He's bred in the purple. Can't find anything better," said the Colonel.

"He's a two-year-old. Has he been broken? Have you ever had him in training?"

"He's broken, and I've had him in training, but he has never been raced. To tell the truth, Mr. Comerford, I had too many two-year-olds in training this year, and had to turn some of them back to the farm. This colt developed distemper and a flock of warbles on his hide, so I took him out of training. I worked him a quarter once in twenty-five, but he wasn't crowded at all. I just let him run on his own courage. You can have him for three hundred dollars."

"Sold!" Ma said. "We'll send a trailer and the cash for him in the morning."

Which they did. With the money safe in hand, the Colonel handed Pa the colt's registration certificate; and Pa, glancing at it to verify the breeding, noticed that the colt was named Lazy Bones.

"Why did you name him that?" he demanded.

"Because he's such an easy, amiable, unruffled sort of hoss," the Colonel replied. "Nothin' ever excites him, an' he spends most of his time lyin' down. I never did see a colt that liked his rest better'n Lazy Bones."

"All growing colts like their rest," Pa opined.

PA COMERFORD brought his grand big two-year-old to the track at Tanforan Park, because that was the only place he could keep him and look after him as he had made up his mind to do; for he had decided not to train the colt and race him until he was three years old.

On his third official birthday Pa said to his exercise-boy: "Lazy Bones goes into real training this morning, son. Jog him a half, gallop him three-eighths, and set him down for the last eighth. Don't whip him. Just let him run on his own courage and well within himself."

Lazy Bones worked the eighth in sixteen. He just couldn't be bothered. As he ran, he swung his big head and serenely gazed out over the infield; as he passed the empty grand-stand, he looked into it as if estimating its seating capacity; when he caught sight of Pa and Ma Comerford waiting for him at the gap in the fence, he pulled up abruptly, walked casually over to them and rubbed his silly head against Pa's breast as much as to say: "Well, thank God, that foolishness is over!"

"A little child could handle him," Pa declared jubilantly. "Not a bit hard-headed, never wants his own way, never gets excited."

He followed Lazy Bones and the boy back to the barn. As the boy dismounted, he remarked, "This horse can't run faster than a fat man can roll a barrel. Mr. Comerford, he's the laziest brute I've ever topped. I'll be surprised if I ever get a real work out of him. I booted him and clucked to him, but he didn't pay any attention to me; and he was gawking all over the track."

"Maybe he'll run under colors," Ma suggested half-heartedly. "He might get interested on finding himself in a big field of peppery horses."

So Pa entered him in a race for maiden three-year-olds; and the average race for maiden three-year-olds usually brings together the sorriest field imaginable. Lazy Bones stood quietly in his stall at the Bahr starting-gate, and when the barrier flew up, he remained there gazing interestedly out into the infield. When Lazy Bones got back to the barn, Pa Comerford gave him a punch in the ribs; and Lazy Bones, astonished and chagrined, retaliated by giving Pa a sharp nip in his own ribs.

Although he started eight times during the thirty-nine days of the spring meeting at Tanforan, Lazy Bones never came within thirty lengths of third money. He became the track joke, and Pa Comerford was subjected to much heartless chaffing.

AT the Del Monte meeting there was a race for maiden three-year-olds, and again the hopeful Pa entered his Lazy Bones. But just before leading him over to the paddock, he drenched the horse with a quart of strong black coffee and a pint of moonshine whisky. "It might give him some Dutch courage," he told his boy as he boosted the latter into the saddle. "He's a mite excited for the first time in his worthless existence. He's sweatin' a little right now."

"Well, it might help," the boy whispered, "but I'm goin' to apply first aid. I'm goin' to start him out of the gate with a wallop between the ears. A sock on the head may insult him."

Lazy Bones broke on top, and everybody wondered why. He went out of the gate with a bound, and his long legs commenced opening a gap in front of the favorite. At the quarter he was fifteen lengths in front, and the crowd commenced to cheer. Lazy Bones was just a chestnut streak as he rounded into the far turn out of the backstretch, and though he carried very wide, the field continued to drop away from him. He was going three bells and a jingle, for he was quite tight.

But the action of moonshine whisky takes many forms. Apparently it made Lazy Bones facetious, for suddenly he swerved over to the rail, leaped it, landed ten feet out in the infield, bucked off his rider and then stood still, gazing at the sprawling boy with mild interest for a few seconds, before commencing to crop grass.

Pa Comerford, who always watched from the infield when he had a horse running, came over and picked the boy up. "What happened?" he queried.

"He carries grudges when he's drunk," the jockey snarled. "All the way up the track he was figgerin' how he could pay me off for that swat on the head."

There are some defeats that are more glorious than victory. "A friend o' mine timed him," Pa exulted. "He ran the first three-eighths in thirty-four. If he hadn't been soused, he would have broken the track record for six furlongs. He can fly if he wants to — and it's my job to make him want to. The swindler, the dirty swindler! I'll break his yellow heart and make him run."

"He won't stand for the bat, Mr. Comerford. I tell you, he holds grudges. And the next time you slip him coffee and moonshine, get somebody else to ride him. He's jarred my back teeth."

"I know what's wrong with him. He's been spoiled. He isn't afraid of anything. If he was only afraid of other horses, he'd run like a fiend to keep out of their way. I'll fix him."

"How?" the boy inquired.

"I don't know," Pa Comerford replied, "but love will find a way."

When the meeting closed, Pa and Ma loaded their four horses in a motor-van and started for Los Angeles. Passing down through San Fernando Valley, Pa saw a paddock with about twenty-five scrub horses in it. The paddock was about two hundred and fifty feet long and about eighty feet wide, and the western side of it was given over to a long open shed, with an enclosure at each end. The horses were milling up and down the paddock, snorting in terror; occasionaly one of them made a futile effort to climb the six-foot board fence.

"I wonder what frightens them," Ma remarked.

Pa pulled the horse van in to the side of the road, climbed down and made his way around to the back of the paddock, where he found a man arrayed in the habiliments of a motion-picture cowboy, standing there smoking a brown paper cigarette.

"I was curious about them horses inside," Pa announced. "In all my life I never did see critters so terrorized. What's scarin' 'em?"

"I'll show you," the motion-picture cowboy replied, and led Pa inside the paddock and into the enclosures at each end of the shed.

"I SEE," said Pa, a minute later. "But why are you doin' it?"

"Since the old-time Western pictures give way to the sex stuff," the cowboy replied, "we ain't got much use for cowponies. I'm out of a job, with sixteen head on my hands. They're all half thoroughbreds, an' I been rentin' 'em out to folks to ride. The result is they're all jaded—no life to 'em. Recent, a lot o' these high-priced movie directors an' supervisors an' executives got lookin' around for a new way to show the world how rich an' aristocratic they are. They've soured on imported automobiles, an' swimmin' pools are so common in Beverly Hills that the tradesmen have started buildin' 'em. Yachts was all the go for a while, until they got too common, an' the expense o' building bigger yachts to maintain the competition got pretty apparent. So now the boobs have turned to polo—an' I got a deal on this mornin' at eleven o'clock to sell these here nags o' mine to a brand new movie-star that's just climbed into the important money. He don't know which end of a horse the bridle goes on, but he's hell-bent on havin' horses with a lot o' life in 'em. So I'm puttin' life into these tired bronc's o' mine. Bet you a dollar I unload 'em."

"Do you own the means o' putting life into 'em, Mister?" Pa asked humbly.

"I do."

"Want to rent 'em for a day or two or three—cheap?"

"Anything to earn an honest living. They'll cost you fifty dollars."

"You've rented something. When can I take possession? I got a horse I want to put some life into."

"Come back tomorrow mornin'. I reckon the corral will be empty then. I'll show you how it's done."

THE Governor's Handicap, with twenty-five thousand dollars added, brought to the post at Agua Caliente a field of twelve of the best or second-best stake horses in the country, and the worst horse ever seen on any race-track — a horse that could not even be dignified by the name of selling plater, since he had never won a race. And that horse was Lazy Bones. The sports-writers, ever on the scent for a good story, promptly informed the world of the unique racing record of the redoubtable Lazy Bones, and one and all, managed to convey their opinion that Pa Comerford, his owner, who had never owned a really good horse in all his gypsy existence, was undoubtedly as crazy as his horse, else why should he spend fifty dollars on a nomination-fee and an additional five hundred dollars to declare Lazy Bones in the Governor's Handicap? When interviewed and propounded this question, Pa had merely chewed a straw and admitted that to date Lazy Bones had been a tremendous failure. "But," he added, "any trainer'll tell you that horses get good—an' Lazy Bones has improved a lot. He's got lots o' foot, an' if it so happens that he feels like runnin', he'll be a hard horse to beat. The hell of it is, nobody knows when he's goin' to feel like runnin'."

"Are you going to bet on Lazy Bones?" the reporters asked.

"Ma might have a few tickets on him, but I'll be satisfied with winner's share of the purse."

And of course that made an excellent story for the humorously inclined.

While he was training Lazy Bones for that grueling mile-and-a-quarter race, Pa Comerford followed his custom of giving his horse long, slow works. For three weeks each work was duly recorded on the sporting pages; and once, when Lazy Bones worked a second faster than usual, that news was found worthy of a box and leaded type. Lazy Bones remained, as usual, himself. He couldn't be bothered; he loafed; no power on earth or under the seas could get a halfway decent work out of him. But Pa did not despair. He had a sublime faith that on the day of the race Lazy Bones would be smitten with ambition. . . .

PA'S exercise-boy always rode his horses in races. He was a fair rider, and could make ninety-eight. But he could also remember his orders and obey them; and as Pa boosted him up on Lazy Bones when the bugle called the horses to the post, he listened attentively and nodded.

"Sock him between the ears once, and get him off on top," Pa exhorted him. "That spurt will take him to the half-mile pole. Hold him on the rail, and don't let him get away from you and jump it. If you let him carry wide so he gets room for a take-off, he may take the shortest way home. I'll be just inside the rail at the three-quarter post, and when you approach it, take your reins in your left and grab a handful of mane in the other, because things are going to happen to you if you don't. The fool's liable to jump clear out from under you. Right after he's jumped, he'll start runnin' like no horse ever run before, so take a good hold on his head an' let him do his stuff. If he starts to falter, sock him over the head again, and yell at him like a wild Indian. Get him in front, son, and keep him there, and don't try to rate him. He's got the stamina to go the distance at top speed—and he'll be going when the other horses in this race are dying on the vine."

While Pa was thus exhorting the jockey, Ma was up at the pari-mutuel windows buying five hundred dollars' worth on the nose of Lazy Bones. She placed the money in bets of twenty dollars each, at each window, and while the horses were walking to the post, the pretty little Mexican girls who place bets for the patrons of Agua Caliente got the remainder of her money down. With her tickets safe in her bosom, Ma went out into the infield and stood behind the timer's box at the finish-line.

It was a difficult field to start, but eventually the hoarse cry went up: *"They're off!"* And then, for the first time in his miserable life, Lazy Bones got a call. The loud-speaker carried it to Ma Comerford.

"Lazy Bones breaks on top, Sun Dog second, Lord Algy third, St. Martin fourth, El Presidente fifth, and Old Kickapoo sixth. The rest trail.

"At the eighth, Lazy Bones by three lengths; Lord Algy moves up into second place; St. Martin is third by a length—"

The loud-speaker continued the description of the race:

"At the quarter Lord Algy is moving up rapidly and Lazy Bones takes second place. Lazy Bones drifting back rapidly. St. Martin is now second by half a length, and Old Kickapoo moves up into third place, El Presidente fourth."

MA COMERFORD focused her racing-glasses on the three-quarters pole and prayed. And the loud-speaker droned on its fateful heart-breaking tidings.

"At the half! Lord Algy by a length, Old Kickapoo second by a half length, St. Martin third by a length, Boy Howdy fourth by a length, El Presidente fifth by three lengths, and Lazy Bones still dropping back. . . .

"At the three-quarters pole there is no change, but Lazy Bones trails the field — as was anticipated."

A mighty laugh went up from the crowd—and then Ma Comerford saw a strange eerie figure leap up out of the grass in the infield just inside the rail, just as Lazy Bones, trailing twenty lengths behind his field, came lumbering by. Ma saw the horse give a mighty leap; then the strange eerie figure sank in the grass — and the loud-speaker took up the story again.

"Lazy Bones is coming to life again and is moving up fast on the outside. . . . Into the stretch! Old Kickapoo leads by two lengths, Lord Algy second by half a length, and Sun Dog is now making his run and is challenging for third place. But Lazy Bones is coming up in back. He's dropping from the clouds. . . . Lazy Bones now leads by half a length, Old Kickapoo second by half a length, Lord Algy third by half a length, and Boy Howdy fifth by a length."

The thud of hoofs drowned out whatever further information the loud-speaker had to convey; and then the surprised, indignant bellow of the huge crowd drowned out everything except one chant repeated over and over again: "Lazy Bones! Lazy Bones! Watch that dog come!"

The race was over, the silence settled over the track as the numbers went up. Lazy Bones had won by three lengths—and he had come from twenty lengths behind to win and smash the track record by half a second. While the horses were jogging back to the judges' stand, the board announcing the winning prices shot up on the edge of the infield. Two-dollar mutual tickets on Lazy Bones paid two hundred and twenty-five dollars — and that was all old Ma Comerford was interested in, for she had played the family fortune on the swindler's nose on a long chance that he would turn honest.

The loud-speaker was at it again. "The judges desire Mr. John Comerford, owner of Lazy Bones, to step up into the stand."

WHEN Pa Comerford came puffing up the stairs of the judges' pagoda, the jockey was already there.

"Mr. Comerford," said the presiding judge, "how do you account for the amazing reversal of form in your horse Lazy Bones? A three-year-old maiden winning the Governor's Handicap borders so closely on the miraculous that we feel the public will want an explanation, which we have no doubt you can supply quite readily. The boy, here, says the horse got off on top because he hit him on top of the head. He says Lazy Bones will always run like a streak for a quarter after he has been hit on the head. Lazy Bones led to the quarter-pole, then sagged back until he seemed out of it; but at the three-quarters pole he came to life as if he'd been bee-stung, came on like the Twentieth Century Limited, made up twenty lengths of lost ground to the turn into the stretch, finished two lengths in front and broke the track record."

"I never entered that fool horse without tryin' to win with him, Judge. I was a long time finding out he could run if he wanted to, and I was a long time finding out how to make him want to."

"What did you do to make him run? Stimulate him?"

"No sir, never doped a horse in my life, although once I did give Lazy Bones some strong coffee and whisky. And he went crazy, so I never tried that again. As for what I did to make him run, that's a trade secret. If you judges had been watchin' my horse, you'd have seen what I did to him. I worked right out in the open. I had nothing to conceal. But when my horse was twenty lengths to the bad, you forgot all about him; you remembered only his reputation. Any fool should have known that when I entered Lazy Bones in the Governor's Handicap I was crazy, or else I knew mighty blamed well what I intended to do. The public elected to consider me crazy. All right, I am crazy—like a fox."

"Did you bet on your horse?"

"Two bucks. My wife controls the Comerford finances, an' she laid five hundred—all we had in the world—on his nose. Why, Judge, look at the big brute standin' down there! Does he look like a snow-bird?"

"He looks frightened to death and acts that way."

"He is frightened out of his wits," Pa admitted. "Is there any rule ag'in' frightenin' a lazy horse that can run, in order to make him run?"

"No, there is no rule against that."

"Well, I frightened him, that's all."

The presiding judge took down the telephone. "Pay off," he ordered.

As Pa Comerford went back down the steps and out onto the track where the blanketed Lazy Bones was prancing around, looking for something quite invisible to human eyes, a man followed Pa out.

"Is Lazy Bones for sale, Mr. Comerford?" he demanded.

"Any horse I got is for sale—at a price."

"He ran a marvelous race."

"Well, he only had ninety-eight pounds up, although he could have won carrying a hundred and thirty. You can have him for fifty thousand dollars."

"Sold! I'll be around to your barn in the morning with a certified check, which you can have in exchange for your horse and a veterinarian's certificate that he is absolutely sound."

IN the morning Lazy Bones changed hands. As his new owner's groom was leading him away, the buyer asked: "Has he any peculiar habits?"

"He has only one bad habit. He's lazier'n a poor white with hookworm. You'll never get a work out of him, and you'll never win a race with him, unless you scare him to death. Do that, and he'll continue to break track records. I dunno but if I'd had an extra man out there with me yesterday when I scared a lung out of him at the three-quarter pole, he might have broke a world's record."

"How did you frighten him?"

"Well, you've paid a whaling price for Lazy Bones, an' you're entitled to the information. I put that big dub in a paddock once — a paddock with such a high fence around it he couldn't jump out. In an enclosure at one end of the paddock I had a lion and in the other a mangy old camel. If there's anything that will frighten a horse worse'n a lion, it's a camel. A movie man taught me that. Them movie folks are a lot smarter'n they've given credit for. There ain't any sort o' contraption their technical men can't make, an' I had one invent for me a bazoo with a little bellows on it, and when the bellows was pressed, it makes a roar like a lion. I bought me a mangy old lion just for the Governor's Handicap. He was old an' toothless an' about to die, so I got him for fifty dollars from a movie magnate. Yesterday I killed him an' skinned him an' parked his pelt in the grass over by the quarter-pole. I left the head on, with the jaws propped open with a stick. Just before the start o' the Governor's Handicap I went over to the three-quarter pole an' got inside the skin, with my synthetic roar clamped under one arm. There's a small ditch just inside the rail, an' I hid there. I knew the field, with the exception of Lazy Bones, would go by me so fast they wouldn't have time to smell me, so I wasn't endangerin' the jocks; but I also knew Lazy Bones would come along by himself, trailin' the field. As he come by, I popped up, laid my front paws on the rail an' roared at him. The rest is turf history. Me an' Ma won fifty-six thousand five hundred dollars on him in bets; my share o' the purse is over nineteen thousand dollars; and you've just give me fifty thousand dollars, so I reckon the Comerford family is fixed for the duration o' this dog-gone depression."

The new owner looked sick. "Does anybody know how you accomplished this miracle?" he asked.

"Nobody but me. Even the jock don't know. He was too busy to look around an' see what frightened Lazy Bones. An' I won't ever tell nobody."

"Does that lion-skin and the roar bazoo go free with the trade?"

"Sure, if you want them; but if I was you, I'd buy a fresh lion for all important races. The roar helps a lot, but it's the look o' the critter that drives a horse crazy. However, I got a notion you won't need it. The fool knows now he can run—an' maybe he won't be lazy any more. Remember Phar Lap showed nowhere in his first eight races. He didn't know he could run, but once he found that out—"

To the credit of the new owner of Lazy Bones, be it said that he was sport enough to laugh!

INDUSTRIES ARE TORN BY STRIFE IN THREE STATES

Pennsylvania, New York and New Jersey Centers of Strikes

NRA DELAY PROTESTED

Coal, Silk, Rayon, Restaurant, Garment Workers In Walkouts

(By Associated Press)

Industrial strife tore several industries in Pennsylvania, New York and New Jersey today.

Pennsylvania authorities viewed with apprehension preparations for a general bituminous mine "holiday." Then thousand soft coal miners in five counties of southwestern Pennsylvania already have quit their jobs in protest against delay in signing an NRA code for coal.

The national labor board was expected to make immediate efforts to settle strikes involving between 50,000 and 60,000 workers in the Pennsylvania silk industry. Public hearings on a code have been in progress. Meanwhile four Allentown rayon mills announced they would reopen immediately at the request of striking employes.

A walkout struck a gastronomical blow at Philadelphia and Camden, N. J., when employes of Linton's restaurants were summoned to strike today. Union officials said 1,000 workers were affected. The demands include higher wages and shorter hours.

Twenty thousand silk dyers still are out in north New Jersey in a drive for a 30-hour week and a minimum wage of 60 to 65 cents an hour.

Strikes in New York spread yesterday to 25,000 underwear workers in 500 shops, and 3,000 cleaners and dyers, so union officials announced.

New Coal Code Being Drafted

WASHINGTON, Sept. 13.—(AP)—A new recovery code for the bituminous coal industry was being written today at NRA headquarters.

Authors summoned to the conference tables included administration experts, representatives of operators from all major producing fields and leaders of the United Mine Workers of America. Hugh S. Johnson himself was to take a hand as knotty issues arose.

Spurring all groups toward the goal of completing the final code this week were reports of growing labor disturbances in western Pennsylvania coal fields. But Deputy Administrator Kenneth M. Simpson declined to forecast a definite time for taking the charter to the White House.

Johnson's code, handed operators last week, was the basis for the new draft. Clause by clause, NRA officials attempted to harmonize that code with objections submitted by operators and miners.

Though coal continued the headliner, it was only one of many activities progressing simultaneously in the recovery drive. Prominent was the further development of Johnson's plan for local "compliance" boards to enforce observance of wage and hour agreements. The set-up retains in Johnson the right to take definite action against specific employers.

The retail trades code was receiving a final polish which its sponsors hoped would get the charter, along with its price-fixing clause, to the White House.

Codes for the boot and shoe, the motion picture and silk textile industries also were forging through the

Jes' Ramblin'

ABOUT THE TOWN

By H. H. B.

The mantle of originality is now ruthlessly torn away from Louisiana's most noted "dunker," Crawfish Hooey Long. Latest scientific information unearthed is to the effect that this assumedly "royal" means of disposing of food was borrowed from the common 'coon. And here is how: One Leon F. Whitney, in speaking before the American Society of Mammolgists declared that the raccoon, instead of washing his food before he eats it, as believed, is merely resorting to the ancient practice of "dunking" it. If this is accepted as fact—and we see no reason to doubt it—there is no further necessity of seeking the original "dunker." Mr. Whitney should know what he is talking about due to the fact that he makes it his business to study animals and their habits. The raccoon's proper name is "PROCYON LOTOR," which in common English means "the washer." But a long and intensive study of the 'coon and his habits, shows that he has no particular leaning toward cleanliness, therefore he most likely "dunks" his food through sheer force of habit.

* * *

Fire Chief Frank Roddy is a great lover of children. He also likes to keep all the friends he ever made in the world. He had a bright idea last week. He would pick at random nine attractive youngsters standing on the street immediately prior to the holding of the firemen's parade Tuesday and let each ride a piece of the city's apparatus in the parade. But caution got the better of him. At the last minute, he selected a fire chief from down state to do the PICKING! Who won't say that was an act of a modern Solomon?

* * *

Ask Allen Jones over at the city hall what happened when his car and a bovine entered into mortal combat. From reluctantly given information, it is gathered that the cow almost got the best of the situation but details will be better and more completely supplied by Mr. Jones himself. . . . They're all coming back from those summer vacations. Charles E. Kenney, with new scholastic laurels, is back from Peabody prepared to tackle his job as principal at the Neville high; Jack Hayes brings home a smiling countenance and says he feels fine and fit for the task of directing destinies of teachers and pupils at the Ouachita parish high; W. C. Spight, whose consuming passion is issuing a better "Monroyan" each succeeding year, has been back from somewhere in the east for a week now. Vacation time, 1933, is fast fading into history and the duties of the work-a-day world now must be resumed.

* * *

Seen once more for a few days on the streets of the city are Mr. and Mrs. P. J. Duffy, now of Collensville, Okla., but for many years former residents of Monroe. Mr. Duffy was engaged in the contracting business when he resided here and some of the most substantial structures were erected by him, notably St. Matthew's church, Monroe Building and Loan association's building; the old cotton mill on Jackson street and others almost too numerous to mention. Although he has been away for 26 years, Mr. Duffy enjoys nothing more than to return here for a short stay, renewing the friendship of persons with whom he was once intimately associated.

* * *

Youthful Frank Smith, armed with a little white rooster, went over across the lots from his home to the residence of George Pipes. "Mister Pipes," he began. "I want to sell you this rooster for 75 cents." George eyed the chanticleer curiously. "He lays eggs, too," supplemented the young would-be merchant. "Great big ones." George looked amazed. "What's that, a rooster lays eggs!" "Yes sir, he sure does." After a few minutes of dickering, the unusual bird was purchased and the money transferred with the iron-clad understanding that unless the rooster laid an egg the next morning, the deal would be off and money refunded. And George says the next morning, sure enough the ROOSTER HAD DEPOSITED A LARGE WELL-FORMED EGG! George promises to have a demonstration made for any doubting Thomas.

Caddo Wrestler Is Held After Two Die In Crash

ADRIAN, Mich., Sept. 13.—(AP)—A farmer and his hired hand, bringing a team to the Lewanee county fair to enter a horse-pulling contest, were killed near here at 7:50 a. m. today when their wagon was struck by an automobile driven by R. L. Mecker, Shreveport, La., wrestler.

Percy Yenor, 31, and Frank Duty, 60, employed on Yenor's farm, were killed.

Mecker was detained at the Lewanee county sheriff's office for questioning. He said he appeared in a wrestling match at Lansing, Mich., last night and was en route to Toledo.

Special Session Will Be Called Shortly, So Senator Long Asserts

NEW ORLEANS, Sept. 13.—(AP)—Senator Huey P. Long announced today that a special session of the Louisiana legislature would be called within a few days to pave the way for ratification of the repeal of the eighteenth amendment and to enact regulations for the control of liquor sales.

"Louisiana will ratify repeal of the prohibition law before Oct. 15," Senator Long said.

Model laws, he said, already had been drafted for submission to the legislature and taxes collected by the state would be allotted to schools and hospitals.

Senator Long said the call probably would be restricted to ratification of repeal and to the enactment of necessary regulatory laws for the taxation and control of liquor sales.

The plan, he said, is for adoption of a resolution by the legislature providing for the holding of a state convention and the selection of delegates to this convention from the state at large.

Liquor control, he explained, would be provided by act of the legislature without the necessity for a general election or a constitutional convention.

MARKET ACCORD, INFLATED MONEY ARE SUGGESTED

Movement Is Launched By Dixie Farm Leaders at Memphis

MEMPHIS, Tenn., Sept. 13.—(AP)—A movement to swing the cotton states into mass support of immediate currency expansion and a marketing agreement instead of a code for the cotton oil mill industry was launched here today by a group of southern farm leaders.

Meeting last night in a conference called by Commissioner Harry D. Wilson of the Louisiana department of agriculture, an assembly of farmers quickly adopted a resolution offered by Representative Wright Patman of Texas calling upon southern governors to organize mass meetings toward the two objections.

Both Wilson and Patman urged that the meetings be held Saturday night if possible and by next Tuesday at the latest.

The meeting of farmers followed a session with representatives of the cotton seed crushing industry earlier yesterday. After a vitriolic hearing on proposals for a code, farmer and crushers gave unanimous endorsement to a plan for a marketing agreement containing a licensing feature instead.

No definite agreement was put before the meeting but features suggested were to make the secretary of agriculture ruler of the industry with power to fix prices from seed to finished product, guaranty of a profit to the crusher and guaranty to the farmer of a "parity price" for his seed.

The agreement would be administered by the secretary and the agricultural adjustment administration instead of the NRA and the NRA scale of wages would not necessarily apply. Proponents said the plan would allow the secretary of agriculture to correlate the southern cottonseed problem with similar ones of the dairy and hog industries, perhaps prohibiting importation of competiting foreign fats through tariffs.

The farmers and farm leaders who

(Continued on Second Page)

Rio Grande Flood Danger Is Materially Lessened

BROWNSVILLE, Tex., Sept. 13.—(AP)—Danger of the Rio Grande flood inundating American agricultural lands was materially lessened today as the border stream continued to fall at all points.

With flood control works adequately protecting the lower valley, engineers of the international boundary commission at San Benito said the flood might be considered "a thing of the past."

Excess water was draining rapidly into the Gulf of Mexico through floodways and the river channel proper. Much water had overflowed into low-lying areas on the Mexican side of the river.

The river rose last week after a destructive tropical wind and rain storm swept through the lower valley and deluged the Mexican watershed, glutting tributaries.

Ralph Agar, Cameron county tax assessor, said the storm caused damage to property and citrus in the county amounting to around $22,900,000. Hidalgo and Willacy counties also suffered.

29 STATES ARE NOW MARCHING IN WET COLUMN

Maryland, Minnesota and Colorado Are Latest to Vote Repeal

ONLY 7 MORE NEEDED

Ratification of 21st Amendment Possible On December 6th

(By Associated Press)

Twenty-nine states today marched the repeal path only seven more need follow to end national prohibition.

Maryland, Minnesota and Colorado were the latest recruits. All voted yesterday to abolish the eighteenth amendment and left the score in 1933's balloting: for repeal—29; against—0.

If the seven states now needed to supply the three-quarters of the union required for repeal are among the 10 voting before November 8, the repeal amendment will be ratified formally on December 6—date of the 36th convention.

The wets carried Maryland overwhelmingly. Fast mounting figures put the repeal majority at nearly five to one.

The margins were smaller but substantial in Colorado and Minnesota, home of Andrew J. Volstead who sponsored the prohibition enforcement law. Late counts listed both in the two-to-one class.

Prohibitionists promised undiminished efforts to block the trend which on Monday cost them Maine, the nation's first bone dry state.

Next week, on Tuesday, Idaho and New Mexico vote for repeal. Two weeks later—October 3—Virginia votes and a week later—October 10—Florida.

These four end the balloting until November 7, when six more vote: Kentucky, North Carolina, Ohio, Pennsylvania, South Carolina and Utah.

The list of 29 states which have voted to ratify the twenty-first or repeal amendment today read: Michigan, Wisconsin, Rhode Island, Wyoming, New Jersey, New York, Delaware, Nevada, Illinois, Indiana, Massachu-

ELECTION TO BE HELD THURSDAY

Citizens Will Decide On Five-Mill Tax For Schools

Citizens of Ouachita parish will go to the polls Thursday for the purpose of voting on the question of passing a five-mill tax for one year to augment funds received from the state for operation of the schools. This tax, if approved, will replace a three-and-one-half mill tax which had been in effect for five years and which expired with the last term of school.

Members of the parish school board have announced that passage of the five-mill tax will make it possible to operate the schools for the full nine-month term during the 1933-1934 season. If the tax is not passed the schools can be operated only four and one-half months, they have stated.

In order to become effective, the tax must be voted by both a majority of the popular vote and a majority of the property that is voted. All persons who pay taxes on property of any kind, whether real estate or personal, are eligible to vote and may vote the amount of their assessment.

Polling places will open at 7 a. m. and close at 5 p. m.

Voting places and officials have been announced as follows:

Ward I, Precinct 1—Perry & Harper's Store, Fairbanks—R. L. Moore, Howard J. Hunter, G. O. Barr, Commissioners; M. E. Perry, Clerk; James W. Standley, Deputy.

Ward I, Precinct 2—D. Y. Smith's Store, Sterlington—H. L. Gregg, Jr., Claude Dunham, M. M. Funderburk, Commissioners;

Doctor Sues Another Upon Charge Of Libel

DENVER, Sept. 13.—(AP)—Dr. James J. Waring, Denver, was named defendant in a $250,000 libel suit filed in district court here by Dr. Edgar A. Peterson, who has practiced in Denver and Mobile, Ala.

Dr. Peterson, in his complaint, says his "reputation as a man and as a physician has been blackened" by a letter allegedly written by Dr. Waring to Dr. Edward A. Park of Johns Hopkins university, Baltimore, Md., last February 17.

The letter, the complaint states, makes reference to a drug preparation claimed by Dr. Peterson to be of benefit in treatment of tuberculosis and several other diseases.

WORK OF STATE'S FIRE COLLEGE IS GIVEN EMPHASIS

Chief Began Stresses Importance of Institution In Report

The importance of the work of the Louisiana Fire college, now in its fourth year, was emphasized in the annual message of President Robert A. Bogan of the Louisiana State Firemen's association at the twenty-eighth annual convention formally opened Wednesday morning at Hotel Virginia ballroom. The recital of the outstanding work of the college and the honor accorded to its chief sponsor, President Bogan, in the dedication of the gathering here in his honor, were the highlights of the three days' meeting.

Fully 300 persons were present in the ballroom of the hotel when the formal opening of the convention took place. Probably as many more were expected later in the day and Thursday.

Invocation was given by Rabbi F. K. Hirsch and Rev. E. F. Hayward, which was followed by an address of welcome by Mayor Arnold Bernstein. The response was made by the presiding officer, President Bogan.

Then followed an impressive service, led by Father N. F. Vandegaer, in memory of the firemen who had died during the year. The names of these men are: Elmore Duplantis and Henry Breaux, both of Houma; Paul Wilheit and Allan Hudson Hanley, both of Donaldsonville; Capt. Joe Tomplons and Jess Garner, both of Shreveport; L. C. Schneider of Thibodaux and Charles Rinoudo and John Gerald Patureaux, both of Plaquemine.

Following this exercise, committees were appointed.

The annual address of President Bogan was in part as follows:

"Just at this time, when the country is emerging from one of the most trying industrial depressions in its history, and the preservation of life and property is closely tied up with our hopes of future prosperity, it has seemed fitting to me to again emphasize the paramount importance of our

Your State Tax Load

Facts are necessary to judge state taxation and expenditures in Louisiana intelligently. That is why readers of The News-Star and Morning World are following with keen interest the series of articles being published in these newspapers on Tuesdays, Thursdays and Sundays, dealing with state tax matters.

These articles are written by one long experienced in state fiscal affairs. They tell in simple language how the state and its agencies collect and disburse the huge revenues derived from a greater variety of taxes, licenses, etc., than any other state levies.

By reading these articles, the people of Louisiana can become well informed on the subject of state taxation vitally affecting every person in the state. Watch for them on Tuesdays, Thursdays and Sundays in The News-Star and Morning World.

BUSINESS DEAD, DISQUIET REIGNS IN CUBAN NATION

Americans In Island Republic Prepare For Emergencies

STRIKES THREATENING

Move Made to Train Boys; Officers Defy New Government

WASHINGTON, Sept. 13.—(AP)—Reports of a paralysis of business in some sections of Cuba and of increasing disquiet in other parts led today to an order that Ambassador Welles remain at his post indefinitely.

Secretary Hull said Welles had been holding up exceedingly well under the strain of his unusual duties, and that because of "complications," plans for the ambassador to return home this week or next had been abandoned.

Welles was praised by the secretary of state as having performed his duties admirably. There now are no present plans for the ambassador's return.

Reports to the state department were that no business was being conducted in Cienfuegos, although no actual disorder existed. In Santiago, he added, students had taken charge of the local government, with soldiers taking orders from them.

The secretary listed reports from Antilla and Camaguey that strikes had been threatened by transportation facility employes, and that what he termed Communist activities had been widespread at Matanzas.

Concern Is Felt By U. S. Citizens

(Copyright, 1933, by the Associated Press)

HAVANA, Sept. 13.—Many Americans in Cuba prepared for emergencies today as they watched with growing concern new threats of strikes, a move to train boys as soldiers, and the failure of 500 officers to make peace with the new government.

At least a score of Americans were

DEMOCRATS IRKED BY 3 SECRETARIES

Stalwarts In Senate Resent Appointment of Republicans

WASHINGTON, Sept. 13.—(AP)—Patronage, that trouble zone of politics, produced in the capital today rumbles of Democratic unrest that resounded even above the intensity of President Roosevelt's recovery drive.

A group of party stalwarts in the senate was reported to have sponsored a round-robin to the chief executive asking jobs for old-line Democrats. These senators protested the appointment of Republicans—particularly by Secretary Ickes, Wallace and Perkins.

At the other end of the capitol, Speaker Henry T. Rainey blamed the "old Republican set-up" in the farm credit administration for failure to give the farmer "adequate" mortgage relief.

The senatorial round-robin could not be located. But among its signers was a report that a letter on the same subject had gone to the White House from Senator Key Pittman of Nevada, the senate's present pro-tempore and foreign relations committee chairman.

This communication further was reported to say that the three cabinet officers "have resented my approaches." It was said to observe also:

"If a Democrat is named for office, it involved political corruption. If a Republican is named, in their minds, it is an indication of high-minded non-partisanship."

Two Tropical Storms In Central American Area

WASHINGTON, Sept. 13.—(AP)—Two tropical storms today continued their course in Central American waters, but they still had a long journey ahead if they reach the United States.

One, centered about half way between Bermuda and Haiti, had made little progress in the last 24 hours, and the other was overland about 100 miles north of Belize, British Honduras.

The first was traveling 11 miles an hour, attended by gales and possibly by winds of hurricane force over a small area near the center. The other, which had turned toward the northwest, was attended by gales over a considerable area.

EXTORTIONER

Arrested near the home of Cardinal Dougherty in Lower Merion, Pa., George Havidich (above) is said by police to have confessed sending a threat to the cardinal demanding $50,000. The accused man was to undergo a mental examination.

ACTION ON MANY MATTERS TAKEN BY POLICE JURY

C. W. Parnell, Recently Appointed Member, Officially Presented

C. W. Parnell, recently appointed by Gov. O. K. Allen as a member of the Ouachita parish police jury from ward five, was officially introduced as a member of that body, by John M. Breard, president, at the regular meeting Wednesday. Mr. Parnell replaces Alfred Jenkins, who has moved away from Ouachita parish.

The sheriff's department was granted a quietus on taxes for 1931, after a report had been read showing that 98.35 per cent of the taxes for that year had been collected, after allowance had been made for adjudications to the state and for excessive or dual assessments.

Construction by Breece Lumber company of a wharm or landing facilities on the Ouachita river, near the company's plant, was given approval. It was stated the project had already been given federal approval.

Following a favorable committee report on activities of the Red Cross, made by Juror J. L. Warren, the police jury voted to continue the appropriation of $250 a month for September and October. The report showed a large amount of activity on the part of the Red Cross. In addition to the assistance rendered through the funds donated by the police jury by regular workers, it was shown that 30 volunteer workers had given a total of 368 hours to this work.

A communication from the governor regarding work to be done under the public works program was presented by Mr. Breard. This communication asked that a list of proposed projects be submitted for consideration. It was pointed out, however, that such a list had already been submitted, but that a copy would be mailed in.

Several changes in voting places and precinct boundaries, to become effective January 1, 1934, were approved. The changes were made recently for the purpose of making the size of the precincts more nearly equal and to locate the voting boxes more conveniently.

The police jury received bids for supplies for the office of registrar of voters for next year, as all persons in the parish who expect to vote must re-register next year. The matter was referred to the finance committee for action.

Mr. Breard stated that the federal government had designated Selman airport as an auxiliary fort and that it required men flying here from the fort at Shreveport to land. He said that recently one of the fliers had difficulty in landing at night because of inadequate light. Mr. Breard proposed that the parish pay half of the cost of buying a $500 light and stated the city would pay the other half. Juror Will Vincent objected, asserting

Veteran Newspaper Man Succumbs At Washington

WASHINGTON, Sept. 13.—(AP)—John Edwin Nevin, veteran newspaperman of wide experience in the press association field, died here today after a brief illness.

Nevin was 58. In recent years he has represented the Minneapolis Star and Sioux City Journal. He is survived by Mrs. Nevin and three sons—John, Jr., Donald and Joseph.

CONVICTS TAKEN NEAR MARKSVILLE BY TWO DEPUTIES

Bill Bryant and James C. Bird Are Prisoners In Custody

GUN FIGHT IS STAGED

Pair Rushed to Jail; Search Is Redoubled For Others

MARKSVILLE, La., Sept. 13.—(AP)—Three escaped convicts were killed in a pitched battle with possemen at Brouillette, Red river settlement near here this afternoon, shortly after officers had captured three others of the group of 11 which fled from Angola penal farm in a bloody riot last Sunday.

MARKSVILLE, La., Sept. 13.—(AP)—Exhausted and mosquito-bitten, three of 11 desperate escapes from Angola state penal farm were recaptured today at the little settlement of Brouillette, on Red river, five miles northeast of Marksville.

Two of them were taken this morning on the banks of the river by Avoyelles parish deputy sheriffs with whom they exchanged harmless fire and the third was captured at noon when he sought to trade his prison shotgun for a rifle at a farmer's home.

The first two captured were Bill Bryant, 25, and James. C. Bird, 25, both serving long terms for robbery. The convict taken at the farm house was Jimmy Dear, 29, serving 9 to 14 years for Rapides parish robberies.

MARKSVILLE, La., Sept. 13.—(AP)—Two of the 11 convicts who escaped from Angola state penal farm last Sunday in a bloody riot today were recaptured near here after a gun-battle with Avoyelles parish deputy sheriffs. Neither convicts nor deputies were hit in the exchange of fire leading up to the capture.

The men retaken after three days of flight were Bill Bryant, 25, of Texarkana, Tex., serving 9 to 14 years for robbery in Caddo parish; and James C. Bird, 25, of Madisonville, La., third termer serving 28 to 56 years for assault and robbery.

The two readily admitted their identities and were rushed to the Marksville jail under heavy guard.

Simultaneously, possemen who had traced the fleeing group into this section of north-central Louisiana by means of a series of automobile thefts and rural store hold-ups, closed in on a woodland near Marksville where others of the convicts were believed in hiding.

Bryant and Bird were captured by Deputies E. B. Coppell and C. J. Guillot of Avoyelles who were patrolling the levees of Red river on a lookout for the escapes near Brouillette settlement, five miles northeast of Marksville.

A small boy told them of seeing two men in striped clothes in a remote spot along the river and the deputies moved quickly on the spot. The convicts, armed with shotguns, opened fire which the deputies returned. Both sides took refuge behind trees and when the officers continued a steady fire, the prisoners threw down their guns and signalled they were ready to give up. The officers rushed them to Marksville, questioning them closely about the movement of their companions in flight.

Authorities said Bryant and Bird were in a party of four men who last night held up a motorist, Frank Norman, near here, stole his car, and went to a country store operated by G. J. Norman and forced the latter at the point of shotguns to supply them bountifully with food, gasoline and other supplies.

A few hours later a group of the fleeing convicts stole other machines on the highway south of Marksville

ROGERS HAS HIS SAY

BEVERLY HILLS, Cal., Sept. 13.—Did you see in the paper where Cuba is liable to have another change of government? Well, the other day I told you (or was you listening?) that revolutions run in packs, like hounds or bananas. One revolution is just like one cocktail, it just gets you organized to get ready for the next.

Now they are just having more fun down there than they have had in years if old "mother superior" America wasn't trying to horn in on all of it.

It's their country, it's their sugar. Take the sugar out of Cuba, and we would be no more interested in their troubles than we would be in a revolution among the Zulus.

Yours,

Will Rogers

BUSINESS DEAD, DISQUIET REIGNS IN CUBAN NATION

(Continued from First Page)

under military protection in Cristo after labor troubles at American-owned manganese mines had endangered their lives. Soldiers had found them barricaded in their homes, fearing an attack by workers.

Across the bay from Santiago De Cuba, in the small Cape Rente settlement, a number of Americans gathered for safety after leaving their homes in interior Oriente province because of unsettled labor conditions.

Santiago awaited the arrival of American warships as strikes that tied up sugar mills became more intense.

In Cardenas, on the north coast, American residents packed their baggage so they could board an American coast guard ship if violence should result from unrest among negroes, who were reported angered because they had not been given help along with other storm victims.

Striking employes of the Consolidated Railways at Camaguey, in mid-Cuba, their demands that 1930 wage levels be restored having been refused, picketed highways to prevent company officials, including two Americans, from leaving the city.

The United States navy destroyer J. Fred Talbott entered Santiago harbor from Manzanillo to relieve the Sturtevant, which went to Caimanera to refuel. The American flotilla near Cuba, sent to protect Americans and their property, numbers about 30 ships.

Three training camps have been established to train 2,000 students, many in their 'teens.

A spokesman, who explained that the boys felt kindly toward the American people for 'their assistance" in overthrowing President Gerardo Machado a month ago, said, regarding the purpose of the camps:

"We are going to train these students so that the things that happened to them under the Machado regime can not happen again. We want them to know military tactics and be trained to protect themselves."

Hope for American recognition was entertained by the new administration after Secretary Cordell Hull's statement that any government capable of maintaining order and representative of the people's will would be recognized.

American Ambassador Sumner Welles told newspapermen, he had nothing to add to Mr. Hull's statement, and denied any representative of the Grau San Martin regime had approached him on the question of recognition.

Welles left the National hotel, in which armed officers, deposed when an enlisted men's coup d'etat put a junta in power, were surrounded by soldiers.

The ambassador said he moved because there was no food there and "there was a threat that water and lights might be cut off."

The officers, meanwhile, remained firm in their refusal to recognize the Grau San Martin administration or its demands that they return to their posts.

A number of Americans were in the hotel. Among them were: Dr. and Mrs. Veeder Leonard of Baltimore; Ganet Lee of New York; Mr. and Mrs. J. A. Bradbury of Philadelphia; Walter Sutter of Chicago; J. H. Barcena of New York; H. T. Mulry of Providence, R. I.; Miss Frances Dodge of Providence; Cecil Bell of New York; Will H. Taylor of San Francisco; E. K. Botsford of New York, and J. H. Jarvis of Washington.

Mrs. Lucetta Haren and her daughter, of Monroe county, Ohio, operate a 200-acre farm and do all the work themselves.

Asserts Folks Live Longer When Rid of Unhealthy Fat

"Look and Feel Younger," Physician Declares

A body burdened with fat is not a healthy one. Fat limits activity—it makes you look and feel older because it slows down body organs—it often puts unnecessary strain on the heart.

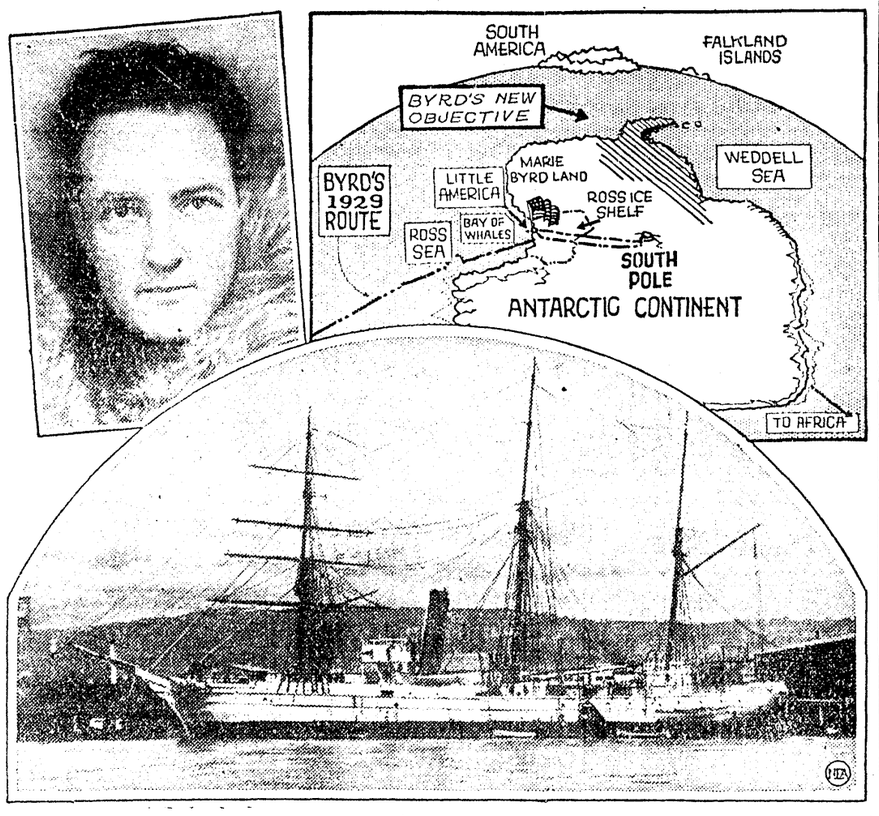
Insurance companies constantly warn of fat's dangers and just recently in a lecture before the American Academy of Medicine a prominent doctor said that persons not fat live longest.

Certainly you're going to do something about this dangerous monster—FAT? Don't you know physicians prescribe a half teaspoonful of Kruschen Salts first thing every morning in hot or cold water to reduce fat safely—without discomfort or loss of strength? Rather you gain in energy and pep—feel and look younger—you'll probably enjoy better health than you have in years.

And don't forget when you banish excess fat you're apt to live years longer and also apt to be free from those ailments so prevalent in fat folks—high blood pressure, rheumatism, shortness of breath, acidity and indigestion.

A jar of Kruschen lasts 4 weeks and costs but a trifle at any drugstore the world over—money back if not joyfully satisfied with results. But protect your health—make sure you get Kruschen—the ORIGINAL—the GENUINE—the SAFE way to reduce. (Adv.)

BYRD HOPES TO FIND NEW ANTARCTIC LANDS



Admiral Richard E. Byrd, above, hopes to discover and claim for the United States vast areas of unexplored land lying between South America and the South Pole on a second expedition he will lead to the Antarctic this fall. The approximate location of land Byrd hopes to find and the route of his 1929 expedition are shown on the map. One of the expedition's two vessels will be the old U. S. coast guard cutter Bear, pictured here, famous for its rescue work in Arctic waters.

Schools of Madison Parish Are Now Open

TALLULAH, La., Sept. 13.—(Special)—The schools of Madison parish opened this week. The enrollment at the Tallulah high school is 675, of which 196 students are in the high school department. J. D. Dutton is principal with the following assistants: Mrs. E. S. Pierce, Mrs. Hugh Montgomery, R. L. Moncrief, M. A. Phillips, Mrs. G. M. Fuller and Miss Cammack, in the high school department, and Mrs. C. B. Claughton, Mrs. Elton Everett, Miss Cristing Kitchens, Mrs. E. E. Williamson, Miss Ernestine Johnson, Miss Frances Alexander, Miss Annie Ward, Miss Lura Bennett, Mrs. Richard Almond, Miss Gene Stringer, Mrs. Lucion Farr, Miss Volma Colvin, Miss Loura Wilder and Mrs. Myles Hopkins, in the lower grades.

ELECTION TO BE HELD THURSDAY

(Continued from First Page)

R. W. Cretney, Clerk; E. O. Whitton, Deputy.

Ward II, Precinct 1—At Brooks' Store—S. T. Brooks, Morris Hare, John A. Thomas, Commissioners; J. N. Walker, Clerk; W. G. McCallum, Deputy.

Ward III, Precinct 8: At L. T. I. Filling Station—J. M. Linthicum, Clyde V. Sanders, Dr. L. H. Bennett, Commissioners; Wiles Ross, Clerk; Burt Thurmond, Deputy.

Ward IV, Precinct 1—Lowe's Store—Mrs. J. B. Pilhoil, N. W. McHenry, W. L. Demoss, Commissioners; J. H. Cordell, Clerk; R. F. Adams, Deputy.

Ward V, Precinct 1—At City Hall—W. G. Haynes, Paul E. Cowan, A. B. Walters, Commissioners; O. C. Coats, Clerk; Fred R. Mitchell, Deputy.

Ward V, Precinct 2—At Corner Service Station—Mrs. T. L. Tippitt, R. M. Browning, Louis Hoffpauir, Commissioners; J. H. Watkins, Clerk; Leon L. Wood, Deputy.

Ward V, Precinct 3—At Hale's Store—Mrs. Sarah Bell, J. S. Dozier, Miss May Faulk, Commissioners; S. D. Kennedy, Clerk; T. A. Grant, Deputy.

Ward V, Precinct 4—At Leon Johnson's Filling Station—W. M. Stokes, Jr., E. W. McCrary, Geo. Aubert, Commissioners; J. H. Blazier, Clerk; J. Q. Whitlock, Deputy.

Ward V, Precinct 5—At Fenzel's Filling Station—Wm. Norris, A. D. Hunt, T. J. Lee, Commissioners; W. O. Downing, Clerk; S. M. Rutledge, Deputy.

Ward VI, Precinct 1—Masonic Hall, Calhoun, La.—James Lee Heath, Jr., P. K. Wright, Bruce Golson, Commissioners; G. S. Manning, Clerk; Steve Sims, Deputy.

Ward VII, Precinct 1—Cadeville—S. M. Crowell, H. C. Walters, Wesley U. Kilpatrick, Commissioners; Lee H. Wilder Clerk; S. O. Henry, Deputy.

Ward VIII, Precinct 1—At Parish Road Barn—M. F. Sims, Fred Berry, Douglas Coon, Commissioners; W. L. Bonnett, Clerk; H. H. Roberts, Deputy.

Ward IX, Precinct 1—At Hendrix's Store—D. S. Owens, J. C. Jordan, Chester Hendrix, Commissioners; W. A. Walker, Clerk; J. M. Head, Deputy.

Ward X, Precinct 8—Magenta's Store—A. E. Whiting, George E. Goodman, R. R. Martin, Commissioners; L. H. Peevy, Clerk; H. H. Percy, Sr., Deputy.

Charles Sisson Able To Return To Duties

After having been incapacitated for more than two months, Charles Sisson, city police officer, Wednesday was pronounced by his physician to be ready to return to work. The officer was operated on at St. Francis sanitarium on July 4 for a leg ailment.

While making an arrest a number of months ago, Mr. Sisson was kicked on the shin which was seriously injured when his motorcycle collided with an automobile about two years ago. Owing to the fact that the leg had not completely healed from the injury received in the collision, the kick on the shin caused an infection to develop.

PHARMACISTS TO MEET

There will be a meeting of the Louisiana Pharmaceutical association, fifth district, at Hotel Francis Thursday night at 8 o'clock.

Certain Relief For Athlete's Foot

This formula for skin diseases is astounding the most skeptical in the marvelous way it heals severe cases of Athlete's Foot, Ringworm, Eczema, Tetter, Itch and other parasitic skin troubles. The minute it touches the sore spot, you feel a cooling, soothing sensation; in a few days you marvel at how your skin has healed. If you suffer with skin diseases of any kind, especially Athlete's Foot, get from any drug store a 50c box of Tetterine, and get relief or get your money back. (Adv.)

CHURCH TROUBLE CAUSE OF FIGHTS

Two Factions Continue War Over Tabernacle At Jonesboro

JONESBORO, Ark., Sept. 13.—(AP)—The Rev. Dale S. Crowley and John Nelson, a member of the Rev. Joe Jeffers faction, engaged in a fist fight today in a renewal of hositilities between the warring of the Jonesboro Baptist tabernacle. They were separated by Mayor Herbert Besler.

Later, two other fist fights were alleged to have occurred between members of the opposing factions engaged for several weeks in a turbulent contest over whether Crowley or Jeffers, a militant evangelist, is pastor of the tabernacle.

The fight between Crowley and Nelson occurred in front of the city hall just after Crowley had appeared as a witness against Walter Montague another Jeffersite, in his municipal court trial on a charge of disturbing the peace and using abusive language. Montague was acquitted of the charge, which grew out of alleged threats against Crowley a few weeks ago.

Crowley and Nelson were reported to have rolled over on the pavement several times before the mayor with two officers stepped in and stopped the fight. Nelson came out with a bloody nose and Crowley suffered injuries to two fingers.

Both were arrested on charges of fighting.

A few minutues later, Ray Chambers, another Jeffersite, and Calvin Spann, member of the Crowley faction, had a fistic encounter. Spann accused Chambers of striking him over the head with a money sack and charging him with attempting to aid Crowley during the previous encounter.

Subsequently, Spann and Mack Irvin, were reported to have engaged in a fist fight across from the city hall.

Rare Brazilian Diamond Stolen In Daylight Raid

LONDON, Sept. 13.—(AP)—A rare old Brazilian diamond known as the "polar star," and valued at $100,000, was stolen today from a shop in the heart of the diamond trade district in the most amazing of a series of recent daylight "smash and grab" raids.

Shortly after a window had been decorated at the store of Samuels, Harris & Son in Hatton Garden, a young man broke the glass, twisted the protecting grill with a piece of iron, snatched the diamond and sped away in an automobile.

Police have found it difficult to cope with an increasing number of similar robberies because they are forbidden to carry firearms and on occasions have been able only to throw their clubs in an effort to apprehend the thieves.

The stone taken today was unmounted and of 32.7 carats. It was described as "a blue-white old Brazilian pure stone."

Brooks Hays Leads Race For Congressional Seat

LITTLE ROCK, Ark., Sept. 13.—(AP)—Brooks Hays, youthful Democratic national committee man for Arkansas and twice candidate for governor, will face either D. D. Terry or Sam Rorex, both of Little Rock, in a second primary on September 26 for the nomination to fill the fifth district congressional vacancy resulting from the resignation of Heartsill Ragon to become a federal judge.

Hays led his two opponents in yesterday's primary but lacked a clear majority, making necessary the run-off. Terry was in second place on incomplete returns, but it was not determined definitely whether he or Rorex would get into the run-off.

Grizzly bears, including the big Alaska brown bear, are estimated at 5,164 in the national forests for 1932 as compared with 3,747 for 1931.

Black and brown bears have increased in the national forests from 50,596 in 1931 to 52,331 in 1932.

SUB ROSA

By Virginia Vane

CHICK AND DICK ARE ANSWERED AGAIN—REVENGE IS SWEET BUT UNSATISFACTORY

Dear Virginia Vane: Here's an answer for Chick and Dick. There is no such thing as the ideal man and they ought both to know that and not ask us girls for the impossible. Even if there was an ideal man nobody would ever fall in love with him. Think of being married to an ideal man—what a life!

But it is possible for any girl to make a few simple rules about what she prefers in the way of a beau. Speaking for myself, I can say candidly that I am not a bit interested in whether a man plays every game under the sun, or whether he's a complete indoor type who never moves an inch if he can help it. When I meet a man, I don't size him up to myself: "Looks nice but can he swim, play tennis, hunt, fish, etc."? Or: "Wonder whether he dances well, plays bridge, makes pretty speeches?" No, I don't think any of those things matter. I set to work to find out right away whether the little stranger is the sort of man I want around; that is to say whether he's kind and generous, understanding and sweet, and best of all keen on me—not on tennis or golf or anything else so unimportant.

When I find that kind, generous, understanding person I'm looking for I'll just get used to whatever sort of life he prefers. I am an adaptable kind of girl and have no strong views against living in any way which suits my husband.

So Chick and Dick, think this over. Doesn't it throw some light on your problem to know that there are girls in the world who are prepared to love men for what they are, regardless of athletic prowess or lack of it? Wynn.

Patience Needed.

Dear Miss Vane: Two years ago a girl who seemed to be my friend at the time, deliberately manufactured a case against me so that my boy friend gave me the air. I know that she lied, wrote notes, and actually intrigued to make me appear in the worst light possible before this boy. Needless to say she got him in the end. Now I happen to know that she is two timing the boy who was once my friend. I can easily prove this to him and think I have the right to do it. I still love him and want him back. Tell me what it is best to do. Mary M.

A great deal has been said in this column about the inadvisability of supplying an infatuated swain with unpleasant information about his sweetheart. Men and women have come forward to support my statement that interference of this sort is always fatal.

And consider how much more dangerous is your position than that of the average well-wisher. You could not place yourself in a worse situation than by facing your old flame with accusations against his new sweetheart. If the average well-wisher is seldom believed and often severely punished for kindly interference—what chance have you of being believed? Your motive is so obvious that even the most lenient jury would be bound to judge you guilty.

And even supposing the miracle happened: You were believed, the girl was punished, your old love threw her over entirely. Is it likely that he will turn to you—the lady who has pointed out so carefully what a fool he's been making of himself? What sweetness would there be left in your relationship with him after all the ugly things which would have to be said before the affair was settled.

No you honestly can't accomplish your heart's desire in this fashion. You must not be the means of making the boy face the truth. He is bound to discover facts for himself as time goes on. And when the day of disillusionment comes, he may indeed turn to you if you've never shown him anything but the best side of your nature. Be patient, revenge may be sweet but it is always an unsatisfactory business in the end.

YVONNE: The situation at home has made you over-sensitive. That is your chief trouble. It will do you a world of good to take this trip and leave the family's criticism well in back of you. Make up your mind to gain confidence from your association with all these new people. Determination will improve your self confidence and help you to live down the old terror of ridicule.

(Copyright, 1933, Bell Syndicate, Inc.)

General John H. Morgan of Morgan raider fame in the Civil war, was once a manufacturer of bagging at Lexington, Ky.

CONVICTS TAKEN NEAR MARKSVILLE BY TWO DEPUTIES

(Continued from First Page)

and in the city of Alexandria, where they terrorized two young women before taking their car. Rear windows of the stolen cars were broken out to facilitate fire at pursuers.

Porter Voorhies, a fisherman, told Avoyelles parish officers that the 11 convicts were in one group, at least for a time yesterday, when they swooped down on him and stole his boat, putting out into Red river. The fisherman said that three of the fleeing men were wounded.

Alexandria advices said that officers after a running gunfight with the convicts as a result of their appearance there were concentrating their hunt in a wooded section of Bayou Bouef swamp.

The convicts stole four automobiles before driving into the wooded section. They drove into Alexandria in a car stolen in Marksville and held up two young women in the residential part of the city, commandeering their car and leaving the city on a gravel road up Bayou Rapides.

After running a wheel off the car, the men took another car, driving toward Bayou Bouef swamp. This car apparently was running low on gas so the men took a large touring car and headed for the woods.

Local officers notified all police departments of surrounding towns of the location of the convicts.

The men were still dressed in striped clothes, the coat of one suit being left in the car stolen in Marksville. The coat was from Camp E and the number was 138.

One Alexandria citizen who saw the convicts said that he recognized Jimmie Dear, and another one was believed to be Earl Joyner.

Marion Russell Faces Accusation

NEW ORLEANS, Sept. 13.—(AP)—Chief of Detectives John Grosch said today that Angola state prison officials had notified him deputies were being sent here to take charge of Marion Russell, common-law wife of James Russell, one of 11 convicts who escaped Sunday, and that she would be charged with being an accessory to murder, a capital offense in Louisiana.

Grosch said the woman had confessed smuggling a pistol to Russell when she visited the penal farm Sunday, Sept. 3.

The detective chief said Angola officials had stated they would remove the woman to the West Feliciana parish prison in the same parish in which the penal farm is situated.

Four men—the penal farm captain, two guards and a fleeing convict—were fatally wounded during the break.

Escaped Convicts Heading Northward

SIMMESPORT, La., Sept. 13.—(AP)—Eleven escaped convicts from the state penal farm were definitely traced into north central Louisiana today after a series of car thefts in the vicinity of Marksville and Alexandria and the major pursuing posse here was advised shortly after 9:30 a. m. that seven of the men had been cornered on the outskirts of Marksville.

Four others were known to be fleeing northward toward Shreveport or Alexandria in a stolen automobile.

Hundreds of possemen, scattered throughout the central Louisiana area, were hastily organized for a concerted sweep on Marksville after word was flashed to the hunters that seven of the escapes had passed through that town and had gone into hidings nearby. Residents who saw the group said some of them still wore their prison stripes.

The four others fleeing northward were traced after they had held up a motorist near Marksville and stolen his car. They drove to Alexandria in the machine and there abandoned it on Bolton avenue, stealing a second car which was parked nearby. Officers said it was apparent that the quartet thereafter took one of the trunk highways into north Louisiana, headed either for Monroe or Shreveport.

John A Singleton, captain of the camp where the riot occurred, died in a Baton Rouge hospital late yesterday of wounds inflicted by the prisoners when he refused to open the camp gate. His death brought the casualty list to four.

Marion Russell, 21, common-law wife of one of the escaped convicts, was held in New Orleans after she confessed that she had smuggled a revolver to her husband.

She told detectives in New Orleans that a man she did not name had brought her a letter from her husband, and had directed her to purchase a pistol. He had then arranged for her to give it to Russell when she visited him at the penal farm.

She told officers that the plan was first broached about two months ago. She denied knowing that the weapon would be used in a prison break.

J. W. Fletcher, camp foreman, and Arnold Davis, trusty guard, were killed by gunfire when the convicts fled Sunday. One of the convicts, Bill Stone, was fatally wounded as the prisoners were leaving in a commandeered automobile.

Captain Singleton was shot several times by the convicts when he ignored their command that he accompany them. The captain, who was also wounded in the big break in September, 1928, when five were killed, was taken to a Baton Rouge hospital for treatment

Blood transfusions had been resorted to in an effort to save his life, but he gradually became weaker.

MISS AMERICA

A figure in the news at 16 is Marian Bergeron (above), the platinum blonde Westhaven, Conn., high school senior, who was crowned "Miss America of 1933" at the Atlantic City Beauty pageant.

29 STATES ARE NOW MARCHING IN WET COLUMN

(Continued from First Page)

setts, Connecticut, New Hampshire, Iowa, West Virginia, California, Alabama, Arkansas, Tennessee, Oregon, Arizona, Missouri, Texas, Washington, Vermont, Maine, Maryland, Minnesota and Colorado.

Maryland Votes 5-1 For Repeal

BALTIMORE, Sept. 13.—(AP)—Maryland, the sixth state to ratify the eighteenth amendment, today added its name to the list of 26 states in which the electorate previously had expressed the desire to strike out the prohibitory statute.

By a margin of nearly five to one in a comparatively light vote, the state yesterday elected 24 delegates to the state convention to be held at Annapolis October 18 to vote solidly for the proposed twenty-first amendment.

With 68 scattered precincts in the counties still missing, the anti-prohibitionists of the state rolled up a plurality of 152,678 votes over the drys and those who were to have gone to the convention without being pledged.

The vote from 1,303 of the state's 1,371 precincts stood 197,595 in favor of repeal; 41,309 against repeal and 3,505 uninstructed.

Baltimore provided the heavy wet vote, returning majorities from all its 672 precincts of more than ten to one. The vote in the city was 119,091 for repeal, 11,295 against repeal and 2,085 uninstructed.

Colorado Favors 21st Amendment

DENVER, Sept. 13.—(AP)—Colorado voters expressed their approval of the proposal to ratify repeal of the eighteenth amendment by piling up a two to one majority favoring repeal in a special election yesterday.

Returns from 1,196 of the state's 1,547 precincts tabulated by the Associated Press gave the following vote: For repeal 122,766, against repeal 55,605.

Complete unofficial returns from Denver indicated an emphatic disapproval of the 18th amendment in the capital. The vote was better than four to one with 55,363 votes for repeal and 12,389 against.

Minnesota Deserts Andrew Volstead

ST. PAUL, Sept. 13.—(AP)—A wave of wet votes has put Minnesota, the home of Andrew Volstead, "father" of the prohibition enforcement law, into the list of states that have repudiated the eighteenth amendment.

The current of repeal sentiment in yesterday's election reached its greatest crest in the urban centers, where large anti-prohibition majorities enabled repealists to attain a two to one margin over defenders of the dry law on the basis of incomplete but scattered and representative returns.

"I'd say there was no question the state had gone wet," observed W. G. Calderwood, publicity chairman for the consolidated drys in conceding the state-wide referendum, the first since 1918 when prohibition as a state issue, was adverse because an insufficient number of electors voted on the proposition.

Returns from 1,672 precincts of 3,693 in the state today gave:

For repeal 267,037
Against repeal 125,904

Meager returns from some counties gave prohibitionists a lead in 19. In only four of the state's 87 counties were the drys assured of virtually safe majorities. Volstead's home county, Yellow Medicine, was one of those where prohibitionists recorded 1,859 votes to 740 for repealists on the basis of six out of 29 precincts.

INDUSTRIES ARE TORN BY STRIFE IN THREE STATES

(Continued from First Page)

recovery machinery, but with considerable distance yet to go.

Gigantic NRA Parade Slated

NEW YORK, Sept. 13.—(AP)—The blue eagle marshalled one of the world's greatest peace-time parades today.

He summoned a quarter million people in industry to march up Fifth avenue in the "President's NRA day" demonstration.

Moving, as NRA Chief Grover A. Whalen described it, from "the dark of depression" toward the "sunlight of prosperity," the gigantic cavalcade was set to start at 12:30 p.m., eastern standard time, and billow up the historic avenue until hours after sundown.

Capital and labor took places side by side in the ranks under the NRA banner as the shock troops of the industrial recovery forces gathered at starting points in 71 massed divisions.

Throngs, granted half holiday, flocked to the scene to watch it. Some advance estimates said the spectators would number 3,000,000.

General Hugh S. Johnson, recovery administrator, came to join Mrs. Franklin D. Roosevelt and the governors of New York, New Jersey and Connecticut in the reviewing stand at the public library, Fifth avenue and Forty-second street.

The New York stock and cotton exchanges closed at noon to allow their employes to participate in the NRA activities.

President Expects Credit Extension

WASHINGTON, Sept. 13.—(AP)—President Roosevelt was said in the highest quarter today to be putting full federal backing behind the banks and is expecting them to push out credit in the recovery drive for higher prices and wages.

After two days of intensive canvass of the domestic situation, he feels farm prices are lagging behind in the general upward trend.

The president, in consequence, now is focusing attention on this end of the recovery campaign.

He hopes, it was said, to bring about an increase in farm prices double that already attained from the low mark of recent years.

There was no disclosure of the means to be followed, or what place—if any—the exercise of his inflationary powers plays in his plans.

While not satisfied with the increase in employment either, Mr. Roosevelt is gratified that both agricultural prices and employment have picked up.

He realizes that the whole proposition cannot be completed in six months or perhaps a year.

Meanwhile the administration is putting full steam behind the recovery drive. Mr. Roosevelt expects the banks to put out the necessary credit to tide over the small merchants, especially in relation to furtherance of the NRA.

National Wood Fibre Growers Are Organized

FERNANDINA, Fla., Sept. 13.—(AP)—A National Wood Fibre Growers association has been organized here by representatives of the industry from nine states with the announced purpose of creating jobs for 70,000 American workmen and capture of the forest products market for the United States.

James H. Allen of Chicago was elected president of the organization, William L. Wilson of Jacksonville, Fla., general vice-president and Russell A. Smith of Fernandina, secretary-treasurer.

The following state vice-presidents were named:

R. M. Morris, Illinois; S. A. Allen, Arkansas; F. L. Finkenstaedt, North Carolina; E. H. Mayo, Alabama; Paul T. Sanderson, Texas; H. Weibert, Florida; R. E. Benedict, Georgia; Frank W. Trower, California, and James M. Brown, Washington.

Miss Thelma Patton Is Robbed of Her Purse

Theft of a purse from an office in the Ouachita National bank building was reported to police headquarters Wednesday morning. The purse was the property of Miss Thelma Patton, secretary to W. C. Salley, building contractor.

Among articles in the purse were two $1 bills and a small amount of silver. A powder puff, rouge, handkerchief and a $5 receipt also were included.

OBITUARY

MRS. J. D. STONAKER

NATCHEZ, Miss. Sept. 13.—(Special)—Final rites were held on Monday for Mrs. J. D. Stonaker, of Brooks, La., who died on Saturday night. She was the mother of Mr. Floyd Stonaker, prominent cleaner of this city. Mr. Stonaker and other members of the family were at her bedside when the end came. She had been in ill health for some time.

Mrs. Stonaker is survived by her son here and by another son, J. D. Stonaker of St. Louis and a daughter, Mrs. L. Parmalee, of St. Louis, Mo.

ROOSEVELT APPROVES CONSOLIDATING ARMY

WASHINGTON, Sept. 13.—(AP)—President Roosevelt today approved a plan to eliminate approximately 50 army posts and authorize expenditures of around $50,000,000 for consolidating 50 other posts into permanent stations.

At the White House, it was explained the plan for eliminating and consolidating the stations—which the president started work upon several weeks ago—would operate both from the top and bottom.

It was indicated that definite choices could not yet be announced as to which posts would be dropped from the army lists and which ones would be given sizeable authorizations or funds for building up into larger and more permanent bases.

Tentative figures available from army officials showed the existence of considerably more than the 100 posts mentioned at the White House.

ACTION ON MANY MATTERS TAKEN BY POLICE JURY

(Continued from First Page)

he did not favor spending any more money on the aviation field when it did not provide any source of income. On motion of George Breece, the matter was referred to the aviation committee, with power to act.

D. Y. Smith offered a resolution to memorialize the levee board in regard to certain matters concerning the levee in the vicinity of Sterlington.

Claims amounting to approximately $3,000 for damage to crops were presented by Tom Newton, attorney, in behalf of seven negroes living in the Richwood settlement. The contention was made that the crops were destroyed by water on account of a drainage ditch dug by the parish. Several members of the police jury expressed the opinion that the ditch was not responsible for damage to the crops, but the matter was referred to Fred Hill, superintendent of parish road maintenance, for investigation.

Petitions for improvement of a road in ward five and for a dam on Cheniere creek were submitted by Mr. Warren and were referred to the road committee.

Following the meeting of the police jury, the body held a session as a board of review on tax assessments.

Purchase of a Ford truck for the west side road foreman was approved.

MARKET ACCORD, INFLATED MONEY ARE SUGGESTED

(Continued from First Page)

met last night after the endorsement of the marketing agreement plan predicted it might increase the price of cottonseed from $16 to $25 a ton. Currency expansion, Representative Patman declared, "we know currency will be expanded and we also know that if it is expanded, the price of cotton will shoot up to 12 or 15 cents a pound. We don't want to wait until the farmer's cotton has left his hands."

RURAL NRA MASS MEETINGS WILL BE CONDUCTED

Mrs. Mitchell Arranges Series of Night Sessions

A series of rural NRA mass meetings are planned by Mrs. Charles M. Mitchell, chairman for the women's division of this group for places in the parish outside of the Twin Cities. The first mass meeting is slated Friday at 7:30 p. m. at Lapine, Mt. Vernon, Cypress and Okaloosa school houses while on Saturday night at the same hour, there are to be meetings conducted at Eureka, Cheniere, Claiborne and Drew schools.

Monday night the mass meeting is to be held at Calhoun high school.

The purpose of these meetings is to acquaint merchants and consumers with the NRA program and committees to carry out the work will be named at the various meetings.

It is desired that principals and teachers at the various schools attend and be ready to introduce the speakers at their schools.

Supt. T. O. Brown of the parish schools, stated Wednesday that he is in full accord with the plans and is glad, in behalf of the school board, to provide use of the buildings where meetings are to be conducted.

Winnsboro Postmasters Examination Is Slated

WINNSBORO, La., Sept. 13.—(Special)—On September 7 the United States civil service commission announced an examination for the postmastership at Winnsboro. The commission will receive applications in Washington up to and including October 3. Charles Varnado of Winnsboro, local secretary of the civil service commission, announces that anyone interested in taking the examination may obtain application blanks by applying at the local office.

It is said that this is the first time that such a method of appointing the postmaster has been used. In the past direct appointments were made by the president and confirmed by the senate without an examination being called. For the past several months a number of candidates have been striving for the postmastership appointment and it is believed most of them will take the examination.

A detachment of future army officers is shown going "over the top" during a raid on an imaginary enemy as part of West Point's summer field exercises. For five days the entire cadet corps drilled under near-war conditions. (Associated Press Photo)

WOMAN ACCUSED OF INHUMANITY

Foster-Mother Uses Clothes Pins On Tongue of Little Boy

SACRAMENTO, Cal., Sept. 13.—(AP)—Clothes pins were used to clamp the tongue of 4-year-old Erwin Anderson as a "disciplinary measure," police said, and the boy's foster-mother, Mrs. Eva Anderson, 30, was under arrest today charged with inhuman treatment.

Frank Gessner, juvenile officer, acting on neighbors' complaints, found the boy at the Anderson home Monday sobbing in pain, on top of the Anderson garage.

Gessner said two clamp-type clothes pins had been attached to the child's tongue which was pulled from his mouth. The officer said his tongue was badly swollen and his face and body were bruised.

Mrs. Anderson, Gessner said, told him the treatment was a "disciplinary measure" she had taken to break him of babyhood habits. The officer said she told him she believed "shaming" the child before his playmates would correct the habits.

The boy, with clothes pins on his tongue and his head covered with a pair of pants, Neighbors told Gessner, was placed on the sidewalk in front of his home so his playmates could see him.

Mrs. May Wrotz of the state welfare department, ordered the boy and his 6-year-old brother, who were adopted conditionally by the Andersons last November from the California Children's Home society of Oakland, taken from the couple's custody.

TODAY'S AMUSEMENTS

AT THE PARAMOUNT.—Jazz music with its attendant fanfare is rapidly dying out, according to Phil Harris, orchestra maestro and radio crooner, who has been heard for the past four years from the Cocoanut Grove in Los Angeles, and who will be seen in RKO-Radio pictures' musical movie, "Melody Cruise," Saturday, Sunday and Monday at the Paramount theater.

The caliber of dancing rhythm has reached a new station, Harris states. The dancing public has discovered that melodies can be fast and "hot," and yet be good music at the same time. Today's successful numbers that set the public a-humming speedily have been written by the masters of the profession, he claims.

The popular melody is almost symphonic like those in "Melody Cruise," Harris declares. It has been written by "an artist, a Paul Whiteman type, a real workmanlike chap who knows his music and lets the dancers do the jigging."

Phil Harris' first screen appearance was in a musical featurette, "So This Is Harris," which provoked such favorable comment that "Melody Cruise" a highly elaborate feature picture, was decreed for him.

AT THE CAPITOL.—Dudley Digges, who has the role of Dr. Saunders in the Warner Brothers production of Somerset Maugham's novel, "The Narrow Corner," now showing at the Capitol theater for the last times Wednesday, has had a long and distinguished career extending over more than twenty-five years in the American theater.

Chief among the most prized experiences of his theatrical activity are the seven years in which he was associated with George Arliss as his stage manager. During those years, Digges was identified with some of the outstanding successes of Mr. Arliss' career, notably "Disraeli," "Paganini," "Hamilton" and "The Professor's love Story."

Digges has a strong characterization in "The Narrow Corner," that of Dr. Saunders, a one-time famous physician, now a social outcast because of some affair, who wanders in the remote parts of the world.

It is one of the unique characters of which Somerset Maugham, the author, is so fond of drawing. There are other characters equally strange in this exotic romance of the East Indies and wild adventure on an isolated island of the Malay Archipelago.

Douglas Fairbanks, Jr., and Patricia Ellis have the leading roles in "The Narrow Corner." Other important members of the cast are Ralph Bellamy, Reginald Owen, William V. Mong, Henry Kolker, Arthur Hohl and Willie Fung. Alfred E. Green directed the production and Robert Presnell was the author of the screen play.

SEVERANCE TAX FUNDS AVAILABLE

Ouachita Parish's Apportionment In Excess of $8,000

BATON ROUGE, La., Sept. 13.—(AP)—State Treasurer J. S. Cave announced here that the June 15 severance tax payments totaling approximately $238,000, have been made available to the parishes. The payments were delayed because of state financial conditions.

The payments, by parishes, follows: Acadia, $2.236.78; Allen, $122.99; Ascension, $57.50; Assumption $4.04; Avoyelles, $6.31; Beauregard, $13.44; Bienville, $124.09; Bossier, $2,143.17; Caddo, $10,455.14; Calcasieu, $13,997.59; Caldwell, $9.90; Cameron, $5.859.42; Catahoula, $458.81; Claiborne, $16,319.06; Concordia, $82.72; De Soto, $2,081.33; East Baton Rouge, $25.48; East Carroll, $86.80; Franklin, $17.35; Grant, $763.57; Iberia, $5,962.58; Iberville, $1,204.83; Jackson, $28.05; Jefferson Davis, $2,595.63; Lafourche, $709.32; LaSalle, $2,556.25; Lincoln, 26.32; Livingston, $33.34; Madison, $26.48; Morehouse, $2,894.44; Natchitoches, $88.15; Ouachita, $8,088.11; Plaquemines, $210.54; Pointe Coupee, $58.91; Rapides, $107.56; Red River, $5,102.50; Richland, $6,374.05; Sabine, $21,401.74; St. Charles, $45.01; St. Helena, $7.37; St. Landry, $3,692.30; St. Martin, $48.28; St. Mary, $382.86; St. Tammany, $16.55; Tangipahoa, $63.69; Tensas, $126.13; Terrebonne, $8,510.92; Union, $1,819.05; Vermilion, $357.75; Vernon, $476.04; Washington, $252.41; Webster, $1,328.92; West Carroll, $38.49; West Feliciana, $37.19; Winn, $70.25.

Two Children, Mother Die In Kerosene Blast

GILMER, Tex., Sept. 13.—(AP)—Two children and their mother were burned to death yesterday in a blazing inferno caused by an explosion of kerosene being used to kindle a fire in the kitchen in their home near here.

Trapped by the explosion, James Brawley, 2, and his sister Wanda, 4, were fatally burned before their mother, Mrs. Nesbit Brawley, 24, could make an unsuccessful rescue effort, which cost her life.

The Brawley family lived on their farm in the Concord community.

Marion Man Is Appointed To Cotton Job In Union

MARION, La., Sept. 13.—(Special)—As a result of a recent examination given by the U. S. civil service commission, J. W. Melton of Marion has been appointed cotton statistician for Union parish.

He has received from the bureau of census of the U. S. department of Agriculture notification of his appointment and has taken the oath of office. Mr. Melton succeeds S. L. Baldwin of Bernice, who has held the office for the past several years. Reports will be made as of the first and fifteenth of each month.

Important NRA Meeting Planned Thursday

A most important NRA committee meeting will be held at 7:30 o'clock Thursday night on the Hotel Virginia roof at which time each and every member is urged to attend. It is stated that new and important information from Washington has been received and action planned in accordance with same is proposed.

TECH ANNOUNCES FACULTY CHANGES

Native of Lincoln Parish Named Professor of Biology

RUSTON, La., Sept. 13.—(Special)—Changes made in the faculty at Louisiana Tech for the school year just beginning have been announced by President G. W. Bond. Only one of the appointments fills a vacancy caused by a resignation, the others being employed to take positions here.

Dr. J. R. Fowler, a native of Hico in Lincoln parish, has been appointed professor of biology to take the place of R. F. Clark, resigned. Dr. Fowler holds the B. S. degree from Louisiana State university, the M. S. from the University of Chicago, and the Ph. D. degree from the University of Chicago. For the last several years he has been a member of the faculty at Louisiana State university.

J. T. Folk of Ruston, has been chosen assistant professor of engineering, vice Frederick T. Morse who has been granted a year's leave of absence to do advanced study and teaching at the University of Virginia. Mr. Folk holds the B. S. degree from Clemson college. He was a teacher in the school of engineering at Louisiana Tech from 1911 to 1918, after which he spent one year in war work teaching at the University of Pittsburgh. Since 1919 he was been engaged in the garage business in Ruston.

Miss Jennie Lorenz of Sheboygan, Wis., has been appointed associate professor of English, in charge of speech work, to take the place of Miss Vivian Turner who is on a 12-months leave to finish work on a doctor's degree at the University of Iowa. Miss Lorenz holds the B. A. degree from the University of Wisconsin and the M. A. from the University of Iowa, and has done additional graduate work at Columbia university. She also took a year's course at the American Academy of Dramatic Arts in New York and studied a year at the Curry School of Expression in Boston. She taught at Tech the past summer.

Miss Marjorie C. Leigh, assistant librarian, has returned to Louisiana Tech after a year's leave of absence during which she received an A. B. degree in library science at Emory university.

W. R. Cline, after spending two years in advanced study, has returned to Tech as a member of the education faculty and director of the college band. Mr. Cline has a B. A. degree from Louisiana Tech and an M. A. from Louisiana State university.

Two former students of Louisiana Tech, who graduated in May, 1933, and who served as student assistants during their under-graduate days here, have been made members of the faculty. They are Mrs. Fairy C. McBride, secretary to the registrar, and Miss Heloise Griffon, secretary in the extension division.

Distinction of being the first student to enroll at Louisiana Tech for the fall semester opening this week goes to Miss Lottie Mae Enloe of Dubach. Miss Enloe is a third-term freshman, majoring in commerce. She first entered Louisiana Tech last spring.

Man Shoulders Blame At Alienation Hearing

LOS ANGELES, Sept. 13.—(AP)—Alfred C. Read, Jr., Oakland broker, has taken all the blame for Claire Windsor's blasted romance and insists he is the one who ought to be sued.

Testifying for Miss Windsor in the $100,000 alienation of affections suit brought by his former wife against the blonde actress, Read said he deceived the actress into believing he was a single man when he met her and made love to her.

The young broker asserted he no longer loves Miss Windsor and that he cares for his former wife only as the mother of his children.

"I am not anxious to see Marian (his former wife) win because I know I am to blame," testified Read. "I should be the one to be sued. However, I don't want to see the mother of my children take it on the chin either."

"Miss Windsor never asked me to get a divorce and marry her after she found I was married," said Read. 'Quite the contrary. It was always at my instigation."

During a fit of anger, he said, Mrs. Read told him of an alleged affair with a brother of a University of California football player.

LIONS HOLD MEET AT FARMERVILLE

Monroe Club Is Entertained With Barbecue Dinner Last Night

FARMERVILLE, La., Sept. 13.—(Special)—The Farmerville Lions club was host to the Monroe Lions club last night on the banks of the D'Arbonne with a barbecue.

A large number of the Lions of both clubs with their wives and guests attended and declared they enjoyed the hospitality that is usually extended by the citizens of Farmerville and Union parish.

Lion District Governor Ed Everette, Jr., welcomed the visitors. He stated that the interclub meetings of the Lions throughout the state were accomplishing great things for Lionism and that the clubs throughout his entire district were increasing their membership. He further stated that the organization of the clubs into groups was progressing nicely and expressed his opinion that the group meetings would tend to increase the interest of not only the members of Lion clubs but of the public in general in the work that is being sponsored by Lions throughout the state.

Other speakers on the program were Mr. Dykes, president of the Farmerville club, Ed. Everett, Sr., Sheriff Pat Murphy, Mr. Whiteman, Rev. Tom Roberts, all of Farmerville, and A. B. Clarkson, E. M. Steen, Sam Davis, S. L. Digby and Barney Oakland, of Monroe.

WHEEL AND TIRE STOLEN

Theft of a wheel and tire complete from his 1929 model Ford automobile was reported to police headquarters Wednesday by Dewey Haynes, 711 South Grand street. They were said to have been stolen while the car was parked in the yard at the Haynes home.

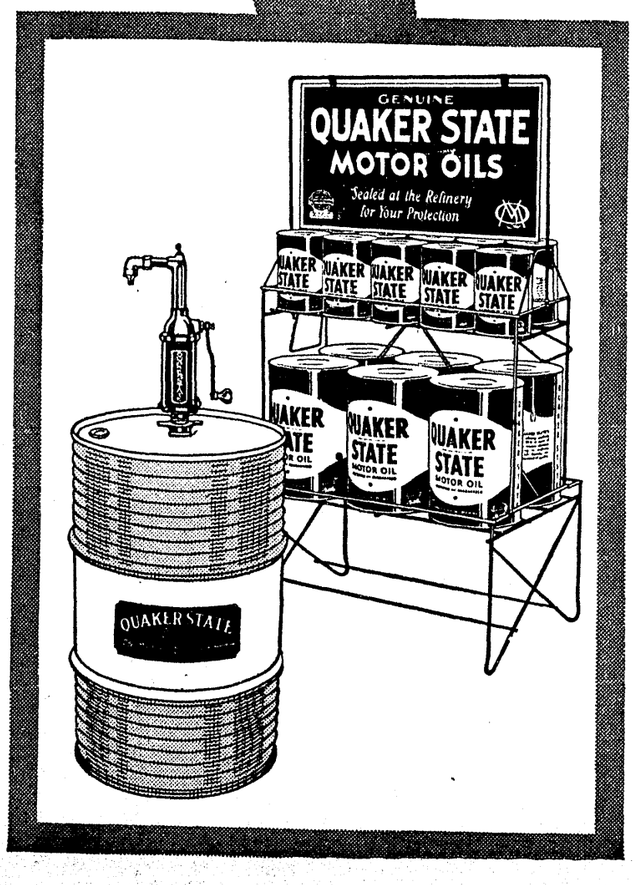
TWO WAYS TO GET

REFINERY-SEALED

QUAKER STATE

Motor Oils



● Look for the place displaying the Quaker State sign. There you can buy genuine Quaker State Motor Oil 2 ways: from green-and-white *tamper-proof cans* or from green-and-white *patented, double-sealed drums.*

● Do you want to cut car costs? Then change to Quaker State and get *in service* an "extra quart of lubrication in every gallon."

Ordinary motor oils average 1 quart more or less of "light-end" oil per gallon. This vaporizes, blows away. You pay for lubrication you do not get. Quaker State refines out the light-end material . . . gives you four full quarts of motor lubricant per gallon, net. Quaker State Oil Refining Co., Oil City, Pa.

NOTICE TO THE PUBLIC

A razor blade shortage —and its cause

AMAZING public response—far exceeding our most optimistic estimates—greeted Gillette's drastic price reduction.

At this writing many wholesalers and retail dealers are out of stock. The factory cannot keep pace with demand. The reason for this is very simple. Quality must be maintained at any cost. This instruction is law in our factory.

In fact—today inspection is even more rigid than ever. Each operation is supervised with extreme care. We are pledged to a continuance of the highest standards of excellence.

Expansion to meet present demand without lessening quality now is being attained. If your dealer is out of blades his stock should be replenished within a few days.

In the meantime we ask your indulgence and trust you will have no difficulty in finding a store which has Gillette, Probak and Valet AutoStrop blades.

Gillette, Probak and Valet AutoStrop Blades Now

5 for 25¢

10 for 49¢

NOTE TO DEALERS:

In our effort to fill a tremendous volume of orders and at the same time forward your adjustments as promised, deliveries of Gillette, Probak and Valet AutoStrop blades are slightly behind. As soon as possible, consistent with the statements above, your shipment will go forward.

Tomorrow's Election

Tomorrow the property holders of Ouachita parish will go to the polls to cast their votes on one of the most important issues before the public today, the matter of continuing the school program in the parish schools.

The voters will decide the question of a five mill levy for a period of one year to keep the schools going for a term of nine months. The parish school officials have indicated that unless the levy is passed only a four and a half months term will be possible.

The issue before the voters is whether they want the school to be open for half a term or a full term. The question is clear-cut and simple. The property owners voted on a similar proposal last June, except that on that occasion the levy was to cover a five-year period. This time it is only for one year. At the expiration of that time it is expected that economic conditions will have adjusted themselves so that the property owners can decide how they want their schools to operate. It is probable that by that time, too, the whole issue will have been settled by action of the legislature in harmony with recommendations that have been made by the tax reform commission.

Tomorrow every property owner in Ouachita parish should repair to the polls and cast his vote as his conscience and his convictions dictate. The election does not affect the city of Monroe, which has its own school system. It does affect West Monroe and all other sections of the parish outside the city limits of Monroe.

Nothing is more important to the people than its educational problems, and no election is of greater significance than one which involves the schools. A solemn obligation rests on every property owner to do his full duty as a citizen in casting his vote tomorrow. Only by that action can he properly discharge his civic responsibility.

Faith In the Subsidy

The idea of destroying part of the cotton crop was not original with the authors of the new deal. The staple was in oversupply long before the country neard of the new deal, and as long as there has been over production there has been talk of burning bales or plowing under rows.

For years the planters have been meeting to consider plans. At these gatherings they have solemnly vowed to burn part of the bales in their sheds and then go home to watch the skies for the glare that would prove that someone was fool enough to burn his cotton. The only man who was ever careless with fire around cotton was General Sherman.

Other plans proposed were crop reduction and the plowing under of every third row. But nothing ever came of it. In 1931 the Hoover administration proposed that every third row be destroyed. Nothing was done. The Louisiana legislature made it illegal to plant cotton in 1932, provided that three-fourths of the other cotton states followed Louisiana's example. They refused.

Why, then, was the idea such an instantaneous success under the Roosevelt administration after so many failures? Because the new deal scheme is the first that has offered the planter an immediate return in dollars and cents for his destroyed bales. He can see the advantage of plowing under a quarter of his crop for $6 or more per acre where he was not economist enough to realize that by reducing his crop he would create a better price for the bales he did produce. He has confidence in the government's ability and good intentions to pay him, whereas he could not depend upon the other planters to burn their surplus bales or plow under their surplus acres.

Gangsterism Abroad

The threat of gangsterism and racketeering doesn't seem to worry French officials.

The heads of two banks and of several cafes in Paris recently received letters in which the writers threatened to bomb their places of business unless certain sums of money were deposited in designated places. Although the police were spurred to sharper watch, no alarm was evident.

"Neither cafes nor banks will be blown up in Paris," said L'Intransigeant, apparently reflecting official opinion, "because, in order for gangsterism and kidnaping to become national industries, there must be assured immunity, complicity on the part of the authorities and complacent public opinion."

This summing up of the situation is not far from the truth, as developments in the United States have proved.

It would be interesting to see how France and other European nations, noted for keeping crime at a minimum, would deal with an outbreak of the American brand of gangsterism. Apparently neither their own criminals nor fugitives from the United States yet have had the courage to challenge the authorities on the issue.

Blessed are the poor. They don't care a whoop when a big shiny car makes one more crumple in their rusty fenders.

When you smash into a road hog, don't leave him going home. Bring home the bacon.

Uncommon Sense

By John Blake

NEVER MIND THE OTHER CHAP

Not all races are side by side competitions.

You may, for all you know, be in competition with some one on the other side of the world—some one whom you have never seen and of whom you never have heard.

But nevertheless you are in a contest.

The unknown may be a very dangerous competitor, and the result of his work or his experiments may win him the recognition which you have been seeking all your life.

It is perhaps just as well that you do not know him, or suspect his existence.

For if you did, you might be constantly wondering about him, trying to guess how he was getting along, and worrying lest he beat you to the goal that both of you are seeking.

* * *

General Sherman, one of the most brilliant soldiers America ever produced used to say that General Grant was a far greater soldier.

"I am a better tactician," said Sherman. "In many respects I am Grant's superior. But there is just one thing which makes him a better commander than I, and that is that what the other fellow is doing when he is out of sight never worries Grant at all, and it worries me like hell."

If you, while you are on the job, will attend to its every detail, and work it out with all the intelligence and energy at your command, you will find yourself fully occupied, and you won't need to be thinking about a rival.

I once sailed in a yacht race with an old Cape Cod skipper at the helm.

Once or twice I called out to him to tell him that the nearest rival was gaining on us.

His refusal to pay any attention to my warnings peeved me, and the next time I spoke more emphatically.

"Look here," said the skipper, "if I try to sail both these boats I can't win with either of 'em. So I'll just sail the one I'm in, an' let the other feller sail the one he's in, an' then one of us will win the race."

* * *

To the person of determination competition is stimulating and needful.

But it doesn't necessarily consist of watching the other fellow. The winner is usually the one who lets the other fellow take his own course, and refuses to worry about him.

Naturally in a war the other fellow has got to be kept in sight and in mind, but even in the war the commander must be thinking about how he is going to manage his own forces, or all the knowledge he has of the enemy's position will not help him any.

I admit that there must always be a certain amount of rivalry in any calling.

But the thing you are most immediately interested in is your own system of playing the game.

Tend to your own job, put the other man out of mind as far as possible, and you will be far more likely to win in the end than if you were constantly oppressed by the fear that he might get the best of you.

The Glee Club

By George Ellistor

THIS IS THE OCEAN

This is the mighty ocean—
One raindrop, two or three;
This is the sweeping river
That runs to meet the sea—

One raindrop's hurried meeting
With one or two or three.
Oh, lesson for our keeping.
Could greater lesson be?

The sea, the flowing river,
So mighty in the end,
From tiny forces came,
From little things descend!

PA'S OUT

Angry Dad—Now see what that whipping has cost you.

Little Eddie—See what it's cost you; those were my Sunday pants.

IMPOSSIBLE

Constituent—But can't you land me some little job that nobody else wants?

Politician—I've only wan o' them kind av jobs and 200 applicants for it.

THE STRENUOUS LIFE

The Wife—What do you mean by loafing out there when all that yard's to be rake up?

Nat Neversweat—Sh! I'm jest as busy as I can be watchin' fer an east wind to come up an' blow the trash into the next yard.

BRUTE

Wife—John, why don't you answer mother when she speaks to you? She asked you what an asphyxiating bomb was made of.

Husband—If I knew I'd make one.

PROOF POSITIVE

White—Is Brown an optimist?

Black—Just now he is. He has just put in his garden seeds.

OPTIMIST

Poet (2 A. M.)—I hear a burglar in my study.

Wife—Let him alone, dear; he may take some of your poems.

A New Line of Attacks —By Cecil Jensen

They Call It Politics

By Carter Field

WASHINGTON.—President Roosevelt may have to intervene if the battle between the Departments of Agriculture and the Interior over this race between public works trying to increase farm production, and Agriculture Adjustment trying to cut them down, gets much more bitter. Secretaries Wallace and Ickes are getting to the point where they cannot discuss the subject without too much heat being generated.

The battle over Grand Coulee, on the Columbia river, rescribed in a recent dispatch, is as nothing to that over Casper Alcove, where Public Works is about to expend $2,700,000 for no other purpose than to irrigate arid land—very fertile land, which now produces only sage brush, but which agricultural experts believe will produce like the Garden of Eden once the water is turned on.

In fact the Department of Agriculture was strong for this very thing just a little while back. But that was in the days when the business of the department was to show the farmer how to make two blades of grass grow where only one had grown before. It was in a time when the idea of urging the farmers to plow under crops would have seemed positively irreligious. And the thought of the taxpayers paying for such waste would have brought hearty laughs.

Casper Alcova, to tell the truth, is going to be a monument to Senator John B. Kendrick, that canny Wyoming Democrat who came to the upper house on the "kept us out of war" wave in 1916, and has been smart enough to be reelected every time since—even in the big anti-Al Smith debacle of 1928.

But it's a nightmare to the boys in Agriculture scheming how to get rid of the farm surpluses, and stay rid of them.

Just a few days ago Public Works gave Agriculture another jolt by announcing approval of 14 projects. All of them, it carefully pointed out, were "existing" projects. Hence, the obvious deduction was, the appropriations, totalling some $15,315,000,should not be mated for the retirement of marginal lands. That is, all but one are "existing." And for the other, they advance a lengthy explanation why it does not complicate the farm problem at all!

How Wallace, Peak Brand and Tugwell snorted when they heard that one! Where in the world Ickes gets the nerve to make such arguments is just beyond them! For the one exception is more irritating to the Agriculture experts than the 3 not admitted to be exceptions. And the thirteen are plenty aggravating.

The 13 are "existing," says Public Works. But while "existing" they obviously are not successful, Agriculture retorts. They do not have enough water. Else why the appropriations to give them more water? The answer, very simply, says Agriculture, is that more water on the land involved in these 13 projects will produce more crops on that land out of all proportion to the expenditure. Far more than if they did not "exist" in the first place, because if they did not "exist" at all at the present moment, obviously it would take more dollars per acre to provide them with sufficient water.

To put it another way, the rough average of $1,000,00 a project would result in a total of far less acres being put into full irrigated land production.

But the exception! This is the Sun river project, up in Montana. Public Works blandly points out that while some 30,000 acres will be irrigated by it, agriculture should not be annoyed. This will really not interfere with the crop curtailment program at all! Because this land is now being dry farmed, with wheat as the crop. And wheat is one of the crops about which there is the most worry on the part of the crop reduction experts.

Whereas, after the farmers "move under the ditch" as the irrigation experts put it, they will probably grow alfalfa, barley, oats and sugar beets! If you like to witness brainstorms, just show that list to the agricultural adjustment lads!

They say there is terrific overproduction already on all these except barley, whereas there seems to be a race among the farmers to get into that which should make the brewers smile very broadly indeed.

15 Years Ago

September 13, 1918

Mr. and Mrs. Sidney Stroud have purchased the old Moore home on North Third street, where they have been residing for the past year.

Dr. and Mrs. George Snelling left this week for Rochester, Minn. for a three months' stay. The doctor is to take a post graduate course in the Mayo brothers sanitarium.

Mr. and Mrs. G. B. Cooley left last night for Hot Springs on a three weeks stay.

Mr. and Mrs. F. T. Terzia, who have been residing on Lover's Lane, are now at home to friends at 401 Pine street.

Mrs. Robert O. Randel and little folks have arrived home from Crystal Springs, Miss.

Greek Church Campaign To Start Here Today

Achilles N. Sakellarides, of St. Louis, chairman of a campaign to build a new Greek Orthodox church in Shreveport, arrived in Monroe yesterday to launch the drive here this morning. The city's quota has been set at $3,000.

G. K. Primos is chairman of the local campaign.

The plan to build a church in Shreveport was started some time ago and is being given hearty support in that city. Mr. Sakellarides, who is being assisted by Gus Cosse, is a son of Rev. Nicholas Sakellarides, who once served as priest of the Shreveport church.

BURGLARY REPORTED

According to a report made at police headquarters yesterday by Mrs. S. L. Fuller, 603 Jackson street, a white intruder entered her tenant house at 106 Layton street Sunday night by cutting through the screen of a back door. Nothing was reported missing. A roomer in the house, who saw the man, described him as being white and about six feet tall.

HAMBONE'S MEDITATIONS

By J. P. Alley

'TREND,' THEME OF ADDRESS MADE TO METHODIST GROUP

President Colvert Discusses Modern Age In Which We Live

"Trend" was the theme of a talk made by President C. C. Colvert of the Ouachita junior college to a group of members of the Brotherhood of the Gordon Avenue Methodist church and other friends, Tuesday night. The affair was held in the parsonage of the pastor, Rev. R. M. Bentley.

The speaker showed how transportation has evolved from the ox team and covered wagon down through the line to automobiles and airplanes. Household conveniences have multiplied until the one time open fireplace for heating and cooking has been supplanted by gas and electric heating. The home is no longer lighted with candles for gas, and then later electricity, have become the regular things. The telephone and radio are more modern adjuncts to make the home a real place to live, the speaker stated.

"What would George Washington say or do if he could stalk back from his grave and observe this modern world?" asked Mr. Colvert.

The speaker declared that the time might come when a person might take a capsule which would contain all nourishment required and such as would be contained in a hearty meal of victuals.

"Do not be surprised at anything that may happen," he said. "Also learn to adjust yourselves to changing times and conditions. I thought I could and had done so until several days ago. (Laughter.)

"But changing times and modern inventions are but the working out of the plans of the Almighty. He has laid down certain basic laws and only as we discover them are we able to send sound across the country in a fraction of a minute by radio, and to fly across the sky like birds of the air. These things were possible long ago but we had not discovered these principals, these laws until recently."

Rev. Henry Rickey, assistant pastor of the First Methodist church, furnished several musical selections, and Reverend Bentley also contributed to the entertainment provided.

Refreshments were served.

Real Estate Transfers

The following real estate transfers were recorded at the office of the clerk of court of Ouachita parish yesterday:

J. W. Willhite and T. L. Hood sold to J. L. Warren for the consideration of $2,000 lots one to twelve of W. W. Thrower's subdivision of the east quarter of lot 9 of G. W. Zeigin's subdivision of the J. C. Ransom estate.

J. W. Willhite sold to the I. F. Wallace Realty company, Inc., an undivided one-half interest in lots three, four and five of block 12 of H. M. McGuire's Travelers' Rest subdivision for the consideration of $300.

J. L. Warren sold to the I. F. Wallace Realty company, Inc., for $8,600 that part of the northeast quarter lying south and west of the Arkansas highway, south half of the south half of the northwest quarter of the north half of the southwest quarter less one acre in the southwest corner of the northwest quarter of the southeast quarter, all in section 19, township 18 north, range 3 east.

The Peoples Homestead and Savings association sold to Olius A. Guess a parcel of ground in Ingleside plantation, said lot commencing at the intersection of the north line of Blanks avenue with the east line of Limerick plantation, running thence in a northernly direction along the line dividing Ingleside and Limerick plantations a distance of 268.8 feet and back in an eastern direction 243.19 feet.

IN NEW YORK

By PAUL HARRISON

NEW YORK—This Jose Iturbi, Spanish pianist-conductor who has take Mexico and New York by the ears, looks and acts so little like a musicia that he sometimes has trouble getting past the doorman at his own concerts He is 38 now and calming down a little, but he still likes to box and drive the fastest cars and go out on late parties.

All his managers have had a chronic case of jitters because of what box ing is likely to do to his hands. Iturbi just laughs and says that he alway wanted to be a conductor anyway, and that a broken fist wouldn't keep hir from holding a baton.

He had a rather unorthodox beginning for a great artist—spent most o his youth playing in movie houses and cafes in Switzerland. At 20 he got job playing in a hotel in Zurich, where he attracted so much attention tha the Conservatory of Geneva offered him a job on its piano faculty. Iturb had had little formal instruction, so he didn't know much about teachin at first, but he stayed six years.

Iturbi is breathlessly enthusiastic about things American, likes jazz musi and spends occasional evenings in Harlem when he is in town. A Frenc concern makes a special perfume for his use, and anybody who sneers abou it is likely to get a poke in the eye.

* * *

A Real "Play" Boy

When Iturbi was here first in 1929 he was taken up by the Kahns, th Adolf Lewisohns and others of the high-hat musical crowd. But he didn' enjoy them much because when he isn't playing he doesn't like to talk abou music, just wants to be gay.

He's on his way back to Europe now, having promised to return this fal for a long American tour.

* * *

Sandwich Women

There is a high premium on originality, even in the sign-carrying busi ness. Ordinary sandwichmen, those pathetically hopeless looking down-and almost-outers who trudge the sidewalks encased in a couple of miniatur billboards, are paid at most a dollar a day, and some of them 75 and even 5(cents. The Blue Eagle hasn't heard about them yet.

A woman, though, can make a very fair living at the dreary work, espe cially if she's pretty. The sheer novelty of a sandiwch girl (there are onl three or four of them about town) always attracts plenty of stares an comment.

The only one of them who has really gotten up in the world is Miss Bell Kalister. She goes about on stilts. Miss Kalister is 18 and came from Johnstown, Pa., last winter to work as a stenographer. Jobs were so scarce though, that she was about to spend her last few dollars for a ticket home when she met a young man who has been stilt-walking for years, and doing very well at it . . . She learned how to walk too and they went into partnership and have been much in demand ever since. It's strenuous work, and they can keep at it only four hours a day. But the pay is $12 a day each which is better than the Blue Eagle has done for stenographers.

Hollywood Close-Ups

By DAN THOMAS, NEA Staff Writer

HOLLYWOOD.—Random thoughts of a Hollywood columnist:

Colleen Moore must feel grand over having so many studios bidding for her again. Sally Eilers gives a perfect imitation of Garbo. And you should see Bob Armstrong do a hula! Wonder what's happening to that picture Charlie Chaplin was supposed to be starting? Maybe the weather is too warm.

Marie Dressler probably is the only person in Hollywood without an enemy. And Baby LeRoy is one of the few who won't take orders from anyone—when he wants to do something, he does it. Gloria Swanson still stands pat on refusing to have any of her children picturized—there isn't a photograph of any of them in existence.

* * *

Lupe and Johnny

The more people there are around the more emphatically Lupe Velez voices her love for Johnny Weissmuller. Joan Crawford still is just as friendly toward everyone as she was when just an unimportant bit player. Off the screen Heather Angel looks like just a child. Elissa Landi has Hollywood's grandest mother. Minna Gombell tells the funniest stories. On a rainy day even a tractor couldn't climb the driveway to Jean Harlow's home.

The most embarrassing question you can ask an actor is why he hasn't worked recently. Since getting her divorce Carole Lombard seems to really enjoy being with Bill Powell. The Harold Lloyds now have grabbed the title of Hollywood's ideal couple. Darryl Zanuck wouldn't look nearly as impressive if he didn't have a big cigar in his mouth. It seems like all of our little fellows go in for the big cigars, while the big fellows smoke cigarets.

* * *

Doug's ex-Leading Lady

Mahlon Hamilton, a leading man 10 years ago, is playing a small bit in Mae West's new film, "I'm No Angel." Fred Malatesta, a former villain, is doing likewise in the new Chevalier picture, "The Way to Love." Julanne Johnston, once Douglas Fairbanks' leading lady, did a dance in a cafe sequence of "Midnight Club."

While out on the set of "Pilgrimage" recently I ran across five of the former movie greats, all working as bit players or extras. In this group were Betty Blythe, once the vamp queen of all moviedom; Ruth Clifford, who halted her career to become a mother; Robert Warwick, once one of the most popular leading men; Francis Ford, one of the biggest serial stars years ago and later a prominent director; Rosa Rosanova, one of the best character actresses of her day.

PARENTS BRINGING CHILDREN TO HAVE THEM VACCINATED

Dr. Williams Makes Statement Concerning Disease Prevention

Parents are seeing to it that their children are being vaccinated in anticipation of the opening of the fall term of school, Dr. J. W. Williams of the parish health unit stated, Wednesday. He has the following statement to make:

"We are averaging about two hundred smallpox vaccinations a day at the health department and the physicians seem to be busy vaccinating their patients who are to enter school. We hope the good work will continue until all have the protection.

"I believe this is a good sign. It makes us believe that the people have decided to make conditions under which they will live and tolerating disease which can possibly be prevented is something over which they do have control. Whether it is a hard winter or not, as food and clothes are concerned, there are several more diseases for which there is not one excuse.

"Diphtheria can as easily be prevented as smallpox. It is a crime for a parent to allow her baby go unprotected against this disease. Two doses of toxoid and diphtheria can be forgotten.

"We are not saying we will not furnish anti-toxin to save the life of a child whose parents have been so neglectful because we know it is not the baby's fault but we are going to wish it was the daddy and could do the suffering for the little patient.

"Malaria can be prevented. I know we have mosquitoes, plenty of them, I haven't heard anything else since those big rains. The health department is not to blame. We conduct no mosquito campaign with drainage or oiling but this is not the only way malaria can be controlled. Malaria can be controlled with quinine. The thorough treatment (not a lick and a promise) of malaria not only benefits the patient but it protects the community. If all the citizens of a community would get the parasites out of their blood stream there would not be any for the mosquitoes to carry from one person to another. No need to blame the mosquito, man has to give the mosquito malaria first.

"We trust that when school is opened some arrangement can be made with dairymen so that surplus milk or milk at low cost can be donated to those children are not getting food. There has been a time when those of us interested in child welfare would emphasize proper food. Now, we do not hesitate to ask the parent, 'Is the child getting any kind of food?' We hurt no feelings and are surprised when the parents tell us frankly that the child goes hungry. What food children get in our school this year is going to play a big part in what statistics are going to inform us a year or two from date. Parents and teachers associations and health departments have a big job on their hands but if the community at large will help us spread our propaganda as individual cases are found, I am sure ways and means can be provided. Its going to take cooperation."

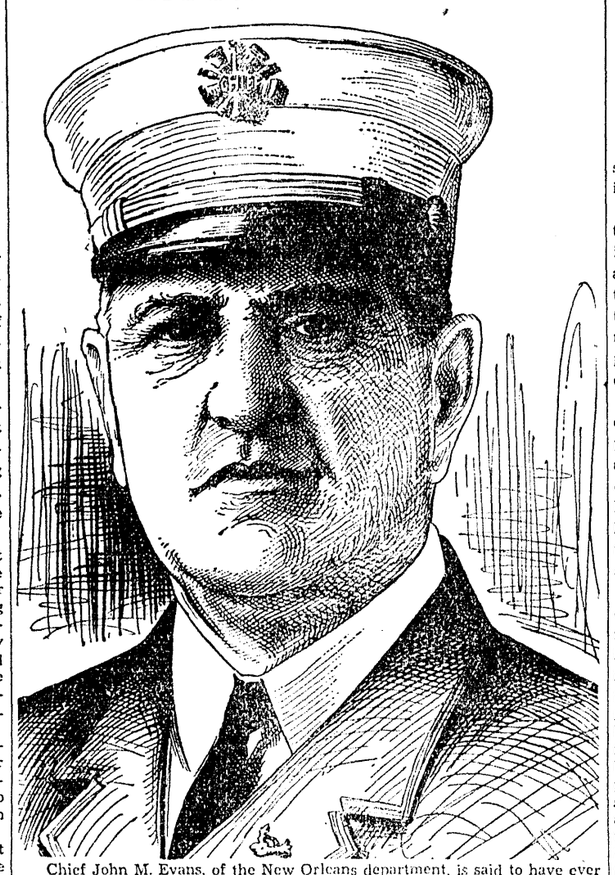
'AMERICA'S SUPREME FIRE FIGHTER'



Chief John M. Evans, of the New Orleans department, is said to have ever lived and slept within hearing of a fire alarm. It is said that the sharp ringing of a fire bell is as familiar to him as the tinkle of a phone on the desk of an average business man. His record recites all the degrees of his profession from a "rookie" to supreme honors at home and abroad. He has, practically all of his life, been on the firing line in innumerable campaigns. Now, in the evening of life approaching, he has achieved every possible honor the world may bestow in his chosen field of effort. New Orleans hails him as an outstanding hero, and so do members of the big convention assembled here today. His career in fire fighting in New Orleans spreads over the long space of time that started back in October, 1891. Through all this time and with changing scenes and methods, he has ever been in the forefront of the game.

Ellene's Hat Shop Will Open Here On Thursday

Mrs. Ellene Leibreich announces the opening Thursday of Ellene's Hat Shop at her residence, 217 Louisville avenue.

For many years Mrs. Leibreich has been connected with various establishments of this nature here and has won many friends.

She is opening with a complete stock of new fall millinery fashions, which, she advertises as having "all the dressiness that the new fall season imposes."

This stock includes mandarins, visors, sailors and berets, new felts, velvets, crepes and wools, collegiate brims, matron's brims, roll brims and dip brims. The new fall shades of brown, eel, wine, black, mole and blue are featured.

Mrs. Leibreich invites the public to inspect her stock during the formal opening.

Y'S MEN TO MEET

The weekly meeting of the Monroe Y's Men's club will take place at 6:30 o'clock tonight at Hotel Frances. C. D. Meredith will have charge of the program.

WORK OF STATE'S FIRE COLLEGE IS GIVEN EMPHASIS

(Continued from First Page)

splendid State Fire College, now in its fourth year of fruitful existence.

"No doubt, practically everyone who takes any interest in public affairs, is familiar with the purposes and aims of this state-wide school for the training of firemen, and especially those in the smaller communities, remote from the advantages offered in practical work afforded in the larger cities.

"At this school instruction is provided in all branches of fire-fighting and prevention and life-saving and first aid measures. A pupil attending the classes of the school is taught the very latest things that he should know in his profession together with a chance to familiarize himself with the latest apparatus.

"Pupils selected by their own local organizations because of especial fitness or enthusiasm, after receiving instruction, return to their homes, and in turn become instructors to others in their local departments. Their fitness to act as instructors is established by certificates granted them for performance and averages made by them in examinations by competent instructors who are men long skilled in fire fighting and prevention, and others who are amply competent to give instruction in first aid to the injured, so often of profound importance, even to the preservation of life itself, until skilled medical aid can reach them. In this manner many precious lives have been saved that otherwise, through ignorance of proper measures to be immediately applied, might have been lost.

"I can think of nothing that should more closely engage the enthusiastic attention of city and town authorities than the instruction of their local firemen, or of anything that pays such rich dividends for such a comparatively insignificant outlay. All that any community is required to do is to furnish transportation for its pupils attending the school and their meals during their stay in Baton Rouge. Sleeping accommodations are provided at the various fire houses and the instruction and use of modern apparatus for training purposes is free.

"I especially urge on every man in every Louisiana community to do his small bit in encouraging this movement and in supporting this school by availing themselves of the opportunities it offers to their young firemen. Its influence may be seen in a lowering of insurance rates by reason of improved protection to property. Not to mention the added protection given to human life."

The next number on the program was a talk by W. I. Neel, city engineer, of Monroe, on "Necessity of Municipal Building Codes." He was followed by Assistant Chief Ernest A. Thibodaux of Thibodaux, on "Necessity of Municipal Electrical Codes." The morning session concluded with an address by State Attorney General Gaston Porterie on "Fire Laws of the State of Louisiana."

E. L. Neville, superintendent of city schools, opened the afternoon session Wednesday at 1:30 o'clock with an address on the "Work in Public Schools for Fire Prevention and Fire Drills."

At 1:45 o'clock, Mayor Elward Wright, of Houma, spoke on the "Value of Louisiana State Firemen's association," and following this an address was given by James E. Hassinger, president of the Louisiana Insurance society.

"Cooperative Fire Protection between Neighboring Cities in North Louisiana," was the subject of a talk by Bertrand Barnett of Arcadia at 2:15 o'clock and at 2:45 o'clock Chief John M. Evans of New Orleans gave the report of the board of supervisors of the Louisiana Fire college.

Concluding talks of the afternoon were "Upkeep and Maintenance of Fire Apparatus," by Chief O. K. Davis of Ruston; "Gas Wells, Fires and Hazards, Extinguishing Same," by Barney Oakland of Monroe. A round table discussion and work of the Louisiana Fire college, led by Mayor R. C. Lawrence of Pineville and Chief Felix Pertes, of Rayne, ended the afternoon session at the hotel.

Beginning at 5 p. m. a bathing beauty contest and swimming events sponsored by the firemen will be conducted at the local salt water natatorium. A get-together dinner for delegates and visitors will follow at 8 o'clock on the Virginia hotel roof. The Wednesday program will be concluded with a dance at the Virginia roof garden beginning at 10 o'clock.

A big parade led by Teflis Grotto band and officials of the city and of the association, was held Tuesday afternoon at 5:30 o'clock. A barbecue at 8 p. m. at the Bernstein country place, concluded the program for the opening day of the convention.

Another Texas Lawmaking Session Starts Thursday

AUSTIN, Tex., Sept. 13.—(AP)—Another season of lawmaking in Texas is at hand today. Legislators are arriving for the special legislative session, called by Governor Miriam A. Ferguson, to convene at noon tomorrow.

Three months at home, after almost five months' continuous work, the lawmakers have been asked to consider a program of emergency legislation.

Chief item on the list of emergency subjects is legislation to make effective a $20,000,000 bond issue for unemployment relief. Next is liberalization of the anti-trust laws to give business and industry more freedom in complying with the president's recovery plan.

Other subjects are likely to be submitted from time to time by the governor. The constitution limits a special session to 30 days, but the executive may recall the legislators together any time.

CITY'S CHIEF BIDS WELCOME

Every last detail for the making of a complete success of the twenty-eighth annual meet in Monroe, of the Louisiana State Firemen's association, was carefully supervised by Mayor Arnold Bernstein, together with Fire Chief Frank J. Roddy and Assistant Fire Chief H. E. Roberts. An eloquent welcome was extended to the fire fighters of the state by Mayor Bernstein at the opening of the sessions in Hotel Virginia Wednesday morning.

15-CENT COTTON CRY OF FARMERS

Inflation, Suspension of Processing Tax Is Recommended

COLUMBIA, S. C., Sept. 13.—(AP)—"Fifteen-cent cotton" was the cry toward Washington of South Carolina farmers today.

Taking the lead in a new drive to get better prices for the staple, the state, through Governor Blackwood, has called upon other cotton growing states to make a direct appeal to President Roosevelt next Monday "to save the southern cotton farmer."

After a mass meeting of growers, agricultural leaders and representatives of governors of three other states here yesterday, Governor Blackwood telegraphed other cotton governors to call mass meetings Saturday to consider resolutions similar to those adopted here.

They also were requested to name delegations to join one from South Carolina in an appeal to the president Monday. Notifying Secretary of Agriculture Wallace of the meeting's action, Governor Blackwood asked the secretary to arrange an audience with the president for the delegations.

Chief among recommendations of the mass meeting were that President Roosevelt inflate the currency immediately to raise the price of cotton and farm lands, thus restoring the farmer's buying power; and suspend the cotton processing tax, "since we believe it is being paid by the farmer."

Governor Talmadge of Georgia, who was represented at the meeting, issued a statement calling for inflation. North Carolina and Alabama representatives also were present.

Resolutions asked the government to establish a minimum price of 15 cents a pound for cotton, "subject to increase in accordance with requirements of a parity price."

The 1934 crop would be limited to 9,000,000 bales if demands of the palmetto growers are met.

STRICKEN AREAS ORDERED HELPED

Federal Aid Is to Be Given Sections of Nation In Distress

WASHINGTON, Sept. 13.—(AP)—Federal aid totaling $60,000,000 has been ordered by President Roosevelt to meet the emergencies resulting from drouth, hurricane and grasshoppers.

He today instructed the director of emergency relief, the farm credit administration and the public works board to cooperate in getting aid to the stricken areas of the Dakotas, the Texas panhandle, Florida, and the Rio Grande regions.

These areas have been suffering from natural causes, and the president is willing to extend aid.

He also is depending on the people in these communities to go the limit in helping themselves.

He has asked Secretary Ickes, the public works administrator, to set aside special funds to be available for immediate road construction in the harmed regions.

Harry L. Hopkins, emergency relief director, has orders to provide the necessary amounts for food and clothing and feed for livestock.

The farm credit administration is expected to extend credit as liberally as possible.

Christian Life Meet Considers NRA Plans

Members and friends of the Christian Life conference were guests at the Congregational parsonage Tuesday evening. Among the unique features was an address by Louis M. O'Quinn. In the course of Professor O'Quinn's address, he stated clearly the problems of the NRA and the purpose and meaning and importance of the movement. Wesley U. Riedell, assistant minister of the church, led the young people in a group of peppy games.

Rev. George H. Dierlamm, in charge of the meeting, outlined the young people's part in the annual Congregational conference which will meet with Union Congregational church, November 7-8.

Among those present were Mr. and Mrs. Louis O'Quinn, Mrs. Gipsie O'Quinn, Mr. and Mrs. Albert Strozier, Mrs. Wiggins, Dorothy Henry, Mr. and Mrs. Frank Gillette, Walter Dean, Mrs. Daniels, Nita Johnston, Gale Dean, Ruby Henry, George Evans, Tommy Evans, Paul Bentz, Edna Strozier, Joyce Daniels, Perry Daniels, Wesley Riedel. After the program refreshments were served on the lawn by the hostess, Mrs. Dierlamm.

Work has been started on Alaska's largest aviation field, at Cordova, costing $50,000.

TAX COLLECTIONS MADE BY SHERIFF GIVEN IN REPORT

Percentage of 1931 Taxes Received Placed At 98.35

In applying Wednesday to the police jury for a final quietus on taxes for 1931, the sheriff's department compiled a complete report on tax collections for that year. This report showed collections to be extremely good.

Based on the total amount of taxes originally charged for the state, collections amounted to 96.8 per cent. After taking into consideration credits for property adjudicated to the state for 1930 and 1931 and reductions allowed through the auditor's office for over-charges or dual assessments, the percentage of collection was placed at 98.35 per cent, leaving only 1.65 per cent uncollected.

The amount of collections made on state taxes through adjudication of property to the state was shown to be only seven-tenths of one per cent. This was considered extremely small, especially in view of the fact that property values were low, due to the economic depression, and a comparatively small amount of property was bought in by individuals or private concerns.

Last year when 1932 tax rolls were completed, the police jury granted a provision quietus on 1931 taxes, in order that the sheriff's department might begin collecting taxes for 1931. Recently a final quietus was obtained from the state on state taxes. Figures offered Wednesday were made in connection with the application to the police jury for a parish quietus, which was granted.

Collections on 1932 taxes to date amount to 78 per cent, it was stated, leaving 22 per cent to be handled through the advertising period. A large portion of that still uncollected is said to be guaranteed by loan concerns.

Banister Brothers To Leave For University

Ray Banister, who has been working as an interne at Central Louisiana state hospital at Pineville, has returned home to spend a few days with his parents, Mr. and Mrs. W. H. Banister, before resuming his medical studies. He plans to leave Monday for Tulane university, where he will complete his final year in medical work.

Ross, another son of Mr. and Mrs. Banister, will also leave Monday and will enter the law school at Louisiana State university, after having taken two years of pre-law work at Ouachita parish junior college. The two young men will go to the respective schools by automobile, accompanied by their parents, who will return immediately.

Philadelphia Firm Is Suspended By Exchange

NEW YORK, Sept. 13.—(AP)—The New York Stock Exchange today announced the suspension of the firm of Stetson & Blackman, whose main office is in Philadelphia.

The firm was suspended under the section of the exchange constitution which relates to insolvency and failure of a member to meet obligations.

Members of the firm, which has no office here, are John B. Stetson, Jr., and Daniel S. Blackman. Stetson was admitted to membership on the exchange October 30, 1930.

NEWS OF INTEREST TO WOMEN

Items of news and announcements for this column should be telephoned to the society editor, 4800, and 1404 after 6 p. m., or brought to the office of The Monroe News-Star between the hours of 7:30 a. m. and 3 p. m.

I WISH I COULD REMEMBER

I wish I could remember
The sunset's golden glow,
Its loveliness, its splendor,
So soon must fade and go.
A memory tries to paint again
Its crimson glory, all in vain!

I wish I could remember
The rose I found one day,
Its softly tinted petals
So soon were dry and gray.
Try as it may dull memory
Cannot return that rose to me.

But, oh! how often I recall
The storm that wracked the land!
And even now I feel the pain
Of thorns that raked my hand.
The beautiful—the gracious, so soon
they fade and die;
But memory etches clearly, a fear—
a tear—a sigh!

—Marjorie F. W.

A group of courageous gentlemen, members of the Louisiana Firemen's association, have been the guests in our city for the past two days and we are endeavoring in every way possible to pay homage to them. Monroe has been selected as a convention city many times during the past year and welcomed visiting delegates with characteristic hospitality but never has the key of the city been turned over to a more heroic body of men than our state fire chiefs. Prominent among them is our own Chief Roddy who long ago won the admiration and the respect of every citizen of this city. He is the hero of every small boy in the community, winning their admiration through heroic deeds and their love by his kindly, gentle manner. He has often been seen riding through the city with happy urchins perched beside him, thus bringing to them the realization of their most cherished, secret ambition. Monroe owes a debt of gratitude to Chief Roddy and his gallant company of assistants, that can never be paid in dollars and cents. It seems strange, but never-the-less true that a man who performs some spectacular deed of heroism is given homage and columns are written about his courageous action, but the daily deeds of firemen all over the world, remain unsung and often unknown. They dedicate their lives to the cause of humanity, yet, very little is ever written in appreciation. We like to think of our gallant firemen as the keepers of our city. They never sleep . . . they guard the city with vigilant eye day and night, day after day and year after year. How useless it would be to build beautiful homes, tall office buildings without adequate fire protection. How terrorized we would continually be and how restless our sleep at night if we were not assured that heroic men were guarding our homes.

Heroes are born, not made. To be a fireman means absolute forgetfulness of self . . . there must be something in their blood that responds to the shrill call of the siren and spurs them on to deeds of heroism, often as great as the world has ever known. During great catastrophies, heroes are born but few there are who can face real danger gallantly and fearlessly without the blare of trumpets, the plaudits of the crowd and the stirring roll of drums.

Yes, we take our hats off and bow humbly before the heroes of the hour . . . our gallant firemen who keep guard over our city, quiet our fears and stand ready, day and night to rescue our loved ones and our worldly possessions when the signal comes.

Mrs. B. T. Humphries left Monday morning for an extended visit in Adamsville, Tenn. En route she will visit friends in Memphis, Tenn.

Miss Evelyn Hill, student last year at the Chicago Art school, will take a course in academic work at L. P. I. in Ruston this year. Miss Hill is a young artist of considerable ability and accomplished some splendid work under the leading artists of America last year. She will continue her study of art at L. P. I., and return to Chicago next year.

Fort Miro chapter, D. A. R., held its first meeting of the fall and winter season in the chapter house Saturday afternoon. In the absence of Mrs. J. J. Potts, regent, due to illness, Mrs. C. E. Faulk, vice regent, presided. Meeting opened with prayer led by the chaplain, Mrs. Ida Williams, salute to the flag was given by the entire chapter. Roll call by Mrs. E. T. Lamkin, members answering with current events. A rising vote of thanks was given Mrs. Guy Stubbs and Mrs. Harvey Trousdale for having had the chapter house cleaned and decorated for this first meeting.

Mrs. Guy Stubbs presented a key, given by Miss Lilly Green. The key, a unique brass one of the olden type, was the first to open the door of the present D. A. R. chapter house and claims the distinction of being one of the first buildings built in Monroe and used as the clerk of court's office.

Mrs. Joe Davenport of Mer Rouge, who was regent of Fort Miro for two years past, was a visitor Saturday and invited the chapter to meet with the Bastrop chapter.

Mrs. Joseph Renwick, chairman of Revolutionary relics, urged that those having relics and willing to part with them please get in touch with her. She is anxious to present them to the national headquarters in Washington.

Mrs. A. E. Montgomery in an interesting way presented the work and meaning of NRA to the chapter. Fort Miro assisted in the canvass of householders names. Those soliciting were Mrs. Ned Leigh, Mrs. A. E. Montgomery, Mrs. Porter Burgess, Mrs. A. K. Kilpatrick, Miss Alma Summers Potts.

A paper, "What the Daughters of the American Revolution Are Doing," was very ably and beautifully presented by Mrs. Herbert Steed. Refreshments and a social hour was enjoyed with Mrs. Elmer Slagle hostess.

A regular business meeting of the Trinity Lutheran Ladies' Aid was held Tuesday with Mrs. E. Arnold. Reports of committees were heard on the successful conclusion of various matters. Plans were formulated for the fall and winter activities for which the chairman has appointed groups to carry out the necessary details. Most of the membership was present besides a number of visitors who were cordially welcomed by the president. Following the meeting the hostess served delicious refreshments which were enjoyed to the utmost.

Mrs. T. T. Webb left today for Shreveport where she will remain at the bedside of Mr. Webb until his condition improves. Mr. Webb, who has been ill for the past year suffered a relapse several days ago and entered Schumpert sanitarium for medical treatment. His condition, although not critical, is regarded as serious.

Useless Monthly Pains

Thousands of women escape useless pain and discomfort at monthly periods by taking CARDUI, purely vegetable, harmless medicine. Mothers give it to their daughters. Sold at all drug stores.

News-Star Daily Pattern

MADE IN SIZES 36 TO 48
PATTERN 1535

by Anne Adams

Contrast is always a refreshing note . . . here it tops one of the smartest morning frocks we've ever seen. The surplice bodice closing, the smart seaming where the yoke joins the lower bodice, and the simple skirt line achieve good proportions for the matronly figure. Buttons add a chic note. A frock you'll enjoy if made of silk or cotton with contrast or in one color.

Pattern 1535 is available in sizes 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 2 1-2 yards 36 inch fabric and 1 1-8 yards contrasting. Illustrated step-by-step sewing instructions included with this pattern.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

THE ANNE ADAMS PATTERN BOOK features a charming collection of afternoon, sports, golf, tennis dresses, jumpers, house frocks, special beginners' patterns, styles for juniors, and lovely clothes for youngsters, and instructions for making a chick sweater. SEND FOR YOUR COPY. PRICE OF CATALOG FIFTEEN CENTS. CATALOG AND PATTERN TOGETHER TWENTY-FIVE CENTS.

Address orders to Monroe News-Star) Pattern Department, 243 West 17th Street, New York City.

Betty Jean Hardeman, nine-year-old daughter of Mr. and Mrs. T. J. Hardeman, 702 North 4th St., entertained her little friends with a most enjoyable party on Tuesday afternoon from 3 to 5:30 o'clock. Various games were played, prizes were won by Martha Grafton, Louis Gail McDonald and Ann Haywood. Carnival hat sand balloons were presented to the youngsters.

Delicious ice cream and cake was served to the following: Melba Stevenson, Annie Sue Miller, Sue Mary Moore, Joan Guerriero, Betty Evans, Marthan John, Helen Walker, Marness Lester, Floyd Rhodes, Jackie Voories, Virginia Stulce, Martha Grafton, Dottie Sisson, Louise Gail McDonald, Joyce Siegle, Evelyn Jane Smith, Ann Dandridge, Dorothy Jane Elliot, Gloria Roberts, Betty Ann Taylor, Martha Hopson, Ann Hayward, Bobby Steen, Billy Stevenson, Richard Davis, Ray Braswell, Jr., Lloyd Steen, Billy Davis, Jeff Caldwell, Jr., Hayward John, Tommy Prichett, John Ellis Bryan, Jr., Sheffield John, Betty Jean Hardeman.

Mrs. Hardeman was assisted by Mrs. A. O. Evans, Mrs. J. E. Bryan, Mrs. H. E. Elliot, and Miss Dorothy Isaacson.

Miro Delphian chapter held its first meeting of the fall with the new president, Mrs. J. T. Pugh, in the chair. Other officers for the coming year are: Vice president, Mrs. W. G. Murphy; secretary, Mrs. W. A. Whitfield; treasurer, Mrs. J. B. Collins; advisory board, Mesdames H. A. Whitfield, S. M. Collins and Fred Coon; critic, Mrs. J. M. Russell; reporter, Mrs. M. M. Munholland.

Mrs. S. M. Collins was leader for the afternoon, "The Middle Ages" being the subject.

The middle ages defined as follows: "Our Debt to the Middle Ages," Mrs. J. B. Collins.

"In Government," Mrs. Fred Coon; "In Position of Women," F. C. Bennett; "In Literature and Architecture," H. A. Whitfield; "The Pre-Christian World," Mrs. C. M. McKenzie; "Stoic Philosophy," Mrs. W. G. Murphy; "Early Christianity," Mrs. John Calhoun; "Tertullian's Defense," Mrs. J. M. Russell.

Mr. Thomas McClain and son, Joseph, left Tuesday for Petersburg, Michigan, where they will visit relatives and be present at the McClain family reunion in honor of their mother's eighty-ninth birthday and anniversary.

Mrs. L. J. Gimler, Sr., is enjoying a visit in the home of her daughter, Mrs. J. L. Markey of Chicago, Ill.

Mr. A. V. Miller, general chairman of the NRA has called a meeting of every committee for Thursday night on the roof of the Virginia hotel. New developments which require immediate attention will be presented and discussined at this time.

Mr. and Mrs. W. H. Thompson and daughter, Miss Lillie Thompson motored to New Orleans this morning. Miss Thompson will matriculate at Sophie Newcomb college this year. They were accompanied by Miss Elizabeth Cosper who will continue her studies at Sophie Newcomb.

FORMAL OPENING
Thursday
ELLENE'S HAT SHOPPE
217 Louisville Ave., corner Third

The Public Is Cordially Invited to Visit Us

Millinery with all the dressiness that the new Fall season imposes. Complete stock for all types.

Mrs. Ellen Leibreich, Prop.

Coming Events

Thursday

Meeting of Twin City Council, P.-T. A. at the police jury room, 4 p.m.

Friday

Meeting of the Altrurian Book club with Mrs D. C. Metcalf. 3:45 p. m.

Meeting of the Claiborne Recreation club. 7:30 p. m.

Presentation of "Beantown Choir," three-act comedy, under the auspices of W. B. A. Review number 11, 8 p.m. Public is invited.

Special meeting of the W. C. T. U. at the Methodist church, West Monroe. 3 p. m.

Truard Breard, Jr., will leave Sunday night for New Orleans where he will enjoy a brief visit with his grandmother before leaving for Baton Rouge to enter upon his freshman year at the state university.

Mrs. D. P. Whitmire has just completed a week's visit with her parents, Mr. and Mrs. O. S. Hill, of this city and returned to her home in Fort Worth, Texas. Mrs. Whitmire will be remembered as Miss Vera Hill of this city.

Lovell Hayden, young son of Mr. and Mrs. L. E. Hayden, Jr., had the misfortune to break his arm while at play several days ago.

Friends will regret to learn that Beverly Ann Thatcher, lovely little daughter of Mr. and Mrs. Fred Thatcher of the West Side is seriously ill at St. Francis sanitadium.

Miss Hazel Nalley and Mr. Winford Walpole, of Eros, La., were united in marriage September the eleventh at the Congregational church parsonage with Rev. George H. Dierlamm, pastor, officiating.

Following a brief honeymoon Mr. and Mrs. Walpole will be at home to their friends in Eros.

Mrs. Louise Harberson announces an important meeting of the W. B. A. Review No. 26 and club 29 at the Missouri Pacific club rooms Friday afternoon at 2:30 o'clock. All members are urged to be present.

Mr. J. L. Adams, Sr., and son, Mr. J. L. Adams, Jr., motored over to Shreveport the first of the week to meet Mrs. Adams upon her return from a visit to the World's fair in Chicago with a party of friends

Lake Providence

Miss Blanche Riley and Mr. Ralph Douglas were married in Little Rock, Ark., Sunday, September 3, at 3 p.m. at the home of her aunt.

Miss Riley is the attractive young daughter of Mr. and Mrs. H. P. Riley of Lake Providence, La., and is a teacher of elocution, showing great talent in her chosen work.

Mr. Douglas is the athletic teacher in the Wewaukee high school at Wewaukee, Okla.

After the marriage ceremony, the happy couple left immediately for Wewaukee.

Mrs. R. S. Guenard and son, Sidney Jr., accompanied Mark Brown, Jr., to New York where he will meet his mother, Mrs. Mark Brown, who will accompany them on their return home.

Mrs. Guenard and Sidney will be the guests of Mrs. Guenard's sister, Mrs. G. K. Imbrie of Englewood, N. J.

They expect to be away several weeks and will return by way of Indianapolis and Chicago.

The Civic League met at the Community Club for its regular monthly meeting. The salute to our flag and the pledge of allegiance was repeated in unison, after which the meeting was opened with the Lord's prayer.

It was voted at the meeting that the Civic League and the Garden Club sponser a flower show to be held Friday, October 13, at Municipal Auditorium. The following committees were appointed:

Publicity Committee—Mrs. R. S. Reed, chairman, Miss Eunyce Howard.

Property Committee—Mrs. R. S. Guenard, chairman, Mrs. J. C. Bass, and Mrs. C. A. Rose.

Prize Committee—Mrs. S. P. Sharp, chairman, Mrs. J. B. Erwin.

Entry Committee—Mrs. W. C. Lyons, chairman, Mrs. C. R. Brown, Mrs. W. Y. Bell, Jr., Mrs. L. H. Richards and Mrs. J. P. Davis.

Arrangement Committee—Mrs. J. M. Hamley, chairman, Mrs. J. J. Nelson, and Mrs. H. Stein, Sr.

Catalogue Committee—Mrs. W. C. Lyons, chairman, Miss Eunyce Howard, Mrs. E. E. Erwin and Mrs. J. M. Hamley.

Mr. Frank Voelker, representing the Reemployment Committee of the NRA for East Carroll parish, was present and asked the president to appoint a committee to help "put on" the NRA drive. Mrs. R. S. Reed was appointed chairman of the committee and the other members appointed were Mrs. David Holt, Mrs. C. R. Brown and Mrs. J. P. Davis.

As there were so few present some of the business was left "tabled" for a future meeting.

Mrs. Jessie Lockenheimer of Monroe, La., was a pleasant guest in the home of Mrs. H. L. Van last week. She returned Sunday taking with her Mrs. Van for a short visit.

Approximately 20,000 whales weighing 280,000 tons were caught in Antarctic waters during the season just closed.

The HIDDEN DOOR

BY FRANK L. PACKARD

SYNOPSIS: For weeks Colin Hewitt, the writer, has been frequenting the New York underworld disguised as Clarkie Lynn, a crook. His life is in danger from the mysterious Mask, underworld ruler, and Colin hopes to stumble upon his trail. By luck he is admitted to membership in one of the Mask's many gangs. He is initiated into the mysteries of the "Wine Press," the Mask's headquarters, and sent out almost at once with Buck O'Mara's gang to dispose of a Canadian rum runner named Dollaire who has hi-jacked the Mask's St. Lawrence River counterfeiting plant.

Chapter 38

MURDER SQUAD

BUT then, sooner or later, Colin mused, his life was forfeit anyway unless he could uncover the Mask's identity and force out into the open this little-less-than fiend, who more and more continued, it appeared, to grow and acquire the stature of what might well be the most ruthless, versatile, and powerful criminal of his time.

The stakes were heavy. Thoughts of Germaine came to him. He was fighting not only for his own life but for Germaine's happiness as well. His all was on the table. He shrugged his shoulders fatalistically. There was no turning back now. It was the toss of a coin.

But he had come a long way on the road. Heimie Schwarm and Buck O'Mara, it was certain, were both at times in direct contact with the Mask—and he, Colin, was now in Buck O'Mara's mob. Heimie Schwarm was remote; it was Buck O'Mara's confidence that he had to win, and Buck O'Mara that he had to watch. That was why he was here.

He smiled without mirth. Misgivings and fears were the human lot and came unbidden, but why subject himself to this mental torment? It was useless, purposeless—even if it was human to do so. He had chosen his course deliberately, there had seemed to be no other way, and, whatever happened tonight, he must perforce go through with it—to the end.

He drove his mind afield. More had been said about Lazarre and the "members" of the club who had taken flight on the night of Dollaire's attack. They were still in hiding, still under cover, and New York knew them not! The identification of Kenniston, their roué millionaire leader, had been awkward—Kenniston's life was still being subjected to a searching investigation, as were the lives of all those who, so far as the police could discover, had ever been associated with him.

And since the uttering of counterfeit money was a matter that automatically involved the federal authorities, the Secret Service was in the forefront of the picture. Lazarre's name had not actually been mentioned, but through inference, a reference to the man who had got a "hide full of lead," it was apparent that Lazarre had entirely recovered, and like the others, was still in hiding.

Colin smiled queerly. So, after all, he had saved Lazarre's life. He was glad in a purely humanitarian sense that his efforts had not been in vain; but in a material sense it mattered little now whether Lazarre was dead or alive. Instead of Lazarre there was now Buck O'Mara.

PROBABLY from the start, Lazarre, even if Lazarre had been willing, could have helped but little. He rated Lazarre as being perhaps of the same status and on the same plane amongst the Mask's tools as Benny Malone—quite a different status from that of Buck O'Mara or Heimie Schwarm.

And yet Reddy's letter, though still undelivered, had proved to be by a strange twist of fate the "open sesame" to the Mask's operating headquarters at the Wine Press, and to whatever measure of Buck O'Mara's confidence he already possessed. If it had not been for that letter he would never have gone to Cap à l'Orage; if he had not gone to Cap à l'Orage he would never have heard of Dollaire.

And, if he had never heard of Dollaire, he would not have gone to Spinelli's last night; and—— The trail led on, blazed by that letter, to where he stood at this moment, an initiate into one of the Mask's mobs. Nevertheless, though it had now outlived its usefuness so far as he was concerned, he wondered, as he always had, what was in that letter.

Some day perhaps he would meet Lazarre again and deliver the letter—and perhaps not. And perhaps Lazarre would explain the nature of his liaison with Reddy — and perhaps not. It mattered little now. Lazarre was no longer needed, and could no longer be of any help.

Again his mental scene shifted. Buck O'Mara and Benny Malone had talked about Spinelli. Spinelli was on the payroll, too. Detective Sergeant Mulvey might prove to be altogether too curious as to the way in which Harry the Lynx had left the night club whose obvious exits might well have been closely guarded—to say nothing of the fact that the lights had so fortuitously gone out almost instantly at the sound of those shots!

The subject had been introduced casually, dismissed casually. A possibility, that was all. No S O S had come from Spinelli, so everything was apparently jake so far. Why worry about it? Spinelli would be given "protection" if necessary. Colin cupped his hands over a match and lighted a cigarette. A side issue that concerned him little—no bearing on the main issue.

He stepped out from behind the wheelhouse and moved over to the boat's rail. Someone was leaving the wheelhouse. Benny Malone. Buck O'Mara was still in there with Smudge Kilrea at the wheel.

"Oh, hello, Clarkie!" said Benny Malone as he stepped over to Colin's side. "I was just going to hunt you up. Buck wants a couple of us to go aboard with him and have a little social visit with Dollaire before the boys get busy — get the idea?—so's Dollaire won't turn his toes up without knowing what it's all about. That would be just too bad! I said I'd pick you to help play the hand, seeing that you didn't miss any tricks last night, and Buck said that was okay by him."

"Sure!" agreed Colin enthusiastically.

"You just look innocent," cautioned Benny Malone, "until Buck gives us the high sign to flash our rods. Dollaire's schooner ain't showing any lights, but Smudge has just picked her up out there. We'll be alongside in a few minutes. You just hang around here, and then trail along with Buck and me. Understand?"

"Sure!" said Colin enthusiastically again. "Thanks a lot, Benny, for a ringside seat."

OUT of the darkness Benny Malone's features grinned in friendly fashion.

"It was coming to you, Clarkie," he said. "You made good. Now I got to check up with the boys down in the cabin and hear 'em recite their lessons the way Buck doped it out for them. I won't be long."

He moved away—heading aft at a half-run.

Colin swallowed hard. Bad as it had looked before—this was worse. Dollaire's executioner! Or co-executioner with Benny Malone!

He stared out into the blackness ahead. Something out there was taking shape. He felt the boat's speed slacken, the vibration cease as the engine was shut off. A hail came across the water. Buck O'Mara stepped out of the wheelhouse and answered it, using his hands as a megaphone.

"That you, Dollaire!" he bawled. "This is Heimie Schwarm's outfit."

"Sure it's me, by cripes!" the voice answered. "Come alongside. The Good Lord could not have given us a better night, eh?"

"Attaboy!" Buck O'Mara called back heartily.

The boats maneuvered—bumped against the schooner's hull and were made fast. Colin brushed his hand across his eyes. His mental processes burned his vision. It was all strangely indistinct—and yet it was all horribly real.

He found himself mounting a short rope ladder on the heels of Buck O'Mara and Benny Malone. There were no lights showing anywhere; but, his eyes grown accustomed to the darkness, he could see, as he reached the deck, a dozen or more forms leaning over the schooner's rail—while a chatter of voices, as bantered greetings were exchanged between the crew on the deck and the boats below, resounded discordantly in his ears.

Boats always seemed to take him to slaughter, Colin thought with a grimace as he carefully placed his feet on the rounds of the swinging ladder. There had been the night when Germaine's boat had taken him to the "club" on the St. Lawrence, and when he had had to see men shot down while he was helplessly tied to a tree.

Then the slaughterers were Dollaire's men. Tonight, in a boat belonging to the man who had threatened him with death, Colin was to see Dollaire's men shot to bits in equally cruel fashion.

(Copyright, 1933, Frank L. Packard)

Tomorrow, Dollaire surprises his murderous guests.

The contemporary wife in search of a model that might help her to make a success of marriage should skip her own mother and even her grandmother and pick the pioneer wives as patterns worth copying, especially a girl who expects to keep her job, says Miss Thelma Strabel, the author of "Smart Woman," a new novel. She believes that the modern bride who stands shoulder to shoulder with her man beside the monthly bills and is willing to face the wolf with a typewriter or a drawing board or even a needle has more kinship with the ideals of the frontier woman than of those later wives who expected to be supported in a style grander than the husband could afford.

"I think contemporary wives are showing tremendous courage and resourcefulness in the way they tackle their problems and work them out in ways they think will be best for themselves and their husbands," Miss Strabel said today.

"I don't think the advice of the average mother can be of much use to the modern crop of sophisticated young wives," she regretted.

"These mothers are hand-downs from a smug past that is gone for good, a past that those of us who are young wives would not bring back if we could. Their lives were counted out by circumstances.

"But those of us who have jobs and homes must create our own patterns in a new wilderness and do the best we can with the materials at hand. The fortitude and resourcefulness that many young wives are showing should earn them a fine reputation with future generations."

Miss Strabel came to these conclusions, she said, while watching young married couples with double pay envelopes here and in Paris during the years sh espent as a fashion writer before she turned author.

"One thing the modern girl with a job should make sure of," she advised, "is that she is marrying a man who can stand up to the role of playing husband to a wife who knows how to make her own way in the world. The man who needs to be everlastingly coddled into thinking that he is the big chief of the family can be a terrible drag to a bright young partner," she pointed out.

"I don't think any girl should keep a leash on her own talents or her personality in order to give her man the spotlight. That sort of thing seems to be going out of fashion. It was bad for both husband and wife."

Building a successful marriage, she thinks, is far more important to most of them than shining at some profession or job. She believes that when love, or what they call "emotional adjustment in the home," clashes with a career the career is pretty sure to be dropped.

A typical collegiate atmosphere prevailed Monday night at the dancing party at Riverside Country club, sponsored by members of Sigma Alpha Epsilon fraternity. It was indeed a gala event with feminine members of society in formal evening attire and their escorts in white linens de rigueur of southern summer time social affairs.

During the intermissions, the fraternity men lifted their lusty voices to the rafters with their college songs. Everywhere the fraternity colors were in evidence and the college spirit reigned throughout the evening.

Among the hosts on this occasion were: Messrs. R. L. Davis, Allen Davenport, Jeff Cole, Frances Barringer, John Cann, John Wooten, Jack Platt.

Miss Doris Beaman, accompanied by her mother, Mrs. R. R. Beaman, motored to Houston, Texas, Tuesday morning where she will matriculate this year at Rice institute. Miss Beaman will be privileged to make her home, while in Houston, with her brother-in-law and sister, Mr. and Mrs. Fay Hilliard.

Mr. and Mrs. L. E. Hayden, Sr., of Shreveport are enjoying a visit in the home of their son and daughter-in-law, Mr. and Mrs. L. E. Hayden, Jr., on McKinley avenue.

Mrs. A. L. Smith and party of friends will leave during the week for a visit to the World's fair in Chicago.

OPENING
Monroe Business School
Fall Term
Sept. 11 to 18

If you enter during the opening dates you will have a decided advantage over students entering later.

First—We will still give you depression prices.
Second—We will pay one-half cost of text books.
Third—We will give you our "machine bookkeeping course" free of charge.

We have had calls from seven business men in succession for office help, and none of them would employ a student who didn't have bookkeeping. To meet this demand we have combined bookkeeping—accounting with typing-shorthand. These two courses sell for $95.00.

This Gives You Three Complete Courses
At An Average Cost of $31.66 for Each Course

— TERMS —
$7.00 Down—Then $3.00 Week

Night Classes $1.25 Week
These terms positively expire Sept. 18th

Chicago in 'Last Ditch' Series With First-Place Giants

CUBS ARE RATED AS ONLY THREAT FOR N. Y. SQUAD

Bruins Must Win at Least Five Games For Chance at Flag

By Hugh S. Fullerton, Jr.
(Associated Press Sports Writer)

The Chicago Cubs marched into the National League pennant picture today to start a six-game series with the New York Giants that was labelled even before it started as a "last ditch" affair.

Starting from a second place tie, 7 1-2 games behind the Giants, the Cubs were rated as the only team that had any real chance of beating out the leaders.

New York's closing game at Cincinnati was wiped out by threatening weather yesterday and it is unlikely that it will be played unless it is necessary to decide the championship. With that and another game gone where they can't be added to the Giants losing column, the Cubs were faced with the necessity of winning all six games or at the worst five out of six, to get into a threatening position. And even in that event they wouldn't be sure as the Giants now need to win only half their remaining 18 games to clinch the flag regardless of what the other teams do.

As a tune-up for the critical series, the Cubs hung up a neat 2-to-0 trimming to the Phillies yesterday for their fiftieth victory in 66 home games this season. Lonnie Warneke kept the Phils in complete subjection, giving up only six hits and never allowing a runner to touch third. Young Adolph Camilli, fresh from the Pacific Coast League, walloped a triple with Frank Demarre on base and scored on Gabby Hartnett's fly to account for both Chicago runs.

It was the second time in his four-day major league career that Camilli had provided the winning blow for the Cubs. He did it with a homer in Sunday's second game.

Pittsburgh's Pirates, whose direct attack on the leaders failed last week, moved into a second place tie by taking two shutout decisions from the Brooklyn Dodgers. Heinie Meine and Waite Hoyt held the Dodgers to nine hits to win a pair of mound duels, 1 to 0 and 2 to 0. Hollis Thurston and Rookie Emil Leonard were the losers.

The Boston Red Sox and St. Louis Nationals had an open date.

The New York Yankees again clipped a game off Washington's American League lead without frightening the Senators badly. The Yanks downed the Detroit Tigers, 5-3, as the ex-Detroiter, George Uhle, stopped all the Tigers except Gerald Walker, who knocked in all three runs. Another Walker, Dixie of the Yanks, provided the winning tallies with his 12th homer.

Cleveland and young Monte Pearson got the better of Washington and "General" Al Crowder by a 3-to-1 count. Pearson gave only four hits while Crowder granted five, including a homer by Odell Hale.

The St. Louis Browns continued their efforts to get out of the cellar by trimming the seventh-place Boston Red Sox for the third straight game, 4 to 1, behind the six-hit flinging of Dick Coffman.

The Chicago White Sox and Philadelphia Athletics were rained out.

INDIAN WOULD DO WITHOUT REFEREE

Little Wolf Asks to Be Given Chance to Work on Red Berry

Chief Little Wolf not only has agreed to wrestle Wild Red Berry on a winner-take-all basis Thursday night but if Deputy Boxing Commissioner Milam will permit it, the Indian will ask that the services of a referee be dispensed with when the two maulers climb into the ring at Roosevelt Stadium.

Little Wolf, far from satisfied with the decision which went to Berry last week, made both proposals. He thinks he can whip Berry and is willing to gamble his end of the receipts on it. Furthermore, to show what he thinks of the Panther's foul tactics, he's willing to go in there without benefit of a referee.

Regardless of who wins or whether there's a referee or not, the bout should be one of the best ever staged here. Last Thursday the Indian and Berry set a pace that had the big crowd on its toes when the bout ended. There was plenty of rough stuff pulled by both principals, with Berry, of course, the aggressor.

Little Wolf appears to be one of the strongest men ever to show here and there are those who believe he can throw Berry if the Panther is made to behave in the ring. On the other hand, numerous fans are of the opinion that Red's experience and craftiness will win him the decision any time he meets the Indian.

In contrast to the main event, the semi-final will be a "clean" exhibition, bringing together Clyde Downing, of Jackson, who has been seen in action here several times, and Paul Nola, a local lad who is at the C. C. C. camp at Chatham. Both lads are said to be strictly scientific wrestlers and it is unlikely that they will go into the rougher end of the racket.

Both bouts will be best two out of three falls, with the main event limited to two hours and the semi-final to one hour.

Georgia Experiments With New Backfield Formation

Mehre Patterns Offensive Along Lines of Notre Dame Shift

By Dillon Graham
(Associated Press Sports Writer)

ATHENS, Ga., Sept. 13.—(AP)—Georgia hopes to "wingback" its way to football triumphs this fall.

Coach Harry Mehre has devised a puzzling new offensive—at least it proved so to the Georgia Scrubs, the only outfit to face it—and he believes it will carry his Bulldogs further along the victory trail than they traveled a year ago.

This novel form of attack is an exaggeration of the familiar Notre Dame shift. The backs are further apart in their primary stance and at the conclusion of the shift the No. 1 back is in a wingback position outflanking the opposing tackle.

"It increases deception and gives more power," Mehre says. "The plays are run off with the same rhythm of the Notre Dame maneuvers."

For one thing, Mehre explains, it will remove some of the emphasis placed on the left halfback in Rockne's style formations. It will enlarge the opportunities of the other halfback, especially in punting and passing, and to that extent prevent defensive concentration against the left halfback.

Mehre has plenty of backs to execute his new plays. The chief task is to locate the best combination and to teach them defense tactics, especially against passes. The Georgians were weak on the defense a year ago, particularly against aerial barrages.

Georgia also may experiment with a new quarterback. Leroy Young and Jack Griffith, the letter men, are routine directors and apparently lack the flair for attack necessary in a good signal caller. So Mehre has switched Sam Brown, a light reserve back of two seasons experience, to the field general post.

In Buck Chapman, Arston Grant and Joe Crouch, Mehre has three boys who can carry the ball in any company. Homer Key, the elusive little runner who starred as a sophomore, may go well behind a stronger line.

Bill David, John Bond and Al Minot are other likely regulars. In Graham Batchelor, the big end, Bond and Grant, Mehre has three crack punters.

The line is giving him more worry than the backfield. The guard and tackle positions are fairly well accounted for but center is bothering him some and the ends don't look any too good.

The schedule:

Sept. 30—North Carolina State at Athens.
Oct. 7—Tulane at Athens.
Oct. 14—North Carolina at Chapel Hill.
Oct. 20—Mercer at Macon.
Oct. 28—New York university at Athens.
Nov. 4—Florida at Jacksonville, Fla.
Nov. 11—Yale at New Haven.
Nov. 18—Auburn at Columbus, Ga.
Nov. 25—Georgia Tech in Atlanta.
Dec. 2—Southern California at Los Angeles.

WEST MONROE IS AGAIN VICTORIOUS

West Siders Put Together Two Big Innings for 6-3 Victory

Scoring three runs each in the first and third innings yesterday ,West Monroe defeated the National Guard, 6 to 3, to win its third victory in the current series for the Twilight league softball championship. The Guardsmen have won one game.

The teams will rest today and the series will be resumed at Forsythe park Thursday afternoon.

Yesterday's game was well-played throughout, with West Monroe making but two errors and the National Guard one. The West Siders mixed timely hits with bases on balls for their victory.

The National Guard scored two runs in the first inning on two hits, an error and a base on balls. Their lead melted away in the last half of the same inning when West Monroe scored three times on four hits and two passes.

Neither team scored in the second, although the West Siders threatened when Bendel, starting hurler for the Guardsmen, lost control and retired in favor of Percy. In the third, however, West Monroe hopped on Percy for five consecutive hits and three runs.

The Guardsmen scored their third run in the fourth but Hines held them well in hand thereafter.

Welch led the West Siders' attack with three hits one a double, in three trips to the plate. Watkins and Mitchell each got two safeties, while the fielding features were turned in by Terry, West Monroe left fielder, who took in several difficult chances.

Tensas Tigers to Meet Baton Rouge Thursday

WATERPROOF, Sept. 13.—(Special)—Business Manager Charlie Testa of the Tensas Tigers, diamond representatives of St. Joseph, Newellton and Waterproof, has closed with Manager Josh Billings of the Baton Rouge club, winners of the flag in the Dixie league, for a game in Waterproof for Thursday, September 14.

Manager Testa hopes to have a capacity crowd not only from Tensas, but from neighboring Louisiana parishes and Mississippi counties for the game with Baton Rouge. The team will be strengthened and the fans expect to see plenty of action.

BARBERS BEAT INDEPENDENTS

The Monroe Barbers defeated the Independents in a softball game at Forsythe park last night by a score of 1 to 0. The lone tally came in the seventh inning when Tom Meeks hit a home run.

TODAY'S SPORT PARADE

By Henry McLemore
(United Press Staff Correspondent)

NEW YORK, Sept. 13.—High overhead, red and green running lights twinkling, droned a blimp, symbol of man's progress.

Down below, in a gallows-like ring, two men, their faces smeared with blood, tangled in a savage fight that was a throwback to the days when civilization was just dawning.

But to get to the matter of that affair at the Polo grounds when Barney Ross licked Canzoneri.

It was the same old story of a young fellow going up meeting a veteran coming down. The fellow coming down, especially if he possesses the skill and heart of a Canzoneri, looks magnificent in spots but winds up behind the eight ball—stymied by the strength and endurance and fire of youth.

For example, Canzoneri was never better than in that ninth round when he discarded boxing for the less subtle business of lowering his head, charging like a bull, and raining his Sunday punches all over the premises. A half dozen of his whistling rights and lefts caught Ross on the bullseye, and the little Jewish fellow's knees buckled, and a look of great anguish came into his big brown eyes. But the charge took almost as much out of Canzoneri. The Canzoneri of three or four years ago wouldn't have missed the kill.

But the Canzoneri of last night did, simply because his arms grew weary, and Ross, who, by the way, can take a punch for anybody's money, slipped away and out of danger.

This was Tony's big chance. After that he never was a serious factor. Ross took the twelfth, thirteenth and fourteenth and sewed up the match.

In the early rounds it was Ross' youthful stamina and fire that brought him through round after round. The barrages that made Canzoneri break ground last night wouldn't have bothered him a few years ago. But a man, no matter how tough, how game, can't fight the tough 'uns Tony has, and not be softened up. A decade of steady campaigning against the best in the business is bound to show.

The reasoning of Judge George Kelly, who cast his ballot for Canzoneri, has us baffled. Our score sheet gave eight rounds as against three for the challenger. And our tally was very similar to Judge Harold Barnes and most of the other boxing writers. Perhaps Kelly doesn't give much credit to body punches.

Young Football Player Dies During Scrimmage

BIRMINGHAM, Ala., Sept. 13.—(AP)—Noot Wilson, 19-year-old Howard college freshman, collapsed on the field during football scrimmage against the varsity yesterday and died a few hours later in a hospital here.

Physicians said he had suffered concussion of the brain and hemorrhage of an artery. Freshman Coach Bancroft said Wilson, whose home is at Guin, Ala., fell as the freshman team started down the field for a kick-off.

Louisiana College in First Practice Session

ALEXANDRIA, La., Sept. 13.—(AP)—Twenty-seven varsity eligibles including 13 lettermen responded for the first gridiron drills Monday at Louisiana college.

The coaches said many of the men have been working hard this summer and are 5 to 15 pounds under their expected playing weights.

They will open the season with Mississippi college at Clinton Sept. 30.

CHAMPION STAGES BRILLIANT RALLY TO RETAIN CROWN

40,000 Fans See Light-Weights Wage Stirring 15-Round Duel

By Edward J. Nell
(Associated Press Sports Writer)

POLO GROUNDS, NEW YORK, Sept. 13.—(AP)—Barney Ross, fighting with the fire of a zealot, saved his lightweight title from returning to desperate little Tony Canzoneri Tuesday night in a 15-round battle that surpassed in savagery everything the lightweight division has seen here since the historic duel of Benny Leonard and Lew Tendler years and years ago.

For fifteen rounds, with scarcely a moment for a long breath, two of the fastest, most desperate hitters among all the little fellows, fought each other to a frazzle in a struggle so close, so shifting in its roaring tide, that in the end only the split decision of Referee Arthur Donovan and the two judges retained the crown for the burning-eyed, aesthetic faced Jewish boy from Chicago's ghetto.

Thus Ross saved his title as he won it from Canzoneri in ten rounds in Chicago in June, by the narrowest possible margin, as a crowd of 40,000 thronged about the ring and howled in protest.

Round after round they ripped at each other, first one then the other weakening, then coming back, then fading off again under a punching storm that never gave the huge crowd a quiet moment. But toward the end it was the stamina that oozed from every muscle of the 22-year-old champion, that lifted him onto the closing rally that saved him the day.

Judge Arthur Kelly voted when it was all over for Canzoneri by a margin of eight rounds to seven, while Judge Harold Barnes gave the defending champion a decisive edge with nine rounds won, two lost and four even. It was up to Referee Donovan to decide then, and he cast his vote for Ross, giving him eight rounds, Canzoneri four, with three even. Donovan decided that he took the sixth, eighth and ninth rounds from Canzoneri because of low blows, thereby accounting exactly for the margin by which Ross was declared the winner.

Rarely has New York ever seen a battle so close, so fierce, so interesting.

For six rounds the brilliant little Canzoneri, at 25 a former champion of both the featherweights and the lightweights, swarmed over the title-holder, dazzling him at times with his footwork, his feinting, his right hand punching that at times shook Ross' head so badly it seemed he had to go down.

Tony had all the edge along the early way, gaining whatever margin there was in the first, winning the second, fourth and sixth and holding a savage, desperate young champion even in the third and fourth. The fire that burned in the veteran of eight years of hard warfare started to flicker spasmodically from the seventh round on. Ross won that one by his thudding body punching, though Tony drew blood from the champion's nose with one barrage to the face.

Then from the eighth through the tenth, as they tore at each other like bull dogs, never backing, never lessening the hurricane of punches it seemed impossible to believe either could live through. It was an even, relentless battle. Ross seemed to have what little edge there was in the seventh and eighth, Canzoneri the margin in the ninth, and tenth with the eleventh even.

Had the fight ended at the tenth, as it did in Chicago in June when the title first changed to Ross' hands, there seemed little question that Canzoneri, toast of the little fellows for the past half dozen years, would have been the first title holder in lightweight history to regain his crown. But it seemed as though the desperate little Chicago warrior was just beginning.

Despite the terrific punishment he had taken, Ross called on his reserve. His body punching, so accurate and deadly the blows sounded all over the ball park, wore Canzoneri down steadily. Ross swept through the twelfth, thirteenth, fourteenth and fifteenth rounds, and the title was his to keep after tottering in as bitter an attack as any challenger ever unleashed.

From the start, Ross like Canzoneri a splendid boxer and sharp, stunning hitter, stuck to a body attack. Rarely did he take chances with rights to the head. Frequently he shot his left hook to Tony's jaw, but only to vary to the routine of his body slams and to add the necessary change of pace to his attack.

Canzoneri, on the other hand, gambling his every ounce of strength and stamina in his despairing effort to win back the title, did by far the most dazzling punching. In the third round he rocked the champion with the right crosses he gambled with constantly, and again in the ninth Ross staggered under right hand smashes to the head.

The title was very close to Tony in the final moment of the eleventh, but time, and the stamina of youth, came to Ross when he needed them most. Just before the bell sounded, Canzoneri backed Barney to the ropes and nailed him flush on the chin with a right cross. As Ross stumbled forward a left hook smashed full on his chin.

The battle scarred Canzoneri, grinning through flecks of blood from a scratched eye and cheek, stood back to let Barney fall as the champion's knees buckled. Ross took one step—straightened. The bell rang, and Canzoneri, one of the greatest of the ring's little men, went wearily to his corner, unable to match that stamina.

Canzoneri weighed 133 1-4 pounds. Ross squarely at the class limit of 135 pounds. The gross gate receipts were announced as $114,000 and net receipts for Promoter Tima Mara $103,728.

LION SQUAD HAS FIRST SCRIMMAGE

Thirty Ouachita Candidates Working Out at Camp Ki-Ro-Li

Despite the fact that his football squad had been in camp only one day, Coach Ben Rush sent the Ouachita Lions through a short scrimmage at Camp Ki-Ro-Li yesterday and apparently was well pleased with what he saw.

Following the scrimmage, Rush said his squad was in excellent shape. Green material predominates but the team will have plenty of weight. The Lions lost practically the entire first string eleven of last season and Rush is not expected to turn out a championship eleven this season, although the Parish mentor says he hopes to win a majority of his games.

Some 30 candidates moved in at Ki-Ro-Li Monday and spent the first day in light work. The condition of the squad was so good that Rush decided to turn them loose in a short scrimmage yesterday. The squad will continue its stay at the camp until Friday.

Rush, again assisted by George Riser, is attempting to build his team around the few returning lettermen. His line lacks a strong pair of tackles and his backfield was riddled by graduation but some promising material is being developed and prospects aren't so dark as they might be.

The Ouachita schedule is not complete but the Lions will play at least five strong teams. These are Haynesville, Bastrop, Ruston, Dolton and McGehee, Ark.

The practice sessions next week will be held at the parish school grounds.

Delhi Club Boxers Meet Rayville Squad Tonight

DELHI, Sept. 13.—(Special)—The Delhi Athletic club meets the Rayville A. C. squad here Wednesday night at 8 o'clock.

The main event of the program will bring together Gus Atkins, 162, and Leroy Francis, who weighs 160.

Other bouts are as follows:

Pat Ingram, 155, vs. Herman Stokes, 155.

Billy Buchanan, 150, vs. John May, 150.

Monroe McNaughton, 126, vs. Cecil Smith, 129.

Cotton Smith, 125, vs. Eubanks, 125.

Edward Rials vs. Horace Harrell.

The matches will be held in the American Legion hall at Delhi.

CINCINNATI BOY TOPS PAT SAWYER IN CLOSE FINISH

Somerville Is Third at End of 36-Hole Qualifying Battle

By Alan Gould
(Associated Press Sports Editor)

KENWOOD COUNTRY CLUB, CINCINNATI, Ohio, Sept. 13.—(AP)—Two youthful collegians waged a record smashing fight Tuesday for the qualifying medal of the United States amateur golf championship with Johnny Fischer of Cincinnati and the University of Michigan, triumphant by a single stroke over Pat Sawyer of Minneapolis and the University of Minnesota.

Fischer

Fischer captured the low scoring honors for the second consecutive year with the new record figures of 72-69—141, in one of the wildest and most exciting finishes in the 37-year history of the national tournament.

Home-town idol and one of the greatest of a fast-rising crop of young American golfing stars, Fischer gave a brilliant performance under heavy pressure. His closing 69, two under par, equalled the new competitive course record for Kenwood, nosed out Sawyer and lowered the tournament qualifying record by one stroke.

Sawyer, who finished second with 72-70—142, had no sooner equalled the old mark than Fischer came galloping home to wipe out the record that had stood for nine years. The mark of 142 was set in 1924 by D. Clarke Corkman of Baltimore, equalled twice by Bob Jones, in 1927 and 1930, and by Fischer himself, just a year ago.

Fischer and sawyer, with 72 each Monday, both started their final qualifying round two shots behind the pace-setters, Ross Somerville, of Canada, the defending title holder, and young Jack Munger, of Dallas, Texas. Fischer caught Somerville at the turn and Sawyer passed the champion on the last nine. Munger faded from the pace-setting picture in a jamboree that carried nearly a dozen brand new national tournament figures into the qualifying vanguard.

Fischer knew what he had to do down the stretch, and so did a steaming gallery of nearly 2,000 fans who watched the 21-year-old son of a Cincinnati mail man achieve the golfing heights. Once, things looked a bit dismal for Johnny's medal chances when he drove behind a clump of trees on the 14th hole and could not shoot for the green.

He escaped with only a 5 on this hole, then finished the last four holes one under par where every shot meant the difference between victory and defeat. The crowning shot was an explosion from a trap bordering the 17th green. Johnny's second had trickled off into the sand bunker, but he came out beautifully, within six feet of the pin, and the crowd howled as he got down the putt for a birdie 4. He had a chance for another birdie and a 68 when he put his second within five feet of the home hole, but the ball missed by inches.

Somerville, who will start match play defense of his title tomorrow in the first of two 18-hole rounds, shot the best qualifying score of his career, 70-73—143, but it was only good enough for third place, just a stroke behind Sawyer, 20-year-old Minnesotan who couldn't qualify last year.

For the most part it was strictly a field day for the country's golfing youth. Tied for fourth place at 144 each were the seasoned Gus Moreland of Dallas, Texas, and two newcomers, Jim Milward, 20-year-old Madison, Wis., entry, and William R. Long, a young Austin, Texas, bank clerk. Milward started the day's fireworks with a 69, the first time 70 has been broken on the remodelled Kenwood course.

Johnny Goodman, of Omaha, 23-year-old national open champion, had to be satisfied with a tie for seventh place with Frank J. English of Denver, another newcomer and Colorado state amateur runner-up for the past two years. Goodman missed at least seven chances for birdies, posting 72-73—145. English carded 74-71—145.

Two more tournament records were smashed when it finally developed that 36-hole scores of 150 marked the qualifying limit and that a playoff was needed among an even dozen who finished there. The scoring range of 141 to 150 for the qualifying list compared with the former low range of 142 to 152, last year. The biggest previous playoff field was the group of ten that fought for places at Chicago, two years ago.

Wednesday morning starting at 8 o'clock (E. S. T.) the twelve in the 150 bracket will battle it out on the elimination system for eight places remaining to round out the match play field of 32.

The three surviving ex-champions, Max Marston of Philadelphia, Chick Evans of Chicago and H. Chandler Egan of Del Monte, Calif., finished on the border line. Along with them were two Walker cup stars, Maurice McCarthy, Jr., of Cleveland, and George T. Dunlap, Jr., of New York, who nearly blew himself out of the tournament with a 79 today after his sensational first round 71.

The others are R. M. Grant of Hartford, Conn.; Chris Brinke of

Promising Sophomores Expected to Bolster Northwestern Eleven

By Paul Mickelson
(Associated Press Sports Writer)

EVANSTON, Ill., Sept. 13.—(AP)—Win, lose or draw, Coach Dick Hanley sits on top of the college football world.

He's the idol of Northwestern and if he doesn't deliver a football championship or if his teams have a miserable season, the Wildcats along Chicago's northshore are convinced no one could have done better. Since Dick has been at the coaching helm even the famous "drug store" coaches of yesterday have joined the cheering section.

Back for his seventh season as Northwestern's coach, the square shouldered leader of the Wildcats is in a great spot this fall. His team is green, composed mostly of sophomores; the students don't expect too much, and the possibilities are that the Northwestern team will be the big stumbling block of the Big Ten football championship race.

"We've got a green team," Dick grinned, "but it's going to get better as the season rolls along. No, I don't think we've got a chance for the title as there are too many holes to fill with sophomores, but they'll hear from us right along all season. Thirteen lettermen, including seven of the 1932 regulars, will be missing. Our principal problems will be in the backfield where we must replace 'Pug' Rentner at right half and George Potter at quarterback and at the tackle, guard and center positions along the line. But we've got a real bunch of hustlers, green but crazy to play football."

A survey of the line indicates the Wildcats will have a heavier and faster but far less experienced forward wall than 1932, a disappointing season to Hanley. Bill Riley and Joe Chambers, a pair of 215 pounders, will be at the tackle positions, two important posts in Hanley's scheme of offense. Other regulars along the front line will be Al Kawal, and Edgar Manske, end. All other posts must be filled by new men. Ollie Olson, one of the best kickers to boot the pigskin in Big Ten warfare, will return to the fullback post with Jakie Sullivan, a fine open field runner, at halfback. The rest of the backfield must be recruited from a large group of sophomores. One of the promising sophomores is Ed "Sonny" Maroney, of Monroe.

In addition to battles against Notre Dame and Stanford, Northwestern will meet six Big Ten foes, all of them at Evanston except Ohio State. The campaign is probably the hardest ever undertaken under the Hanley regime. The schedule:

Sept. 30—Iowa at Soldier Field (Chicago).
Oct. 14—Stanford at Soldier Field.
Oct. 21—Indiana at Evanston.
Oct. 28—Ohio State at Columbus.
Nov. 4—Minnesota at Evanston.
Nov. 11—Illinois at Evanston.
Nov. 18—Notre Dame at Evanston.
Nov. 25—Michigan at Evanston.

JUNIOR COLLEGE STARTS PRACTICE

Squad Is Expected to Be Increased Before End of the Week

The Ouachita Junior college football squad held its first workout yesterday under the direction of Coach Paul Kemerer, who returned from vacation last Sunday.

The first day's work included only light limbering-up exercises and it is probable that the same program will be in effect today. Part of the football equipment ordered recently will not arrive until Thursday and the squad will be unable to get down to real labor until tomorrow.

Only a small squad has reported so far but it will be increased materially before the end of the week. Only about six or seven lettermen will return but a wealth of new material will be available and prospects are bright for a winning team.

Several stars of high school football in this section have signified their intention of enrolling at the college and these will be available by the first of next week, Kemerer said.

The Indians have a nucleus of a strong line, Kemerer said. The backfield is an unknown quantity now but the Indians' mentor hopes to put together a strong combination with the new material that is expected.

It will be next week before the squad will attempt any scrimmages, Kemerer said.

San Antonio Wins First Game of Pennant Playoff

SAN ANTONIO, Texas, Sept. 12.—(AP)—The San Antonio Missions came from behind, scoring seven runs in the seventh inning, beat three Pirate pitchers and took the opener in the Texas league pennant playoff here Tuesday night, 7 to 3, from Galveston. Fabian Kowalik won his second playoff game back of great support and heavy clouting by his mates.

Thormahlen, who started for the Bucs, was relieved by Darrow after the Missions started their barrage in the seventh. He too was batted hard and then relieved by Tubbs, who retired the side after allowing two hits and three runs.

Galveston .....010 000 101—3 8 0
San Antonio .....000 000 70x—7 10 1

Thormahlen, Darrow, Tubbs and Mealey; Kowalik and Heath.

SHREVEPORT WINS FROM LOCAL A. C.

Caddo Team Gains Close Victory in Stellar Boxing Program

Winning three technical knockouts, boxers representing the Lowe-McFarlane American Legion post of Shreveport last night, defeated the Monroe Athletic club team, three bouts to two, in one of the best cards ever staged here.

Featuring champions and runners-up in the recent Tri-State Golden Gloves tournament at Shreveport, the card furnished plenty of action in every bout. Monroe's two champions, Sam Jones and Monroe McNaughton, came through with flying colors, winning their bouts handily.

In what was billed as the main event, Jones trimmed Buster Stewart in the lightweight division. The bout started slowly but both boxers quickly warmed up to their tasks and by the middle of the second stanza, there was plenty of action. Using lefts to the head and body, Jones administered a severe beating to the Shreveport boy but Stewart bore up well under the pummelling. Jones had a wide margin in the second and third rounds to win easily.

McNaughton polished off Snyder Parham, his foe in the Tri-State tourney. The first round started fast, with both using long lefts to advantage. Parham was the aggressor in the opening round and continued to push forward at the start of the second but McNaughton slowed him up and then breezed through the third to take the decision.

In the first bout of the official program, Woodrow Redwine, Shreveport, gained a technical knockout over Kid Hendrix in the featherweight division. Hendrix was on the floor when the bell ended the first round and he was knocked down for the nine count early in the second before the bout was stopped.

The second fight also resulted in a technical knockout victory for a Shreveport entry, Arthur Marlowe, Tri-Sstate middleweight champion, stowing away Leroy Frances in the second round. Frances went down for a four count soon after the starting bell, was knocked down for nine shortly thereafter and his seconds tossed in the towel.

A. Green of Shreveport gained a technical knockout over Keith Stainbrook when the Monroe entry broke his thumb and was unable to answer the bell for the third round. Stainbrook was leading when the accident stopped him.

The scheduled bout between Bill Seavey and Tiny Klein was cancelled when Seavey was unable to go on because of injuries suffered in the tourney last week.

A battle royal and a preliminary bout between negro battlers preceded the official card.

V. C. Brunsato refereed all bouts and the judges were Dr. W. L. Bendel, Mr. Neil Bale and Dr. Joe Brown. J. B. Swanson was timekeeper.

PENNANT RACES STILL UNSETTLED

However, Senators Need But Eight More Victories for Cinch

NEW YORK, Sept. 13.—(AP)—The weather and the Cleveland Indians stepped in Tuesday to retard the pennant pursuits of the Washington Senators and New York Giants, leaders of the two major leagues.

The Senators dropped a 3-1 decision to Cleveland while the New York Yankees were beating Detroit 5-2 and saw their lead reduced a full game. The Giants were kept idle by threatening weather at Cincinnati while Chicago and Pittsburgh moved into a second place tie in the National league, 7 1-2 games behind the leaders. The Cubs won one game and the Pirates two. Despite the defeat, Washington leads by 8 1-2 games.

The loss Tuesday left the Senators needing eight victories in their remaining games to clinch the American league flag even if the Yankees win all the 17 games they have left. The washout was almost as good as a victory for the Giants, for the game probably will not be played unless it is necessary to decide the pennant race. With one game where they can't lose it, the Giants only have to break even in 18 games to win the pennant regardless of what their four rivals do in the victory line.

Here is how the contending clubs stand:

	Won	Lost	Pct.	To Play	Games Behind
American League					
Washington	91	47	.659	15	...
New York	81	54	.600	17	8½
National League					
New York	83	51	.619	18	...
Chicago	78	61	.561	15	7½
Pittsburgh	78	61	.561	14	7½
St. Louis	76	65	.539	13	10½
Boston	72	64	.529	18	12

Bowen Hurls Spencer to Victory Over C.C.C. Nine

SPENCER, Sept. 13.—(Special)—Behind the two-hit pitching of Allan Bowen, the Spencer Cubs defeated the Bastrop reforestation camp, 8 to 0. Spencer and Pace led the hitting, each getting two hits in three times at bat. Jefcoat and Crow got the visitors' two hits, the latter's being of the scratch variety.

SOUTHERN FLAG SERIES STARTS

Messenger and Griffin Slated for Mound Duty in Opener Today

MEMPHIS, Tenn., Sept. 13.—(AP)—Confidence reigned in the rival camps of the Chicks and the Pelicans Tuesday as they went through light practice sessions preparatory to opening a playoff series here Wednesday for the Southern association pennant.

Although Manager Doc Protho of the Chicks announced that he would be without the services of his first string catcher, Johnny Berger, who was spiked in Sunday's doubleheader, the Chicks said they were prepared to rely on the receiving of Ray Cuoto, the Cuban.

Manager Larry Gilbert said his New Orleans contingent was in great physical condition and that he would send Andy Messenger, a right hander, to the mound to match the deliveries of Clarence Griffin, Protho's southpaw selection. The game will start at 3 p. m.

Members of both teams were saddened by news of the serious illness in Knoxville of Bill Brennan, who was slated to umpire the series. Buck Campbell was named Tuesday to work with Harry Johnson and Johnny Quinn.

The Memphis team rated a bit stronger than the Pelicans on paper, on the eve of the initial contest of the playoff. Memphis has five .300 hitters, New Orleans has four. The Chicks have a team batting average of .287, the Pelicans .277. The Pelicans have the edge in fielding. Fred Johnson, leading New Orleans pitcher, won 21 games and lost nine during the regular season. Harry Kelly, Chick ace, also won 21, but lost 13.

Figured on the basis of showings both in the first and second half races, the Chicks lead the Pelicans by several games. The Chicks won the first half and New Orleans took the second.

CINCINNATI BOY TOPS PAT SAWYER IN CLOSE FINISH

(Continued From Seventh Page)

Philadelphia, Nicol Thompson, Jr., of Canada, Eddie Held of Jamesburg, N. J., who has seen previous playoffs; Spencer Overton, of Baltimore, who came back with a sub-par 70 after his opening 80; Will Gun, Jr., of Wallingford, Pa., and Ira Couch of Chicago.

Some of the most prominent names in American amateur golf were outside the qualifying fold in a day of extraordinary shot making. Jess Sweetser of New York, despite a gallant 72, failed by a stroke to enter the playoff. At his total of 151 were Fred Wright, Jr., of Boston, Charley Kocsis, young Michigan star; Walter Emery of Oklahoma City, and Rodney Bliss, Jr., of Omaha, the winner year's national intercollegiate.
and runner-up, respectively, in this

Jesse Guilford of Boston, another ex-champion, George Dawson of Chicago and Frank Dolp of Portland, Ore., were out of the running with 152 each. Dawson's chances vanished when he got tangled up in the woods on the ninth hole and took a 7.

Young Sidney Noyes, Jr., of New York, furnished the day's most electrifying spurt with a 31, four under par, for a new record over the incoming nine. This pulled him down to par 71 for the day and a qualifying total of 149.

The Story of Joe Cronin

Editor's Note: How the Senators have caught the will to win from Joe Cronin is told in this, the fifth of a series of six articles on the Washington boy manager.

By Richard Hollander
(Copyright 1933, NEA Service, Inc.)

WASHINGTON, Sept. 13.—The Washington Senators had just finished winning their 12th straight game on the last invasion of the west. They were talking it over in the railway station at St. Louis.

They were as jubilant as kids at a picnic. Heinie Manush, slugging outfielder, stood at one end of the station concourse, swinging a cane like a baseball bat. Joe Cronin, who had been in serious conversation with Owner Clark Griffith, suddenly leaped from his seat.

"Hey, Heinie," he yelled, "See if you can hit this."

He yanked off Infielder Johnnie Kerr's straw hat and spun it toward Manush. "Crash," went the cane against the hat. "Crunch," groaned the hat, crown flying in one direction, lining in another.

That started it. They mangled every straw hat in the crowd, including Joe's own.

Managerial dignity? Rubbish!

To Joe Cronin he's one of the boys, just a fellow playing shortstop who has to make a few more decisions than the rest and who has to take a little more riding from the fans.

Which is why, after a little friction at the start of the season, the players worship him.

Manush, who once was a member of that great triumvirate in the Detroit outfield that included Ty Cobb and Harry Heilmann, swears that Cronin will be regarded as a greater baseball figure than the old Georgia Peach himself.

Jack Russell, slender pitching veteran, whose relief work has been a great factor in the Nats' success, insists that any team in the league could be a strong threat—if it had Joe to play shortstop and be the fighting manager he is in Washington.

They Shout Now

Cronin's theory is one of live and let live. He makes his quota of errors. He fails sometimes in the pinches at bat. Everybody does. These things he leaves to the individual to take care of.

He doesn't fret about petty things. He doesn't use the iron fist of his office except as a last resort.

Time was when the Washington team on the field was as quiet as a dead mouse. Only Joe himself, during those years when he was being chosen as the league's most valuable player, kept up the steady chatter that marks a peppy ball club.

Now, the Senators afield are a bedlam let loose. Everyone, even the sober, hard-working, tight-mouthed Ossie Bluege at third adds his share to the yipping.

Cronin is booed in every city on the circuit for his repeated arguments with umpires. On adverse decisions he leaps after the officials with that jittery little jog-step and starts his mighty chin waggling.

But he does it because it's his way to fight for every inch. The rest of the team feels the same way about it. Not long ago there was much talk of the belligerency of the Nats, of their ready-to-fight-anytime attitude. That was the Cronin influence. But it wasn't really as bad as that.

It's just that the team wants to win. Every man is what is known as a "winning ball player." They aren't good losers because they don't want to lose. They're that way because it's Cronin's way.

And it's why the Nats have been able to come back time and again after suffering crushing defeats.

It's the Cronin chin coming out in every man.

Next: Joe Cronin off the field.

Scout Executive Will Attend Ferriday Meet

Scout Executive G. W. Simpson will attend the meeting of the Concordia parish district committee of the Boy Scouts of America which will be held Friday night at Ferriday at 8 o'clock.

District Chairman A. B. Hogle will be in charge of the meeting, which will deal principally with the fall activities in scouting.

One bushel of wheat will produce 42.6 pounds of flour, sufficient for 62 one-pound loaves of bread.

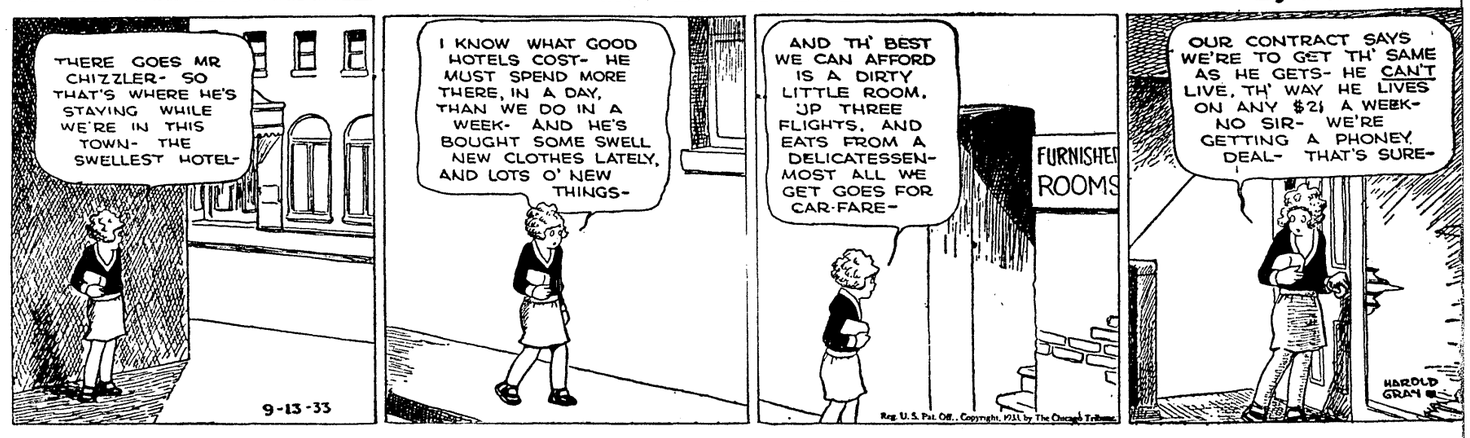
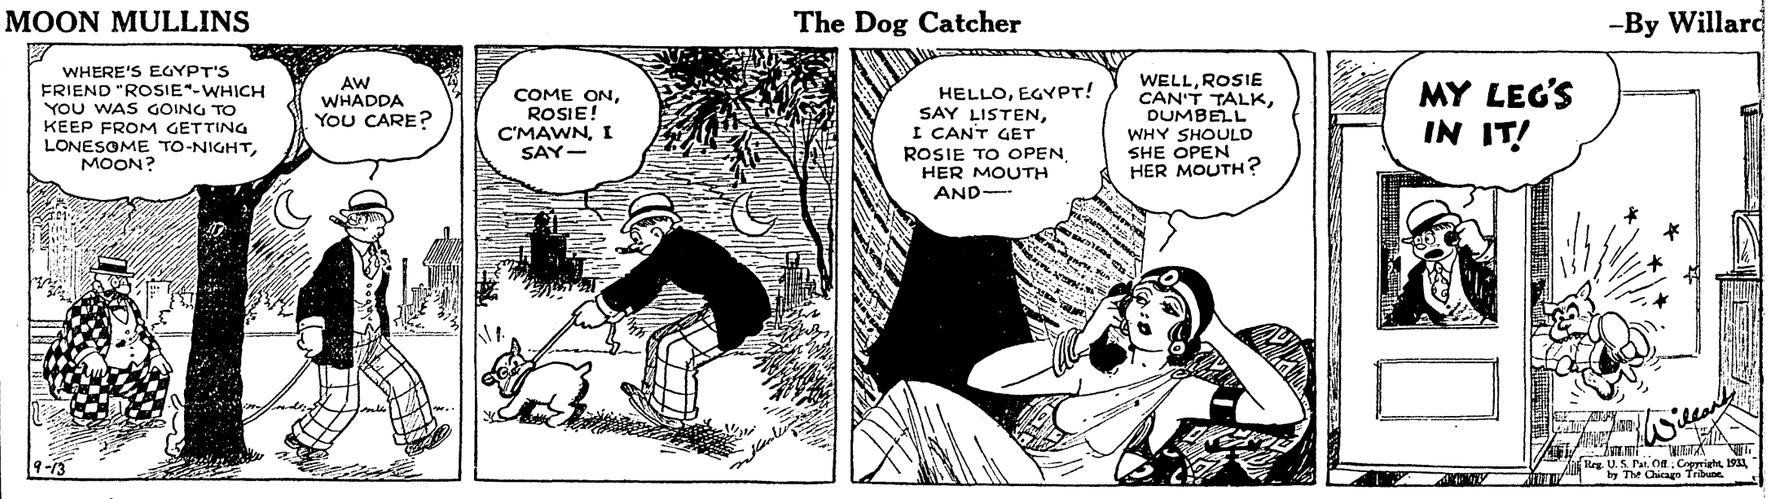
LITTLE ORPHAN ANNIE — How Does He Do It? — —By Harold Gray



THERE GOES MR CHIZZLER- SO THAT'S WHERE HE'S STAYING WHILE WE'RE IN THIS TOWN- THE SWELLEST HOTEL-
9-13-33
I KNOW WHAT GOOD HOTELS COST- HE MUST SPEND MORE THERE, IN A DAY, THAN WE DO IN A WEEK- AND HE'S BOUGHT SOME SWELL NEW CLOTHES LATELY, AND LOTS O' NEW THINGS-
AND TH' BEST WE CAN AFFORD IS A DIRTY LITTLE ROOM, UP THREE FLIGHTS, AND EATS FROM A DELICATESSEN- MOST ALL WE GET GOES FOR CAR-FARE-
FURNISHED ROOMS
Reg. U. S. Pat. Off.-Copyright, 1933, by The Chicago Tribune.
OUR CONTRACT SAYS WE'RE TO GET TH' SAME AS HE GETS- HE CAN'T LIVE, TH' WAY HE LIVES ON ANY $21 A WEEK- NO SIR- WE'RE GETTING A PHONEY DEAL- THAT'S SURE-
HAROLD GRAY

MOON MULLINS — The Dog Catcher — —By Willard



WHERE'S EGYPT'S FRIEND "ROSIE"-WHICH YOU WAS GOING TO KEEP FROM GETTING LONESOME TO-NIGHT, MOON?
AW WHADDA YOU CARE?
9-13
COME ON, ROSIE! C'MAWN, I SAY—
HELLO, EGYPT! SAY LISTEN, I CAN'T GET ROSIE TO OPEN HER MOUTH AND—
WELL, ROSIE CAN'T TALK, DUMBELL WHY SHOULD SHE OPEN HER MOUTH?
MY LEG'S IN IT!
Willard

Usanga was for taking his first lesson in aviation immediately. The Englishman attempted to dissuade him. Whereupon the sergeant became threatening. "All right, old top," muttered Roger. "I'll give you the lesson of your life!" Then, to Olga: "Ask him to let you come."

Usanga glowered savagely and refused. "She stays here," he said, "My people will not harm her unless you fail to bring me back safely." "Tell him," said Roger, "that if you are not standing in plain sight when I return, I will carry Usanga back to the British camp."

Usanga agreed and explained this to his warriors. Once seated within the plane, however, his courage began to wane. When the motor was started and the great propellor commenced to whir, Usanga screamed to Roger to stop the thing and let him out.

By this time the plane was moving along the ground. As it arose and soared gracefully over the trees, the sergeant was terrified. He saw the earth dropping rapidly away from him. Higher and higher Roger drove the plane, swinging in a wide circle above the forest.

Cotton

New Orleans

NEW ORLEANS, Sept. 13.—(AP)—The cotton market was quite active today and prices developed an upward tendency, responding to good cables, short covering due to the New York noon closing, firmness in stocks and grains and continued inflation talk.

After opening at 8.85 for October and 9.08 for December, or one to three points up net, the market steadily advanced during the morning until October traded up to 9.13 and December at 9.35, or 29 to 30 points above yesterday's close.

Towards mid-session, prices eased 7 points from the highs on hedge-selling but in the early afternoon prices firmed again, advancing sharply on much higher wheat. October rallied to 9.24 and December to 9.46, showing net gains of 40 to 41 points.

The market continued to rule very firm all afternoon owing to reports from Washington that an expansion of credits, full control of the next two cotton crops and more general inflation were in prospect. There was also a sharp advance in wheat. Prices made new highs for the day near the close with October at 9.27, December at 9.50 and May at 9.95, or 43 to 48 points above yesterday's close. There was a slight reaction at the end on realizing but the close was firm, showing net gains for the day of 40 to 49 points.

Exports for the day were 50,823 bales.

Cotton futures closed firm at net advances of 40 to 49 points.

	Open	High	Low	Close
Oct.	8.85	9.27	8.85	9.24-26
Dec.	9.08	9.50	9.08	9.48-50
Jan.	9.25	9.54	9.25	9.56
March	9.31	9.79	9.31	9.79
May	9.51	9.95	9.51	9.90-95
July	9.71	9.98	9.71	10.05

ORLEANS SPOT COTTON

NEW ORLEANS, Sept. 13.—(AP)—Spot cotton closed steady 40 points up. Sales 4,688; low middling 8.56; middling 9.16; good middling 9.56; receipts 1,786; stock 657,099.

New York

NEW YORK, Sept. 13.—(AP)—Reports of a better demand for cotton goods at higher prices led to renewed buying in the cotton market today and closing prices were at net advances of 25 to 31 points.

A quiet opening was followed by increased activity and sharp advances. December contracts which had sold at 9.13 at the opening ran up to 9.38 in the late trading making a net advance of 27 points and closed at 9.36.

The weekly report of the weather bureau was considered favorable on the average, but presumably had little effect on the market in view of the reported improvement in cloths and the late buying here was encouraged by reports of strength in the grain market.

Cotton futures closed firm, 25-31 higher.

	Open	High	Low	Close
Oct.	8.93	9.18	8.93	9.17-18
Dec.	9.14	9.33	9.13	9.36-38

MARKETS AT A GLANCE

NEW YORK, Sept. 13.—(AP)—Stocks firm; specialties improve. Bonds steady; rails firm. Curb irregular; utilities ease. Foreign exchanges firm; sterling higher. Cotton steady; higher cables; trade and commission house buying. Sugar lower; increased spot offerings. Coffee steady; commission house buying.

CHICAGO.—Wheat strong; concentrated eastern buying. Corn higher; unfavorable crop reports. Cattle steady, top steers $7.00. Hogs 5-10 higher, top $4.75.

Chicago Grain

CHICAGO, Sept. 13.—(AP)—Quick early upturns took place in grain values today. An outstanding feature was news that export of 30,000,000 to 35,000,000 bushels of Pacific coast wheat would be financed by the United States government. Opening 5-8 to 1 3-8 up, wheat afterward rose farther. Corn started at 1-8 decline to 5-8 advance, and subsequently gained all around.

Wheat closed strong, at the day's topmost level, 4 1-4 to 4 5-8 above yesterday's finish; corn 2 1-8 to 2 3-8 up, oats 1 1-8 to 1 1-2 advanced, and provisions showing a rise of 5 to 15 cents.

Livestock

CHICAGO, Sept. 13.—(AP)—(USDA)—Hogs, 55,000 including 5,000 direct and 25,000 for government; active, 5-10 higher than yesterday; 180-230 lbs. 4.55-70; top 4.75; packing sows 2.85-3.40; medium weight, 200-250 lbs. 4.40-75; heavy weight 250-350 pounds 3.60-4.55; pigs. good and choice, 100-130 pounds 2.85-4.00.

Cattle, 11,000; calves 1,500; better grade fed steers and yearlings fully steady on shipper account; instances strong but killing quality improved; heifer and mixed yearlings strong to 25 higher. Vealers uneven, steady to weak; slaughter cattle and vealers: steers, good and choice, 550-900 lbs. 5.25-6.65; 900-1100 pounds 5.25-690; 1100-1300 pounds 5.50-7.00; 1300-1500 pounds 5.75-7.00; common and medium, 550-1300 pounds 3.00-5.75. Vealers, good and choice, 7.00-8.50; medium 5.00-7.00.

Sheep 17,000; fat lambs slow; account higher asking prices; early sales natives up to 7.50. Lambs, 90 pounds down, good and choice, 6.75-7.75; ewes 90-150 pounds, good and choice, 150-3.00.

Sugar

NEW YORK, Sept. 13.—(AP)—The short session of the sugar exchange today found sugar refiners inclined to await further developments with the result that sales of raw sugar were nil. The market was quiet with buyers bidding 3.57 for sugars in position to suit but offerings generally held from 3 to 8 points above that figure.

Yesterday's selling movement continued in the futures market at the opening but recovered partially before the close when prices were 1 to 2 points net lower. Sales totaled 8,700 tons. Opening prices were 2 to 4 points lower under liquidation and selling by houses with Cuban connections.

Refined sugar was unchanged at 4.70 for fine granulated with second hands available at from 4.60 to 4.65. Withdrawals were in small volume but new business was light. It was supplied through second hands.

Foreign Exchange

NEW YORK, Sept. 13.—(AP)—Foreign exchange firm. Great Britain in dollars, others in cents. Great Britain demand 4.58; cables 4.58; 60-day bills 4.56 3-4; France demand 5.61; cables 5.61; Italy demand 7.56; cables 7.56.

Demands: Belgium 20.00; Germany 34.25; Holland 57.75; Norway 23.03; Sweden 23.64; Denmark 20.48; Switzerland 27.75; Spain 11.99; Portugal 4.29N; Greece .81N; Poland 16.30N; Czechoslovakia 4.25N; Jugoslavia 1.97N; Austria 16.20N; Rumania .88N; Argentina 36.45N; Brazil 8.36N; Tokyo 26.75; Shanghai 29.25; Hongkong 32.50; Mexico City (silver peso) 28.28; Montreal in New York 95.31 1-4; New York in Montreal 104.93 3-4.

N—Nominal.

Potatoes

CHICAGO, Sept. 13.—(AP)—(USDA)—Potatoes, 80, on track. 215, total U. S. shipments 480; supplies liberal, demand and trading moderate, market steady; Wisconsin round whites U. S. No. 1, 1.75-90, few fine quality 1.95-2.00 unclassified 1.50-55; Minnesota Hollandale section round whites U. S. No. 1, 1.55-85; Red River Ohios U. S. No. 1, few sales 1.65-75; Idaho Russets U. S. No. 1, 2.15-25, few higher; Washington Russets combination packed 2.00-10; Colorado Triumphs U. S. No. 1, 2.20-30; few higher; Montana Triumphs No. 1, 2.10-15.

Poultry

CHICAGO, Sept. 13.—(AP)—Poultry, live, 1 car, 30 trucks, hens firm, others steady; hen turkeys 13, old toms 12; hens 4 1-2 pounds up 13; colored broilers 10 1-2; colored fryers 10 1-2; colored springs 10 1-2; white spring ducks 4 1-2 pounds up 11.

Dr. B. F. Geer, new president of Furman university, is the first alumnus to head the institution.

New York Stocks

By Victor Eubank

NEW YORK, Sept. 13.—(AP)—Security markets, closing at noon today for the huge New York NRA demonstration, generally followed a narrow and featureless range. Except for a few specialties, which were run up for gains of as much as 2 points, most stocks were content to hold just a little better than their levels of yesterday. The finish was firm. Transfers approximately 900,000 shares.

While business was rather quiet on the stock exchange, a rally in grains at Chicago served to bolster sentiment and some of the farm issues were given late attention. Wheat got up more than 4 cents a bushel. Cotton developed strength. Bonds were slightly mixed. The dollar showed further declining tendencies in foreign exchange dealings.

The agricultural shares recorded their principal gains just before the close, with Case and Sears Roebuck advancing some 2 points each, while International Harvester, Deere and Montgomery Ward came back for about a point. The more active specialties, up around a point, included Great Western Sugar, American Sugar Refining, Motor Meter, Kelvinator and Mathieson Alkali. The alcohols were up fractionally to a point, although they were not overly enthusiastic. Most of the rails did better, with Hudson & Manhattan gaining more than 2 points. Fox Film was in demand for an advance of 1 1-2 and Loew's was up nearly a point.

U. S. Steel, American Telephone, Allied Chemical, Du Pont, General Motors and other leaders were slightly higher.

Wall Street, despite the brighter economic picture, had a number of worries which probably were partly responsible for the hesitation of some of the larger operators in expanding their trading commitments. Plans of the New York city administration to levy additional taxes on brokers and stock transfers were not received with enthusiasm. The financial district was also uncertain regarding the government's fiscal program, France's maintenance of the gold standard, pound-dollar stabilization rumors and inflation.

In the matter of inflation, and its relation to the national recovery movement, some market observers hold that drastic currency expansion may not be compatible with the NRA movement. The former, it is argued, might prove highly unmanageable while the latter bespeaks management of the strict sort. The broadening of banking credit, however, while a form of inflation, is not viewed in the same light as would be the speeding up of the money printing presses.

NOTICE TO CONTRACTORS

Sealed proposals for the construction of the following project will be received by the Louisiana Highway Commission, Room No. 368 Louisiana Highway Commission Building, Baton Rouge, Louisiana, until 9:45 a.m. on Tuesday, September 19, 1933. Proposals will not be received after this hour. At 10:00 o'clock a.m. of the same day and date they will be publicly opened and read in the Chamber of the House of Representatives in the state capitol.

No 4604, State Proj. No 4604, Contract No. 2 Project No. NRM 114-A backfilling channel and constructing mattress for New Ouachita river bridge at Louisville avenue, Monroe, La., on the Monroe-Shreveport highway, located in Ouachita parish, Route No. 4. The work shall consist of approximately 12,000 cubic yards backfilling channel and the construction and sinking of 935 squares of mattress.

This project is to be constructed in accordance with provisions of section 204, Title II of the "National Industrial Recovery Act," of June 16, 1933.

The attention of bidders is directed to the special provisions covering subletting or assigning the contract and to the use of domestic materials.

The minimum wage paid to all skilled labor employed on this contract shall be fifty (50) cents per hour.

The minimum wage paid to all unskilled labor employed on this contract shall be thirty (30) cents per hour.

Full information and proposal forms are available at the offices of the highway commission at Baton Rouge. Plans and specifications may be inspected there or will be furnished upon payment of $1.50 (Not to be refunded.)

W. H. NORCKAUER, State Highway Engineer.
A. P. TUGWELL, Chairman La. Highway Comm.

Monroe, La.

OUACHITA FAIR IS ENDORSED BY CITY OFFICIALS

Mayor Bernstein and Mayor Bell Urge Support of Venture

Endorsement of plans for the proposed Ouachita parish fair, to be held in West Monroe October 18 to 21, was given Wednesday morning by Mayor Arnold Bernstein of Monroe and Mayor C. C. Bell of West Monroe. Formal statements issued by the two mayors were as follows:

"Ouachita parish is planning its first agricultural fair since 1928. As an agricultural center, Monroe is interested in anything that will stress the importance of the farm activities of this section.

"We believe that the fair is sufficiently worthwhile to deserve the enthusiastic support of every person and business in this trade territory.

"It is our hope that everyone will do his part to make this first fair a complete success.

"ARNOLD BERNSTEIN,
"Mayor, City Monroe."

"The Ouachita Valley Fair association is completing plans for its first agricultural fair, to be held in West Monroe October 18 to 21. As West Monroe's trade territory is largely agrarian, this is an important project and deserves the cordial and enthusiastic support of the business public and the private citizens of this city.

"The benefits derived from a fair are great. The fair tends to further the education of the farmer along agricultural lines. It teaches the urban population what the farmer can do and is doing. It tends to bring the rural and urban population to a closer and more sympathetic understanding of each other's problems. Last, but possibly most important, it brings together from all sections of the trade territory, people in a big, pleasant social gathering.

"We take this opportunity to pledge our personal support to the fair movement and to ask everyone to assist in making it a complete success.

"C. C. BELL,
"Mayor, City West Monroe."

WORD TO BUSY PEOPLE

Persons who rent rooms are busy! They cannot afford to spend a lot of time and effort in finding attractive rental vacancies. NEGROES ACCUSED OF ROBBING MAN

Pair Also Charged With Attempting to Attack White Girl

MONTGOMERY, Ala., Sept. 13.—(AP)—Two negroes accused of robbing a young white man and attempting to attack his girl companion were held in Kilby prison for safe keeping today as the grand jury was called into special session for Friday to consider their cases.

Police Commissioner William P. Screws said one of the negroes, George Meadows, 27, had confessed and implicated the other, Frank Jackson, as his accomplice. Judge Leon McCord at once ordered the grand jury to prepare for the special session and announced a special term of court would be opened Monday in event of indictments.

Officers said the white man, Robert Webb and his companion, whose name was not revealed, were parked in an automobile in a fashionable residential section when two negroes approached them with pistols.

OLLA BANK OPERATING

OLLA, La., Sept. 13.—(Special)—The newly organized bank at Olla has begun operating. B. E. Zeagler, cashier of the old bank, has been retained in the same capacity by the new institution. The assistant cashiers are F. W. Steel and Jack Henry. Judge W. H. Mills is president of the bank.

COTTONSEED REPORT FOR AUGUST ISSUED

WASHINGTON, Sept. 13.—(AP)—Cottonseed crushed during August was reported today by the census bureau to have totaled 233,223 tons, compared with 152,826 tons in August last year, and cotton seed on hand at mills August 31 was 220,306 tons, compared with 265,607 tons a year ago.

Cottonseed products manufactured during August and on hand August 31 were reported as follows:

Crude oil produced, 70,878,254 pounds compared with 46,011,638 in August last year, and on hand 58,826,492 pounds, compared with 29,177,050 pounds a year ago.

Refined oil produced, 58,090,075 pounds, compared with 39,799,627, and on hand, 640,607,152 pounds, compared with 525,696,832.

Cake and meal produced, 106,632 tons, compared with 70,907, and on hand 178,853 tons, compared with 98,714.

Hulls produced, 65,254 tons, compared with 43,587 and on hand, 98,142 tons, compared with 136,000.

Linters produced, 38,093 running bales, compared with 21,549 and on hand, 70,376 running bales, compared with 207,846.

CUBAN OFFICERS MANNING HOTEL; EMPLOYES QUIT

Men Defy New Government; Hostelry Surrounded By Soldiers

HAVANA, Sept. 13.—(AP)—If the Cuban army were to revise its registry of officers today it would include entries like these:

Capt. P. R. Heribarne, former cavalryman, now in charge of janitors, National hotel, Havana.

Lieut. A. Montero, aviator, at present an elevator operator, National hotel.

And so it goes down—and up—the line.

Men trained in the cadet school, many of them with post graduate work at American army posts to their credit have so far met successfully an emergency by rolling up their sleeves and doing the job.

Several hundred officers, estranged from their commands by political disagreements are waging a campaign for the restoration of Carlos Manuel De Cespedes as president.

They established headquarters at the hotel a few days ago and openly defied the Ramon Grau San Martin regime.

The government retaliated by surrounding the hostelry with soldiers, making the officers virtual prisoners.

In the beginning, things went fairly well. But the officers faced a real problem when all hotel employes walked out, leaving the service paralyzed.

The best minds of the group got together and planned the campaign—that they man the hotel themselves.

Aviators became elevator operators—the leaderes have an eye for the appropriate; infantry officers carried on their marches by becoming waiters; and artillery men took over the telephone switchboard.

A regular routine is followed. An army lieutenant, Jaime Romer, is chief cook, with a half dozen shave tails from various branches of the service helping him.

"We assigned aviators to the elevators because the work is akin to flying," said Capt. Heribarne. "They do the job well."

He said there is enough food in the hotel to keep the officers for several days. Heribarne served several years at Fort Riley, Kas.

Will Taylor, hotel manager, said $12,000 worth of food was turned over to the officers despite threats that "something would happen" to him if he continued to house the officers.

The officers are well armed, and have said they will fight if attacked.

Several problems, however, have not been entirely solved—who will shine their buttons and their boots? What to do about reveille and policing company corridors?

DOUGHTIE TELLS OF DESTRUCTION IN RIO GRANDE

Local Man's $12,000 Citrus Crops Will Be 95 Per Cent Loss

That the press dispatches that have been sent out of the Rio Grande valley telling of the hurricane that visited there last week, Monday and Tuesday, were by no means such as to give an adequate idea of the destruction wrought, was the word of J. E. Doughtie, local hotel manager, who has returned from a trip of inspection. Fully 40,000 people are homeless, houses were blown away and grape fruit and orange crops ruined with a loss of millions of dollars, he stated. The loss of life was about 30. Mr. Doughtie's 20-acre citrus grove will yield barely an estimated $600 in crop this year. It would have yielded $12,000, it had been assured.

Mr. Doughtie with his nephew, William Lipscomb, left by automobile for Edinburg, Texas, where the grove is located, early Thursday morning. They drove to Beeville, Texas, and spent the night and on the following morning completed the trip, arriving before noon.

"When we were 65 miles from our destination, we began to see traces of the storm's ravages," he said. "We were told not to drive further but we insisted that we had to get to our property in Edinburg. After much persuasion, we were permitted to proceed. The storm's path was a strip of 100 miles in width. It carried houses away, tore fruit from trees and buried the country under water."

Mr. Doughtie stated that 22 inches of rain fell on Monday and Tuesday in many places and he found his grove about half under water that was several feet deep. The "bumper" crop of citrus fruit was to have been sold next week and buyers were in the field. But the storm tore off the fruit and piled it in big yellow piles all over the orchard. Only 5 per cent of the large crop will be saleable, he stated.

Fortunately the house on Mr. Doughtie's place escaped much damage.

The water stood so deep on eight acres that 12 men were engaged to dig a canal 1,600 feet long to an outlet along the railroad track. In a short time after this was completed the water began to disappear.

In Edinburg, homeless people were quartered in the school houses, courthouse and other public buildings. Mr. Doughtie stated that the people were paralyzed by their losses.

This year's crop on the Doughtie place was the first "bumper" one that he had had since the trees were planted, and his profits will now be negligible with the prospect that the year's crop will fail to pay expense of production.

Mr. Doughtie filled the back of his car, upon returning with some choice fruit that had been blown from grapefruit trees by the tropical storm.

The distance from Monroe to Edinburg is about 750 miles and the entire way is over concrete highways with the exception of 25 miles of gravel near Lake Charles, in Louisiana.

POISONS ABSORBED DURING CONSTIPATION

When regular bowel movements stop, souring waste matter clogs the bowels and eventually results in poisoning the entire system. When you feel bad on this account, take Thedford's BLACK-DRAUGHT to get rid of constipation. Refreshing relief follows.

"I want a JOB"

You know me as a telephone.

Actually, I'm a man-of-all-work, and I want a job.

What can I do? Well—

I can do your errands at the stores for groceries, household supplies, and all kinds of little items.

I can guard your home against emergencies.

I can help protect the children.

I can be a good night watchman, for I never sleep.

I'm good company, even when I'm quiet, for you know I'm there when you want me. You won't be lonesome with me around.

I'll bring more visitors to you.

I'll work for ten cents a day, or even less, and I know I'm worth that.

Give me a month's trial, and see if I don't make good.

Come in or call our Business Office today to ask about service. You can call us without charge from any Public Telephone.
